New Zealand WARNING STATEMENT

- a) This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 (Aust) and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.
- b) This offer and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the regulations made under that Act set out how the offer must be made.
- c) There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.
- d) The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.
- e) Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.
- f) The taxation treatment of Australian financial products is not the same as for New Zealand financial products.
- g) If you are uncertain about whether this investment is appropriate for you, you should seek the advice of a financial advice provider.
- h) The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.
- i) If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.
- j) The dispute resolution process described in this offer document is available only in Australia and is not available in New Zealand.

Investing in the Trust

Direct investors

Direct investors can acquire units in the Trust by following the instructions outlined in the Application Form accompanying the PDS. All applications must be made in Australian dollars.

Minimum application amounts are subject to the Australian dollar minimum amounts disclosed in the PDS.

Indirect investors

If you wish to invest indirectly in the Trust through an IDPS your IDPS Operator will complete the application for you. Your IDPS Operator will advise what minimum investment amounts relate to you.

Withdrawing your investment

Direct investors

Direct investors of the Trust can withdraw their investment by written request to:

BNP Paribas Asset Management
GPO Box 804
Melbourne VIC 3001

Or email bnppam.transactions@onevue.com.au

Minimum withdrawal amounts are subject to the Australian dollar minimum amounts disclosed in the PDS. Withdrawal requests received from New Zealand investors must specify:

- the withdrawal amount in Australian dollars; or
- the number of units to be withdrawn.

We are unable to accept withdrawal amounts quoted in New Zealand dollars. Please note that the withdrawal amount paid to you will be in Australian dollars and may differ from the amount you receive in New Zealand dollars due to:

- Foreign exchange spreads between Australian and New Zealand dollars (currency rate differs daily); and
- Overseas telegraphic transfer ('OTT') costs.

Withdrawals will only be paid directly to the investor's AUD bank account held in the name of the investor with an Australian domiciled bank. Withdrawal payments will not be made to third parties.

Indirect investors

If you have invested indirectly in the Trust through an IDPS, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator.

Managing your investment

Distributions

If New Zealand investors elect to have their distribution paid in direct credit they will need to nominate a bank account held in their own name with an Australian domiciled bank, otherwise it must be reinvested. Cash distributions will only be paid in Australian dollars to such an account. When the distribution is reinvested, New Zealand investors will be allotted units in accordance with the terms and conditions set out in the PDS relating to the units in the Trust. Please see the PDS for a description of distributions and the terms and conditions of the reinvestment of distributions.

The distribution reinvestment plan described in the PDS is offered to New Zealand investors on the following basis:

- At the time the price of the units allotted pursuant to the distribution reinvestment plan is set, the Responsible Entity will not have any information that is not publicly available that would, or would be likely to, have a material adverse effect on the realisable price of the units if the information were publicly available.
- The right to acquire, or require the Responsible Entity to issue, units will be offered to all investors of the same class, other than those resident outside New Zealand who are excluded so as to avoid breaching overseas laws.
- Units will be issued on the terms disclosed to you, and will be subject to the same rights as units issued to all investors of the same class as you.

There is available from the Responsible Entity, on request and free of charge, a copy of the most recent annual report (if any) of the Trust, the most recent financial statements (if any) of the Trust, the auditor's report on those financial statements or, if those financial statements are not audited or reviewed by an auditor, a statement to that effect, the PDS and the Constitution for the Trust (including any amendments). Other than the Constitution, these documents may be obtained electronically from www.bnpparibas-am.com/en-au.

Processing cut-off times

The processing cut-off times for applications and withdrawals referred to in the PDS are Australian Eastern Standard Time (Australian EST) and you should take this into account when sending instructions.

Cooling off rights

Cooling off rights may apply to investors in New Zealand. If you wish to exercise your cooling off rights you should contact the Responsible Entity of the Trust. The PDS contains further information about the rights that may apply.

Taxation

New Zealand resident taxation

If you are a New Zealand resident wishing to invest in Australia, we strongly recommend that you seek independent professional tax advice. New Zealand resident investors will be taxed on their units under the foreign investment fund rules or ordinary tax rules, depending on their circumstances. Australian tax will be withheld at prescribed rates from distributions to non-residents to the extent that the distributions comprise relevant Australian sourced income or gains.

1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Trust's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Trust's responsible entity are governed by the Trust's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed BNP PARIBAS ASSET MANAGEMENT Australia Limited as the investment manager of the Trust. Equity Trustees has appointed a custodian to hold the assets of the Trust. The custodian has no supervisory role in relation to the operation of the Trust and is not responsible for protecting your interests.

The Investment Manager

BNP PARIBAS ASSET MANAGEMENT Australia Limited

BNP PARIBAS ASSET MANAGEMENT Australia Limited ("BNP Paribas Asset Management Australia" or "BNPP AMAU"), the Australian asset management business line of BNP Paribas SA, is the Investment Manager of the Trust. BNP Paribas SA is a listed company with a market capitalisation of EUR 71.8 billion as at 31 December 2023.

The Trust invests its assets into BNP Paribas Funds Green Bond ("Underlying Fund"), a sub-fund of the Luxembourg-domiciled BNP Paribas Funds SICAV ("BNP Paribas Funds"). The Management Company of BNP Paribas Funds, BNP Paribas Asset Management Luxembourg, is part of the BNP Paribas Asset Management Group ("BNPP AM") and may appoint one or more BNPP AM entities to invest the assets of the Underlying Fund.

The Delegated Investment Manager

BNP PARIBAS ASSET MANAGEMENT Asia Limited

BNP PARIBAS ASSET MANAGEMENT Asia Limited ("BNPP AM Asia") is the Delegated Investment Manager of the Trust. BNPP AM Asia is organised under the laws of Hong Kong (incorporated in Hong Kong and licensed by the Hong Kong Securities and Futures Commission) and is a member of the BNP Paribas Group.

2. How the BNP Paribas Green Bond Trust works

The Trust is a registered managed investment scheme governed by the Constitution. The Trust comprises assets which are acquired in accordance with the Trust's investment strategy. Direct investors receive units in the Trust when they invest. In general, each unit represents an equal interest in the assets of the Trust subject to liabilities; however, it does not give investors an interest in any particular asset of the Trust.

If you invest in the Trust through an IDPS (as defined in the Reference Guide) you will not become an investor in the Trust. The operator or custodian of the IDPS will be the investor entered in the Trust's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Trust through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS or, for investors in Australia meeting the online application criteria, by completing the application process online (once available). Please refer to the Reference Guide for details of eligibility for online applications. The minimum initial investment amount for the Trust is \$25,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

BNP Paribas Asset Management
GPO Box 804
Melbourne, VIC, 3001

Or send the completed Application Form by email to bnppam.transactions@onevue.com.au

Please note that cash and cheques cannot be accepted.

If completing the application process online when available, further instructions can be assessed at www.bnpparibas-am.com/en-au.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Trust's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Trust, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.00%.

To the extent that the Trust invests in the Underlying Fund, it will be affected by Swing Pricing adopted by the Underlying Fund. Swing Pricing involves the Underlying Fund making adjustments to its net asset value to compensate for the expected transaction costs resulting from the net trading in the Underlying Fund exceeding a certain threshold.

The Application Price will vary as the market value of assets in the Trust rises or falls.

Making additional investments

You can make additional investments into the Trust at any time by sending us your additional investment amount together with a completed Additional Investment Form. There is no minimum additional investment into the Trust.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Trust usually distributes income quarterly, at the end of June, September, December, and March. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Trust can indicate a preference to have their distribution:

- reinvested back into the Trust; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

New Zealand investors can only have their distribution directly credited if an AUD Australian domiciled bank account is provided, otherwise it must be reinvested (refer to the BNP Paribas Green Bond Trust New Zealand Investor Information Sheet for further information).

Access to your money

Investors in the Trust can generally withdraw their investment by completing a written request to withdraw from the Trust and mailing it to:

BNP Paribas Asset Management
GPO Box 804
Melbourne, VIC, 3001

Or sending it by email to bnppam.transactions@onevue.com.au

The minimum withdrawal amount is \$50. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 6 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 21 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Trust, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.00%.

To the extent that the Trust invests in the Underlying Fund, it will be affected by Swing Pricing adopted by the Underlying Fund. Swing Pricing involves the Underlying Fund making adjustments to its net asset value to compensate for the expected transaction costs resulting from the net trading in the Underlying Fund exceeding a certain threshold.

The Withdrawal Price will vary as the market value of assets in the Trust rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Trust falls below \$25,000 as a result of processing your withdrawal request. We also reserve the right to fully withdraw your investment if your investment balance in the Trust is less than \$25,000. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Trust including due to one or more circumstances outside its control or where the Trust is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Trust is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Trust has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Trust will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Trust may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the BNP Paribas Green Bond Trust

Significant benefits

Potential to make an impact

The Underlying Fund invests with the intention to contribute to measurable positive environmental impact alongside financial returns. The sustainable investment objective of the Underlying Fund is to allocate capital to new and existing projects with environmental benefits by investing in green bonds to finance environmentally sound and sustainable projects that foster a net-zero emissions economy and protect the environment. Eligible green projects categories include, but are not limited to:

- Renewable energy
- Energy efficiency
- Clean transportation
- Climate change adaptation
- Green buildings.

Green bond assessment methodology

BNPP AM applies a very strict in-house definition of what a green bond is, through extra financial research. The investment universe is based on the Green Bond Principles ("GBP") as formulated by the International Capital Market Association ("ICMA"). Furthermore, issuers' underlying projects are screened using a proprietary green bond assessment methodology. Issuers with poor Environmental, Social and Governance ("ESG") practices and policies, and issuers with severe ESG controversies as defined by Sustainalytics Controversy Research or assessed by BNPP AM may also be excluded. Underlying projects not aligned with a proprietary taxonomy of eligible activities or having high Negative Externalities will require further BNPP AM assessment and may also be excluded from the investment universe. The following recommendations are issued for green bonds:

- Positive: issuers having a good score
- Neutral: issuers having a medium score
- Negative: issuers having a poor score

The Underlying Fund may not invest in green bonds with a negative recommendation. More information on the BNPP AM Green Bond methodology is available upon request from BNPP AMAU Client Services on 1800 267 726 (Australia) or +612 9619 6041.

Experienced global fixed income team

The strategy is managed by BNPP AM's dedicated Global Multi-Strategy Fixed Income team which has a proven track record of managing fixed income strategies since 1964. The investment team is further supported and informed by BNPP AM's Sustainability Centre.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Trust. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity, Investment Manager, Delegated Investment Manager, BNP Paribas SA, or any member of the BNP Paribas Group do not guarantee the liquidity of the Trust's investments, repayment of capital or any rate of return or the Trust's investment performance. The value of the Trust's investments will vary. Returns are not guaranteed and you may lose money by investing in the Trust. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Trust is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Trust is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

The Trust offered in this PDS is not a deposit with or other liability of BNP Paribas SA or any other member company of BNP Paribas SA.

Active Management Risk

The investment manager of the Underlying Fund does not invest in a predetermined basket of securities, such as a basket of securities that reflects an index, but instead selects securities that meets its investment criteria. This carries with it the risk that the Underlying Fund and the Trust may underperform the market generally.

Bond Connect Risk

The Underlying Fund may invest in debt securities traded on the Bond Connect. The “Bond Connect” is a mutual market access program between the People’s Republic of China interbank bond market (“CIBM”) and Hong Kong bond market infrastructures as approved by the People’s Bank of China (“PBOC”) and Hong Kong Monetary Authority. It allows investors from Mainland China and overseas to trade in each other’s bond markets through a market infrastructure linkage in Hong Kong. There may be regulatory, operational, settlement and custody risks relating to Bond Connect. The relevant rules and regulations are subject to change from time to time which may have potential retrospective effect. In the event that the relevant Mainland Chinese authorities suspend trading on the Bond Connect, the Underlying Fund’s ability to invest in the CIBM will be limited and, after exhausting other trading alternatives, the Underlying Fund may suffer substantial losses as a result. Trading through Bond Connect is performed through newly developed trading platforms and operational systems. There is no assurance that such systems will function properly or will continue to be adapted to changes and developments in the market. In the event the relevant systems fails to perform properly, trading through Bond Connect may be disrupted and the Underlying Fund’s ability to pursue its investment strategy may be adversely affected. An offshore custody agent recognized by the Hong Kong Monetary Authority (currently, the Central Money Markets Unit) shall open omnibus nominee accounts with the onshore custody agent recognised by the PBOC (currently, the China Central Depository & Clearing Co., Ltd and/or the Shanghai Clearing House). All debt securities traded by eligible foreign investors will be registered in the name of Central Money Markets Unit, which will hold such debt securities as a nominee owner. As such, the Underlying Fund is subject to the risks of default or errors on the part of such third parties.

Counterparty Credit Risk

Counterparty risk is the risk that any of the Responsible Entity’s, the Investment Manager’s, the Delegated Investment Manager’s or the investment manager of the Underlying Fund’s trading counterparties, custodians, or any issuer or guarantor of securities held by the Underlying Fund or the Trust, becomes insolvent or cannot otherwise meet their obligations to settle or repay money.

Credit Risk

There may be credit risk for the Underlying Fund when dealing with parties in which it invests. Credit risk can lead to unanticipated losses where counterparties are unable or unwilling to fulfil their contractual obligations. Generally, the higher the rate of interest, the higher the perceived credit risk of the issuer of an investment. This is also the risk that may derive from the rating downgrade of a bond issuer to which the Underlying Fund is exposed, which may therefore cause the value of the investments to go down. The Underlying Fund may invest in high-yield bonds which presents a higher than average risk due to the greater fluctuation of their currency or the quality of the issuer.

Currency Risk

Currency risk is the sensitivity of the portfolio value to movement in foreign exchange rates. The investment manager of the Underlying Fund quantifies the risk of each individual security and will typically use Currency Hedging techniques, which aim to reduce this risk within the Trust by hedging foreign currency exposure back to Australian dollar. The Currency Hedging employed may not completely remove the risk of currency exposure. Hedging also reduces the opportunity to profit from favourable currency movements.

Derivatives Risk

The Underlying Fund may utilise Derivatives. Derivatives risk includes the value of derivatives positions not moving in line with the movement in the underlying asset, potential illiquidity of a derivative, and the Underlying Fund being unable to meet payment obligations in relation to derivatives contracts.

Emerging Markets Risk

Emerging Markets are more likely to experience greater volatility than markets in developed countries. Securities traded in Emerging Markets also have more limited liquidity when compared to securities traded in developed countries. This means that those securities may fall more sharply and rapidly than securities traded in developed countries. Further risks include differences in auditing and financial accounting standards, less regulated markets, less developed corporate laws and political risk.

Environmental, Social and Governance (ESG) Risk

The use of ESG criteria may affect the Trust’s investment performance and, as such, the Trust may perform differently compared to similar funds that do not use such criteria. Applying ESG and sustainability criteria to the investment process may exclude certain assets for non-investment reasons and therefore some market opportunities available to funds that do not use ESG or sustainability criteria may be unavailable for the Trust. The selection of assets may in part rely on an impact approach, ESG scoring process or exclusion lists that rely partially on third party data. The lack of common or harmonised definitions and labels integrating ESG and sustainability criteria may result in different approaches by managers when setting ESG objectives and determining that these objectives have been met by the funds they manage. This also means that it may be difficult to compare strategies integrating ESG and sustainability criteria to the extent that the selection and weightings applied to select investments may to a certain extent be subjective or based on metrics that may share the same name but have different underlying meanings. Investors should note that the subjective value that they may or may not assign to certain types of ESG criteria may differ substantially from the methodology of the Investment Manager.

Risk level

Medium.

There is a medium level risk investors may lose some of their initial investment over the short term. Medium risk investments tend to fluctuate in the short term but can produce medium level returns over the suggested time frame.

Investor suitability

The Trust is designed for investors with a medium risk tolerance, seeking to invest in instruments supporting climate-related and environmental projects.

Investment style and approach

The Trust through the Underlying Fund’s investment strategy aims at facilitating or accelerating the transition into a sustainable world by focusing on challenges related to environment. The Underlying Fund will predominantly invest in global green bonds supporting environmental projects, being issued by corporate, supranational sovereign agencies, local entities and/or governments issued in hard currencies (such as AUD, CAD, CHF, EUR, GBP, JPY and USD).

Eligible green projects categories include, but are not limited to:

- Renewable energy
- Energy efficiency
- Clean transportation
- Climate change adaptation
- Green buildings

Underlying Fund will hedge the majority of foreign currency exposure back to Australian Dollar

The investment strategy centres around the following pillars:

- **Green bond selection:** BNPP AM applies a very strict in-house definition of what a green bond is, through extra-financial research. The investment universe is based on the Green Bond Principles (“GBP”) as formulated by the International Capital Market Association (“ICMA”). Furthermore, issuers and underlying projects are screened using a proprietary green bond assessment methodology. Issuers with poor ESG practices and policies, and issuers with severe ESG controversies as defined by Sustainalytics Controversy Research or assessed by BNPP AM may also be excluded. Underlying projects not aligned with a proprietary taxonomy of eligible activities or having high Negative Externalities will require further BNPP AM assessment and may also be excluded from the investment universe. The following recommendations are issued for green bonds:
 - Positive: issuers having a good score
 - Neutral: issuers having a medium score
 - Negative: issuers having a poor score

The Underlying Fund may not invest in green bonds with a negative recommendation

- **Fundamental analysis:** long-term interest rate trends and their correlation with all markets mainly result from an analysis of the macro-economic environment, which helps identify inflation and credit trends;
- **Active portfolio management:** studying the relative value between bonds makes it possible to identify daily investment opportunities as part of long-term views: market prices are generated as a result of the expectations of market players who take varying levels of risk and have different investment horizons (issuers, investment funds, portfolio managers, traders, etc.). This research is based on detailed analysis of capital flows, excessive market consensus and changes in regulatory constraints;
- **Risk management:** a specific risk approach via realistic scenarios to respond to the challenge of asymmetry between gains and losses in bond portfolios.

Asset allocation

The Trust will invest substantially all its assets in the Underlying Fund. The Trust may also hold cash for operational purposes.

The Underlying Fund has the following asset allocation:

- Global green bonds 67-100%
- Other assets* and cash 0-33%

*Other assets may include: convertible bonds, other debt securities e.g. structured debt securities or high yield debt, equities, money market instruments, UCITS or UCIs. In practice however it is expected that the Underlying Fund will maintain over 80% in green bonds. The Underlying Fund may have exposure up to 20% in emerging markets, including exposure to China. Derivatives may also be used for efficient portfolio management and hedging. The majority of foreign currency exposure is hedged back to Australian Dollars.

Labour Standards, Environmental, Social and Ethical Factors (“ESG considerations”)

EQT has delegated the investment function (including ESG responsibilities) to the Investment Manager. Labour standards, environmental, social and ethical considerations are taken into account when selecting, retaining or realising investments of the Underlying Fund.

BNPP AM’s Global Sustainability Strategy governs the approach to sustainable investment, which consists of the implementation of ESG integration, responsible business conduct standards and stewardship activities into the investment process applied to the Underlying Fund. The sustainable investment approach is incorporated at each step of the investment process of the Underlying Fund and includes the elements set out in the Reference Guide. The way in which these considerations are incorporated in the investment process is also outlined under ‘Investment style and approach’ above.

6. Fees and costs

DID YOU KNOW?
Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.
For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).
You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.
You may be able to negotiate to pay lower fees. Ask the Trust or your financial adviser.

TO FIND OUT MORE
If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor’s account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Trust, investing the assets of the Trust, expenses and reimbursements in relation to the Trust and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.47% p.a. of the NAV of the Trust is payable to the Responsible Entity of the Trust for managing the assets and overseeing the operations of the Trust. The management fees component is accrued daily and paid from the Trust monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.18% p.a. of the NAV of the Trust may include other ordinary expenses of operating the Trust, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Trust invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Trust as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager. The indirect costs and other expenses component are based on the relevant costs incurred during the financial year ended 30 June 2023.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Transaction costs

In managing the assets of the Trust, the Trust may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Trust, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Trust invests (if any), that would have been transaction costs if they had been incurred by the Trust itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Trust are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Trust.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Trust will incur when buying or selling assets of the Trust. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Trust and are not separately charged to the investor. The Buy Spread is paid into the Trust as part of an application and the Sell Spread is left in the Trust as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.00% upon entry and 0.00% upon exit. The dollar value of these costs based on an application or a withdrawal of \$25,000 is \$0 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.bnpparibas-am.com/en-au will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Trust's assets and are reflected in the Trust's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Trust are 0.16% p.a. of the NAV of the Trust, which are based on the actual costs for the year ending 30 June 2023.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2.00% of the GAV of the Trust. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days’ notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Trust and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Trust on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients or New Zealand Wholesale Investors. Please contact the Investment Manager on 1800 267 726 (Australia) or +612 9619 6041 for further information.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – BNP Paribas Green Bond Trust		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	0.65% p.a.	And, for every \$50,000 you have in the BNP Paribas Green Bond Trust you will be charged or have deducted from your investment \$325 each year
Plus Performance fees	Not applicable	And, you will be charged or have deducted from your investment \$0 in performance fees each year
Plus Transaction costs	0.16% p.a.	And, you will be charged or have deducted from your investment \$80 in transaction costs
Equals Cost of BNP Paribas Green Bond Trust		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$405* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the “Fees and other costs” section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto or www.bnpparibas-am.com/en-au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Trust) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Trust.

The Trust is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Trust to which they become presently entitled or, where the Trust has made a choice to be an Attribution Managed Investment Trust (“AMIT”) and the choice is effective for the income year, are attributed to them.

Further reading

You should read the important information in the Reference Guide about Taxation under the “Other important information” section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto or www.bnpparibas-am.com/en-au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the relevant Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

BNP Paribas Asset Management
GPO Box 804
Melbourne, VIC, 3001

or send the completed Application Form by email to bnppam.transactions@onevue.com.au

Alternatively, for investors in Australia meeting the online application criteria, you will be able to complete the application process online, (when available, please visit www.bnpparibas-am.com/en-au for further instructions). Please refer to the Reference Guide for details of eligibility for online applications.

Please note that cash and cheques cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the ‘About this PDS’ section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by their IDPS Operator.

Cooling off period

If you are a Retail Client who has invested directly in the Trust, you may have a right to a ‘cooling off’ period in relation to your investment in the Trust for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Trust during the 14 day period. This could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Trust by the IDPS. The right to cool off in relation to the Trust is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Trust. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Trust on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Trust and any rights an Indirect Investor may have in this regard.
