### **Safety Bulletins in the ASP Portal**

15 March 2023

At our ASP Seminar late last year, it was requested that Endeavour Energy issued Safety Bulletins be posted on the ASP Portal so that our ASPs have easy access to this important safety information.

We have now added all relevant safety bulletins to the ASP Portal, under Important Notices, from the last 2 years and we will continue adding these as they arise.

You can access these bulletins at any time through the ASP Portal.

Kind regards,

**Customer Network Solutions**
