## **EDI 100 - Fault Level Spreadsheet update**

8 December 2023

The fault level information spreadsheet referred to in Earthing Design Instruction EDI 100 has been updated. This spreadsheet contains the earth fault level information and number of customer connection points for all distribution substations at Endeavour Energy. It is to be used effective immediately for all distribution earthing designs.

You can download a copy from the [ASP Portal](#) (under *Standards > EDI – Earthing Design Instruction > EDI 100 Distribution Earthing Design > EDI100S02 - Fault Level Info 2023.xls - Fault level information*)

Kind regards,

**Customer Network Solutions**
