Subdivision Application Fee Changes

27 March 2025

We're making things simpler

We've listened to what you've told us: We are making changes to the subdivision application fees to make the process smoother and more straightforward.

What's changing (effective immediately):

- The Notification of Arrangement (NOA) fee will now be **charged upfront** with all subdivision applications, replacing the prior Standard Connection Offer fee.
- If a Level 3 design is needed, the Standard Connection Offer fee will be **rolled into the design fees** when the Design Brief is issued.
- This means the NOA fee **won't** be charged again at the end of ASP Level 1 works when you request the NOA.

These changes are all about reducing complexity and saving you time.

If you have any questions or need more information, our team is here to help — please reach out to us at cwadmin@endeavourenergy.com.au.

Kind regards,

Customer Network Solutions
