New Zealand Investors: Availability and Selling Restriction

The offer made to New Zealand investors in respect of each Fund is available only to, and may only be accepted by, a Wholesale Investor who has completed a Wholesale Investor Certification. Each New Zealand investor acknowledges and agrees that:

- (a) he, she or it has not offered, sold, or transferred, and will not offer, sell, or transfer, directly or indirectly, any units in the Trusts; and
- (b) he, she or it has not granted, issued, or transferred, and will not grant, issue, or transfer, any interests in or options over, directly or indirectly, any units in the Trusts; and
- (c) he, she or it has not distributed and will not distribute, directly or indirectly, a PDS or any other offering materials or advertisement in relation to any offer of any units in the Trusts, in each case in New Zealand other than to a person who is a Wholesale Investor; and
- (d) he, she or it will notify Equity Trustees Limited if he, she, or it ceases to be a Wholesale Investor.

All references to Wholesale Investor in this document are a reference to an investor who is both a Wholesale Client under the Australian Corporations Act 2001 and a Wholesale Investor in terms of clause 3(2) of Schedule 1 of the Financial Markets Conduct Act 2013 (New Zealand).

Investing in the Trusts

Direct investors

Direct investors can acquire units in the Trusts by following the instructions outlined in the Application Form accompanying the PDS, including completing the Wholesale Investor Certification provided. All applications must be made in Australian dollars.

Minimum application amounts are subject to the Australian dollar minimum amounts disclosed in the PDS.

Indirect investors

If you wish to invest indirectly in the Trusts through an IDPS your IDPS Operator will complete the application for you. Your IDPS Operator will advise what minimum investment amounts relate to you.

Withdrawing your investment

Direct investors

Direct investors of the Trusts can withdraw their investment by written request to:

MFS International Australia Pty Ltd
C/- Unit Registry
Level 14, 420 George Street
SYDNEY NSW 2000

Or sending it by fax to +612 9323 6411

Minimum withdrawal amounts are subject to the Australian dollar minimum amounts disclosed in the relevant PDS. Withdrawal requests received from New Zealand investors must specify:

- the withdrawal amount in Australian dollars; or
- the number of units to be withdrawn.

We are unable to accept withdrawal amounts quoted in New Zealand dollars. Please note that the withdrawal amount paid to you will be in Australian dollars and may differ from the amount you receive in New Zealand dollars due to:

- Foreign exchange spreads between Australian and New Zealand dollars (currency rate differs daily); and
- Overseas telegraphic transfer costs.

Withdrawals will only be paid directly to the investor's AUD denominated bank account held in the name of the investor with an Australian domiciled bank. Withdrawal payments will not be made to third parties.

Indirect investors

If you have invested indirectly in the Trusts through an IDPS, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator.

Managing your investment

Distributions

If New Zealand investors elect to have their distribution paid in cash, they will need to nominate a bank account held in their own name with an AUD denominated and Australian domiciled bank account, otherwise it must be reinvested. Cash distributions will only be paid in Australian dollars to such an account. When the distribution is reinvested, New Zealand investors will be allotted units in accordance with the terms and conditions set out in the PDS relating to the units in the Trusts. Please see the PDS for a description of distributions and the terms and conditions of the reinvestment of distributions.

The distribution reinvestment plan described in the PDS is offered to New Zealand investors on the following basis:

- At the time the price of the units allotted pursuant to the distribution reinvestment plan is set, the Responsible Entity will not have any information that is not publicly available that would, or would be likely to, have a material adverse effect on the realisable price of the units if the information were publicly available.
- The right to acquire, or require the Responsible Entity to issue, units will be offered to all investors of the same class, other than those resident outside New Zealand who are excluded so as to avoid breaching overseas laws.
- Units will be issued on the terms disclosed to you, and will be subject to the same rights as units issued to all investors of the same class as you.

There is available from the Responsible Entity, on request and free of charge, a copy of the most recent annual report of the Trusts, the most recent financial statements of the Trusts, the auditor's report on those financial statements, the PDS and the Constitution for the Trusts (including any amendments). Other than the Constitution, these documents may be obtained electronically from www.eqt.com.au/insto.

Processing cut-off times

The processing cut-off times for applications and redemptions referred to in the PDSs are Australian Eastern Standard Time (Australian EST) and you should take this into account when faxing instructions.

Cooling off rights

No cooling off period applies to units in the Fund as the units offered are only available in Australia to Wholesale Clients and in New Zealand to Wholesale Investors.

Taxation

New Zealand resident taxation

If you are a New Zealand resident wishing to invest in Australia, we strongly recommend that you seek independent professional tax advice. New Zealand resident investors will be taxed on their units under the foreign investment fund rules or ordinary tax rules, depending on their circumstances. Australian tax will be withheld at prescribed rates from distributions to non-residents to the extent that the distributions comprise relevant Australian sourced income or gains.

1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Trust's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Trust's responsible entity are governed by the Trust's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed MFS International Australia Pty Ltd as the investment manager of the Trust. Equity Trustees has appointed a custodian to hold the assets of the Trust. The custodian has no supervisory role in relation to the operation of the Trust and is not responsible for protecting your interests.

The Investment Manager

MFS International Australia Pty Ltd

MFS International Australia Pty Ltd ("MFSIA" or "Investment Manager") is the investment manager of the Trust and a member of the MFS Investment Management group of companies ("MFS"). Established in 1924, MFS is an active, global asset manager with investment offices in Boston, Hong Kong, London, Luxembourg, São Paulo, Singapore, Sydney, Tokyo and Toronto. MFSIA has delegated the investment management of the Trust to another member of MFS, MFS Institutional Advisors, Inc., a US Securities and Exchange Commission registered investment adviser. MFS is a member of the Sun Life Financial group of companies.

2. How the MFS Concentrated Global Equity Trust works

The Trust is a registered managed investment scheme governed by the Constitution. The Trust comprises assets which are acquired in accordance with the Trust's investment strategy. Direct investors receive units in the Trust when they invest. In general, each unit represents an equal interest in the assets of the Trust subject to liabilities; however, it does not give investors an interest in any particular asset of the Trust.

If you invest in the Trust through an IDPS (as defined in the Reference Guide) you will not become an investor in the Trust. The operator or custodian of the IDPS will be the investor entered in the Trust's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Trust is \$500,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

MFS International Australia Pty Ltd,
Applications and Withdrawals,
C/- Unit Registry,
Level 14, 420 George Street,
Sydney, NSW 2000.

Please note that cash cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Trust's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Trust, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.15%.

The Application Price will vary as the market value of assets in the Trust rises or falls.

Making additional investments

You can make additional investments into the Trust at any time by sending us your additional investment amount together with a completed Application Form. There is no minimum additional investment into the Trust.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Trust usually distributes income annually at 30 June. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Trust can indicate a preference to have their distribution:

- reinvested back into the Trust; or
- directly credited to their AUD denominated Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

New Zealand investors can only have their distribution directly credited if an AUD denominated Australian domiciled bank account is provided, otherwise it must be reinvested (refer to the MFS Trusts New Zealand Wholesale Investor Fact Sheet).

Access to your money

Investors in the Trust can generally withdraw their investment by completing a written request to withdraw from the Trust and mailing it to:

MFS International Australia Pty Ltd,
Applications and Withdrawals,
C/- Unit Registry,
Level 14, 420 George Street,
Sydney, NSW 2000.

Or sending it by fax to +612 9323 6411

The minimum withdrawal amount is \$50. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 3 Business Days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated AUD denominated Australian domiciled bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 30 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Trust, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.15%.

The Withdrawal Price will vary as the market value of assets in the Trust rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Trust falls below \$500,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Trust including due to one or more circumstances outside its control or where the Trust is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Trust is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Trust has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Trust will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Trust may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the MFS Concentrated Global Equity Trust

An investment in the Trust looks to provide the benefits of professional research and management, diversification and liquidity.

MFS has a strong collaborative approach to building better insights for clients. These insights are derived from three guiding principles – integrated research, global collaboration, and active risk management. The firm believes the application of these principles and the combined insights across fundamental equity, quantitative and credit perspectives is what enables it to deliver durable, long-term returns for clients.

The firm believes that its key competitive advantage is its team-based, collaborative culture. Strong firm culture develops through years of experience and through the collective contributions of the people who enjoy working for the organisation. MFS believes this culture is a catalyst for its results and distinguishes it from its competitors.

Style Consistency MFS seeks to identify investments that provide above average, durable growth and returns at attractive valuations relative to the market.

Seeks Strong Risk Adjusted Returns MFS believes that stock selection, based upon Fundamental Research, is the main driver to long-term performance, and can potentially lead to strong risk-adjusted returns. For an explanation of "Fundamental Research", please see the Glossary in the Reference Guide.

Global Research Integrated research is the foundation of MFS' approach to investing. A culture based on collaboration and teamwork enables MFS to have a globally integrated network of research analysts and portfolio managers based in Boston and eight other sites around the world (Hong Kong, London, Luxembourg, São Paulo, Singapore, Sydney, Tokyo and Toronto) that serves as the basis for all investment decisions.

Risk Management MFS focuses on the durability of growth and returns and on downside risk, which MFS believes helps to avoid investing in stocks whose growth promises may prove too good to be true.

Efficient Portfolio Management MFS believes that its size as a firm provides the depth of resources and access to company management required to be a successful global manager while, at the portfolio level, MFS is able to quickly and efficiently take advantage of opportunities across all market capitalisation ranges.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The principal risks below should be considered in light of your risk profile when deciding whether to invest in the Trust. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The significance of any specific risk to an investment in the Trust will vary over time depending on the composition of the Trust's portfolio, market conditions, and other factors. You should read all of the risk information below carefully, because any one or more of these risks may result in losses to the Trust.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Trust's investments, repayment of capital or any rate of return or the Trust's investment performance. The value of the Trust's investments will vary. Returns are not guaranteed, and you may lose money by investing in the Trust. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Trust is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Trust is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Concentration Risk

Because the Trust invests in a limited number of issuers, the Trust's performance will be affected by the economic, industry, political, regulatory, geopolitical, environmental, public health, and other conditions that impact one issuer or a small number of issuers, and could be more volatile than the performance of more diversified funds.

Counterparty Risk

Counterparty risk is the risk that any of Equity Trustees' or MFS' trading counterparties, including any derivative counterparties, custodians or any issuer or guarantor of securities held by the Trust or other third party responsible for servicing a security or effecting a transaction, becomes insolvent, experiences a business interruption, or cannot or will not otherwise perform in accordance with the terms of the transaction or arrangement.

Currency Risk

The value of foreign currencies relative to the Australian dollar fluctuates in response to market, economic, industry, political, regulatory, geopolitical, environmental, public health, and other conditions, and changes in currency exchange rates impact the financial condition of companies or other issuers and may change the value in Australian dollars of investments denominated in foreign currencies.

Derivatives Risk

Derivatives can be highly volatile and involve risks in addition to, and potentially greater than, the risks of the underlying indicator(s) on which the Derivative is based. Gains or losses from Derivatives can be substantially greater than the Derivatives' original cost and can sometimes be unlimited. Derivatives can involve leverage.

Equity Market/Company Risk

Equity markets are volatile and can decline significantly in response to changes in, or investor perceptions of, issuer, market, economic, industry, political, regulatory, geopolitical, environmental, public health, and other conditions. These conditions can affect a single issuer or type of security, issuers within a broad market sector, industry or geographic region, or the equity markets in general. Certain events can have a dramatic adverse effect on equity markets and may lead to periods of high Volatility in an equity market or a segment of an equity market. The value of an investment held by the Trust may decline due to factors directly related to the issuer of the investment.

Focus Risk

Issuers in a single industry, sector, country, or region can react similarly to market, currency, political, economic, regulatory, geopolitical, environmental, public health, and other conditions, and the Trust's performance will be affected by the conditions in the industries, sectors, countries and regions to which the Trust is exposed.

Foreign and Emerging Markets Risk

Exposure to foreign markets, especially Emerging Markets, through issuers or currencies can involve additional risks relating to market, economic, industry, political, regulatory, geopolitical, environmental, public health, and other conditions. These factors can make foreign investments, especially those tied economically to Emerging Markets, or countries subject to sanctions or the threat of new or modified sanctions, more volatile and less liquid than Australian investments. In addition, foreign markets can react differently to these conditions than the Australian Market. Emerging Markets can have less developed securities markets, greater custody and operational risk, less developed legal, regulatory, and accounting systems, greater government involvement in the economy, greater risk of new or inconsistent government treatment of or restrictions on issuers or instruments, and greater political, social, geopolitical, and economic instability than developed markets.

Investment Selection Risk

MFS' investment analysis and its selection of investments may not produce the intended results and/or can lead to an investment focus that results in the Trust underperforming other funds with similar investment strategies and/or underperforming the markets in which the Trust invests.

In addition, to the extent MFS considers quantitative tools in managing the Trust, such tools may not produce the intended results.

Large Investor Risk

From time to time, investors in the Trust may make relatively large redemptions or purchases of units in the Trust. These transactions may cause the Trust to sell securities or invest additional cash, as the case may be, at disadvantageous prices. Redemptions of a large number of units also may increase transaction and other costs or have adverse tax consequences for investors in the Trust by requiring a sale of portfolio securities. Purchases of a large number of shares may adversely affect the Trust's performance to the extent that it takes time to invest new cash and the Trust maintains a larger cash position than it ordinarily would.

Legal Risk

The Trust may be affected by the actions of governments and regulatory bodies. Legislation (including legislation relating to tax) or regulation may be introduced which inhibits the Trust from pursuing its strategy or which renders an existing strategy less profitable than anticipated.

Liquidity Risk

It may be difficult to value, and it may not be possible to sell, certain investments, types of investments, and/or investments in certain segments of the market, and the Trust may have to sell certain of these investments at a price or time that is not advantageous in order to meet redemptions or other cash needs.

Operational Risk

Operational risk includes the risk of trading, back office, administration, or similar operational issues that may result in a loss to the Trust or its investors. Operational incidents could be the result of inadequate oversight, ineffective security processing procedures, computer system problems, human error, or cybersecurity incidents. While Equity Trustees and MFS have instituted certain practices and processes within their respective operations and business administrations designed to wherever possible mitigate the operational risk consequences that arise, there are inherent limitations in such practices and processes, including the possibility that certain risks have not been (or cannot be) adequately identified.

Pandemic and Other Unforeseen Event Risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Trust's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager, Responsible Entity and other service providers could be reduced, delayed, suspended or otherwise disrupted.

Trust Risk

As with all managed funds, there are risks particular to the Trust including: that the Trust could be terminated, the fees and expenses could change, Equity Trustees is replaced as responsible entity or that MFSIA is replaced as investment manager.

You should read the important information in the Reference Guide "Principal risks" section before making an investment decision. Go to the Reference Guide at www.eqt.com.au/insto. 5. How we invest your money

Warning: When choosing to invest in the Trust, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Trust aims to seek capital appreciation over the longer term by investing in a concentrated portfolio of global shares and aims to outperform its Benchmark over a full market cycle, before taking into account fees, taxes and expenses.

Benchmark

MSCI World Index (with net dividends reinvested), unhedged, measured in AUD, before fees, taxes and expenses.

Minimum suggested time frame

The minimum suggested investment timeframe for the Trust is 5 years.

Risk level

High.
There is a risk investors may lose some or all of their investment. Higher risk investments tend to fluctuate in the short term but can produce higher returns than lower risk investments over the long term.

Investor suitability

The Trust is designed for investors seeking the potential for capital appreciation over the longer term by investing in a concentrated portfolio of global shares (unhedged).

Investment style and approach

In selecting investments for the Trust, MFS is not constrained by any particular investment style. MFS may invest the Trust’s assets in the stocks of companies it believes to have above average earnings growth potential compared to other companies (growth companies), in the stocks of companies it believes are undervalued compared to their perceived worth (value companies), or in a combination of growth and value companies. MFS uses an active Bottom-Up investment approach to buying and selling investments for the Trust. Investments are selected primarily based on fundamental analysis of individual issuers and their potential in light of their financial condition, and market, economic, political, and regulatory conditions. Factors considered may include analysis of an issuer’s earnings, cash flows, competitive position, and management ability. The Trust’s portfolio is concentrated, which means that the Trust may invest a significant percentage of its assets in a single issuer or a small number of issuers.

MFS normally invests the Trust’s assets across different industries, sectors, countries and regions, but MFS may invest a significant percentage of the Trust’s assets in issuers in a single industry, sector, country or region.

Currency Hedging is rare and usually only undertaken for defensive purposes and as a part of the security selection process. Therefore, the Trust does not systematically employ currency management techniques and is thus considered to be “unhedged”.

Investments held

The Trust invests primarily in common stock and related securities of global issuers. The Trust will not invest in issuers that MFS believes are principally engaged in the manufacturing of tobacco products. The Trust may invest in issuers located in Emerging Markets countries (as defined by MFS). The Trust may utilise Derivatives as a routine means to accomplish exposures to various equities or markets.

Asset allocation

Asset	Range
Global equities	90-100%
Cash & cash equivalents	0-10%

Environmental, social and governance considerations

MFS takes into account environmental, social and governance (“ESG”) factors when making investment decisions to the extent that MFS believes these factors could have a material impact on investment risk or return. ESG factors considered may include, but are not limited to, climate change, resource depletion, an issuer’s governance structure and practices, data protection and privacy issues, and diversity and labour practices. Decisions about the selection, retention or realization of investments for the Trust are primarily based on fundamental analysis. In exercising its authority as Investment Manager of the Trust, MFS may consider ESG factors in its fundamental investment analysis and security selection process alongside more traditional economic factors where MFS believes such ESG factors could materially impact the economic value of an issuer. MFS’ consideration of the impact of ESG factors on the value of an issuer often involves a long-term investment horizon, and the impact of such ESG factors may not be realized in the short term. MFS may participate in organisations, initiatives, or other collaborative industry efforts to enhance MFS’ knowledge of specific ESG issues or to further ESG-related initiatives that MFS deems materially impactful to its investment decisions. For example, MFS is a signatory to the Principles for Responsible Investment (PRI), the Net Zero Asset Managers Initiative (NZAMI), the CDP, and Climate Action 100+, among other ESG-related organisations and initiatives. MFS also engages regarding financially material ESG topics with other organizations, such as the Financial Accounting Standards Board, the International Accounting Standards Board, and the Global Reporting Initiative. The requirements for participation in these organisations and initiatives vary, and certain organisations, initiatives and efforts require a commitment from MFS to adopt a framework for achieving the aims of such organisation or initiative. MFS’ participation in these organisations or initiatives is subject to its duties to the Trust, and therefore MFS may fail to act or may take actions that are inconsistent with the purpose, goals or aspirations of these organisations or initiatives if, in MFS’ judgment, it is in the best interests of the members of the Trust to do so.

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Trust will be notified in accordance with the Corporations Act.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

¹ All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC). See below for more details as to how the relevant fees and costs are calculated.

² The management fee component of management fees and costs can be negotiated. See “Differential fees” in the “Additional Explanation of Fees and Costs” below. Until further notice, the management costs are capped, except for extraordinary expenses. If the total management costs exceed the cap, MFS will reimburse the amount of the excess costs to the Trust unless the excess is due to an extraordinary expense.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Trust, investing the assets of the Trust, expenses and reimbursements in relation to the Trust and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.90% p.a. of the NAV of the Trust is payable to the Responsible Entity of the Trust for managing the assets and overseeing the operations of the Trust. The management fees component is accrued daily and paid from the Trust monthly in arrears and reflected in the daily unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees (excluding transaction-based fees such as trading or settlement costs incurred by the custodian), and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Trust may include other ordinary expenses of operating the Trust, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Trust invests and the costs of investing in over-the-counter derivatives to gain investment exposure to assets or implement the Trust’s investment strategy (if any). The indirect costs and other expenses component is variable and reflected in the unit price of the Trust as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager. The indirect costs and other expenses component is based on the relevant costs incurred during the financial year ended 30 June 2023.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees’ website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Transaction costs

In managing the assets of the Trust, the Trust may incur transaction costs such as brokerage, Buy/Sell Spreads in respect of the underlying investments of the Trust, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold, and the costs of over-the-counter derivatives that reflect transaction costs that would arise if the Trust held the ultimate reference assets, as well as the costs of over-the-counter derivatives used for hedging purposes. Transaction costs also include costs incurred by interposed vehicles in which the Trust invests (if any), that would have been transaction costs if they had been incurred by the Trust itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Trust are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Trust.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Trust will incur when buying or selling assets of the Trust. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Trust and are not separately charged to the investor. The Buy Spread is paid into the Trust as part of an application and the Sell Spread is left in the Trust as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.15% upon entry and 0.15% upon exit. The dollar value of these costs based on an application or a withdrawal of \$500,000 is \$750 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.mfs.com or www.eqt.com.au/insto will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Trust's assets and are reflected in the Trust's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Trust are 0.02% p.a. of the NAV of the Trust, which is based on the relevant costs incurred during the financial year ended 30 June 2023.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2% of the GAV of the Trust. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Trust and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Trust on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients or New Zealand Wholesale Investors. Please contact the Investment Manager on +612 9228 0400 for further information.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – MFS Concentrated Global Equity Trust

BALANCE OF \$550,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR

Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	0.90% p.a.	And, for every \$550,000 you have in the MFS Concentrated Global Equity Trust you will be charged or have deducted from your investment \$4,950 each year
Plus Performance fees	Not applicable	And, you will be charged or have deducted from your investment \$0 in performance fees each year
Plus Transaction costs	0.00% p.a.	And, you will be charged or have deducted from your investment \$0 in transaction costs
Equals Cost of MFS Concentrated Global Equity Trust		If you had an investment of \$550,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$4,950* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$550,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at www.mfs.com or www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Trust) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Trust.

The Trust is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Trust to which they become presently entitled or, where the Trust has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

Further reading

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at www.mfs.com or www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Applications and Withdrawals,
C/- Unit Registry,
Level 14, 420 George Street,

Please note that cash cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by their IDPS Operator.

Cooling off period

No cooling off period applies to the offer made in this PDS, as the units offered under this PDS are only available to Wholesale Clients in Australia and Wholesale Investors in New Zealand.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Trust by the IDPS. The right to cool off in relation to the Trust is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Trust. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Trust on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Trust and any rights an Indirect Investor may have in this regard.

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must provide an ABN instead of a TFN only when the investment is made in the course of their enterprise. Once provided, your TFN will be applied automatically to any future investments in the Trust where formal application procedures are not required (e.g. distribution reinvestments) unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.

MFS TRUSTS WHOLESALE INVESTOR CERTIFICATION

(Clause 44 of Schedule 1 of the Financial Markets Conduct Act 2013 (FMCA))

WARNING

New Zealand law normally requires people who offer financial products to give information to investors before they invest. This information is designed to help investors make an informed decision.

If you are a wholesale investor, the usual rules do not apply to offers of financial products made to you. As a result, you may not receive a complete and balanced set of information. You will also have fewer other legal protections for these investments.

Ask questions, read all documents carefully, and seek independent financial advice before committing yourself.

OFFENCE

It is an offence to give a certificate knowing that it is false or misleading in a material particular. The offence has a penalty of a fine not exceeding \$50,000.

THE OFFER

Units in the Fund/Trust are offered and issued to investors by Equity Trustees Limited (Equity Trustees), with an Investment Manager appointed in respect of the Fund.

Offers of units in the Fund in New Zealand are limited to wholesale investors within the meaning of clause 3(2) of Schedule 1 of the Financial Markets Conduct Act 2013 (FMCA).

In order to access units in the Fund/Trust, please review the PDS/IM and relevant New Zealand Wholesale Investor Fact Sheet or Investors Selling Restriction in the PDS/IM, read this form, select the type(s) of wholesale investor criteria that apply to you, and complete the certification below.

If you have any queries in relation to the Fund, please contact Equity Trustees at +61 3 8623 5000. Any queries in relation to your wholesale investor certification should be directed to Equity Trustees' Product Team at productteam@eqt.com.au.

The client identified below certifies that:

- the client is a wholesale investor within the meaning of Schedule 1 of the FMCA, clause 3(2) (in relation to offers of financial products); and
- the client understands the consequences of being certified as a 'wholesale investor' in terms of the FMCA and has received the PDS/IM.

The type of wholesale investor outlined in Schedule 1 that applies to the client is identified below, along with the grounds on which the client claims that they fall within the identified type.

Unless Equity Trustees agrees otherwise, by completing this form the client is certifying that every transaction on the account referred to below is carried out on its own behalf and not on behalf of any third party. Please contact Equity Trustees if you are acting on behalf of any third party.

Please select all types of wholesale investor below that are applicable by marking a ☐ or a ☐ in the relevant box(es). For each type that applies, please also select the relevant grounds on which the client is within the identified type.
