1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Fisher Investments Australasia Pty Ltd as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Fisher Investments Australasia Pty Ltd

Fisher Investments Australasia Pty Ltd ("FIA") has delegated portfolio management functions to its parent company, Fisher Asset Management, LLC, trading as Fisher Investments ("FI"), a registered investment adviser with the U.S. Securities and Exchange Commission. As of 1 July 2021, FI and its affiliates had \$188 billion USD in assets under management.

2. How the Fisher Investments Australasia Emerging Markets Equity ESG Fund works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Fund is \$25,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Fisher Investments Australasia Unit Registry
GPO Box 804
Melbourne VIC 3001
Or email to fisher.transactions@unitregistry.com.au

Please note that cash and cheques cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.35%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$5,000.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income annually at 30 June. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

New Zealand investors can only have their distribution paid in cash if an AUD Australian domiciled bank account is provided, otherwise it must be reinvested (refer to the Fisher Investments Australasia Emerging Markets Equity ESG Fund New Zealand Wholesale Investor Fact Sheet).

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Fisher Investments Australasia Unit Registry
GPO Box 804
Melbourne VIC 3001
Or email to fisher.transactions@unitregistry.com.au

The minimum withdrawal amount is \$5,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 21 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 30 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.35%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$25,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the Fisher Investments Australasia Emerging Markets Equity ESG Fund

Access to the expertise of FI

As noted above, FIA has delegated portfolio management functions to FI to invest the Fund into FI-managed fund(s). FI is an independent money management firm, headquartered in the US. The Fisher organization was founded in 1979 by Ken Fisher. FI is a specialist global and emerging markets manager with a heritage in managing assets for some of the world's largest institutional and high net worth investors. As of 1 July 2021, FI and its affiliates oversee more than \$250 billion (AUD) in assets for over 95,000 clients globally.

Unique Investment Approach

FI's philosophical commitment to a top-down investment approach is a key advantage. FI's process begins with a focus on macro decisions at the country and sector/industry level, which can have a disproportionate impact on returns. FI believes its process is uniquely suited for managing global portfolios, in contrast with the "bottom-up" approaches that may leave key sector or country decisions as passive residuals. By actively managing these crucial higher-level decisions, FI seeks to exploit a greater opportunity set for generating outperformance. FI's security selection is specifically designed to leverage its top-down process, directly applying high-level themes from its macro analysis in its security analysis and selection.

FI considers Environmental, Social and Governance ("ESG") factors in the investment and portfolio construction process for the Fund. Additionally, negative screens are applied to exclude companies issuers that do not align with the ESG goals of the Fund. For more information, please refer to "Labour, environmental, social and ethical considerations" in section 5.

Accessibility to a Global Research Platform

Access to a wide range of global capital market research, market-leading commentary and insights on investments.

Liquidity

The ability to generally invest in and redeem units in the Fund on a daily basis.

Reporting

Regular reporting is provided to investors including monthly statements, quarterly investment commentary and annual financial statements (if requested).

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Individual investment risk

Investments to which the Fund is exposed, like shares on a stock exchange, can (and do) fall in value for many reasons, such as changes in an issuer's internal operations or management, or in its business environment.

Market risk

Economic, technological, political or legal conditions, interest rates and even market sentiment, can (and do) change, and changes in the value of investment markets can affect the value of the investments in the Fund.

Emerging Markets risk

The Investment Manager or its delegate, on behalf of the Fund, invests in some overseas markets which carry higher than average investment risks and the Fund may have problems or delays in getting its investments back when required.

Investment Manager risk

The Investment Manager or its delegate can be wound up or liquidated, they can cease to manage the relevant fund and be replaced, their investment methodology can change, they can poorly manage operational risks and their funds can perform poorly. If any of these occurred, Equity Trustees would do all things reasonably practicable to recover the value of the Fund's investments and seek a new investment manager or program, with a similar investment profile, if thought appropriate. If the investment methodology changes significantly, you would be given at least 30 days' notice. Further, only a small number of investment professionals are responsible for managing the Fund and their personal circumstances can change. We aim to reduce this risk by having additional resources available through Equity Trustees.

Fund risk

Fund risks include that it could terminate (for example, at a date we decide), the fees and expenses could change (although we would always give you at least 30 days' notice if fees were to increase), we could be replaced as responsible entity and our management and staff could change. There is also a risk that investing in the Fund may give different results than investing individually because of income or capital gains accrued in the Fund and the consequences of investment and withdrawal by other investors.

Liquidity risk

Some of the Fund's investments may be difficult to buy or sell. This might affect the price at which the investments can be sold, which would affect the Fund's value. There are circumstances under which access to your money may be delayed (see Section 2 "How the Fund works" and "Delays" of this PDS).

Interest rate and capital value risks

This is the risk that interest rates could rise or fall and this may adversely affect the capital value or income of a security.

Counterparty risk

There is a risk that counterparties to some of the Fund's investments may not perform their obligations and that transactions may not settle.

Credit risk

There is a risk that any bond investments of the Fund could be defaulted on or downgraded, resulting in a loss.

Currency risk

The base currency of the Fund is the Australian Dollar. The underlying assets of the Fund may be exposed to significant foreign currency fluctuations. A rise in the Australian dollar may negatively impact investment values and returns for investors or the Fund's investments outside of Australia.

Regulatory risk

This is the risk that there may be changes in government (including taxation) policies, regulations and laws, or changes in generally accepted accounting policies or valuation methods. Such changes may adversely affect the value or tax treatment of either the Fund itself or investments of the Fund, or the effectiveness of the Fund's trading or investment strategy.

Pandemic and other unforeseen event risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

Risks applicable to managed funds generally

Other significant risks relevant to many managed funds include:

- the value of investments will vary;
- the level of returns will vary, and future returns may differ from past returns; and
- as returns are not guaranteed you may lose some of your money.

These risks can be managed, but cannot be completely eliminated. You can adopt certain tools to help you manage your own risk.

5. How we invest your money

Warning: When choosing to invest in the Fund or an option of the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Fund aims to outperform the Benchmark over a full market cycle.

Benchmark

MSCI Emerging Markets Index

Minimum suggested time frame

The minimum suggested investment time frame for the Fund is a full market cycle (typically, 5 years+).

Risk level

Very high

Investor suitability

The Fund is designed for investors with at least a five-year investment time horizon, who seek exposure to long-term capital growth opportunities available from emerging market equity investments and are comfortable with fluctuations in capital value in the short to medium term.

Investment style and approach

The Investment Manager or its delegate, on behalf of the Fund aims to apply the Fund's investment strategy in order to identify and invest in equities and equity related securities (which may or may not be within the Benchmark) which are expected to provide strong performance relative to other equities and equity-related securities within the Benchmark, thereby helping the Fund to pursue its aim of outperforming the Benchmark. The investment strategy focuses on three basic elements:

- Country Exposure – identify which countries appear most likely to provide strong performance relative to other countries within the Benchmark;
- Economic Sector Exposure – identify which economic sectors and industries appear most likely to provide strong performance relative to other economic sectors and industries within the Benchmark; and
- Security Selection – Identify the security or group of equities and equity-related securities within a particular country and/or sector which are considered most likely to outperform their peer group.

The Investment Manager or its delegate use a multitude of indicators or "drivers" to determine country and economic sector allocations. The following drivers provide the basis for establishing relative risk and return expectations for categories defined by country and economic sector:

- Economic drivers such as monetary policy, yield curve, and relative GDP growth analysis.
- Political drivers (which have exaggerated importance in emerging markets) such as taxation, governmental stability, and political turnover. In particular, changes in tax systems and regulatory rules can occur rapidly in emerging markets.
- Sentiment drivers that primarily measure consensus thinking to identify what expectations the market is discounting.

This analysis enables the Investment Manager or its delegate to determine what countries and sectors have the highest relative expected return to overweight, and avoid or underweight those based on relative expected risk.

Once country and sector weights are determined, a proprietary risk rating analysis is applied to the equities and equity-related securities within the target markets. The Investment Manager or its delegate also applies fundamental research to ascertain which equities and equity-related securities are most likely to outperform. The Investment Manager or its delegate also applies risk management controls to assess their similarity to the balance of the Fund's portfolio and identify unintended risk concentrations in the security selection process. Based on this analysis, the Investment Manager or its delegate selects securities for purchase.

Asset allocation

The Investment Manager or its delegate, on behalf of the Fund, will invest primarily in equity securities of issuers domiciled in, or organised under the laws of, the countries that comprise the MSCI Emerging Markets Index.

- Exposure to individual security positions will generally be limited to approximately 5% greater than the MSCI Emerging Markets Index weight.
- Broad-based security positions will generally be limited to approximately 10% of the Fund at market value.
- Maximum exposure to any one country or sector (sector as defined by MSCI GICS Sector Level I) will be based on the MSCI Emerging Markets Index and generally fall within the following ranges at market value:
 - If the MSCI Emerging Markets Index weight is between 0-10%, the maximum portfolio weight is the MSCI Emerging Markets Index weight plus 20%.
 - If the MSCI Emerging Markets Index weight is greater than 10%, the maximum portfolio weight is three times the MSCI Emerging Markets Index weight.
- Exposure to cash equivalents may generally be held up to a maximum of approximately 20% of the Fund's market value. The Investment Manager or its delegate has reasonable discretion to allocate and select short-term cash and equivalent securities.
- Notwithstanding the investment limits set forth above, the Fund may invest up to 100% into one or more investment schemes with substantially the same investment objectives.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

The Investment Manager or its delegate considers ESG factors throughout the investment and portfolio construction process. ESG factors are among the many drivers considered by the Investment Manager or its delegate when developing country, sector and thematic preferences. Government influence on public companies, environmental regulation, social policy, market reforms impacting private property, labour, and human rights are among the ESG factors considered when determining country and sector/industry allocations and shaping an initial prospect list of portfolio positions.

The fundamental research process involves reviewing and evaluating a range of ESG factors prior to purchasing a security, seeking to identify securities benefitting from ESG trends and avoid those with underappreciated risks. These factors include, but are not limited to, shareholder concentration, corporate stewardship, environmental opportunities and liabilities, and human or labour rights controversies.

Also, the Investment Manager or its delegate seeks to narrow the security selection universe by applying comprehensive and robust ESG screens without compromising the Investment Manager's or its delegate's broader market outlook and themes. The ESG screens are intended to prevent the Fund from investing in issuers with significant exposure to categories such as, but not limited to, adult entertainment, tobacco, gambling, alcohol and animal testing for non-pharmaceutical products. In addition, the ESG screens exclude issuers with any ties to cluster munitions or landmines, or that derive any revenue from nuclear or bio-chemical weapons. Thermal coal-related screens are applied using a maximum 30% revenue screen for thermal coal extraction and a 30% power generation screen for companies generating power. The ESG screens are also intended to prevent the Fund from investing in issuers that fail compliance with the U.N. Global Compact principles, issuers with ties to child labour, and issuers that violate the International Labour Organisation's fundamental principles.

Fund performance

Up to date information on the performance of the Fund can be available by emailing the Investment Manager at ~FIAoperations@fisher-investments.com.au or calling 1800 118 1107 in Australia or 0800 810 008 in New Zealand. A free of charge paper copy of the information will also be available on request.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC) Moneysmart** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 1.01% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.35% upon entry and 0.35% upon exit. The dollar value of these costs based on an application or a withdrawal of \$25,000 is \$87.5 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.eqt.com.au/insto will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is based on the relevant costs incurred during the financial year ended 30 June 2020 and is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity during that period (nil upon entry and nil upon exit).

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.06% p.a. of the NAV of the Fund, which incorporate estimated amounts with reference to the relevant costs incurred during the financial year ended 30 June 2020.

In relation to the costs that have been estimated, they have been estimated on the basis of relevant information of a similar product offering offered by the Investment Manager.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2.00% of the GAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients or New Zealand Wholesale Investors. Please contact the Investment Manager on 1800 118 1107 in Australia or 0800 810 008 in New Zealand for further information.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – Fisher Investments Australasia Emerging Markets Equity ESG Fund

BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR

Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	1.01% p.a.	And , for every \$50,000 you have in the Fisher Investments Australasia Emerging Markets Equity ESG Fund you will be charged or have deducted from your investment \$505 each year
Plus Performance fees	Not applicable	And , you will be charged or have deducted from your investment \$0 in performance fees each year
Plus Transaction costs	0.06% p.a.	And , you will be charged or have deducted from your investment \$30 in transaction costs
Equals Cost of Fisher Investments Australasia Emerging Markets Equity ESG Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$535* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. 7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

***Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)**

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must only provide an ABN instead of a TFN when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption, we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements.

For more information about the use of TFNs for investments, contact the enquiries section of your local branch of the ATO. Once provided, your TFN will be applied automatically to any future investments in the Fund/Trust where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.
