2. Who is managing the Fund

The Trustee

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL No. 240975 ("Equity Trustees"), a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's Trustee and issuer of this IM. Equity Trustees was established in 1888, by an Act of the Victorian Parliament, to provide trustee and executor services.

In addition to traditional trustee and estate management duties, the Equity Trustees range of services includes portfolio management, superannuation, philanthropy and responsible entity services for external fund managers.

Equity Trustees' responsibilities and obligations as the trustee of the Fund are governed by the Fund's Constitution as well as the Corporations Act and general trust law.

The Investment Manager

Juddcorp Pty Ltd

Juddcorp Pty Ltd has been appointed investment manager of the Fund. Juddcorp is an Australian private company created in 2019 to house Chris Judd Invest which produces finance media content. The investment manager of the Cerutti Macro Fund will be Juddcorp Pty Ltd. Lauren Luu is in charge of managing the operations of Chris Judd Invest while Chris Judd and Tom Galanti are focused on the Cerutti Macro Fund.

Juddcorp has been appointed corporate authorised representative (no 1300536) of Boutique Capital Pty Ltd, AFSL holder No. 508011 and is authorised to act as investment manager to the Fund.

The key personnel of the manager are:

Chris Judd

Chris was a professional AFL football player for 14 years before becoming an analyst for a Venture Capital fund. He has since operated as a private investor, where he has successfully capitalised on his keen macro insights since 2015.

The Cerutti Macro Fund serves as an extension to the investing framework Chris has been using in a private capacity since 2015.

He served on the Boards of Jagged between 2016-2019 and Carlton FC between 2017-2021.

Thomas Galanti

Thomas began his career as an Equity Research Analyst in Equity Capital Markets (ECM) at a boutique Investment Advisory firm, shortly before joining Chris as his in-house Analyst. He has since run in-depth equity and industry research for Chris's portfolio.

Thomas holds a Bachelor of Commerce degree with majors in Economics and Finance from the University of Melbourne.

The Administrator & Custodian

Apex Fund Services (Australia) Pty Ltd

The Trustee has appointed Apex Fund Services (Australia) Pty Ltd to act as administrator for the Fund. In such capacity, the Administrator performs all general administrative tasks for the Fund, including keeping financial books and records and calculating the Net Asset Value of the Fund.

The Investment Manager may at any time, in consultation with the Trustee, select any other administrator to serve as administrator to the Fund.

3. About the Fund Investments

Structure

The Fund is an unlisted and unregistered unit trust.

Wholesale Investment

An investment in units in the Fund (Units) is only available for persons who qualify as wholesale clients (as defined in section 761G(7) of the Act) or sophisticated investors (as defined in section 761GA of the Act), (collectively, Qualifying Investors). The Trustee will not issue Units in the Fund to a person unless it is satisfied the person is a Qualifying Investor.

Portfolio

It is proposed that the portfolio will be a high conviction portfolio ranging from 15-40 positions in Australian and international equities, allowing the Investment Manager to scale between high/low concentration allocations depending on market conditions. The investment framework begins with identifying macro trends that are long-term and secular in nature (specifically, trends which can exist through multiple business cycles). Some of these themes include the clean energy transition and the commodities it requires, historically high sovereign debt levels vs GDP, underinvestment in oil exploration, ageing demographics in the Western world, and increased defence spending. The Investment Manager does not take into account environmental, social or ethical considerations when selecting or realising the trust's investments. Next, an analysis of the broader business cycle is undertaken, and global liquidity conditions are assessed. Lastly, rigorous bottom-up analysis is completed to identify the companies that are assessed as offering optimal buying opportunities having regard to the Fund's overall strategy.

Portfolio construction

Portfolio construction will vary depending on the broader economic conditions and general global liquidity. Equities will be grouped into 'offensive', 'neutral' and 'defensive' groups, with cash is seen by the Investment Manager as an option for future opportunities.

- Offensive positions will be those that are expected to perform well during periods of strong economic growth or above average liquidity conditions such as those provided by central bank monetary stimulus. Some of these sectors include mining, energy, technology, and discretionary consumer.
- Neutral positions are ones that could be expected to perform well during a regular economic and interest rate environment. These sectors include financials, industrials and mining.
- Defensive positions are those less reliant on positive, broader economic conditions like healthcare, food production, non-discretionary consumer, defence and gold.

During times of slow (or negative) 'M2 growth', the Investment Manager will look to skew investments towards more defensive positions and increase cash levels to exploit future opportunities. During periods of tight liquidity, the Investment Manager will consider higher investment in companies that would be classed as "value" opportunities or low PE (price earning) stocks.

Conversely when M2 is growing strongly (particularly if the cause of M2 growth is central bank stimulus) the Investment Manager may consider higher levels of investment in stocks that would be considered "growth" opportunities due to their higher PE and higher growth potential.

The portfolio is forward looking and will constantly monitor prevailing liquidity conditions, individual stocks and what is already in the price of any potential investment.

Investment Universe

- ASX listed equities, international listed equities and up to 10% of FUM in private/pre-IPO opportunities.
- High conviction portfolio generally ranging between 15-40 positions in Australian and international equities.

Objective of the Fund

The Fund's objective is to grow investor capital over the long term.

Why invest in the Fund?

Information

As information sources around the globe have become more concentrated, the Investment Manager thinks the breadth of consensus views has shrunk. Sitting outside of consensus carries an asymmetric risk for many fiduciaries who face the risk of both financial loss and job risk if a decision proves to be erroneous, particularly if the loss is resulting from a non-consensus view.

The Investment Manager seeks to invest in opportunities with asymmetric upside potential. Specifically, the Investment Manager looks for opportunities in long term secular trends which are often known, but still underappreciated, or the 2nd and 3rd order effects of long-term secular trends which fewer people are talking about.

Importantly, the Investment Manager is small enough to quickly assess opportunities which will allow the Fund to move in and out of positions more nimbly than many of its counterparts.

Director Chris Judd of Juddcorp, has seeded the Fund from his own capital showing that the Investment Manager's interests are aligned with other unit holders.

Specialised Investments Area

The Investment Manager is a 'generalist investor' by nature but is guided by its macro-economic research and its ability to pick long term secular trends that are often underappreciated by the market.

Investment Parameters of the Fund

Portfolio Parameters

The Cerutti Macro Fund will be invested in:

- ASX listed equities which may include listed options
- Global listed equities
- Private/Pre IPO opportunities (up to a maximum of 10% of FUM)
- Cash (intended to be up to a maximum of 50% of FUM)

There will be a bias towards holding ASX stocks but no definitive % split between ASX and international listed equities.

Market capitalisation of companies invested in will be wide ranging, depending on broad market liquidity conditions.

*Private/Pre IPO positions will be valued when Private/Pre IPO is initiated.

4. Principal risks

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. You should consider the significant risks below when deciding whether to invest in the Fund. You may want to consider these risks in light of your risk profile. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

You may lose money by investing in the Fund and your investment in the Fund may not meet your objectives. You may not see a return on your investment and you may lose some or all of your capital. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may also change in the future.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial advice, you should contact a licensed financial adviser.

Investment risk

All investments carry risk. Generally, investments with higher expected returns also carry higher levels of risk. Investing in the Fund carries risk. There is no guarantee that the Fund will achieve its investment objective. You may lose some or all of your investment.

Concentration risk

Concentration risk is the risk that poor performance in a particular market or of a particular asset (for example, a currency position) may significantly affect the Fund. Generally, the fewer positions to which the Fund is exposed, the greater the overall volatility of the Fund. This may result in large movements in the Unit price of the Fund within a short period of time.

Market risk

The performance of the Fund will be affected by the performance of investment markets generally. The value of investments may go up or down in line with market movements. You may lose money on your investment in the Fund due to decreases in the price of securities held by the Fund or periods of below-average performance in a specific security or in the securities market as a whole.

Key person risk

The Director of the Investment Manager, Mr. Judd, primarily performs investment management related activities. The Fund's performance depends largely on his expertise and investment decisions. Mr. Judd has seeded the Fund with his own investments as a commitment to the Fund. To manage this risk, an investment committee has been established, and Mr. Judd and Mr. Galant (internal investment committee members) have committed to maintaining up to date knowledge of various market factors through a review of fundamental data whilst also conducting ongoing research. This information is then taken into consideration when making investment management decisions.

Service provider risk

Service provider risk is that the various parties involved in the operation of the Fund, including the trustee, brokerage provider, or other underlying agents fail to perform their obligations. This may affect the value of your investment in the Fund. This risk is mitigated (but not eliminated) by undertaking

due diligence on all third-party service providers to the Fund and using third party service providers who are well regarded in the Australian or their respective overseas markets.

Regulatory risk

Regulatory risk is the risk that regulatory or taxation changes introduced by a government or regulator, may affect the value of investments of the Fund. These changes may occur in Australia or other countries in which the Fund invests and include changes in government policies (including taxation), regulations and laws or changes in generally accepted accounting policies or valuation methods.

Fund and taxation risk

Investing in a pooled investment vehicle like the Fund is not the same as investing directly in its underlying assets which may have tax consequences for Unit Holders. For example, there is a risk that investing in the Fund may give different results than investing directly in the assets because of income or capital gains accrued in the Fund and the consequences of redemption by other Unitholders. The Taxation Considerations in the Additional Information section below contains more information on this subject.

Foreign exchange risk

The Fund may trade in offshore markets and therefore may be exposed to the risk of exchange rate movements as well as its underlying investment performance.

Liquidity risk

Liquidity risk is the risk that if the Fund invests in assets that cannot be readily bought and sold at an acceptable price and within a generally acceptable timeframe, it may not be able to sell sufficient assets to pay redemptions. If this occurs, it may be necessary for the Fund to suspend redemptions to allow sufficient time to liquidate the assets required to meet redemptions.

Operational risk

It is important that the directors maintain systems and practices that ensure investment operations run smoothly and accurately. Failures in this area can lead to losses due to such things as incorrect trade settlements, incorrect payment instructions or poorly defined documentation. This risk is mitigated (but not eliminated) by regularly reviewing systems, processes and practices and performing due diligence on any third party to which any of the core operational functions are outsourced.

Leverage risk

The use of leverage can substantially enhance the performance of the Fund. Conversely, the use of leverage runs the risk of losing a larger proportion of the of the equity component of a particular investment in the event of adverse price movements. The use of leverage tends to lead to higher volatility in unit price movements.

While the Fund is permitted to use leverage, the Fund is not expected to use substantial leverage as a routine part of its own operations.

Withdrawal of offer risk

The Trustee reserves the right not to proceed with all or any part of the Offer at any time before the issue of the Units. If the Offer does not proceed, the Trustee will return all application monies,

without interest, as soon as practicable after giving notice of its withdrawal. The Fund is not obliged to accept every investor that applies for units and has discretion over whom will be accepted as an investor.

Pandemic and other unforeseen event risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's

investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

Low cash position risk

If the Fund has a low cash balance this could hamper or delay the ability of the Fund to pay distributions to Unitholders.

This is not an exhaustive list and there may be additional risks which arise. The directors take risk management very seriously and endeavours to keep abreast of developments or new entrant risks that may arise.

5. Investing in the Fund

Authorised Investments

The Fund can only invest in assets permitted by the Constitution.

Valuations

The Net Asset Value of the Fund will be determined at the end of each month. The value of listed securities will be the closing price on the last business day of each month. Unlisted investments will be valued by the Investment Manager in accordance with generally accepted valuation principles, as determined by the Investment Manager from time to time and the Constitution. All values will be in Australian Dollars.

As a result, delays in processing your application may occur.

Equity Trustees, at the recommendation of the Investment Manager, reserves the right to refuse any application without giving a reason. If for any reason Equity Trustees or the Administrator refuses or is unable to process your application to invest in the Fund, the Administrator will return your application money to you, subject to regulatory considerations, less any taxes or bank fees in connection with the application. You will not be entitled to any interest on your application money in this circumstance.

Withdrawals

Equity Trustees must be notified in writing by giving at least 20 days' notice of a withdrawal. Withdrawal request must be received 5 days before the end of the month (Withdrawal Cut-off Date). All withdrawals will be processed using the month end Unit price.

The minimum withdrawal is \$25,000, which may in certain circumstances be waived by the Trustee at the recommendation of the Investment Manager (or the total of a Unitholder's entire holding, if less). Equity Trustees is unable to accede to a withdrawal request if the Fund is not liquid however, it will make reasonable endeavours to pay the withdrawal as soon as is reasonably practicable without materially adversely impacting remaining Unitholders.

The Constitution allows Equity Trustees to reject withdrawal requests and to delay withdrawals in certain circumstances, including where it is not in the best interests of the Fund, its members or where there is insufficient funds (as determined by the Investment Manager) to meet the Withdrawal request(s).

The Withdrawal Price is calculated as follows:

Net Asset Value divided by Number of Units, - (minus) Transaction Costs

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below an amount determined by Equity Trustees or the Investment Manager (with the approval of Equity Trustees), as a result of processing your withdrawal request.

Income Distributions

A Unitholder's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of Units held by the Unitholder at the end of the distribution period.

The Fund usually distributes income annually at the end of June. Distributions are calculated on the last day of the period and are normally paid to Unitholders as soon as practicable after the distribution calculation date.

Unitholders can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their nominated Australian domiciled bank account.

Unitholders who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received prior to the next valuation time after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, an investor's withdrawal proceeds may be taken to include a component of distributable income.

Reporting

Unitholders will receive the NAV of the Fund on a weekly basis, monthly performance reviews and yearly audited reports.

Rights and Liabilities of Unitholders

Rights of the Unitholders are governed by the Constitution. The Constitution provides that the liability of Unitholders is limited to the assets of the Fund.

6. Fees and other costs

Management Fee

The Management Fees are 1.20% p.a. (including GST and net of RITC) of the Net Asset Value of the Fund and are reflected in the Unit price of the Fund.

Management Fees include the Trustee's fees and other ordinary expense recoveries related to the establishment and operation of the Fund. The Management Fees do not include Other Operating Costs (defined below) or Abnormal Expenses (defined below), which may also be charged to the Fund. Management Fees are paid in arrears from the assets of the Fund within 14 days of the end of each month.

Performance Fee

In addition to the Management Fees, the Investment Manager is entitled to a Performance Fee of 20% p.a. (including GST and net of RITC) of outperformance of the of the Benchmark. The Benchmark is the highest increase (expressed as a percentage) in the S&P ASX Small Ordinaries Accumulation Index (after fees and costs) since payment of the last Performance Fee (or where none has been paid, 0%).

Payment of the Performance Fee is subject to a High Watermark. The High Watermark is the highest NAV per Unit immediately after payment of a Performance Fee (adjusted to reflect the payment of any Distribution so that the Investment Manager is not disadvantaged), or if none has been paid, \$1.00.

The Performance Fee is calculated and accrued monthly (Performance Period) and any Performance Fee is payable annually at the end of each financial year as an expense of the Fund.

Example calculation of Performance Fee

Below is a theoretical example of a Performance Fee based on an Investor with a \$100,000 investment in the Fund. The example assumes no subscriptions, redemptions or distributions have been made and no previous periods of underperformance need to be caught up. NAV at the beginning of the period is \$100,000. Please note that this is just an example and should not be taken as an indication or guarantee of future performance. For the Performance Period (monthly), we assume that:

- After payment of Management Fees and expenses, the Net Asset Value increased from \$100,000 to \$105,000 (namely 5%);
- The S&P/ASX Small Ords Accumulation Index increased during this period by 4% (the Benchmark).

Therefore:

- Fund performance return $\ast = \$100,000 \times 5\% = \$5,000$
- S&P/ASX Small Ords Accumulation Index return $= \$100,000 \times \text{the Benchmark (4\%)} = \$4,000$
- Outperformance $= \$5,000 - \$4,000 = \$1,000$ Performance Fee $= \$1,000 \times 20\% = \200
- In this case, the investor pays \$200 in Performance Fees on a return of \$5,000

- New High Watermark is \$105,000
- Benchmark is re-set to 0%

Further information regarding fees and other costs

What do the management costs pay for?

Differential fees

From time to time the Investment Manager may negotiate fees that differ from those above. This will generally relate to the size of your investment in the Fund. Please contact Juddcorp if you wish to discuss the fees that may apply to your investment.

Other operating costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. This generally happens when the assets of a fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of a fund.

All government taxes such as stamp duty and GST will be deducted from the Fund as appropriate. RITCs will also be claimed by the Fund where appropriate to reduce the cost of GST to the Fund.

Transaction costs

The Transaction Costs reflects the estimated transaction costs associated with buying and selling the assets of the Fund when Unitholders invest in, or redeem from, the Fund. The Transaction Costs are an additional cost to the Unitholder but is included in the Application Price or Withdrawal Price and incurred when a Unitholder invests in or redeems Units from the Fund.

The Transaction Costs are paid into the Fund and not retained by Equity Trustees or the Investment Manager. At the date of this IM, the Buy/Sell Spread for the Fund is 0.3%/-0.3%.

Abnormal expenses

In addition to the Management Fees and Other Operating Costs recovery, the Trustee y may additionally recover abnormal expenses (such as the costs of Unitholders' meetings, legal advice/proceedings and other irregular expenses). The Constitution does not place any limit on the amount of the abnormal expenses that can be paid from the Fund.

Can the fees change?

All fees can change on 30 days' notice, without Unitholder consent, subject to the maximum fee amounts specified in the Constitution of the Fund. Reasons might include changing economic conditions and changes in regulation. Equity Trustees have the right to recover all proper expenses incurred in managing the Fund and as such these expenses may increase or decrease accordingly. We will notify Unitholders of any changes to fees and expenses in accordance with the law and the Constitution. The Constitution in some circumstances defines the maximum fees that can be charged for some fees described in this IM.

7. Other Important Information

Cooling off period

No cooling off period applies to Units offered under this IM.

Unitholder's liability

The Constitution for the Fund provides that unless there is a separate agreement with a Unitholder, no Unitholder can be called on to contribute to the assets of the Fund or to its creditors if the Fund is liquidated or becomes insolvent. Therefore, it is expected that Unitholders will not be under any obligation if a deficiency in the assets of the Fund was to occur. However, this view has not been fully tested and so it is not possible to give an absolute assurance that a Unitholder's liability will be limited in all circumstances.

In general, the liability of a Unitholder is limited to the amount (if any) which remains unpaid in relation to their subscription for units and certain amounts in respect of tax. The Trustee is permitted to deduct certain amounts owed to the Trustee from amounts payable to Unitholders.

Non-listing of Units

The units of the Fund are not listed on any stock exchange and no application will be made to list the units of the Fund on any stock exchange.

Termination of the Fund

The Trustee may resolve at any time to terminate, liquidate and wind up the Fund in accordance with the Fund's Constitution. The Fund may otherwise terminate if required by law. A notice will be provided to Unitholders advising of the Fund's termination. Upon termination and after conversion of Fund assets into cash and payment of, or provision for, all costs and liabilities (actual and anticipated), the net proceeds will be distributed pro-rata amongst all Unitholders according to the number of units they hold in the Fund..

Joint Account Operation

For joint accounts, unless indicated to the contrary on the Application Form, each signatory must sign withdrawal requests. Please ensure all signatories sign the declaration in the Application Form. Joint accounts will be held as joint tenants unless we are advised to the contrary in writing.

Appointment of Authorised Nominee to Operate Account

You can appoint a person, partnership or company as your authorised signatory. To do so, please nominate them on the initial Application Form and have them sign the relevant sections. If a company is appointed, the powers extend to any director and officer of the company. If a partnership is appointed, the powers extend to all partners. Such appointments will only be cancelled or changed once we receive written instructions from you to do so.

Once appointed, your authorised signatory has full access to operate your investment account for and on your behalf. This includes the following:

- making additional investments;
- requesting income distribution instructions to be changed;
- withdrawing all or part of your investment;
- changing bank account details;
- enquiring and obtaining copies of the status of your investment; and
- having online account access to your investment.

If you do appoint an authorised signatory:

- you are bound by their acts;
- you release, discharge and indemnify us from and against any losses, liabilities, actions, proceedings, account claims and demands arising from instructions received from your authorised representatives; and
- you agree that any instructions received from your authorised representative shall be complete satisfaction of our obligations, even if the instructions were made without your knowledge or authority.

Electronic Instructions

If an investor instructs Equity Trustees by electronic means, such as facsimile, email or via the internet the investor releases Equity Trustees from and indemnifies Equity Trustees against, all losses and liabilities arising from any payment or action Equity Trustees makes based on any instruction (even if not genuine):

- that Equity Trustees receives by an electronic communication bearing the investor's investor code; and
- which appears to indicate to Equity Trustees that the communication has been provided by the investor (for example, it has a signature which is apparently the investor's or an authorised signatory's or it has an email address which is apparently the investor's).

The investor agrees that neither the investor nor anyone claiming through the investor has any claim against Equity Trustees or the Fund in relation to such payments or actions.

There is a risk that a fraudulent withdrawal request can be made by someone who has access to an investor's investor code and a copy of their signature or email address. Please take care.

Constitution of the Fund

You will be issued Units in the Fund when you invest. Each Unit represents an equal undivided fractional beneficial interest in the assets of the Fund as a whole subject to liabilities but does not give you an interest in any particular property of the Fund.

Equity Trustees' responsibilities and obligations, as trustee of the Fund, are governed by the Constitution as well as the Corporations Act and general trust law. The Constitution contains a number of provisions relating to the rights, terms, conditions and obligations imposed on both Equity Trustees, as the trustee of the Fund, and Unitholders. Some of the provisions of the Constitution are discussed elsewhere in this IM.

Other provisions relate to an investor's rights under the Constitution, and include:

- an investor's right to share in any Fund income, and how we calculate it;
- what you are entitled to receive when you withdraw or if the Fund is wound up;
- an investor's right to withdraw from the Fund - subject to the times when we can cease processing withdrawals, such as if the Fund becomes 'illiquid';
- the nature of the Units - identical rights attach to all Units; and
- an investor's rights to attend and vote at meetings – these provisions are mainly contained in the Corporations Act.

There are also provisions governing our powers and duties, including:

- how we calculate Unit prices, the maximum amount of fees that may be charged and expenses that are recoverable;
- when we can amend the Constitution - generally we can only amend the Constitution where we reasonably believe

that the changes will not adversely affect Unitholders' rights. Otherwise the Constitution can only be amended if approved at a meeting of Unitholders;

- when we can retire as Trustee of the Fund;
- when we can be removed as Trustee by the Unitholders; and
- our broad powers to invest, borrow and generally manage the Fund.

The Constitution also deals with our liabilities in relation to the Fund and when we can be reimbursed out of the Fund's assets.

For example:

- subject to the Corporations Act we are not liable for acting in reliance and good faith on professional advice;
- subject to the Corporations Act we are not liable for any loss unless we fail to act in good faith or we act negligently; and
- we can be reimbursed for any liabilities we incur in connection with the proper performance of our powers and duties in respect of the Fund.

As mentioned above, Equity Trustees' responsibilities and obligations as Trustee of the Fund are governed by the Constitution of the Fund, the Corporations Act and general trust law, which require that we:

- act in the best interests of Unitholders and, if there is a conflict between Unitholders' interests and our own, give priority to Unitholders;
- ensure the property of the Fund is clearly identified, held separately from other funds and our assets, and is valued regularly; and
- ensure payments from the Fund's property are made in accordance with the Constitution.

Copies of the Constitution are available, free of charge, on request from Equity Trustees.

Information on underlying investments

Information regarding the underlying investments of the Fund will be provided to a Unitholder in the Fund on request, to the extent Equity Trustees is satisfied that such information is required to enable the Unitholder to comply with its statutory reporting obligations. This information will be supplied within a reasonable timeframe having regard to these obligations.

Foreign Account Tax Compliance Act ("FATCA")

In April 2014, the Australian Government signed an intergovernmental agreement ("IGA") with the United States of America ("U.S."), which requires all Australian financial institutions to comply with the FATCA Act enacted by the U.S. in 2010.

Under FATCA, Australian financial institutions are required to collect and review their information to identify U.S. residents that invest in assets through non-U.S. entities. This information is reported to the Australian Taxation Office ("ATO"). The ATO may then pass that information onto the U.S. Internal Revenue Service.

In order to comply with the FATCA obligations, we may request certain information from you. Failure to comply with FATCA obligations may result in the Fund, to the extent relevant, being subject to a 30% withholding tax on payment of U.S. income or gross proceeds from the sale of certain U.S. investments. If the Fund suffers any amount of FATCA withholding and is unable to obtain a refund for the amounts withheld, we will not be required to compensate Unitholders for any such withholding and the effect of the amounts withheld will be reflected in the returns of the Fund.

Common Reporting Standard ("CRS")

The CRS is a standardised set of rules developed by the Organisation of Economic Co-operation and Development that requires certain financial institutions resident in a participating jurisdiction to document and identify reportable accounts and implement due diligence procedures. These financial institutions will also be required to report certain information on reportable accounts to their relevant local tax authorities.

Australia signed the CRS Multilateral Competent Authority Agreement and has enacted provisions within the domestic tax legislation to implement CRS in Australia. Australian financial institutions need to document and identify reportable accounts, implement due diligence procedures and report certain information with respect to reportable accounts to the ATO. The ATO may then exchange this information with foreign tax authorities in the relevant signatory countries.

In order to comply with the CRS obligations, we may request certain information from you. Unlike FATCA, there is no withholding tax that is applicable under CRS. However, penalties may apply for failing to comply with the CRS obligations.

Anti-Money Laundering and Counter Terrorism Financing ("AML/CTF")

Australia's AML/CTF laws require Equity Trustees to adopt and maintain a written AML/CTF Program. A fundamental part of the AML/CTF Program is that Equity Trustees must hold up-to-date information about Unitholders (including beneficial owner information) in the Fund.

To meet this legal requirement, we need to collect certain identification information (including beneficial owner information) and documentation ("KYC Documents") from new Unitholders. Existing Unitholders may also be asked to provide KYC Documents as part of an ongoing customer due diligence/verification process to comply with AML/CTF laws. If applicants or Unitholders do not provide the applicable KYC Documents when requested, Equity Trustees may be unable to process an application, or may be unable to provide products or services to existing Unitholders until such time as the information is provided.

In order to comply with AML/CTF Laws, Equity Trustees may also disclose information including your personal information that it holds about the applicant, an investor, or any beneficial owner, to its related bodies corporate or service providers, or relevant regulators of AML/CTF Laws (whether inside or outside Australia). Equity Trustees may be prohibited by law from informing applicants or Unitholders that such reporting has occurred.

Equity Trustees shall not be liable to applicants or Unitholders for any loss you may suffer because of compliance with the AML/CTF laws.

Once provided, your TFN will be applied automatically to any future investments in the Fund/Trust where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.
