1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Clime Asset Management Pty Limited as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Clime Asset Management Pty Limited

Clime Asset Management Pty Limited ("Clime") is the investment manager appointed by us for the Fund. Clime distributes the Fund. Clime is a wholly owned subsidiary of Clime Investment Management Limited, a company listed on the Australian Securities Exchange (ASX: CIW). Clime is an Australian asset manager specialising in investing with a quality focus and a strong valuation discipline. Its corporate values of integrity, transparency and conviction are reflected in its investment solutions, which are developed to help investors grow their wealth and achieve security in retirement. They currently manage in excess of \$1 billion on behalf of investors in our Australian Equities, Fixed Income and International investment products and services.

2. How the Clime Australian Income Fund works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum investment amount for the Retail Investor class of interests is \$10,000 and for the Wholesale Investor class of interests is \$100,000.

Applications received before 12pm on a Business Day (assuming it is a Sydney business day and we have all required information) normally receive that Business Day's unit price. Completed Application Forms should be sent along with your identification documents (if applicable) to:

Clime Australian Income Fund
Apex Fund Services Pty Ltd
GPO Box 4968,
Sydney, NSW, 2001.

You can pay by:

- personal or bank cheque – Australian financial institutions only;
- electronic funds transfer (EFT) to our account - please use your investor name or number as the reference when using direct credit; and
- authorising us to debit your Australian financial institution account.

Please complete a Direct Debit Request form (available free from Clime's website or contact the Administrator) and submit it with your application.

Please note that cash cannot be accepted. Instructions are included in our forms available free from Clime's website or contact the Administrator. Once lodged, applications cannot generally be withdrawn. Applications are almost always accepted, however we have discretion to refuse any application and need not give a reason.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund or Class, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.25%

Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount and mailing or faxing a completed additional investment form. The minimum additional investment amount for a Retail Investor is \$1,000 and a Wholesale Investor is \$10,000.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day (as defined in the Reference Guide) is, in general terms, equal to the net asset value ("NAV") of the class, divided by the number of units on issue for that class and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is +0.25% for each class. The Application Price will vary as the market value of assets in the Fund rises or falls.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income quarterly at the end of June, September, December and March. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Clime Australian Income Fund
Apex Fund Services Pty Ltd
GPO Box 4968,
Sydney, NSW, 2001

or emailing the request to registry@apexgroup.com (please insert the Fund name in the subject line).

or by fax to +61 2 9251 3525

The minimum withdrawal amount for Retail Investors is \$1,000 and Wholesale Investors is \$10,000. Once we receive your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s). Once lodged, withdrawal requests cannot generally be withdrawn.

Completed redemption forms which are received before 12pm on a Business Day (assuming it is a Sydney business day) will generally receive the unit price calculated for that Business Day. If received after this, you will receive the price next calculated.

Equity Trustees will generally allow investors to access their investment within 5 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investors' nominated bank account, although the Constitution allows payment up to 21 days following acceptance. However, the Constitution allows Equity Trustees to reject withdrawal requests and also to extend the time for payment for a request it has accepted. Deductions are made for any money you owe relating to your investment. We do not pay by cheque or cash.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the class, divided by the number of units in issue for that class and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is -0.25% for each class. The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$10,000 for Retail Investors and \$100,000 for Wholesale Investors as a result of processing your withdrawal request. We also reserve the right to fully withdraw your investments in the Fund, upon giving 30 days' notice, if the minimum balance amount is increased and your holding falls below the new minimum balance amount. Equity Trustees can deny a withdrawal request in certain circumstances, including where accepting the request is not in the best interests of investors in the Fund (including where there is a circumstance outside our reasonable control which we consider impacts on our ability to properly, accurately or fairly calculate a unit price, or where we have received redemption requests which represent more than 20% of the NAV and in this case we can redeem the units at such future time or at times over such period, as we determine) or where the Fund is not liquid (as defined in the Corporations Act). When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the Clime Australian Income Fund

The Fund is an income fund which seeks an income stream above term deposits from a portfolio of Australian listed and unlisted securities.

Benefits of investing in the Fund includes:

- Invest in a diversified portfolio across multi-asset income securities;
- Invest in the over the counter (OTC) debt market;
- Lower overall portfolio risk compared to the equity market in general. The Fund aims to have no more than 5%±1.0% risk as measured by the annualised standard deviation over a rolling 5 year period. Equity market risk is generally three times as volatile;
- Distribute Income quarterly.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

Neither the Responsible Entity or the Investment Manager guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed Financial Adviser and/or taxation adviser.

Currency risk

The Fund's cash and investments may be exposed to currencies other than the Australian dollar. The Fund's cash holdings are expected to be held in Australian dollars, but may be denominated in currencies other than the Australian dollar if appropriate. There are no specific limits set in respect of the Fund's currency risk and exposure.

It would be usual that currency exposure of the Fund was not hedged, which means it is exposed to changes in exchange rates. Reasons for exchange rate changes are many and include changes in economic activity and central bank policies.

There is the risk that changes in exchange rates relative to the Australian dollar can have a negative impact on investment value or returns.

The Fund may implement some hedging from time to time. Using financial instruments to reduce risk is not always successful, is not always used to offset all relevant risk, and is sometimes not cost effective or practical to use.

The Investment Manager may in any management of exchange rate risk use derivatives, both exchange traded and 'over-the-counter'.

To the extent that the exposure is not hedged, the Fund is exposed to changes in exchange rates.

Portfolio and concentration risk

This is risk arising from the fact that the Fund could be relatively concentrated.

The Fund could be relatively concentrated: there are no minimum or maximum number of securities. However we would expect the norm to be 60 to 80 securities.

There are no specific market sector limits or targets.

The Fund is not required to be fully invested. At times, the levels of cash or cash equivalents may be high (up to 100%) where attractive investment opportunities are not apparent and/or elevated market uncertainty presents an increased risk of near-term capital loss. The Fund's cash holding seeks to preserve capital, provide the opportunity to pursue selective investment opportunities and provide liquidity.

Interest rate risk

This is the risk that changes in interest rates can have a negative impact on investment markets. Reasons for interest rates changes are many and include changes in inflation, economic activity and central bank policies.

Derivatives risk

Derivatives can be used to manage some liquidity, currency and/or portfolio risk – see above - but are not used to gain investment exposure.

Principally, the Investment Manager may use derivatives, both exchange traded and 'over-the-counter', to hedge some exposure of the Fund to exchange rate movements from time to time. To the extent that the exposure is not hedged, the Fund is exposed to changes in exchange rates.

Derivatives are contracts between two parties that usually derive their value from the price of a physical asset or market index.

Risks associated with derivatives include the possibility that the derivative position is difficult or costly to reverse, that there is an adverse movement in the asset or index underlying the derivative or that the parties do not perform their obligations under the contract.

Such exposures are however monitored frequently (usually daily), and they may be adjusted to maintain exposures considered appropriate. Clime employs experienced professionals who have a thorough understanding of the financial instruments used. If using a financial instrument brings with it the potential to pay more money, Clime makes sure adequate collateral is set aside.

Borrowing or leverage risk

This is the risk associated with borrowing (often called leveraging or gearing). Direct leverage refers to borrowing money. Indirect leverage arises mostly from the use of derivatives.

The Fund does not intend to borrow, but may do so for the short term, generally to meet redemptions, distributions, or short-term portfolio obligations, and then only if the borrowing is considered to be prudent and in the best interests of all investors. Such borrowing would only be from lenders considered appropriate. Security may be granted over Fund assets.

Liquidity risk

The Fund offers applications and withdrawals processing generally each Day. However as with many investments, there is the risk that your withdrawal requests cannot be met when you expect.

Because cash is paid to your account when you withdraw, investments of the Fund may need to be sold to pay you. Depending on factors such as the state of the markets (for example through a lack of buyers or trading suspensions), selling investments is not always possible, practicable or consistent with the best interests of investors. This is one of the reasons why the constitution for the Fund specifies limited circumstances where there could be a delay in meeting your withdrawal request. The law sometimes restricts withdrawals.

The Fund is not listed on any stock exchange, so selling your units through a stockbroker is not possible.

Structure risk

This is the risk associated with having someone invest for you.

Risks associated with investing in the Fund include that it could be terminated, there can be changes in the trustee, the investment manager or the sub-investment manager (for example if key individuals were no longer involved in managing the Fund), someone involved with your investment (even remotely) does not meet their obligations or perform as expected, assets may be lost, not recorded properly or misappropriated, laws may adversely change, insurers may not pay when expected or insurance may be inadequate.

Investment decisions, although taken carefully, are not always successful. Investing in the Fund may give inferior results compared to investing directly (where you may be able to better manage your individual tax circumstances).

Information risk

We are committed to ensuring that your information is kept secure and protected from misuse and loss and from unauthorised access, modification and disclosure. We use the internet in operating the Fund, including records that may be stored in the cloud. If stored overseas, different privacy and other standards may apply there. Our Privacy policy is discussed in Section 6 of the Reference Guide.

The internet does not however always result in a secure information environment and although we take steps we consider reasonable to protect your information, we cannot absolutely guarantee its security.

Risk measure

The Investment Manager considers that the "standard risk measure" for this Fund is a medium risk rating, which means that the estimated number of negative annual returns over any 20-year period is 2 to less than 3. On a scale of 1 to 7 where 7 is riskiest in this respect, the Fund is in category 4.

The standard risk measure is based on industry guidance to allow investors to compare investment options that are expected to deliver a similar number of negative annual returns over any 20-year period. It is not a complete assessment of all forms of investment risk. For instance, it does not detail what the size of a negative return could be or the potential for a positive return to be less than an investor may require to meet their objectives. Further, it does not take into account the impact of fees and taxes on the likelihood of a negative return.

Investors should still ensure they are comfortable with the risks and potential losses associated with the Fund.

Further reading

You should read the important information in the Reference Guide about Risks under the "Risks" section before making a decision. The Reference Guide is available at www.clime.com.au or www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

5. How we invest your money

Warning: When choosing to invest in the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Fund is an income fund which seeks to generate regular income above the RBA cash rate in the form of consistent quarterly cash distributions and low volatility.

This investment objective is not intended to be a forecast. It is only an indication of what the investment strategy aims to achieve. The Fund may not achieve its investment objective in the short term.

Remember that investing involves risk, and you can lose as well as make money. Neither returns nor the money you invest in the Fund are guaranteed.

Benchmark

The Fund will aim to achieve a total return of 3% p.a. above the RBA cash rate from the portfolio after all fees and usual expenses.

Minimum suggested time frame

At least 5 years

Risk level of the Fund

Medium risk

Investor suitability

This Fund may suit investors with a medium risk tolerance and investment time horizon of at least 5 years.

Investment style and approach

Clime, the Fund's investment manager, believes investment markets offer opportunities to deliver strong risk-adjusted total returns. Markets are not always efficient and this creates opportunities for quality focused investors with strong valuation discipline.

Clime's investing philosophy is focused on quality with strong valuation discipline.

Investment character

Through rigorous fundamental analysis, the Fund seeks to invest in a range of debt securities, hybrid securities, Australian Real Estate Investment Trusts, Australian equities and cash

All holdings are subjected to our disciplined qualitative and quantitative team-based selection process.

The portfolio has a natural bias towards the S&P ASX 200 stocks and their associated debt securities, and generally defensive sectors including property, utilities, infrastructure, healthcare, telecommunications and financials. Portfolio returns are expected to be incrementally enhanced via franking credits on dividends.

Asset allocation

The Fund seeks to invest in a portfolio of Australian debt securities, high yield debt securities (listed and unlisted) hybrids, A-REITs, equities and cash.

The Fund may comprise cash, and at times, the levels of cash or cash equivalents may be high where attractive investment opportunities are not apparent.

Portfolio constraints

The following additional constraints apply to the Fund:

- no single holding in any individual investment may constitute more than 10% of the Fund at any one time;
- no single holding in any individual equity investment may constitute more than 6% of the Fund at any one time;
- the Fund would usually hold 60 to 80 different securities at any time; and
- the Fund may not hold more than 5% of the total ordinary shares outstanding of any single security at any time.

These portfolio guidelines will be applied by the Investment Manager flexibly as the Fund grows. Any deviations from these will be corrected as soon as the Investment Manager considers appropriate.

Changing the investment strategy

Subject to the law and the Fund constitution, we have the right to make changes to the Fund at any time and in some cases without prior notice. Changes may include and not limited to changes in the Fund's investment strategy and asset allocation parameters. If there is a material change, we will update this PDS and inform investors of the material change as required by the Corporations Act.

If you are investing through a platform, information and reports on your investment in the Fund will be provided to you by the platform operations, not by us.

Labour, environmental, social and ethical considerations

Equity Trustees has delegated the investment function (including ESG responsibilities) to the Investment Manager and the Investment Manager takes into account labour, environmental, social and ethical considerations in relation to the investment of the Fund as outlined below.

In the management of the Fund it is considered that environment, social and governance (ESG) considerations are ultimately medium-term quality factors, which can influence investments. Improperly managed or identified ESG considerations can erode the quality aspect of, and thus present a risk to, investment returns.

Accordingly, the Fund's investment strategy may take into account labour and ESG issues as part of the investment process, including with the goal of helping reduce potential credit risks and enhance investment performance.

No formal guidelines are used, nor is any formal weighting given to the labour and ESG issues in portfolio construction. Rather a broad, implicit approach is taken when carrying out this subjective assessment.

The types of ESG factors that may be taken into account include:

- environmental: weather, pollution and environmental disruption, sustainability, and associated reputational and brand risks;
- social: political stability, human rights issues, privacy and cyber-security, impact on local communities, health and safety, and associated reputational and brand risks; and
- governance: board composition, risk management track- record, legal and compliance track-record, history of prosecutions, management remuneration, distribution of equity, and associated reputational and brand risks.

Fund performance

Up to date information on the performance of the Fund can be obtained from www.eqt.com.au/insto. A free of charge paper copy of the information will also be available on request.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your Financial Adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.88% p.a. of the NAV of the Retail Class and 0.88% p.a. of the NAV of the Wholesale Class is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the class for Retail Class and 0.00% p.a. of the NAV of the class for Wholesale Class may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Class as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager. The indirect costs and other expenses component is based on the relevant costs incurred during the financial year ended 30 June 2023.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.25% upon entry and 0.25% upon exit. The dollar value of these costs based on an application or a withdrawal of \$10,000 is \$25 for each individual transaction in the Retail Class and an application or a withdrawal of \$100,000 is \$250 for each individual transaction in the Wholesale Class. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.clime.com.au will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.01% p.a. of the NAV of the Fund, which is based on the relevant costs incurred during the financial year ended 30 June 2023.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 1.50% of the GAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact the Investment Manager on 1300 788 568 (Australia) +61 2 8917 2100 (outside Australia) for further information.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – Clime Australian Income Fund – Retail Class		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	0.88% p.a.	And, for every \$50,000 you have in the Clime Australian Income Fund – Retail Class you will be charged or have deducted from your investment \$440 each year
Plus Performance fees	Not applicable	And, you will be charged or have deducted from your investment \$0 in performance fees each year
Plus Transaction costs	0.00% p.a.	And, you will be charged or have deducted from your investment \$0 in transaction costs
Equals Cost of Clime Australian Income Fund – Retail Class		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$440* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a Financial Adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your Financial Adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Cost of product for 1 year

The cost of product gives a summary calculation about how ongoing annual fees and costs can affect your investment over a 1-year period for all investment options. It is calculated in the manner shown in the Example of annual fees and costs.

The cost of product assumes a balance of \$150,000 at the beginning of the year with a contribution of \$5,000 during the year. (Additional fees such as an establishment fee or an exit fee may apply: refer to the Fees and costs summary for the relevant option.)

You should use this figure to help compare this product with other products offered by managed investment schemes.

Clime Australian Income Fund – Wholesale Class	Cost of product - \$1,320

Further reading

You should read the important information in the Reference Guide about fees and costs under the “Fees and other costs” section before making a decision. Go to the Reference Guide which is available at www.clime.com.au or www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust (“AMIT”) and the choice is effective for the income year, are attributed to them.

Further reading

You should read the important information in the Reference Guide about Taxation under the “Other important information” section before making a decision. Go to the Reference Guide which is available at www.clime.com.au or www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Clime Australian Income Fund
Apex Fund Services Pty Ltd
GPO Box 4968,
Sydney, NSW, 2001

Please note that cash cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the ‘About this PDS’ section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by their IDPS Operator.

Cooling off period

If you are a Retail Client (as defined in the Corporations Act) who has invested directly in the Fund, you may have a right to a ‘cooling off’ period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth Business Day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period, this could include selling part of your investment or switching it to another product.

No cooling off applies if you are a Wholesale Client (as defined in the Corporations Act).

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.
