1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Foord Asset Management (Singapore) Pte. Limited as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Foord Asset Management (Singapore) Pte. Limited

Foord Asset Management (Singapore) Pte. Limited ("Foord" or "Investment Manager") is an owner-managed boutique built on the principles of investment stewardship. Established in 2012, Foord holds a capital market services licence in fund management granted by the Monetary Authority of Singapore. More information about Foord Group is available at www.foord.com.

2. How the Foord Global Equity Australian Feeder Fund works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Fund is \$1,000,000, which may be waived at the Responsible Entity's discretion.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Apex Fund Services Pty Ltd
Client Services Registry Team
GPO Box 4968
Sydney NSW 2001

Please note that cash cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.15%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$100,000.

Distributions

The Fund will invest exclusively in Foord Global Equity Fund (Luxembourg) ("Master Fund"), a sub-fund to Foord SICAV, whose portfolio comprises primarily diversified global equities. The Fund will subscribe for the Master Fund's capital-accumulation share class which does not intend to make regular distributions. Accordingly, investors wishing to obtain distributions will need to redeem/ withdraw their units.

Distributable income (if any) is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period. Equity Trustees may change the distribution frequency without notice. Distributions (if any) are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Noting that regular distributions are not expected, distributions (if any) will automatically be reinvested unless otherwise instructed by the investors in the Fund. There is no Buy Spread on distributions that are reinvested.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Apex Fund Services Pty Ltd
Client Services Registry Team
GPO Box 4968
Sydney NSW 2001

Or sending it by fax to +61 2 9251 3525

The minimum withdrawal amount is \$10,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 5 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated AUD denominated Australian domiciled bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 21 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.15%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$1,000,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the Foord Global Equity Australian Feeder Fund

Significant features and benefits

Please consider whether the characteristics of the Fund below suit your investment needs and risk profile. When in doubt, please seek professional advice on investment suitability before investing.

Multiple-counsellor investment approach

Foord implements a multiple-counsellor process, which divides the portfolio between two or more portfolio managers. Each multi-counsellor manager is fully responsible for investment decisions on his/ her sleeve of portfolio. The Chief Investment Officer is responsible for adding and removing of counsellors and annually varying their weightings based on performance and capacity. The emphasis on individual decision making within a team environment is premised on our belief that, for the most part, individuals produce better results than teams: Committees tend to dilute investment ability because the right decision is unlikely to meet with consensus approval. Individual authority and accountability results in swift decisions, keeping distance between the seed of a good investment idea and its implementation as short as possible.

Benchmark agnostic and high conviction

Foord is a fundamental earnings house that takes long-term views and patiently waits for prices to follow earnings. Foord does not trade on market sentiment. Foord is benchmark agnostic. Foord is confidently different from peers and may take sizable off-benchmark positions in businesses that offer asymmetric risk-reward to protect investor capital and deliver a safe investment yield.

Foord constructs portfolios based on rigorous fundamental research, high conviction ideas and an adaptable, value-driven investment policy.

Pervasive management of risk

Foord defines risk as the probability of permanently losing capital and not being able to make the returns required to satisfy the long-term saving objectives. At Foord, investment management is about managing risk. Central to our philosophy is the preservation of capital through the cycle. Foord believes that minimizing the permanent loss of capital is paramount to generating superior long-term returns.

Access to global equities at a reasonable cost

The Fund offers the opportunity for Australian investors to access to global equities and diversify their investment portfolio beyond equities traded in Australia at an investment management fee which Foord considers to be reasonable.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed, and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Investments may fall in value due to the materialisation of risks which include but not limited to the risks set out below. These risks apply to both the Fund and the Master Fund. Investors may refer to the Master Fund's prospectus for more details.

Market and credit risk

The value of investments and the income derived therefrom may rise or fall. The value of investments may be affected by uncertainties such as international, political and economic developments or changes in government policies. An issuer may fail to repay or make payments. An issuer suffering an adverse change in its credit quality could lead to greater price volatility of the security. A lowering of the credit rating of a security may also affect the security's liquidity, making it more difficult to sell.

Liquidity risk

The Fund is exposed to the risk that an investment or position cannot be easily unwound or offset due to insufficient market depth or market disruption. Investment in less liquid securities may reduce the returns of the Fund because it may be unable to sell them quickly, easily or at an advantageous time or price. Some securities or instruments are less liquid because of fewer buyers. Investments in securities with substantial market and/or credit risk tend to have the greatest exposure to liquidity risk. Illiquid securities may be highly volatile and difficult to value.

Further, there is no secondary market for the Fund. All withdrawal requests should be made through the Responsible Entity's appointed agent or IDPS Operator.

Foreign exchange risk

The Master Fund's base currency is United State Dollars (USD), but its underlying assets and liabilities may be denominated in other foreign currencies. Fluctuations in currency exchange rate may also influence the assets and income of the Master Fund. Exchange rates between currencies are determined by supply and demand in the currency exchange markets, the international balance of payments, government intervention, speculation and other economic and political conditions. The Investment Manager does not intend to hedge against the foreign currency exposure.

Derivatives risk

The Master Fund may use listed financial derivative instruments ("FDI"), on prudent basis, to protect the fund against adverse currency or security price movements. Investment in FDI entail additional risks. The price of a FDI can be volatile as it may not completely correlate with their underlying security, interest rate, profit rate, currency or index. A small movement in the price of the underlying security, index, interest rate, profit rate or currency may result in a substantial movement in the price of FDI.

Pandemic and other unforeseen event risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

Cyber risk

There is a risk of fraud, data loss, business disruption or damage to the information of the Fund, the Master Fund or to investors' personal information as a result of a threat or a failure to protect the personal data or information stored within the IT systems and networks of the Equity Trustees or other service providers.

Counterparty risk

Losses can be incurred if a counterparty (such as an agent of Equity Trustee or the Master Fund) defaults on their contractual obligations or experiences financial difficulty.

5. How we invest your money

Warning: When choosing to invest in the Fund or an option of the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Fund aims to achieve optimum risk adjusted return by investing exclusively in the Master Fund, which primarily invest in a diversified portfolio of global equities. The Master Fund aims to achieve a higher total rate of return than the MSCI All Country World Net Total Return Index ("the Benchmark") over a full market cycle, after fees, without assuming greater risk.

The investment objective is not intended to be a forecast. It is merely an indication of what the Fund aims to achieve over a full market cycle on the assumption that equity markets remain relative stable throughout the investment period. The Fund may not be successful in meeting this objective. Returns are not guaranteed.

Benchmark

MSCI All Country World Net Total Return (AUD) Index

Minimum suggested time frame

5 years

Risk level

Medium to High

Investor suitability

The Fund is suitable for investors who seek long-term capital growth and are able to withstand investment volatility in short to medium term.

Investment style and approach

The Fund will be invested exclusively in the Master Fund, which will invest primarily in a diversified portfolio of global equities.

The Master Fund is actively managed in reference to the Benchmark but not constrained by this Benchmark in its portfolio positioning. The Investment Manager actively decides on the portfolio's regional allocation, sector views and overall level of exposure to the market in order to take advantage of investment opportunities. Accordingly, the portfolio composition may substantially deviate from the benchmark.

The Master Fund may also invest in money markets instruments or other instruments to either manage risks or enhance returns. Further, the Master Fund may use or invest in selected FDI such as futures and options to protect itself against adverse currency or price movements (technique known as "hedging") or for efficient portfolio management.

The Master Fund will have an orientation towards fundamental analysis and maintain a long-term investment horizon. A high total return approach without, in the opinion of the Investment Manager, undue risk to the principal will be emphasised. The investment process emphasises on stock selection through in-depth fundamental analysis.

Asset allocation

The Master Fund's asset allocation to equities typically ranges between 90 and 100 per cent with the remaining held in cash and cash equivalent and money market funds.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour Standards, Environmental, Social and Ethical Factors ("ESG considerations")

Foord integrates sustainability risks in its risk management process.

The enduring sustainability of income streams is fundamental to the Foord's investment philosophy. Sustainability factors are considered in the Investment Manager's formal macro view, economic and earnings forecasts, probability analysis and top-down asset allocation. Sustainability factors are also used as a subjective measure to rank attractively priced companies or when evaluating management of investee companies. As sustainability factors may have an adverse impact on the income streams, careful consideration of these factors before investment is instrumental in shaping the Investment Manager's view of the long term sustainability and longevity of investee businesses. Foord therefore integrates sustainability risk assessments into its investment decision-making process as set out more fully in the sustainable investment policy available on www.foord.com, but does not specifically prohibit investment in any given sector or industry. The integration may vary depending on the fund strategy, assets and portfolio composition. Foord believes sustainability risks should have a moderate impact on the value of the Master Fund's investments on a three to five-year time horizon.

Fund performance

Up to date information on the performance of the Fund will be available online at www.eqt.com.au/insto or www.foord.com, or by emailing investments@foord.com. Past performance is not necessarily a guide to future performance.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.16% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 1.04% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests (i.e. the Master Fund). The indirect costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager. The indirect costs and other expenses component is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12 month period.

In relation to the costs that have been estimated, they have been estimated on the basis of information that has been provided by an interposed vehicle and adjusted for our calculations.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees’ website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.15% upon entry and 0.15% upon exit. The dollar value of these costs based on an application or a withdrawal of \$1,000,000, which may be waived at the Responsible Entity’s discretion is \$1,500 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and investments@foord.com will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Fund’s assets and are reflected in the Fund’s unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.10% p.a. of the NAV of the Fund, which is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12 month period.

In relation to the costs that have been estimated, they have been estimated on the basis of information that has been provided by an interposed vehicle and adjusted for our calculations.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2.00% of the GAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days’ notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact the Investment Manager on +65 6521 1100 for further information.

Equals Cost of Foord Global Equity Australian Feeder Fund		If you had an investment of \$1,050,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$13,650* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$1,050,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the “Fees and other costs” section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto or investments@foord.com. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust (“AMIT”) and the choice is effective for the income year, are attributed to them.

Further reading

You should read the important information in the Reference Guide about Taxation under the “Other important information” section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto or investments@foord.com. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Apex Fund Services Pty Ltd
Client Services Registry Team
GPO Box 4968
Sydney NSW 2001

Please note that cash cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the ‘About this PDS’ section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by their IDPS Operator.

Cooling off period

No cooling off period applies to the offer made in this PDS, as the units offered under this PDS are only available to Wholesale Clients.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor’s investment in relation to the Fund and any rights an Indirect Investor may have in this regard.

***Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)**

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must only provide an ABN instead of a TFN when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption, we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements.

For more information about the use of TFNs for investments, contact the enquiries section of your local branch of the ATO. Once provided, your TFN will be applied automatically to any future investments in the Fund/Trust where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.
