About this PDS

This Product Disclosure Statement ("PDS") has been prepared and issued by Equity Trustees Limited ("Equity Trustees", "we" or "Responsible Entity") and is a summary of the significant information relating to an investment in the AXA IM Global Green Bond Fund (the "Fund"). It contains a number of references to important information (including a glossary of terms), contained in the AXA IM Global Green Bond Fund Reference Guide ("Reference Guide"), which forms part of this PDS. You should carefully read and consider both the information in this PDS, and the information in the Reference Guide, before making a decision about investing in the Fund.

The information provided in this PDS is general information only and does not take account of your personal objectives, financial situation or needs. You should obtain financial and taxation advice tailored to your personal circumstances and consider whether investing in the Fund is appropriate for you in light of those circumstances.

The offer to which this PDS relates is only available to Wholesale Clients (as defined in the Reference Guide) receiving this PDS (electronically or otherwise) in Australia and Wholesale Investors (as defined in the Reference Guide) receiving this PDS (electronically or otherwise) in New Zealand who have completed a Wholesale Investor Certificate attached to the Application Form. New Zealand investors must read the AXA IM Green Bond Fund New Zealand Wholesale Investor Fact Sheet. All references to dollars or "\$" in this PDS are to Australian dollars.

This PDS has not been, and will not be, lodged with the Registrar of Financial Service Providers in New Zealand, and is not a Product Disclosure Statement under the Financial Markets Conduct Act 2013 (NZ). New Zealand Wholesale Investors wishing to invest in the Fund should be aware that there may be different tax implications of investing in the Fund and should seek their own tax advice as necessary.

This PDS does not constitute a direct or indirect offer of securities in the US or to any US Person as defined in Regulation S under the Securities Act of 1933 as amended ("US Securities Act"). Equity Trustees may vary this position and offers may be accepted on merit at Equity Trustees' discretion. The units in the Fund have not been, and will not be, registered under the US Securities Act unless otherwise approved by Equity Trustees and may not be offered or sold in the US to, or for, the account of any US Person (as defined in the Reference Guide) except in a transaction that is exempt from the registration requirements of the US Securities Act and applicable US state securities laws.

1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed AXA Investment Managers Australia Ltd as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

AXA Investment Managers Australia Ltd

AXA Investment Managers Australia Ltd ("AXA IM" or "Investment Manager") holds an Australian Financial Services Licence. The Investment Manager may utilise sub-investment managers who are direct or indirect subsidiaries of AXA Investment Managers SA, in providing its investment management services to the Fund.

2. How the AXA IM Global Green Bond Fund works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Fund is \$25,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

State Street Australia Limited
Unit Registry
Level 14, 420 George Street
SYDNEY, NSW 2000

Please note that cash cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.20%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$5,000. The Responsible Entity may waive the minimum additional investment amount in its discretion.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income quarterly at the end of March, June, September and December. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their Australian dollar bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

New Zealand investors can only have their distribution directly credited if an Australian dollar bank account is provided, otherwise it must be reinvested (refer to the AXA IM Global Green Bond Fund New Zealand Wholesale Investor Fact Sheet)

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

State Street Australia Limited
Unit Registry
Level 14, 420 George Street
SYDNEY, NSW 2000

Or by sending it by fax to +61 2 9323 6411.

The minimum withdrawal amount is Nil. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 15 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated Australian dollar bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 30 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.20%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$25,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the AXA IM Global Green Bond Fund

The Fund invests substantially in AXA WF ACT Green Bonds, a sub-fund of the AXA World Funds (an open-ended fund domiciled in Luxembourg) (the "Master Fund") and cash for ancillary purposes. The Master Fund is actively managed with a Sustainable Investment objective, contributing to financing of the energy and ecology transition and demonstrating a positive environmental impact.

Investing in the Fund provides clients with the following significant features and benefits:

- Access to AXA IM's investment management and advisory expertise;
- Exposure to the Master Fund with a diversified portfolio of fixed and floating rate transferable debt securities with a minimum of 75% issued for qualified "green" purposes which designate the use of proceeds solely applied toward projects or activities that promote climate change mitigation or adaptation or other environmental sustainability purposes;
- AXA IM's proven track record in capturing opportunities both global developed and emerging markets in government, institutions (such as supranational, agencies quasi-government) and corporate bonds markets;
- Diversification when employed in conjunction with other asset classes and investment styles.

The Master Fund aims to support the Sustainable Development Goal (SDG) established by the United Nations with a focus on environmental themes. See Section 5 'Investment style and approach of the Master Fund' for further details on this approach.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed, and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Fund of Fund risk

The Fund, which is established as a fund of fund, will invest substantially in another fund as part of its investment policy. These investments may result in the Fund being subject to multiple layers of fees and expenses incurred to support the Fund on an ongoing basis. Furthermore, the Fund may be subject to valuation risk due to the manner in which the Master Fund's target investments are themselves valued.

Fund risk

As with all managed funds, there are risks particular to the Fund, including that it could terminate, the fees and expenses could change, Equity Trustees could be replaced as responsible entity or AXA IM could be replaced as investment manager. There is also a risk that investing in the Fund may give different results than investing directly in the investments of the Fund because of income or capital gain accrued in the Fund and the effect of withdrawal by other investors.

Interest rate risk

The market value of financial instruments and, therefore, the NAV of the Master Fund may change in response to fluctuations in interest rates.

Interest rate risk involves the risk that, when interest rates increase, the market value of fixed income securities tends to decline. Conversely, when interest rates decline, the market value of fixed income securities tends to increase. As a result, the NAV of the Master Fund may be adversely affected. Long-term fixed income securities will normally have more price Volatility caused by this risk than short-term securities.

Credit risk

The ability of the issuer of securities to honour its commitments depends on the financial condition of the issuer. An adverse change in the financial condition of the issuer could lower the quality of the securities, leading to greater price Volatility of the securities. The Master Fund may be subject to the risk that the issuer of securities is not making payment on interest and principal of the securities, causing the value of the investment to go down. If a security issuer defaults, the Master Fund may experience both delays in liquidating the securities and losses resulting from a decline in value of the securities during the period when the Master Fund seeks to enforce its rights leading to the Master Fund potentially suffering substantial losses.

Issuers include but are not limited to corporates, banks, sovereign or special purpose vehicles depending on the security. Securities include but are not limited to obligations, notes, asset backed securities, collateralized debt obligations, etc.

Rating downgrade risk

Downgrades of a rating of securities issue or issuer may lead to a drop in the value of securities in which the Master Fund has invested and subsequently experiencing a drop in the NAV of the Master Fund. Such securities may have less liquidity, making it more difficult to sell and their values may be more volatile.

Sub-Investment Grade debt securities (High Yield) risk

Some of the Sub-Investment Grade securities held in the Master Fund may involve increased credit and market risk; such securities are subject to the risk of an issuer's inability to meet principal and interest payments on its obligations (credit risk) and may also be subject to price Volatility due to such factors as interest rate sensitivity, market perception of the creditworthiness of the issuer and general market liquidity. The NAV of the Master Fund may be adversely affected. In selecting securities, the Master Fund will consider among other things, the price of the securities, and the issuer's financial history, condition, management and prospects. The Master Fund will endeavour to mitigate the risks associated with Sub-Investment Grade securities, by diversifying their holdings by issuer, industry and credit quality.

Global investment risks

Investments in foreign securities, i.e. securities denominated in a currency different from the Master Fund's reference currency, offer potential benefits not available from investments solely in securities denominated in the Master Fund's reference currency. However, it also involves significant risks that are not typically associated with investing in securities denominated in the Master Fund's reference currency. Indeed, foreign investments may be affected by movements of exchange rates, changes in laws or restrictions applicable to such investments and changes in exchange control regulations (e.g. currency blockage).

Issuers are generally subject to different accounting, auditing and financial reporting standards in different countries throughout the world. The volume of trading, the Volatility of prices and the liquidity of issuers may vary in the markets of different countries. In addition, the level of government supervision and regulation of securities exchanges, securities dealers and listed and unlisted companies is different throughout the world. The laws of some countries may limit the Master Fund's ability to invest in securities of certain issuers located in those countries.

Different markets have different clearance and settlement procedures. Delays in settlement could result in temporary periods when a portion of the Master Fund's assets is uninvested and no return is earned thereon. The inability of the Master Fund to make intended securities purchases due to settlement problems could cause the Master Fund to miss attractive investments opportunities. Inability to dispose of Master Fund's securities due to settlement problems could result either in losses to the Master Fund, due to subsequent declines in value of the Master Fund's securities, or, if the Master Fund has entered into a contract to sell the securities, could result in possible liability to the purchaser. With respect to certain countries, there is a possibility of expropriation or confiscatory taxation, imposition of withholding taxes on dividend or interest payments, limitations on the removal of Master Fund or other assets of the Master Fund, political or social instability or diplomatic developments, which could affect investments in those countries.

An issuer of securities may be domiciled in a country other than a country in which currency the instrument is denominated.

The values and relative yields of investments in the securities markets of different countries, and their associated risks, are expected to change independently of each other. Investments in sovereign debt obligations by the Master Fund involve risks not present in debt obligations of corporate issuers. The issuer of the debt or the governmental authorities that control the repayment of the debt may be unable or unwilling to repay principal or interest, when due in accordance with the terms of such debt, and the Master Fund may have limited recourse to compel payment in the event of a default.

Periods of economic uncertainty may result in Volatility of market prices of sovereign debt and in turn the Master Fund's NAV. A sovereign debtor's willingness or ability to repay principal and pay interests in a timely manner may be affected by, among other factors, its cash flow situation, the extent of its foreign currency reserves, the availability of sufficient foreign exchange on the date a payment is due, the relative size of the debt service burden to the economy as a whole, the sovereign debtor's policy toward international lenders and the political constraints to which a sovereign debtor may be subject.

Emerging markets risks

Investments in emerging countries may involve risks of nationalization, expropriation, confiscatory taxation and restrictive currency control regulations. In the event of an expropriation of property without adequate compensation, the Master Fund could lose a substantial portion of any investments it has made in the affected countries. Further, accounting standards may not exist in certain emerging countries. Finally, even though the currencies of some emerging countries, including (without limitation) certain eastern European countries, may be convertible into dollars, the conversion rates may be artificial to the actual market values and may be adverse to the investors of the Master Fund, including the Fund. The trading and settlement systems in some emerging markets may not be as reliable as those in more developed markets, which may result in delays in realizing investments. In addition, market practices in relation to settlement of securities transactions and custody of assets in such markets could provide a material risk to the Master Fund. Furthermore, due to the local postal and banking systems, no guarantee can be given that all entitlements attaching to securities acquired by the Master Fund (including in relation to dividends) can be realized.

ESG

Applying ESG and sustainability criteria to the investment process may exclude securities of certain issuers for non-investment reasons and therefore some market opportunities available to funds that do not use ESG or sustainability criteria may be unavailable for the Master Fund, and the Master Fund's performance may at times be better or worse than the performance of comparable funds that do not use ESG or sustainability criteria. The selection of assets may in part rely on an impact approach, ESG scoring process or ban lists that rely partially on third party data. The lack of common or harmonised definitions and labels integrating ESG and sustainability criteria at EU level may result in different approaches by managers when setting ESG objectives and determining that these objectives have been met by the funds they manage. This also means that it may be difficult to compare strategies integrating ESG and sustainability criteria to the extent that the selection and weightings applied to select investments may to a certain extent be subjective or based on metrics that may share the same name but have different underlying meanings. Investors should note that the subjective value that they may or may not assign to certain types of ESG criteria may differ substantially from the methodology of the Master Fund's investment manager. The lack of harmonised definitions may also potentially result in certain investments not benefitting from preferential tax treatments or credits because ESG criteria are assessed differently than initially thought.

Impact investments

The Master Fund implements AXA IM's impact approach for assets and their investment universe is limited to assets that meet specific criteria in relation with the SDG established by the United Nations. As a result, their respective performance may be different from a fund implementing a similar investment strategy without impact approach. The selection of assets may in part rely on third party data appreciated at the time of investment that may evolve over time.

Derivatives and leverage risk in the Master Fund

The Master Fund may use both listed (including but not limited to futures and options) and over-the-counter ("OTC") derivatives (including but not limited to options, forwards, interest rate swaps and credit derivatives) as part of its investment strategy for investment, hedging or efficient portfolio management purposes, but also repurchase, reverse repurchase or securities lending agreement. These instruments are volatile and may be subject to various types of risks, including but not limited to market risk, liquidity risk, credit risk, counterparty risk, legal risk and operations risks. In addition, the use of derivatives can involve significant economic leverage and may, in some cases, involve a significant risk of loss. The low initial margin deposits normally required to establish a position in such instruments permits leverage. As a result, a relatively small movement in the price of the contract and/or of one of its parameters may result in a profit or a loss that is high in proportion to the amount of assets actually placed as initial margin and may result in unlimited further loss exceeding any margin deposited. Investments in OTC derivatives may have limited secondary market liquidity and it may be difficult to assess the value of such a position and its exposure to risk. There can be no guarantee that strategies using derivative instruments will meet this expected target. Furthermore, when used for hedging purposes, there may be an imperfect correlation between these instruments and the investments or market sectors being hedged.

Transactions in OTC derivatives, such as credit derivatives, may involve additional risk, as there is no exchange market on which to close out an open position. It may be difficult to assess the value of a position and its exposure to risk or to liquidate an existing position.

In addition to derivative instruments, the investment manager of the Master Fund may use repurchase or securities lending agreements in the investment program of the Master Fund. These techniques may increase the leverage of the Master Fund and its volatility. Moreover, the costs associated with leverage and borrowings will affect the operating results of the Master Fund.

Whether any margin deposit will be required for OTC options and other OTC instruments, such as currency forwards, swaps and certain other derivative instruments will depend on the credit determinations and specific agreements of the parties to the transaction, which are individually negotiated.

Market risk

Changes in legal and economic policy, political events, technology failure, economic cycles, investor sentiment and social climate can all directly or indirectly create an environment that may influence (negatively or positively) the value of your investment in the Fund. In addition, a downward move in the general level of the financial markets can have a negative influence on the performance of the Fund.

Liquidity risk

Some of the Master Fund's investments may be difficult to buy or sell. This might affect the price at which the investments can be sold, which would affect the Master Fund's value. There are circumstances under which access to your money may be delayed (see "Access to your money" under Section 2).

Operations risk

Operations risk addresses the risk of trading and back office or administration issues concerning the Fund and the Master Fund that may result in a loss to the Fund and the Master Fund. This could be the result of oversight, ineffective security processing procedures, computer system problems or human error. The Responsible Entity and the Investment Manager have instituted certain practices and processes within their respective operations and business administrations designed to wherever possible mitigate the operational risk consequences that arise in respect of the Fund.

Legal risk

In general, the Master Fund may be affected by the actions of governments and regulatory bodies, and legislation or regulation may be introduced which inhibit the Master Fund from pursuing its strategy or which render an existing strategy less profitable than anticipated.

Pandemic and other unforeseen event risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

5. How we invest your money

Warning: When choosing to invest in the Fund or an option of the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

To seek both income and growth of your investment, and a Sustainable Investment objective, from an actively managed bonds portfolio contributing to financing of the energy and ecology transition and demonstrating a positive environmental impact by investing substantially in the Master Fund.

Benchmark of the Fund

ICE BofA Green Bond Hedged AUD

Minimum suggested time frame

The minimum suggested time frame for investment in the Fund is 4 years.

Risk level

Medium.

There is a risk of loss of investment over the investment horizon. Investment in the Fund has the potential to produce returns over the minimum suggested investment time frame.

Investor suitability

The Fund is generally suitable for investors who are seeking long term capital growth and income potential by exposure to a diversified portfolio of transferrable debt securities selected through an investment process that integrates a broad range ESG considerations, and are comfortable with a medium risk of capital loss over the minimum suggested time frame.

Investment style and approach of the Master Fund

The Master Fund is actively managed in reference to the BofA Green Bond Hedged benchmark index (the "Benchmark") in order to capture opportunities in the investment grade government, institutions - such as supranational, agencies and quasi-government – and corporate bonds markets. The Master Fund invests at minimum one third of its net assets in the components of the Benchmark. Depending on its investment convictions and after comprehensive macroeconomic and microeconomic analysis of the market, the investment manager of the Master Fund can take more active positioning in terms of duration (duration measures in numbers of years, the portfolio's sensitivity to interest rate variations), geographical allocation and/or sector or issuer selection compared to the Benchmark. Thus, the deviation from the Benchmark is expected to be significant. However, in certain market conditions (high credit market Volatility, turmoil...), the Master Fund's positioning on the above indicators may be close to the Benchmark.

The Master Fund invests in a diversified portfolio of fixed and floating rate transferable debt securities issued by Investment Grade governments, public institutions or corporations anywhere in the world, and that are denominated in any freely convertible currencies.

The Master Fund invests a minimum 75% of its net assets in bonds financing environmental projects (Green Bonds). In addition, in the securities selection process, the Investment Manager bindingly applies at all times AXA IM's Sectorial Exclusion and ESG Standards Policies with the exception of derivatives and underlying eligible unit trusts and mutual funds, as described in the documents available on the website: <https://www.axa-im.com/responsible-investing/sector-investment-guidelines>.

The Master Fund adopts a green and social impact investing approach that aims to support on the long run the Sustainable Development Goals (SDGs) established by the United Nations with a focus on the environmental themes (green buildings, low carbon transport, smart energy solutions, sustainable ecosystem etc.) and involves purchasing bonds where the proceeds are earmarked for projects which support a low carbon economy or the basic needs of underserved populations and communities, by financing initiatives such as renewable energy, pollution prevention, access to healthcare, affordable housing and women empowerment. Further information on the Green Bonds Framework is available on the website: <https://www.axa-im.com.au/responsible-investing/green-bonds> under the "Our Framework" section.

Specifically, the Master Fund invests at least two thirds of net assets in fixed income securities, including asset-backed securities representing less than 10% of net assets, from issuers anywhere in the world. These securities are mainly rated Investment Grade (direct or indirect exposure through unit trusts and mutual funds within the limit set out below).

The Master Fund may invest up to 30% of net assets in Sub-Investment Grade securities. However, the Master Fund does not invest in securities rated CCC+ or below by Standard & Poor's or equivalent rating by Moody's or Fitch.

For more information on the investment approach of the Master Fund, please refer to the Reference Guide.

Asset allocation

The Fund will substantially invest in the Master Fund. The Fund expects to hold around 5% of its NAV in cash for ancillary purposes. With the exception of temporary periods of large cash inflows or withdrawals, the Fund will maintain as close to fully invested into the Master Fund as possible factoring in cash requirements for ancillary purposes.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

EQT has delegated the investment function (including ESG responsibilities) to the Investment Manager and the Investment Manager has contemplated that 'Labour, Environmental, Social and Ethical considerations will be taken into account in relation to the investment of the Fund The Investment Manager does generally take into account labour standards or environmental, social or ethical considerations for the purposes of selecting, retaining or realising investments. For further details, see 'Investment style and approach of the Master Fund' above.

Fund performance

Up to date information on the performance of the Fund will be available by visiting www.eqt.com.au/insto. Past performance is not necessarily a guide to future performance.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

¹ All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC). See below for more details as to how the relevant fees and costs are calculated.

² The management fee component of management fees and costs can be negotiated. See "Differential fees" in the "Additional Explanation of Fees and Costs" below.

³ The indirect costs component of management fees and costs and transaction costs is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12-month period. Please see "Additional Explanation of Fees and Costs" below.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.37% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The estimated indirect costs and other expenses component of 0.18% p.a. of the NAV of the Fund's investment in the Master Fund may include other ordinary expenses of operating the Master Fund, as well as costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager. The indirect costs and other expenses component is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12-month period.

In relation to the costs that have been estimated, they have been estimated on the basis of relevant information for a similar product offering in the market offered by the Investment Manager.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.20% upon entry and 0.20% upon exit. The dollar value of these costs based on an application or a withdrawal of \$25,000 is \$50 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.eqt.com.au/insto will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.19% p.a. of the NAV of the Fund, which is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12-month period.

In relation to the costs that have been estimated, they have been estimated on the basis of relevant information for a similar product offering in the market offered by the Investment Manager.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2.00% of the GAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact the Investment Manager on +61 4881 99958 for further information.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – AXA IM Global Green Bond Fund		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	0.55% p.a.	And , for every \$50,000 you have in the AXA IM Global Green Bond Fund you will be charged or have deducted from your investment \$275 each year
Plus Performance fees	Not applicable	And , you will be charged or have deducted from your investment \$0 in performance fees each year
Plus Transaction costs	0.00% p.a.	And , you will be charged or have deducted from your investment \$0 in transaction costs
Equals Cost of AXA IM Global Green Bond Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$275* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust (“AMIT”) and the choice is effective for the income year, are attributed to them.

Further reading

You should read the important information in the Reference Guide about Taxation under the “Other important information” section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

State Street Australia Limited
Unit Registry
Level 14, 420 George Street
SYDNEY, NSW 2000

Please note that cash cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the ‘About this PDS’ section) can invest, however individual investors must be 18 years of age or over. Investors investing through an IDPS should use the application form provided by their IDPS Operator.

Cooling off period

No cooling off period applies to the offer made in this PDS, as the units offered under this PDS are only available to Wholesale Clients in Australia and Wholesale Investors in New Zealand.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor’s investment in relation to the Fund and any rights an Indirect Investor may have in this regard.

Complaints resolution

Equity Trustees has an established complaints handling process and is committed to properly considering and resolving all complaints. If you have a complaint about your investment, please contact us on:

9. Other information

Green Bond Framework in the Master Fund

AXA Investment Managers’ qualitative Green Bonds framework is based on four pillars: 1. Issuer’s sustainability strategy 2. Type of projects: the goal is to define the “greenness” of the projects financed by the bond 3. Management of proceeds 4. Environmental Impact – Ongoing monitoring and reporting. AXA Investment Managers have created a transparency code that is based on the format developed and approved by the Board of Eurosif in 2017 and describes the approach in place for various other funds and the Master Fund.

For further information including the exclusions that apply to the Master Fund and ESG report of the Master Fund, please follow this link <https://funds.axa-im.com/fund-centre/-/funds-center/axa-wf-act-green-bonds-a-eur-acc-52692#/literature>.

Consent

The Investment Manager has given and, as at the date of this PDS, has not withdrawn:

- its written consent to be named in this PDS as the investment manager of the Fund; and
- its written consent to the inclusion of the statements made about it which are specifically attributed to it, in the form and context in which they appear.

The Investment Manager has not otherwise been involved in the preparation of this PDS or caused or otherwise authorised the issue of this PDS. None of the Investment Manager nor their employees or officers accept any responsibility arising in any way for errors or omissions, other than those statements for which they have provided their written consent to Equity Trustees for inclusion in this PDS.

Does the beneficial owner named above hold a prominent public position or function in a government body (local, state, territory, national or foreign) or in an international organisation or are you an immediate family member or a business associate of such a person?

No Yes, please give details:

If there are more than 2 beneficial owners or controlling persons, please copy and complete this page for the other persons or alternatively, provide the additional details as an attachment.

SECTION 5.1 – CUSTODIAN ATTESTATION: CHAPTER 4, PARTS 4.4.18 AND 4.4.19 OF THE AML/CTF RULES

If you are a Company completing this Application Form on behalf of an individual, another company, a trust or other entity, in a Custodial capacity, please complete this section.

In accordance with Chapter 4, part 4.4.19 (1)(a) to (d) of the AML/CTF Rules, does the Custodian meet the definition (see 'Section 10 – Glossary') of a Custodian?

No Yes

In accordance with Chapter 4, part 4.4.19 (e) of the AML/CTF Rules, do you, in your capacity as Custodian attest that prior to requesting this designated service from Equity Trustees, it has carried out and will continue to carry out, all applicable customer identification procedures on the underlying account holder named or to be named in the Fund's register, including conducting ongoing customer due diligence requirements in accordance with Chapter 15 of the AML/CTF Rules?

No Yes

If you answered YES to all of the above questions, then Equity Trustees is able to apply the Chapter 4, part 4.4 Custodian rules to this account and will rely upon the customer due diligence conducted by the Custodian on the underlying account holder named or to be named in the Fund's register.

If requested to do so at any time after the provision of this designated service, the Custodian agrees to honour any reasonable request made by Equity Trustees for information or evidence about the underlying account holder in order to allow Equity Trustees to meet its obligations under the AML/CTF Act.

No Yes

Excepting the below circumstances where the custodian answered NO or did not complete any of the above questions, no other information about the underlying account holder is required to be collected. However, further information about you as the Custodian and as a company is required to be collected and verified as required by the AML/CTF rules. Please complete the rest of this form for the Custodian.

Excepting circumstances:

If you answered NO or did not complete any of the above questions, then we are unable to apply the Chapter 4, part 4.4 Custodian rules to this application. We are therefore obligated to conduct full Know Your Client procedures on the underlying account holder named or to be named in the Fund's register including any named nominee, as well as the trustees, beneficial owners and controlling persons of the underlying named account in addition to the Custodian. Therefore, please complete the relevant forms and provide identity documents for all parties connected to this account.

SECTION 8 – DECLARATIONS – ALL INVESTORS MUST COMPLETE

In most cases the information that you provide in this form will satisfy the AML/CTF Act, the US Foreign Account Tax Compliance Act (FATCA) and the Common Reporting Standard (CRS). However, in some instances the Responsible Entity may contact you to request further information. It may also be necessary for the Responsible Entity to collect information (including sensitive information) about you from third parties in order to meet its obligations under the AML/CTF Act, FATCA and CRS.

When you complete this Application Form you make the following declarations:

- I/We have received the PDS/IM and made this application in Australia (and/or New Zealand for those offers made in New Zealand).
- I/We have read the PDS/IM to which this Application Form applies and agree to be bound by the terms and conditions of the PDS/IM and the Constitution of the relevant Fund/Trust in which I/we have chosen to invest.
- I/we have carefully considered the features of Fund/Trust as described in the PDS (including its investment objectives, minimum suggested investment timeframe, risk level, withdrawal arrangements and investor suitability) and, after obtaining any financial and/or tax advice that I/we deemed appropriate, am/are satisfied that my/our proposed investment in the Fund/Trust is consistent with my/our investment objectives, financial circumstances and needs.*
- I/We have considered our personal circumstances and, where appropriate, obtained investment and/or taxation advice.
- I/We hereby declare that I/we are not a US Person as defined in the PDS/IM.
- I/We acknowledge that (if a natural person) I am/we are 18 years of age or over and I am/we are eligible to hold units in the Fund/Trust in which I/We have chosen to invest.
- I/We acknowledge and agree that Equity Trustees has outlined in the PDS/IM provided to me/us how and where I/we can obtain a copy of the Equity Trustees Group Privacy Statement.
- I/We consent to the transfer of any of my/our personal information to external third parties including but not limited to fund administrators, fund investment manager(s) and related bodies corporate who are located outside Australia for the purpose of administering the products and services for which I/we have engaged the services of Equity Trustees or its related bodies corporate and to foreign government agencies for reporting purposes (if necessary).
- I/we hereby confirm that the personal information that I/we have provided to Equity Trustees is correct and current in every detail, and should these details change, I/we shall promptly advise Equity Trustees in writing of the change(s).
- I/We agree to provide further information or personal details to the Responsible Entity if required to meet its obligations under anti-money laundering and counter-terrorism legislation, US tax legislation or reporting legislation and acknowledge that processing of my/our application may be delayed and will be processed at the unit price applicable for the Business Day as at which all required information has been received and verified.
- If I/we have provided an email address, I/we consent to receive ongoing investor information including PDS/IM information, confirmations of transactions and additional information as applicable via email.
- I/We acknowledge that Equity Trustees does not guarantee the repayment of capital or the performance of the Fund/Trust or any particular rate of return from the Fund/Trust.
- I/We acknowledge that an investment in the Fund/Trust is not a deposit with or liability of Equity Trustees and is subject to investment risk including possible delays in repayment and loss of income or capital invested.
- I/We acknowledge that Equity Trustees is not responsible for the delays in receipt of monies caused by the postal service or the investor's bank.
- If I/we lodge a fax application request, I/we acknowledge and agree to release, discharge and agree to indemnify Equity Trustees from and against any and all losses, liabilities, actions, proceedings, account claims and demands arising from any fax application.
- If I/we have completed and lodged the relevant sections on authorised representatives, agents and/or financial advisers on the Application Form then I/we agree to release, discharge and indemnify Equity Trustees from and against any and all losses, liabilities, actions, proceedings, account claims and demands arising from Equity Trustees acting on the instructions of my/our authorised representatives, agents and/or financial advisers.
- If this is a joint application each of us agrees that our investment is held as joint tenants.
- I/We acknowledge and agree that where the Responsible Entity, in its sole discretion, determines that:
 - I/we are ineligible to hold units in a Fund/Trust or have provided misleading information in my/our Application Form; or
 - I/we owe any amounts to Equity Trustees, then I/we appoint the Responsible Entity as my/our agent to submit a withdrawal request on my/our behalf in respect of all or part of my/our units, as the case requires, in the Fund/Trust.
- **For Wholesale Clients*** – I/We acknowledge that I am/we are a Wholesale Client (as defined in Section 761G of the Corporations Act 2001 (Cth)) and are therefore eligible to hold units in the Fund/Trust.
- **For New Zealand applicants*** – I/we have read the terms of the offer relating to New Zealand investors, including the New Zealand warning statement.
- **For New Zealand Wholesale Investors*** – I/We acknowledge and agree that:
 - I/We have read the “New Zealand Wholesale Investor Fact Sheet” and PDS/IM or “New Zealand Investors: Selling Restriction” for the Fund/Trust;
 - I am/We are a Wholesale Investor and am/are therefore eligible to hold units in the Fund/Trust; and
 - I/We have not:

- Offered, sold, or transferred, and will not offer, sell, or transfer, directly or indirectly, any units in the Fund/Trust;
 - Granted, issued, or transferred, and will not grant, issue, or transfer, any interests in or options over, directly or indirectly, any units in the Fund/Trust; and
 - Distributed and will not distribute, directly or indirectly, the PDS/IM or any other offering materials or advertisement in relation to any offer of units in the Fund/Trust, in each case in New Zealand, other than to a person who is a Wholesale Investor; and
- I/We will notify Equity Trustees if I/we cease to be a Wholesale Investor; and
 - I/We have separately provided a signed Wholesale Investor Certification located at the end of this Application Form.

All references to Wholesale Investor in this Declaration are a reference to Wholesale Investor in terms of clause 3(2) of Schedule 1 of the Financial Markets Conduct Act 2013 (New Zealand).

* Disregard if not applicable.

***Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)**

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must only provide an ABN instead of a TFN when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption, we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements.

For more information about the use of TFNs for investments, contact the enquiries section of your local branch of the ATO. Once provided, your TFN will be applied automatically to any future investments in the Fund/Trust where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.

When you sign this Application Form you declare that you have read, agree to and make the declarations above
