1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Sanlam Private Wealth (Pty) Ltd as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Sanlam Private Wealth (Pty) Ltd

Australian boutique fund manager Sanlam Private Wealth (Pty) Ltd ("**Investment Manager**") is the Investment Manager appointed by Equity Trustees for the Fund. The Investment Manager is an independent dedicated provider of financial services to the Australian investment markets, and is part of the Sanlam group, a leading South African financial services business, with the parent entity listed on the Johannesburg and Namibian stock exchanges.

The Investment Manager has appointed Baker Steel Capital Managers LLP ("**Portfolio Manager**") as the sub investment manager, or portfolio manager, for the Fund.

The Portfolio Manager

Baker Steel Capital Managers LLP ("**Baker Steel**")

Baker Steel Capital Managers has extensive experience in the management of funds, investing in the natural resources, gold and precious metals (for example, platinum and silver) sectors.

The firm was established in 2001 by Managing Partners David Baker and Trevor Steel. Its investment management team is underpinned by strong technical backgrounds in the geo-sciences, mining, geology and engineering fields. This in-depth understanding of its sectors, combined with the investment expertise of the team, has produced an impressive investment track record.

Baker Steel is also the investment manager of the BAKERSTEEL Global Funds SICAV – Precious Metals Fund (the "Precious Metals Fund"), in which the Fund principally invests. The Precious Metals Fund is a UCITS sub-fund of the Luxembourg SICAV, and is regulated by the Commission de Surveillance du Secteur Financier (CSSF).

As at 31 January 2019, Baker Steel had assets under management of approximately US\$336m across a number of traditional fund and managed account mandates.

The current Managing Partners of Baker Steel are David Baker, Trevor Steel and Mark Burrige.

2. How the Baker Steel Gold Fund works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in either the Retail Class or Institutional Class when they invest. In general, each unit represents an equal interest in the assets of the relevant class subject to liabilities; however, it does not give investors an interest in any particular asset of the relevant class.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Retail Class of interests in the Fund known as "Baker Steel Gold Fund – Retail" is \$25,000 and for the Institutional Class of interests in the Fund known as "Baker Steel Gold Fund – Institutional" is \$1,000,000.

Completed Application Forms should be mailed along with your identification documents (if applicable) to:

Apex Fund Services PTY Ltd
Client Services Registry Team
GPO Box 4968
Sydney, NSW, 2001

Please note that cash cannot be accepted.

Initial applications need to be originals.

The price at which units are acquired is determined in accordance with the Constitution ("**Application Price**"). The Application Price on a Business Day (as defined in the Reference Guide) is, in general terms, equal to the Net Asset Value ("**NAV**") of the relevant class plus the transaction costs ("**Buy Spread**"), divided by the number of units on issue in that class. At the date of this PDS, the Buy Spread is 0.25%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed additional investment form available free from the Unit Registry. Post, fax or email your form to the Unit Registry. The minimum additional investment amount for the Retail Class is \$1,000 and the Institutional Class is \$50,000.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income annually as at 30 June. Distributions are calculated on the last day of the period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their nominated bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received prior to the next valuation time after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, where an investor makes a large withdrawal request (i.e. the withdrawal request is in respect of 20% or more of the NAV of the relevant class), their withdrawal proceeds may be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing, emailing or faxing it to:

Apex Fund Services PTY Ltd
Client Services Registry Team
GPO Box 4968
Sydney, NSW, 2001

Or by fax to +61 2 9251 3525

The minimum withdrawal amount for the Retail Class is \$1,000 and the Institutional Class is \$50,000. Once we receive your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 10 Business Days of receipt of a withdrawal request by transferring the withdrawal proceeds to such investors' nominated bank account. However, the Constitution allows Equity Trustees to reject withdrawal requests and also to make payment up to 21 days after acceptance of a request (which may be extended in certain circumstances).

The price at which units are withdrawn is determined in accordance with the Constitution (“Withdrawal Price”). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the relevant class less the transaction costs (“Sell Spread”), divided by the number of units on issue in that class. At the date of this PDS, the Sell Spread is 0.25%. The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$25,000 for the Retail Class and \$500,000 for the Institutional Class as a result of processing your withdrawal request. Equity Trustees can deny a withdrawal request or suspend consideration of a withdrawal request in certain circumstances, including where accepting the request is not in the best interests of investors in the Fund or where the Fund is not liquid (as defined in the Corporations Act). When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a ‘disclosing entity’. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC (“Annual Report”);
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC’s website.

3. Benefits of investing in the Baker Steel Gold Fund

Significant benefits

The Fund is a professionally managed specialist investment fund intended to be suitable for investors looking to diversify their portfolio with exposure to a geographically diversified portfolio of globally listed gold and precious metals equities, with a mid to large-capitalisation focus, who have a minimum investment timeframe of 5 years and a high risk tolerance.

The Fund will give investors exposure, principally through the Precious Metals Fund, to a broad range of potential investments and markets which individual investors may not be able to access directly themselves. The Precious Metals Fund can also often access investments for less cost than individual investors could achieve, and it can also use efficient portfolio construction and risk management techniques to help reduce volatility.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity does not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed, and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Investment risk

The risk that the value of an individual investment in the Fund may change in value or become more volatile. Reasons include changes in an investment's operations, management or business environment, or market sentiment. Natural resource companies are subject to additional risks including mine disasters, faulting of the ore body, misinterpretation of geotechnical data, fraud or that a mine does not produce what was expected. Baker Steel's experienced investment team monitors chosen underlying investments carefully, and changes them when it thinks appropriate. Baker Steel diversifies the Precious Metals Fund, including by setting limits such as at the individual investment level.

Market risk

The risk that a market or economy changes in value or becomes more volatile. Reasons can include changes in economic, financial, technological, political or legal conditions, natural and manmade disasters, conflicts and changes in market sentiment. Commodity markets are generally more volatile. Precious metal and mining shares are countercyclical – generally their performance has a low correlation with equity market performance. Commodity prices generally are correlated to the overall level of economic activity and industrial production. During periods of instability, commodities and the securities of producers often suffer extreme price fluctuations. In turn, the earnings and general financial conditions of producers are highly dependent on the market price of the underlying resources which, historically, have been extremely volatile. Baker Steel uses research and analysis to form a view on these matters as best it can and then rebalances the investment mix of the Precious Metals Fund in an effort to reduce the impact.

Financial instruments including derivatives risk

The risk associated with using sophisticated financial instruments such as derivatives. Risks include the value of the financial instrument failing to move in line with the underlying asset, potential illiquidity, the Baker Steel Gold Fund, the Precious Metals Fund (or any of their underlying investments) not being able to meet payment obligations, potential leverage (or gearing) resulting from the position, and counterparty risk where the other party cannot meet its obligations. Both the Fund and the Precious Metals Fund may use financial instruments to manage risk and/or gain exposure to asset classes. Baker Steel employs leading professionals who deal with issuers and counterparties it believes are reputable and monitor exposures. However, using derivatives to reduce portfolio risk is not always successful, is not always used to offset all relevant portfolio risk, and is sometimes not cost effective or practical to use.

Currency risk

The Fund invests predominantly in the Precious Metals Fund in Luxembourg which in turn invests globally.

Investors should be prepared to accept that currency movements will impact on the value of their investment.

Further Reading...

You should read the important information in the Reference Guide "Additional risks" section, with more information on risks that may apply. Go to the Reference Guide at www.eqt.com.au/insto. The material relating to risks may change between the time when you read this PDS and the day when you acquire the product.

5. How we invest your money

Warning: When choosing to invest in the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment strategy

This is a professionally managed specialist investment fund which principally invests into the Precious Metals Fund. Actively managed by Baker Steel, the Precious Metals Fund is a gold and precious metals fund with a portfolio of globally listed gold and precious metals equities, with a mid to large cap focus. The core of the strategy is to invest in and hold good value precious metal equities. The Precious Metals Fund is diversified by country.

Benchmark

FTSE Gold Mines Index return expressed in AUD and after Management Fees and Usual Expenses.

Investment style

Using a well-established, fundamentals based research process, the Precious Metals Fund focuses on emerging gold and precious metal producers that have strong management teams in place and where Baker Steel considers that the investment offers good value and above average growth potential, according to its research and investment models.

Baker Steel's investment process has the following key features:

- a well-established value-oriented and metals-based research process, enhanced by research visits to companies and projects throughout the world,
- an in-house valuation database with in excess of 500 gold deposits and 200 gold mining companies for evaluating mining opportunities worldwide, and
- a team-based stock selection and investment decision-making process with controlled investment and position limits.

Performance objective

The Fund's objectives, over rolling 5 year periods, are to:

- provide capital growth by being exposed to a portfolio consisting principally of globally listed gold and precious metal equities and their related instruments, and
- outperform the FTSE Gold Mines Index expressed in AUD and after Management Fees and Usual Expenses,

but remember that neither of these objectives is intended to be a forecast or promise. The Fund may not meet its investment objective. Neither returns nor the money you invest in the Fund is guaranteed.

Minimum suggested timeframe

The indicative investment time frame for an investment in the Fund is at least 5 years.

Asset allocation

The Fund invests predominantly in the Precious Metals Fund, a gold and precious metals equities fund. Investments held directly by the Fund are usually limited and would be of the same nature as for the Precious Metals Fund. The Precious Metals Fund targets a minimum exposure of two thirds of its assets to equities of gold mining and other precious metals companies globally, with a mid to large cap focus. It can, at times, reduce its exposure to equities markets and increase exposure to instruments that track the values of precious metals such as gold or silver. The Precious Metals Fund is generally fully invested.

The Precious Metals Fund may also hold investments of companies and commodities within the wider mining sector from time to time. The Precious Metals Fund may also hold investments in other transferable securities such as fixed or variable rate short-term debt instruments if Baker Steel considers this appropriate for risk reduction.

It can also gain exposure to other listed equities globally, as well as to unlisted equities (up to 10% of the net asset value of the Precious Metals Fund, measured at the time the investment is made), which will be related primarily to the gold and precious metal sectors.

The Precious Metals Fund is diversified by country but there are no specific allocation limits to location.

Risk level of fund

High.

Investor suitability

This Fund may be suitable for investors who have a long-term view and a high-risk tolerance.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

Investment decisions do not take into account labour standards or environmental, social or ethical considerations in the selection, retention or realisation of investments.

Fund performance

Up to date information on the performance of the Fund can be obtained from www.eqt.com.au/insto. A free of charge paper copy of the information will also be available on request.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 1.82% p.a. of the NAV of the Retail Class and 1.53% p.a. of the NAV of the Institutional Class is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Retail Class or Institutional Class monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.85% p.a. of the NAV of the Retail Class and 0.85% p.a. of the NAV of the Institutional Class may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests and the costs of investing in over-the-counter derivatives to gain investment exposure to assets or implement the Fund’s investment strategy. The indirect costs and other expenses component is variable and reflected in the unit price of the Retail Class or Institutional Class as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager. The indirect costs and other expenses component is based on the relevant costs incurred during the financial year ended 30 June 2022.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees’ website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Performance fees

Performance fees include amounts that are calculated by reference to the performance of the Institutional Class, as well as the performance of interposed vehicles through which the Retail Class or Institutional Class invests. The performance fees for the Class are 0.01% p.a. of the NAV of the Retail Class and 0.26% p.a. of the NAV of the Institutional Class.

The performance fee figure that is disclosed in the Fees and Costs Summary is generally based on an average of the performance fees over the previous five financial years, where each performance fee relevant to the Retail Class or Institutional Class is averaged and totalled to give the performance fees for the Retail Class or Institutional Class.

The Performance fee is only applicable to the Institutional Class. A Performance fee is payable to the Investment Manager where the investment performance of the Institutional Class exceeds the performance of the FTSE Gold Mines Index return hurdle. The high water mark is exceeded where the value of the Institutional Class (after Management Fees and Usual Expenses but before Performance fees) is higher than its previous highest value at the end of any prior half year period from 30 June 2008 after accounting for all applications, withdrawals and distributions paid since that prior half year period.

The Performance fees are 10.25% of this excess, calculated daily and paid semi-annually in arrears and is calculated based on the beginning NAV of the Institutional Class over the relevant 6 monthly period ending 31 December and 30 June. No Performance fee is payable until any accrued underperformance from prior periods has been made up (this feature is sometimes referred to as a high watermark).

Please note that the performance fees disclosed in the Fees and Costs Summary is not a forecast as the actual performance fee for the current and future financial years may differ. The Responsible Entity cannot guarantee that performance fees will remain at their previous level or that the performance of the Fund will outperform the Benchmark. It is not possible to estimate the actual performance fee payable in any given period, as we cannot forecast what the performance of the Fund will be. Information on current performance fees will be updated from time to time and available at www.eqt.com.au/insto.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Retail Class or Institutional Class will incur when buying or selling assets of the Retail Class or Institutional Class. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Retail Class or Institutional Class and are not separately charged to the investor. The Buy Spread is paid into the Retail Class or Institutional Class as part of an application and the Sell Spread is left in the Retail Class or Institutional Class as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.25% upon entry and 0.25% upon exit. The dollar value of these costs based on an application or a withdrawal of \$25,000 (Retail Class) is \$62.50 for each individual transaction. The dollar value of these costs based on an application or a withdrawal of \$1,000,000 (Institutional Class) is \$2,500 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.eqt.com.au/insto will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Retail Class or Institutional Class's assets and are reflected in the Retail Class or Institutional Class's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Retail Class are 0.07% p.a. of the NAV of the Class and are 0.07% p.a. of the NAV of the Class for the Institutional Class, which is based on relevant costs incurred during the financial year ended 30 June 2022.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2.00% of the GAV of the Retail Class or Institutional Class. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor. If the payment of annual fees to IDPS Operators is limited or prohibited by the law, Equity Trustees will ensure the payment of such fees is reduced or ceased.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact the Investment Manager on +612 8245 0501 for further information.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – Baker Steel Gold Fund – Retail Class		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	2.67% p.a.	And , for every \$50,000 you have in the Baker Steel Gold Fund – Retail Class you will be charged or have deducted from your investment \$1,335 each year
Plus Performance fees	0.01% p.a.	And , you will be charged or have deducted from your investment \$5 in performance fees each year
Plus Transaction costs	0.00% p.a.	And , you will be charged or have deducted from your investment \$0 in transaction costs
Equals Cost of Baker Steel Gold Fund – Retail Class		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$1,340* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances. The performance fees stated in this table are based on the average performance fee for the interposed vehicles through which the Retail Class invests, over the previous five financial years. The performance of the Retail Class or Institutional Class for this financial year, and the performance fees, may be higher or lower or not payable in the future. It is not a forecast of the performance of the Retail Class or Institutional Class or the amount of the performance fees in the future.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust (“AMIT”) and the choice is effective for the income year, are attributed to them.

Further reading

You should read the important information in the Reference Guide about Taxation under the “Other important information” section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the Application Form accompanying this PDS and make payment via electronic bank transfer (see details in the Application Form). You can mail your completed Application Form to:

Apex Fund Services PTY Ltd
Client Services Registry Team
GPO Box 4968
Sydney, NSW, 2001

Please note that cash cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as defined in the ‘About this PDS’ section) can invest directly, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the Application Form provided by the operator of the IDPS.

Cooling off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a ‘cooling off’ period in relation to an investment in the Fund within 14 days from the earlier of:

- confirmation of the investment being received or available; and
- the end of the fifth business day after the units are issued or sold

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period, which could include selling part of your investment or switching it to another product.

No cooling off applies if you are an Institutional Client.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in a fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in a fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor’s investment in relation to the Fund and any rights an Indirect Investor may have in this regard.

Once provided, your TFN will be applied automatically to any future investments in the Fund/Trust where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.
