# Investing in the Fund

## Direct investors

Direct investors can acquire units in the Fund by following the instructions outlined in the Application Form accompanying the PDS, including completing the Wholesale Investor Certification provided. All applications must be made in Australian dollars.

Minimum application amounts are subject to the Australian dollar minimum amounts disclosed in the PDS.

## Indirect investors

If you wish to invest indirectly in the Fund through an IDPS your IDPS Operator will complete the application for you. Your IDPS Operator will advise what minimum investment amounts relate to you.

# Withdrawing your investment

## Direct investors

Direct investors of the Fund can withdraw their investment by written request to:

Fisher Investments Australasia Unit Registry  
GPO Box 804  
Melbourne VIC 3001  
Or email to [fisher.transactions@unitregistry.com.au](mailto:fisher.transactions@unitregistry.com.au)

Minimum withdrawal amounts are subject to the Australian dollar minimum amounts disclosed in the relevant PDS. Withdrawal requests received from New Zealand investors must specify:

- the withdrawal amount in Australian dollars; or
- the number of units to be withdrawn.

We are unable to accept withdrawal amounts quoted in New Zealand dollars. Please note that the withdrawal amount paid to you will be in Australian dollars and may differ from the amount you receive in New Zealand dollars due to:

- Foreign exchange spreads between Australian and New Zealand dollars (currency rate differs daily); and
- Overseas telegraphic transfer costs.

Withdrawals will only be paid directly to the investor's AUD denominated bank account held in the name of the investor with an Australian domiciled bank. Withdrawal payments will not be made to third parties.

## Indirect investors

If you have invested indirectly in the Fund through an IDPS, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator.

# Managing your investment

## Distributions

If New Zealand investors elect to have their distribution paid in cash, they will need to nominate a bank account held in their own name with an Australian domiciled bank, otherwise it must be reinvested. Cash distributions will only be paid in Australian dollars to such an account. When the distribution is reinvested, New Zealand investors will be allotted units in accordance with the terms and conditions set out in the PDS relating to the units in the Fund. Please see the PDS for a description of distributions and the terms and conditions of the reinvestment of distributions.

The distribution reinvestment plan described in the PDS is offered to New Zealand investors on the following basis:

- At the time the price of the units allotted pursuant to the distribution reinvestment plan is set, the Responsible Entity will not have any information that is not publicly available that would, or would be likely to, have a material adverse effect on the realisable price of the units if the information were publicly available.
- The right to acquire, or require the Responsible Entity to issue, units will be offered to all investors of the same class, other than those resident outside New Zealand who are excluded so as to avoid breaching overseas laws.
- Units will be issued on the terms disclosed to you, and will be subject to the same rights as units issued to all investors of the same class as you.

There is available from the Responsible Entity, on request and free of charge, a copy of the most recent annual report of the Fund, the most recent financial statements of the Fund, the auditor's report on those financial statements, the PDS and the Constitution for the Fund (including any amendments). Other than the Constitution, these documents may be obtained electronically from [www.eqt.com.au/insto](http://www.eqt.com.au/insto) or [fisherinvestments.com/en-au/funds](http://fisherinvestments.com/en-au/funds).

## Processing cut-off times

The processing cut-off times for applications and redemptions referred to in the PDSs are Australian Eastern Standard Time (Australian EST) and you should take this into account when providing instructions.

## Cooling off rights

No cooling off period applies to units in the Fund as the units offered are only available in Australia to Wholesale Clients and in New Zealand to Wholesale Investors.

# Taxation

## New Zealand resident taxation

If you are a New Zealand resident wishing to invest in Australia, we strongly recommend that you seek independent professional tax advice. New Zealand resident investors will be taxed on their units under the foreign investment fund rules or ordinary tax rules, depending on their circumstances. Australian tax will be withheld at prescribed rates from distributions to non-residents to the extent that the distributions comprise relevant Australian sourced income or gains.

# 1. About Equity Trustees Limited

## The Responsible Entity

### Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888. Today, Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Fisher Investments Australasia Pty Ltd as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

## The Investment Manager

### Fisher Investments Australasia Pty Ltd

Fisher Investments Australasia Pty Ltd ("FIA" or the "Investment Manager") has delegated portfolio management functions to its parent company, Fisher Asset Management, LLC, trading as Fisher Investments ("FI"), a registered investment adviser with the U.S. Securities and Exchange Commission. As of 30 June 2025, FI and its affiliates had more than \$506 billion AUD in assets under management.

# 2. How the FIA Institutional Emerging Markets Equity Fund - A Class works

The Fund is a registered managed investment scheme governed by the Constitution. It comprises assets which are acquired in accordance with its investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator (as defined in the Reference Guide). Unless otherwise stated, the information in this PDS applies to direct investors.

## Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Class is \$25,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Fisher Investments Australasia Unit Registry  
GPO Box 804  
Melbourne VIC 3001

Or email to [fisher.transactions@unitregistry.com.au](mailto:fisher.transactions@unitregistry.com.au)

Please note that cash and cheques cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Class, divided by the number of units on issue in the Class and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.35%.

The Application Price will vary as the market value of assets in the Class rises or falls.

## Making additional investments

You can make additional investments into the Class at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Class is \$5,000.

## Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income annually at 30 June, however, Equity Trustees may change the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Class can indicate a preference to have their distribution:

- reinvested back into the Class; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

New Zealand investors can only have their distribution directly credited if an AUD Australian domiciled bank account is provided, otherwise it must be reinvested (refer to the FIA Institutional Emerging Markets Equity Fund - A Class New Zealand Wholesale Investor Fact Sheet).

## Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Class and mailing it to:

Fisher Investments Australasia Unit Registry  
GPO Box 804

Melbourne VIC 3001

Or email to [fisher.transactions@unitregistry.com.au](mailto:fisher.transactions@unitregistry.com.au)

The minimum withdrawal amount is \$5,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 5 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated AUD denominated and Australian domiciled bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 21 days after acceptance of a request (which may be extended by up to 30 days or longer in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Class, divided by the number of units on issue for the Class and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.35%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Class falls below \$25,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

### Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

### Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

## 3. Benefits of investing in the FIA Institutional Emerging Markets Equity Fund - A Class

### Access to the expertise of FI

As noted above, FIA has delegated portfolio management functions to FI. FI is an independent money management firm, headquartered in the US. The Fisher organisation was founded in 1979 by Ken Fisher. FI is a specialist global, US and emerging markets equity manager with a heritage in managing assets for some of the world's largest institutional and high net worth investors. As of 30 June 2025, FI and its affiliates oversee more than \$506 billion (AUD) in assets for over 186,000 clients globally.

### Unique Investment Approach

FI's philosophical commitment to a top-down investment approach is a key advantage. FI's process begins with a focus on macro decisions at the country and sector/industry level, which can have a disproportionate impact on returns. FI believes its process is uniquely suited for managing global portfolios, in contrast with solely "bottom-up" driven approaches that may leave key sector or country decisions as passive residuals. By actively managing these crucial higher-level decisions, FI seeks to exploit a greater opportunity set for generating outperformance. FI's security selection is specifically designed to leverage its top-down process, directly applying high-level themes from its macro analysis in its security analysis and selection.

### Accessibility to a Global Research Platform

Access to a wide range of global capital market research, market-leading commentary and insights on investments.

### Liquidity

The ability to generally invest in and redeem units in the Fund on a daily basis.

### Reporting

Regular reporting is provided to investors including monthly statements, quarterly investment commentary and annual financial statements (if requested).

## 4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed, and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund or Class is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

### Individual investment risk

Investments to which the Fund is exposed, like shares on a stock exchange, can (and do) fall in value for many reasons, such as changes in an issuer's internal operations or management, or in its business environment.

### Market risk

Economic, technological, political or legal conditions, interest rates and even market sentiment, can (and do) change, and changes in the value of investment markets can affect the value of the investments in the Fund.

### Emerging Markets risk

The Investment Manager or its delegate, on behalf of the Fund, invests in some overseas markets which carry higher than average investment risks and the Fund may have problems or delays in getting its investments back when required.

### Investment Manager risk

The Investment Manager or its delegate can be wound up or liquidated, they can cease to manage the relevant fund and be replaced, their investment methodology can change, they can poorly manage operational risks and their funds can perform poorly. If any of these occurred, Equity Trustees would do all things reasonably practicable to recover the value of the Fund's investments and seek a new investment manager or program, with a similar investment profile, if thought appropriate. If the investment methodology changes significantly, you would be given at least 30 days' notice. Further, only a small number of investment professionals are responsible for managing the Fund and their personal circumstances can change. We aim to reduce this risk by having additional resources available through Equity Trustees.

### Fund risk

Fund risks include that it could terminate (for example, at a date we decide), the fees and expenses could change (although we would always give you at least 30 days' notice if fees were to increase), we could be replaced as responsible entity and our management and staff could change. There is also a risk that investing in the Fund may give different results than investing individually because of income or capital gains accrued in the Fund and the consequences of investment and withdrawal by other investors.

### Liquidity risk

Some of the Fund's investments may be difficult to buy or sell. This might affect the price at which the investments can be sold, which would affect the Fund's value. There are circumstances under which access to your money may be delayed (see Section 2 "How the FIA Institutional Emerging Markets Fund – A Class works" of this PDS).

### Interest rate and capital value risks

This is the risk that interest rates could rise or fall and this may adversely affect the capital value or income of a security.

### Counterparty risk

There is a risk that counterparties to some of the Fund's investments may not perform their obligations and that transactions may not settle.

### Credit risk

There is a risk that any bond investments of the Fund could be defaulted on or downgraded, resulting in a loss.

### Currency risk

The base currency of the Fund is the Australian Dollar. The underlying assets of the Fund may be exposed to significant foreign currency fluctuations. A rise in the Australian dollar may negatively impact investment values and returns for investors or the Fund's investments outside of Australia.

### Regulatory risk

This is the risk that there may be changes in government (including taxation) policies, regulations and laws, or changes in generally accepted accounting policies or valuation methods. Such changes may adversely affect the value or tax treatment of either the Fund itself or investments of the Fund, or the effectiveness of the Fund's trading or investment strategy.

### Pandemic and other unforeseen event risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

### Risks applicable to managed funds generally

Other significant risks relevant to many managed funds include:

- the value of investments will vary;
- the level of returns will vary, and future returns may differ from past returns; and
- as returns are not guaranteed you may lose some of your money.

## 5. How we invest your money

**Warning:** When choosing to invest in the Fund or an option of the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

### Investment objective

The objective of the Fund is to provide a rate of return (after fees and expenses and before taxes) that exceeds the return of the Benchmark.

### Benchmark

MSCI Emerging Markets Index Net Returns (in AUD).

### Minimum suggested time frame

The minimum suggested investment time frame for the Fund is a full market cycle (typically, 5 years+).

### Risk level

Very high.

### Investor suitability

The Fund is designed for investors with at least a five-year investment time horizon, who seek exposure to long-term capital growth opportunities available from emerging market equity investments and are comfortable with fluctuations in capital value in the short to medium term.

### Investment style and approach

The Investment Manager or its delegate, on behalf of the Fund, aims to apply the Fund's investment strategy in order to identify and invest in equities and equity related securities (which may or may not be within the Benchmark) which are expected to provide strong performance relative to other equities and equity-related securities within the Benchmark, thereby helping the Fund to pursue its objective. The investment strategy focuses on three basic elements:

- Country Exposure – identify which countries appear most likely to provide strong performance relative to other countries within the Benchmark;
- Economic Sector Exposure – identify which economic sectors and industries appear most likely to provide strong performance relative to other economic sectors and industries within the Benchmark; and
- Security Selection – Identify the security or group of equities and equity-related securities within a particular country and/or sector which are considered most likely to outperform their peer group.

The Investment Manager or its delegate use a multitude of indicators or “drivers” to determine country and economic sector allocations. The following drivers provide the basis for establishing relative risk and return expectations for categories defined by country and economic sector:

- Economic drivers such as monetary policy, yield curve, and relative GDP growth analysis.
- Political drivers (which have exaggerated importance in emerging markets) such as taxation, governmental stability, and political turnover. In particular, changes in tax systems and regulatory rules can occur rapidly in emerging markets.
- Sentiment drivers that primarily measure consensus thinking to identify what expectations the market is discounting.

This analysis enables the Investment Manager or its delegate to determine what countries and sectors have the highest relative expected return such that the Investment Manager may want more exposure to such countries and sectors than what is represented in the Benchmark, and which have the lowest relative expected return such that the Investment Manager may want the Fund to have less exposure to such countries and sectors than what is represented in the Benchmark.

Once country, sector and other macro themed positions are determined, the Investment Manager or its delegate undertakes fundamental research to ascertain which equities have strategic attributes consistent with the top-down views and competitive advantages relative to their defined peer group. Based on this analysis, the Investment Manager or its delegate selects securities for portfolio inclusion. The Investment Manager or its delegate also applies risk management controls to assess their similarity to the balance of the Fund’s portfolio exposures to identify any unintended sector, country, industry and factor risks as part of the portfolio construction and ongoing monitoring processes.

### Asset allocation

The Investment Manager or its delegate, on behalf of the Fund, will invest primarily in equity securities of issuers domiciled in, or organised under the laws of, the countries that comprise the MSCI Emerging Markets Index. Fund portfolio construction guidelines include (but are not limited to) the following:

- Exposure to individual security positions will generally be limited to approximately 5% greater than the MSCI Emerging Markets Index weight.
- Broad-based security positions will generally be limited to approximately 10% of the Fund at market value.
- Maximum exposure to any one country or sector (sector as defined by MSCI GICS Sector Level I) will be based on the MSCI Emerging Markets Index and generally fall within the following ranges at market value:
  - If the MSCI Emerging Markets Index weight is between 0-10%, the maximum portfolio weight is the MSCI Emerging Markets Index weight plus 20%.
  - If the MSCI Emerging Markets Index weight is greater than 10%, the maximum portfolio weight is three times the MSCI Emerging Markets Index weight.
- Exposure to cash equivalents may generally be held up to a maximum of approximately 20% of the Fund’s market value. The Investment Manager or its delegate has reasonable discretion to allocate and select short-term cash and equivalent securities.
- Notwithstanding the investment limits set forth above, the Fund may invest up to 100% into one or more investment schemes with substantially the same investment objectives.

### Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

### Labour Standards, Environmental, Social and Ethical Factors (“ESG considerations”)

EQT has delegated the investment function (including ESG responsibilities) to the Investment Manager and the Investment Manager has contemplated that ESG considerations may be taken into account in relation to the investment of the Fund.

While Fisher Investments evaluates and integrates environmental, social, and governance (“ESG”) factors at multiple stages throughout the investment process, this Fund is not an ESG fund in the sense that ESG factors are not the primary determinants of how the Fund is invested. At the same time, the Investment Manager or its delegate may take into account labour standards or environmental, social or ethical considerations for the purposes of selecting, retaining or realising investments to the extent that these factors may impact upon the performance of these investments. This Fund also has specific negative screens to avoid direct investment in securities with direct ties to controversial weapons (including, but not limited to, cluster munitions & landmines as defined by a reputable independent third party data provider (the “Data Provider”)), direct ties to nuclear weapons (as defined by the Data Provider), and significant exposure to tobacco (defined as 5% or greater gross revenue by the Data Provider). The Investment Manager’s primary ESG Data Provider is MSCI ESG Research. The Investment Manager relies on information provided by the Data Provider who uses a combination of company disclosures and the Data Provider’s estimates based on a legal entity’s activities and adjusted for parent/subsidiary relationships according to the provider’s methodology. The Investment Manager will also apply screens to ensure the Fund avoids investment in securities from or with ties to the sanctioned countries and entities listed by the Department of Foreign Affairs and Trade (DFAT). The Data Provider appointed by FI is considered by the Investment Manager to be a market leading service provider in the field.

### Fund performance

Up to date information on the performance of the Fund can be made available by emailing the Investment Manager at ~FIAoperations@fisher-investments.com.au or calling +61 1800 118 107 in Australia. A free of charge paper copy of the information will also be available on request.

## 6. Fees and other costs

### DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

### TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC) Moneysmart** website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor’s account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

### Additional Explanation of Fees and Costs

#### Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 1.01% p.a. of the NAV of the Class is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Class quarterly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Class may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Class as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager. The indirect costs and other expenses component is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12-month period.

In relation to the costs that have been estimated, they have been estimated on the basis of relevant information of a similar product offering offered by the Investment Manager.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at [www.eqt.com.au/insto](http://www.eqt.com.au/insto) where they are not otherwise required to be disclosed to investors under law.

## Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Class and are not separately charged to the investor. The Buy Spread is paid into the Class as part of an application and the Sell Spread is left in the Class as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.35% upon entry and 0.35% upon exit. The dollar value of these costs based on an application or a withdrawal of \$25,000 is \$87.5 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and [www.eqt.com.au/insto](http://www.eqt.com.au/insto) will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Class's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Class are 0.06% p.a. of the NAV of the Class, which is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12-month period.

In relation to the costs that have been estimated, they have been estimated on the basis of relevant information of a similar product offering in the market offered by the Investment Manager.

However, actual transaction costs for future years may differ.

## Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2.00% of the GAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

## Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

## Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients or New Zealand Wholesale Investors. Please contact the Investment Manager on +61 1800 118 107 for further information.

## Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – FIA Institutional Emerging Markets Equity Fund - A Class		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
<b>Plus</b> Management fees and costs	1.01% p.a.	<b>And</b> , for every \$50,000 you have in the FIA Institutional Emerging Markets Equity Fund - A Class you will be charged or have deducted from your investment \$505 each year
<b>Plus</b> Performance fees	Not applicable	<b>And</b> , you will be charged or have deducted from your investment \$0 in performance fees each year
<b>Plus</b> Transaction costs	0.06% p.a.	<b>And</b> , you will be charged or have deducted from your investment \$30 in transaction costs
<b>Equals</b> Cost of FIA Institutional Emerging Markets Equity Fund - A Class		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$535* <b>What it costs you will depend on the investment option you choose and the fees you negotiate.</b>

\* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

**Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.**

ASIC provides a fee calculator on [www.moneysmart.gov.au](http://www.moneysmart.gov.au), which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

## 7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

## WHOLESALE INVESTOR CERTIFICATION

(Clause 44 of Schedule 1 of the Financial Markets Conduct Act 2013 (FMCA))

### WARNING

New Zealand law normally requires people who offer financial products to give information to investors before they invest. This information is designed to help investors make an informed decision.

If you are a wholesale investor, the usual rules do not apply to offers of financial products made to you. As a result, you may not receive a complete and balanced set of information. You will also have fewer other legal protections for these investments.

Ask questions, read all documents carefully, and seek independent financial advice before committing yourself.

### OFFENCE

It is an offence to give a certificate knowing that it is false or misleading in a material particular. The offence has a penalty of a fine not exceeding \$50,000.

### THE OFFER

Units in the Fund/Trust are offered and issued to investors by Equity Trustees Limited (Equity Trustees), with an Investment Manager appointed in respect of the Fund.

Offers of units in the Fund in New Zealand are limited to wholesale investors within the meaning of clause 3(2) of Schedule 1 of the Financial Markets Conduct Act 2013 (FMCA).

In order to access units in the Fund/Trust, please review the PDS/IM and relevant New Zealand Wholesale Investor Fact Sheet or Investors Selling Restriction in the PDS/IM, read this form, select the type(s) of wholesale investor criteria that apply to you, and complete the certification below.

If you have any queries in relation to the Fund, please contact Equity Trustees at +61 3 8623 5000. Any queries in relation to your wholesale investor certification should be directed to Equity Trustees' Product Team at [productteam@egt.com.au](mailto:productteam@egt.com.au).
