

EQT EIGHT BAYS GLOBAL FUND (CLASS B)

About the Fund

The EQT Eight Bays Global Fund is designed to provide exposure to a portfolio of global securities, primarily through active investment in Exchange Traded Funds (ETFs) and direct stocks that are listed on international stock exchanges with the dominant location being the United States (due to depth and liquidity).

The allocation to direct securities will range from 0-20%, represented in the global MSCI ex Australia Index. Stocks are selected to gain exposure to an attractive industry not adequately represented by existing ETFs or not currently covered by any ETFs.

Investment objective

The Fund aims to outperform its Benchmark over a rolling 3-year period.

The Fund will invest in a portfolio of ETFs and stocks in order to obtain targeted industry and sector exposure. We believe that excess returns over the benchmark can be generated in international equities by identifying sectors and themes that possess long term sustainable growth prospects.

About the Manager

Equity Trustees Limited (EQT) is the Investment Manager of the Fund, managing more than \$5 billion across various asset classes.

EQT is well resourced with an experienced team of investment professionals, managing funds across various client cohorts, such as large wholesale clients, superannuation funds, corporate trusts, philanthropic investors, not-for-profit organisations and individual investors.

EQT has been operating in Australia for more than 145 years, is listed on the Australian Stock Exchange and has a national presence.

Eight Bays Investment Management (EBIM) will provide research advisory services to EQT. EBIM is an Investment Manager established in 2019 which specialises in the international ETF markets.

Benefits of Investing in the Fund

- Potential to provide medium to long-term value by identifying industries and sectors with long-term capital and income growth prospects.
- Provides diversification into global industries and sectors that are not well represented in Australian market, such as IT, semiconductors, robotics, smart grid infrastructure and artificial intelligence.
- Potential to deliver lower volatility in returns relative to more concentrated funds that only invest in individual stocks, due to the lower stock specific risk that ETFs provide.

ESG and Other Considerations

Equity Trustees recognises the importance of labour standards and environmental, social or ethical considerations in investments. Equity Trustees believe that certain environmental, social and corporate governance issues may impact the sustainable value of businesses. ESG factors are taken into consideration as part of our investment process.

Past performance should not be taken as an indicator of future performance. You should obtain a copy of the Product Disclosure Statement before making a decision about whether to invest in this product. The Fund's Target Market Determination is available here <https://www.eqt.com.au>. A Target Market Determination is a document which describes who this financial product is likely to be appropriate for (i.e. the target market), and any conditions around how the product can be distributed to investors. It also describes the events or circumstances where the Target Market Determination for this financial product may need to be reviewed.

^^Ratings are not the only factor to be taken into account when deciding whether to invest in a financial product. The rating contained in this document is issued by SQM Research Pty Ltd ABN 93 122 592 036 AFSL 421913. SQM Research is an investment research firm that undertakes research on investment products exclusively for its wholesale clients, utilising a proprietary review and star rating system. The SQM Research star rating system is of a general nature and does not take into account the particular circumstances or needs of any specific person. The rating may be subject to change at any time. Only licensed financial advisers may use the SQM Research star rating system in determining whether an investment is appropriate to a person's particular circumstances or needs. You should read the product disclosure statement and consult a licensed financial adviser before making an investment decision in relation to this investment product. SQM Research receives a fee from the Fund Manager for the research and rating of the managed investment scheme.
