# 1. About Equity Trustees Limited

## The Responsible Entity

### Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Class's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Class's responsible entity are governed by the Class's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Clearwater Portfolio Management as the investment manager of the Class. Equity Trustees has appointed a custodian to hold the assets of the Class. The custodian has no supervisory role in relation to the operation of the Class and is not responsible for protecting your interests.

## The Investment Manager

Equity Trustees Limited, as responsible entity of the Clearwater Real Return Fund, has appointed Clearwater Portfolio Management (CPM) as the investment manager of the Clearwater Real Return Fund.

Under the Investment Management Agreement between the Investment Manager and Equity Trustees, Equity Trustees can terminate the Investment Manager's appointment where the Investment Manager becomes insolvent, materially breaches the agreement, ceases to carry on its business or in certain other circumstances. In the event that Equity Trustees terminates the Investment Manager following one of these events, the Investment Manager's appointment would cease upon any termination date specified in the notice, and the Investment Manager would be entitled to receive fees in accordance with the agreement until the effective date of termination.

### Clearwater Portfolio Management (CPM)

CPM has responsibility for the day to day operations and management of the Clearwater Real Return Fund. CPM oversees the portfolio research and the construction process. To assist in portfolio research and construction, CPM has engaged specialists to lead the process. CPM operates an investment committee that includes these parties, along with representatives from DMG Financial Planning Pty Ltd and the CEO of CPM. It has guidelines and a framework to determine how the portfolio is constructed and managed.

CPM is a corporate authorised representative of DMG Financial Planning Pty Ltd (AFS Licensee No. 238354).

# 2. How the Clearwater Balanced Plus Real Return Fund works

The Class is a registered managed investment scheme governed by the Constitution. The Class comprises assets which are acquired in accordance with the Class's investment strategy. Direct investors receive units in the Class when they invest. In general, each unit represents an equal interest in the assets of the Class subject to liabilities; however, it does not give investors an interest in any particular asset of the Class.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

## Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Class is \$1,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Apex Fund Services (Sydney) Pty Ltd  
PO Box 189, Flinders Lane  
VIC 8009

Please note that cash and cheques cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Class's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Class, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.15%.

The Application Price will vary as the market value of assets in the Class rises or falls.

## Making additional investments

You can make additional investments into the Class at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$100.

## Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Class usually distributes income annually at the end of June, however, Equity Trustees may change the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Class can indicate a preference to have their distribution:

- reinvested back into the Class; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

## Access to your money

Investors in the Class can generally withdraw their investment by completing a written request to withdraw from the Class and mailing it to:

Apex Fund Services (Sydney) Pty Ltd  
PO Box 189, Flinders Lane  
VIC 8009

Or by email to [registry@apexgroup.com](mailto:registry@apexgroup.com)

The minimum withdrawal amount is \$100. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 7 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated AUD denominated Australian domiciled bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 21 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Class, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.15%.

The Withdrawal Price will vary as the market value of assets in the Class rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Class falls below \$1,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Class including due to one or more circumstances outside its control or where the Class is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Class is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

### Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

### Additional information

If and when the Class has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Class will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Class may be obtained from ASIC through ASIC's website.

## 3. Benefits of investing in the Clearwater Balanced Plus Real Return Fund

### Significant features

The Fund is a real return style diversified multi asset strategy that aims to achieve investment returns in excess of Australian CPI + 3.0%, after fees and expenses, over the long term.

The Fund aims to limit downside risk through active asset allocation and diversified investment vehicle selection.

### Significant benefits

The benefits of investing in the Fund include:

- Active asset allocation: The Fund deploys active asset allocation around its long-term Strategic Asset Allocation (SAA) weights, allowing the fund to dynamically adjust exposures for changing market outlooks.
- Unconstrained investment universe: The Fund can invest in a wide array of investment vehicles, including listed and unlisted securities as well as securities domiciled inside and outside of Australia.
- Real return focus: The Fund aims to deliver returns in excess of inflation over the long term, thus producing real returns for investors.
- Risk considered approach: The Fund considers risk across multiple verticals when calibrating portfolio exposures, helping to better position the portfolio as intended.

## 4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Class. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Class's investments, repayment of capital or any rate of return or the Class's investment performance. The value of the Class's investments will vary. Returns are not guaranteed, and you may lose money by investing in the Class. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Class is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Class is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

### Risk of not achieving objective

It should be noted that the Fund's investment objective is not guaranteed but rather depends on the Investment Manager's skill in selecting appropriate investments.

### Market Risk

Investment returns are influenced by broad market factors. These factors may include changes in economic, social, technological or political, fiscal and monetary conditions, as well as general sentiment. Such causes would include change of governments and/or regulators and their policies, civil unrest, wars, terrorism, pandemics and natural, nuclear and environmental disasters. The potential impacts of such events can be highly unpredictable and usually create periods of heightened volatility in markets in which case the value of the securities held by, and the NAV of the Fund will likely decline in value.

### Derivative risk

The risk of permanent capital impairment from the adverse movement in the value of a derivative security. A derivative is a financial security with a value that is derived from an underlying asset or group of assets (i.e. futures, options and swaps). Derivatives are usually riskier because they (i) are complex to understand and price (ii) may be subject to counterparty default, (iii) are usually leveraged securities, which amplifies market risks, and (iv) may become dislocated from their underlying asset (or group of assets) because of supply and demand.

### Interest rate risk

Changes in official interest rates can directly and indirectly impact (negatively or positively) on investment returns. Generally, an increase in interest rates has a contractionary effect on the state of the economy and sometimes this may affect the valuations of stocks and other assets.

## Credit risk

The Fund may invest in investment vehicles that are exposed to credit risk. Credit risk refers to the risk that a party to a credit transaction is unable or unwilling to make interest and/or capital repayments in full and/or on time, or may not meet other financial obligations.

## Pricing risk

The Fund may invest in investment vehicles whose price may not accurately reflect its true value or what could be realised in an orderly sale of those investment vehicles.

## Liquidity risk

The Fund may invest in investment vehicles that may not be convertible to cash in a timely manner, and if required to sell those assets the Fund may realise a value below the prevailing NAV. In such circumstances, in addition to the potential loss that the Fund may suffer if required to sell those investment vehicles, the generally acceptable timeframe for satisfying withdrawal requests may not be able to be met.

## Country and political risk

The Fund will invest in investment vehicles that invest in companies and other equity investments that are domiciled in countries outside of Australia. The economic, technological, political, legal and market conditions in these other countries may affect the operations of these companies which may have an impact upon the value of these companies share prices.

## Equity Risk

Investments made by the Fund will fluctuate in value, meaning that the price may go up or down, particularly for the investment vehicles that invest in listed equities. A company's share price will fluctuate due to a number of reasons including changes in equity market conditions or its financial, management or operating circumstances, and may also face broader influences such as political and industry changes

## Individual investment risk

There may be instances where an investment in the Fund will fall in price because of company specific factors. The value of investments can vary because of changes to management, products, investor confidence, internal operations or the company's business environment including those of their competitors and /or peers.

## Foreign exchange risk

The Fund will invest in investment vehicles that invest in companies listed on global stock exchanges which will therefore give rise to foreign currency exposure. This means the value of foreign investments will vary as exchange rates change. Fluctuations in foreign currency can have both a positive and negative impact on the investments of the Fund. These changes may be significant. The Fund will endeavour to actively hedge its foreign exchange exposures.

## Exchange Traded Funds (ETFs) risk

The Fund may invest in Exchange Traded Funds (ETFs). ETFs represent a basket of securities that are traded on an exchange and may not necessarily trade at the NAV of their underlying holdings. As a result, they may trade at a price that is above or below the value of the underlying portfolio. ETFs may not be backed by underlying physical positions and may be subject to counterparty risk.

## Pandemic and other unforeseen event risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager, Fund Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

## Labour Standards, Environmental, Social and Ethical Factors (“ESG considerations”)

EQT has delegated the investment function (including ESG responsibilities) to the Investment Manager and the Investment Manager has contemplated that ‘Labour, Environmental, Social and Ethical’ (ESG) considerations will not be taken into account in relation to the investment of the Fund.

### Class performance

For the latest information on the performance of the Fund please refer to the monthly fact sheet at [www.eqt.com.au/insto](http://www.eqt.com.au/insto) or [www.clearwaterpm.com.au](http://www.clearwaterpm.com.au). A free of charge paper copy of the information will also be available on request.

## 6. Fees and costs

### DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

### TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC) Moneysmart** website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor’s account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

## Additional Explanation of Fees and Costs

### Management fees and costs

The management fees and costs include amounts payable for administering and operating the Class, investing the assets of the Class, expenses and reimbursements in relation to the Class and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.91% p.a. of the NAV of the Class is payable to the Responsible Entity of the Class for managing the assets and overseeing the operations of the Class. The management fees component is accrued daily and paid from the Class monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.85% p.a. of the NAV of the Class may include other ordinary expenses of operating the Class, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Class invests and the costs of investing in over-the-counter derivatives to gain investment exposure to assets or implement the investment strategy of the Class (if any). The indirect costs and other expenses component are variable and reflected in the unit price of the Class as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or the Investment Manager. The indirect costs and other expenses component is based on the relevant costs incurred during the financial year ended 30 June 2023.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at [www.eqt.com.au/insto](http://www.eqt.com.au/insto) where they are not otherwise required to be disclosed to investors under law.

### Performance fees

Performance fees include amounts that are calculated by reference to the performance of the of interposed vehicles through which the Class invests. The performance fees for the Class are 0.24% of the NAV of the class.

The performance fee figure that is disclosed in the Fees and Costs Summary is generally based on an average of the performance fees over the previous five financial years, where each performance fee relevant to the Class is averaged and totalled to give the performance fees for the Class.

In respect of the Interposed Vehicles that were not in operation for the previous five financial years, the performance fee average is calculated by reference to the number of financial years in which the interposed vehicle was operated.

Please note that the performance fees disclosed in the Fees and Costs Summary is not a forecast as the actual performance fee for the current and future financial years may differ. The Responsible Entity cannot guarantee that performance fees will remain at their previous level or that the performance of the Fund will outperform the Benchmark.

It is not possible to estimate the actual performance fee payable in any given period, as we cannot forecast what the performance of the Class will be. Information on current performance fees will be updated from time to time and available at [www.eqt.com.au/insto](http://www.eqt.com.au/insto).

### Transaction costs

In managing the assets of the Class, the Class may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Class, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold and the costs of over-the-counter derivatives that reflect transaction costs that would arise if the Fund held the ultimate reference assets, as well as the costs of over-the-counter derivatives used for hedging purposes. Transaction costs also include costs incurred by interposed vehicles in which the Class invests (if any), that would have been transaction costs if they had been incurred by the Class itself. Transaction costs are an additional cost to the investor where they are not recovered by the buy/sell spread, and are generally incurred when the assets of the Class are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Class.

The buy/sell spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Class will incur when buying or selling assets of the Class. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Class and are not separately charged to the investor. The buy spread is paid into the Class as part of an application and the Sell Spread is left in the Class as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated buy/sell spread is 0.15% upon entry and 0.15% upon exit. The dollar value of these costs based on an application or a withdrawal of \$1,000 is \$1.50 for each individual transaction. The buy/sell spread can be altered by the Responsible Entity at any time and the managers or REs web site or fact sheet will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the buy/sell spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the buy/sell spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Class's assets and are reflected in the Class's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Class are 0.23% p.a. of the NAV of the Class, which is based on the relevant costs incurred during the financial year ended 30 June 2023.

However, actual transaction costs for future years may differ.

### Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2% of the GAV of the Class. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Class and as such these expenses may increase or decrease accordingly, without notice.

### Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

### Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact the Investment Manager on +612 8378 5700 for further information.

### Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

## EXAMPLE – Clearwater Balanced Plus Real Return Fund

### BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR

Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	1.76% p.a.	And, for every \$50,000 you have in the Clearwater Balanced Plus Real Return Fund you will be charged or have deducted from your investment \$880 each year
Plus Performance fees	0.24% p.a.	And, you will be charged or have deducted from your investment \$121 in performance fees each year
Plus Transaction costs	0% p.a.	And, you will be charged or have deducted from your investment \$0 in transaction costs
Equals Cost of Clearwater Balanced Plus Real Return Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$1,001* <b>What it costs you will depend on the investment option you choose and the fees you negotiate.</b>

\* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the buy/sell spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

**Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.**

ASIC provides a fee calculator on [www.moneysmart.gov.au](http://www.moneysmart.gov.au), which you may use to calculate the effects of fees and costs on account balances. The performance fees stated in this table are based on the average performance fee for interposed vehicles through which the class invests, over the previous five financial years. The performance of the Class for this financial year, and the performance fees, may be higher or lower or not payable in the future. It is not a forecast of the performance of the Class or the amount of the performance fees in the future.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

#### Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at [www.eqt.com.au/insto](http://www.eqt.com.au/insto). The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

## 7. How managed investment schemes are taxed

**Warning: Investing in a registered managed investment scheme (such as the Class) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Class.**

The Class is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Class to which they become presently entitled or, where the Class has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

#### Further reading

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at [www.eqt.com.au/insto](http://www.eqt.com.au/insto). The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

## 8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Apex Fund Services (Sydney) Pty Ltd  
PO Box 189, Flinders Lane  
VIC 8009

Please note that cash and cheques cannot be accepted and all applications must be made in Australian dollars.

#### Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over. Investors investing through an IDPS should use the application form provided by their IDPS Operator.

#### Cooling off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period. This could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.

**\*Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)**

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption, we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements.

For more information about the use of TFNs for investments, contact the enquiries section of your local branch of the ATO. Once provided, your TFN will be applied automatically to any future investments in the Fund/Trust where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.
