Independent auditor's report to the unit holders of Milford Global Opportunities Fund (AU)

This annual report covers Milford Global Opportunities Fund (AU) as an individual entity.

The Responsible Entity of Milford Global Opportunities Fund (AU) is Equity Trustees Limited (ABN 46 004 031 298) (AFSL 240975).

The Responsible Entity's registered office is:

Level 1, 575 Bourke Street,  
Melbourne, VIC 3000.

## Directors' report

The directors of Equity Trustees Limited, the Responsible Entity of Milford Global Opportunities Fund (AU) (the "Fund"), present their report together with the financial statements of the Fund for the year ended 30 June 2025.

### Principal activities

The Fund invests primarily in global equity securities that are attractively valued in accordance with the Product Disclosure Statement and the provisions of the Fund's Constitution.

The Fund did not have any employees during the year.

There were no significant changes in the nature of the Fund's activities during the year.

The various service providers for the Fund are detailed below:

Service	Provider
Responsible Entity	Equity Trustees Limited
Investment Manager	Milford Australia Pty Limited
Custodian	HSBC Bank Australia Limited
Administrator and Registrar	Apex Fund Services Pty Ltd (an Apex Group Company)
Statutory Auditor	PricewaterhouseCoopers

### Directors

The following persons held office as directors of Equity Trustees Limited during or since the end of the year and up to the date of this report:

Michael J O'Brien	Chairman
Russell W Beasley	(resigned 9 October 2024, reappointed 1 July 2025)
Mary A O'Connor	(resigned 1 July 2025)
David B Warren	
Andrew P Godfrey	
Johanna E Platt	(appointed 9 October 2024)

### Review and results of operations

During the year, the Fund invested its funds in accordance with the Product Disclosure Statement and the provisions of the Fund's Constitution.

The Fund's performance and benchmark returns for the year ended 30 June 2025 were as follows:

	Benchmark	Return (net of fees) %	Benchmark (net of fees) %
Milford Global Opportunities Fund (AU) - W Class	MSCI World Net TR Index (AUD)	<b>11.50</b>	<b>18.48</b>
Milford Global Opportunities Fund (AU) - R Class	MSCI World Net TR Index (AUD)	<b>11.29</b>	<b>18.48</b>
Milford Global Opportunities Fund (AU) - C2	MSCI World Net TR Index (AUD)	<b>12.69</b>	<b>18.48</b>

The performance return is calculated daily as a percentage by dividing the unit price (cum-distribution) by the previous day's unit price (ex-distribution) minus 1; the daily returns are then compounded to produce longer annual returns.

## Directors' report (continued)

### Review and results of operations (continued)

The performance of the Fund, as represented by the results of its operations, was as follows:

	Year ended

### Significant changes in the state of affairs

In the opinion of the directors, there were no significant changes in the state of affairs of the Fund that occurred during the financial year.

### Matters subsequent to the end of the financial year

No matter or circumstance has arisen since 30 June 2025 that has significantly affected, or may have a significant effect on:

- i. the operations of the Fund in future financial years; or
- ii. the results of those operations in future financial years; or
- iii. the state of affairs of the Fund in future financial years.

### Likely developments and expected results of operations

The Fund will continue to be managed in accordance with the investment objectives and guidelines as set out in the Product Disclosure Statement and the provisions of the Fund's Constitution.

The results of the Fund's operations will be affected by a number of factors, including the performance of investment markets in which the Fund invests. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

### Indemnification and insurance of officers

No insurance premiums are paid for out of the assets of the Fund in regard to insurance cover provided to the officers of Equity Trustees Limited. So long as the officers of Equity Trustees Limited act in accordance with the Fund's Constitution and the Law, the officers remain indemnified out of the assets of the Fund against losses incurred while acting on behalf of the Fund.

### Indemnification of auditor

The auditor of the Fund is in no way indemnified out of the assets of the Fund.

### Fees paid to and interests held in the Fund by the Responsible Entity and its associates

Fees paid to the Responsible Entity and its associates out of Fund property during the year are disclosed in Note 13 to the financial statements.

No fees were paid out of Fund property to the directors of the Responsible Entity during the year.

The number of interests in the Fund held by the Responsible Entity and its associates as at the end of the financial year are disclosed in Note 13 to the financial statements.

## Directors' report (continued)

### Interests in the Fund

The movement in units on issue in the Fund during the year is disclosed in Note 6 to the financial statements.

The value of the Fund's assets and liabilities is disclosed in the statement of financial position and derived using the basis set out in Note 2 to the financial statements.

### Environmental regulation

The operations of the Fund are not subject to any particular or significant environmental regulations under Commonwealth, State or Territory law.

### Rounding of amounts to the nearest thousand dollars

Amounts in the Directors' report have been rounded to the nearest thousand dollars in accordance with *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191*, unless otherwise indicated.

### Auditor's independence declaration

A copy of the Auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 5.

This report is made in accordance with a resolution of the directors of Equity Trustees Limited through a delegated authority given by Equity Trustees Limited's Board.

## 1. General information

These financial statements cover Milford Global Opportunities Fund (AU) (the "Fund") as an individual entity. The Fund is an Australian registered managed investment scheme which was constituted on 20 August 2021 and will terminate in accordance with the provisions of the Fund's Constitution or by Law.

The Responsible Entity of the Fund is Equity Trustees Limited (ABN 46 004 031 298) (AFSL 240975) (the "Responsible Entity"). The Responsible Entity's registered office is Level 1, 575 Bourke Street, Melbourne, VIC 3000. The financial statements are presented in the Australian currency unless otherwise noted.

The investment activities of the Fund are managed by Milford Australia Pty Limited (the investment manager). The custody services of the Fund is delegated to HSBC Bank Australia Limited (the custodian) and administration services of the Fund is delegated to Apex Fund Services Pty Ltd (the administrator).

The Fund invests primarily in global equity securities that are attractively valued in accordance with the Product Disclosure Statement and the provisions of the Fund's Constitution.

The financial statements were authorised for issue by the directors on the date the Directors' declaration was signed. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

## 2. Summary of material accounting policy information

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated in the following text.

### a. Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001* in Australia. The Fund is a for-profit entity for the purpose of preparing the financial statements.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

The statement of financial position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are expected to be recovered or settled within 12 months, except for investments in financial assets and liabilities and net assets attributable to unit holders.

The Fund manages financial assets at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within 12 months, however, an estimate of that amount cannot be determined as at reporting date.

In the case of net assets attributable to unit holders, the units are redeemable on demand at the unit holders' option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within 12 months cannot be reliably determined.

#### i. Compliance with International Financial Reporting Standards (IFRS)

The financial statements of the Fund also comply with IFRS as issued by the International Accounting Standards Board (IASB).

#### ii. New and amended standards adopted by the Fund

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2024 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

#### iii. New standards, amendments and interpretations not yet adopted

##### AASB 18 Presentation and Disclosure in Financial Statements

AASB 18 was issued in June 2024 and replaces AASB 101 *Presentation of Financial Statements*. The new standard introduces new requirements for the statement of comprehensive income, including:

- new categories for the classification of income and expenses into operating, investing and financing categories, and
- presentation of subtotals for "operating profit" and "profit before financing and income taxes".

## 2. Summary of material accounting policy information (continued)

### a. Basis of preparation (continued)

#### iii. *New standards, amendments and interpretations not yet adopted (continued)*

Additional disclosure requirements are introduced for management-defined performance measures and new principles for aggregation and disaggregation of information in the notes and the primary financial statements and the presentation of interest and dividends in the statement of cash flows. The new standard is effective for annual years beginning on or after 1 January 2027 and will apply to the Fund for the financial year ending 30 June 2028.

This new standard is not expected to have an impact on the recognition and measurement of assets, liabilities, income and expenses, however there will likely be changes in how the statement of comprehensive income and statement of financial position line items are presented as well as some additional disclosures in the notes to the financial statements. The Fund is in the process of assessing the impact of the new standard.

Certain amendments to accounting standards have been published that are not mandatory for the 30 June 2025 reporting year and have not been early adopted by the Fund. These amendments are not expected to have a material impact on the Fund in the current or future reporting years and on foreseeable future transactions.

### b. Financial instruments

#### i. *Classification*

- Financial assets

The Fund classifies its financial assets in the following measurement categories:

- those to be measured at fair value through profit or loss; and
- those to be measured at amortised cost.

The Fund classifies its financial assets based on its business model for managing those financial assets and the contractual cash flow characteristics of the financial assets.

The Fund's portfolio of financial assets is managed and its performance is evaluated on a fair value basis in accordance with the Fund's documented investment strategy. The Fund's policy is for the Investment Manager to evaluate the information about these financial assets on a fair value basis together with other related financial information.

Equity securities are measured at fair value through profit or loss.

For cash and cash equivalents, due from brokers and receivables, these assets are held in order to collect the contractual cash flows. The contractual terms of these assets give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding. Consequently, these are measured at amortised cost.

- Financial liabilities

For financial liabilities that are not classified and measured at fair value through profit or loss, these are classified as financial liabilities at amortised cost (amounts due to brokers and distributions payable).

#### ii. *Recognition and derecognition*

The Fund recognises financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognises changes in the fair value of the financial assets or financial liabilities from this date.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or the Fund has transferred substantially all the risks and rewards of ownership. Financial liabilities are derecognised when the obligation under the liability is discharged, cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of comprehensive income.

## 2. Summary of material accounting policy information (continued)

### b. Financial instruments (continued)

#### iii. Measurement

- Financial instruments at fair value through profit or loss

At initial recognition, the Fund measures a financial asset and a financial liability at their fair value. Transaction costs of financial assets and liabilities carried at fair value through profit or loss are expensed in the statement of comprehensive income.

Subsequent to initial recognition, all financial assets and liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of 'financial assets or liabilities at fair value through profit or loss' category are presented in the statement of comprehensive income within 'net gains/(losses) on financial instruments at fair value through profit or loss' in the period in which they arise.

For further details on how the fair value of financial instruments is determined please see Note 4 to the financial statements.

- Financial instruments at amortised cost

For financial assets and financial liabilities at amortised cost, they are initially measured at fair value including directly attributable costs and are subsequently measured using the effective interest rate method less any allowance for expected credit losses.

Cash and cash equivalents, due from brokers and receivables are carried at amortised cost.

#### iv. Impairment

At each reporting date, the Investment Manager shall estimate a loss allowance on each of the financial assets carried at amortised cost (cash and cash equivalents, due from brokers, receivables and margin accounts) at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the counter party, probability that the counter party will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that the asset is credit impaired. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the net carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

The expected credit loss (ECL) approach is based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Fund expects to receive. The shortfall is then discounted at an approximation to the asset's original effective interest rate.

The amount of the impairment loss is recognised in the statement of comprehensive income within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the statement of comprehensive income.

#### v. Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position when the Fund has a legally enforceable right to offset the recognised amounts, and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

As at the end of the reporting period, there are no financial assets or liabilities offset or with the right to offset in the statement of financial position.

### c. Net assets attributable to unit holders

Units are redeemable at the unit holders' option; however, applications and redemptions may be suspended by the Responsible Entity if it is in the best interests of the unit holders.

The units can be put back to the Fund at any time for cash based on the redemption price, which is equal to a proportionate share of the Fund's net asset value attributable to the unit holders.

The units are carried at the redemption amount that is payable at the reporting date if the holder exercises the right to put the units back to the Fund.

As this is a multi-class Fund, units are classified as financial liabilities as they do not meet the definition of a financial instrument to be classified as equity in accordance with AASB 132 *Financial Instruments: Presentation*.

## 2. Summary of material accounting policy information (continued)

### d. Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions and other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Payments and receipts relating to the purchase and sale of investment securities are classified as cash flows from operating activities, as trading of these securities represents the Fund's main income generating activity.

### e. Income

#### i. Interest income

Interest income from financial assets at amortised cost is recognised using the effective interest method and includes interest from cash and cash equivalents.

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating the interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or a shorter period where appropriate, to the net carrying amount of the financial asset or liability. When calculating the effective interest rate, the Fund estimates cash flows considering all contractual terms of the financial instruments (for example, prepayment options) but does not consider future credit losses. The calculation includes all fees paid or received between the parties to the contract that are an integral part of the effective interest rate, including transaction costs and all other premiums or discounts.

#### ii. Dividends and distributions

Dividend income is recognised on the ex-dividend date with any related foreign withholding tax recorded as an expense. The Fund currently incurs withholding tax imposed by certain countries on investment income. Such income is recorded gross of withholding tax in the statement of comprehensive income.

Trust distributions are recognised on an entitlement basis.

### f. Expenses

All expenses are recognised in the statement of comprehensive income on an accrual basis.

Management fees and costs covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees and other operating expense.

### g. Income tax

Under current legislation, the Fund is not subject to income tax provided it attributes the entirety of its taxable income to its unit holders.

The Fund currently incurs withholding taxes imposed by certain countries on investment income and capital gains. Such income or gains are recorded gross of withholding taxes in the statement of comprehensive income. Withholding taxes are included in the statement of comprehensive income as an expense.

### h. Distributions

The Fund may distribute its distributable income, in accordance with the Fund's Constitution, to unit holders by cash or reinvestment. The distributions are recognised in the statement of comprehensive income as finance costs attributable to unit holders.

### i. Increase/decrease in net assets attributable to unit holders

Income not distributed is included in net assets attributable to unit holders. As the Fund's units are classified as financial liabilities, movements in net assets attributable to unit holders are recognised in the statement of comprehensive income as finance costs.

### j. Foreign currency translation

#### i. Functional and presentation currency

Balances included in the Fund's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is the Australian dollar which reflects the currency of the economy in which the Fund competes for funds and is regulated. The Australian dollar is also the Fund's presentation currency.

## 2. Summary of material accounting policy information (continued)

### j. Foreign currency translation (continued)

#### ii. Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translations at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of comprehensive income.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when fair value was determined.

The Fund does not isolate that portion of unrealised gains or losses on financial instruments at fair value through profit or loss which is due to changes in foreign exchange rates. Such fluctuations are included in the net gains/(losses) on financial instruments at fair value through profit or loss.

### k. Due from/to brokers

Amounts due from/to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet delivered by the end of the year. The due from brokers balance is held for collection and is recognised initially at fair value and subsequently measured at amortised cost.

### l. Receivables

Receivables may include amounts for interest, dividends and trust distributions. Dividends and trust distributions are accrued when the right to receive payment is established. Where applicable, interest is accrued on a daily basis. Amounts are generally received within 30 days of being recorded as receivables.

### m. Payables

Payables include liabilities and accrued expenses owed by the Fund which are unpaid as at the end of the reporting period.

A separate distribution payable is recognised in the statement of financial position.

Distributions declared effective 30 June in relation to unit holders who have previously elected to reinvest distributions are recognised as reinvested effective 1 July of the following financial year.

### n. Applications and redemptions

Applications received for units in the Fund are recorded net of any entry fees payable prior to the issue of units in the Fund. Redemptions from the Fund are recorded gross of any exit fees payable after the cancellation of units redeemed.

### o. Goods and services tax (GST)

The GST incurred on the costs of various services provided to the Fund by third parties such as management, administration and custodian services where applicable, have been passed on to the Fund. The Fund qualifies for Reduced Input Tax Credits (RITC) at a rate of at least 55%. Hence, fees for these services and any other expenses have been recognised in the statement of comprehensive income net of the amount of GST recoverable from the Australian Taxation Office (ATO). Amounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the statement of financial position. Cash flows relating to GST are included in the statement of cash flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority is classified as an operating cash flow.

### p. Use of estimates and judgements

The Fund makes estimates, assumptions and judgements that affect the reported amounts of assets and liabilities within the current and next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods effected.

For the majority of the Fund's financial instruments, quoted market prices are readily available. However, certain financial instruments, for example over-the-counter derivatives, are fair valued using valuation techniques. Where valuation techniques (for example, pricing models) are used to determine fair values, they are validated and periodically reviewed by experienced personnel of the Investment Manager.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations, require management to make estimates and judgements. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

## 2. Summary of material accounting policy information (continued)

### p. Use of estimates and judgements (continued)

The Investment Manager estimates that the resultant ECL derived from using impairment model, has not materially impacted the Fund. Please see Note 3 for more information on credit risk.

For more information on how fair value is calculated refer to Note 4 to the financial statements.

### q. Rounding of amounts

The Fund is an entity of a kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191* relating to the "rounding off" of amounts in the financial statements. Amounts in the financial statements have been rounded to the nearest thousand dollars, unless otherwise indicated.

### r. Comparative revisions

Comparative information has been revised where appropriate to enhance comparability. Where necessary, comparative figures have been adjusted to conform with changes in presentation in the current year.

## 3. Financial risk management

The Fund's activities expose it to a variety of financial risks including market risk (which incorporates price risk, foreign exchange risk and cash flow and fair value Interest rate risk), credit risk and liquidity risk.

The Fund's overall risk management programme focuses on ensuring compliance with the Fund's Product Disclosure Statement and the investment guidelines of the Fund. It also seeks to maximise the returns derived for the level of risk to which the Fund is exposed and seeks to minimise potential adverse effects on the Fund's financial performance. The Fund's policy allows it to use derivative financial instruments in managing its financial risks.

All investments present a risk of loss of capital. The maximum loss of capital on long equity is limited to the fair value of those positions. The maximum loss of capital on long and short futures and forward currency contracts is limited to the notional contract values of those positions.

The investments of the Fund, and associated risk, are managed by a specialist Investment Manager, Milford Australia Pty Ltd under an Investment Management Agreement (the "IMA") approved by the Responsible Entity, and containing the investment strategy and guidelines of the Fund, consistent with those stated in the Product Disclosure Statement.

The Fund uses different methods to measure different types of risk to which it is exposed. These methods are explained below.

### a. Market risk

#### i. Price risk

The Fund is exposed to price risk on equity securities listed or quoted on recognised securities exchanges and measured at fair value. Price risk arises from investments held by the Fund for which prices in the future are uncertain. Where non-monetary financial instruments are denominated in currencies other than the Australian dollar, the price in the future will also fluctuate because of changes in foreign exchange rates which are considered a component of price risk.

Price risk is managed by Milford Australia Pty Ltd, the Fund's Investment Manager. Through active management, the price of any given security held is monitored on a daily basis by the Investment Manager's investment team. Price risk management is achieved through a range of metrics, including adequate portfolio diversification, compliance limits and fundamental valuation techniques.

The table at Note 3(b) summarises the sensitivities of the Fund's assets and liabilities to price risk. The analysis is based on the reasonably possible shift that the investment portfolio in which the Fund invests moves by +/- 24% (2024: +/- 20%).

#### ii. Foreign exchange risk

The Fund operates internationally and holds both monetary and non-monetary assets denominated in currencies other than the Australian dollar. Foreign exchange risk arises as the value of monetary securities denominated in other currencies fluctuates due to changes in exchange rates. The foreign exchange risk relating to non-monetary assets and liabilities is a component of price risk and not foreign exchange risk. However, the Investment Manager monitors the exposure of all foreign currency denominated assets and liabilities.

As part of the Fund's risk management strategies, the Fund may use derivatives, including forward currency contracts, to manage exposures resulting from changes in foreign currencies.

The Investment Manager has established hedging policies for the Fund, for which foreign exchange exposures are held. The Fund has prescribed target exposures to foreign currencies. The Fund is actively managed by the Investment Manager on a daily basis around this target, subject to the Investment Manager's views on potential currency risks and limits.

### 3. Financial risk management (continued)

#### a. Market risk (continued)

##### ii. Foreign exchange risk (continued)

The table below summarises the fair value of the Fund's financial assets and financial liabilities, monetary and non-monetary, which are denominated in a currency other than the Australian dollar.

	US Dollars A\$'000	Euro A\$'000	British Pounds A\$'000	Japanese Yen A\$'000	All other foreign currencies A\$'000

<b>Net exposure</b>	<b>94,851</b>	<b>10,502</b>	<b>7,369</b>	<b>3,083</b>	<b>731</b>

The table at Note 3(b) summarises the sensitivities of the Fund's monetary assets and liabilities to foreign exchange risk. The analysis is based on the reasonably possible shift that the Australian dollar weakened and strengthened by 18% (2024: 10%) against the material foreign currencies to which the Fund is exposed.

##### iii. Cash flow and fair value Interest rate risk

Interest rate risk management is undertaken by maintaining as close to a fully invested position as possible thus limiting the exposure of the Fund to interest rate risk.

The Fund has no significant interest rate risk as at 30 June 2025 and 30 June 2024.

#### b. Summarised sensitivity analysis

The following table summarises the sensitivities of the Fund's operating profit and net assets attributable to unit holders to market risks. The reasonably possible movements in the risk variables have been determined based on management's best estimate, having regard to a number of factors, including historical levels of changes in foreign exchange rates, interest rates and the historical correlation of the Fund's investments with the relevant benchmark and market volatility. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market movements resulting from changes in the performance of and/or correlation between the performances of the economies, markets and securities in which the Fund invests. As a result, historic variations in risk variables should not be used to predict future variances in the risk variables.

	Impact on net assets attributable to unit holders			
	Price risk		Foreign exchange risk	
	+24%	-24%	+18%	-18%
	\$'000	\$'000	\$'000	\$'000

As at 30 June 2024	22,784	(22,784)	261	(261)

#### c. Credit risk

The Fund is exposed to credit risk, which is the risk that a counterparty will be unable to pay its obligations in full when they fall due, causing a financial loss to the Fund.

The Fund does not have a significant concentration of credit risk that arises from an exposure to a single counterparty or group of counterparties having similar characteristics. The main concentration of credit risk, to which the Fund is exposed, arises from cash and cash equivalents and amounts due from brokers and other receivables balances. None of these assets are impaired nor past their due date. The maximum exposure to credit risk is the carrying of these balances as at the reporting date.

### 3. Financial risk management (continued)

#### c. Credit risk (continued)

The Investment Manager determines credit risk and measures expected credit losses for financial assets measured at amortised cost using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward looking information in determining any expected credit loss. At 30 June 2025 and 30 June 2024, all receivables, amounts due from brokers and cash are held with counterparties with a credit rating of A+ or higher and are either callable on demand or due to be settled within 90 days. Management considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund.

Counterparty risk in trade execution is managed via continual monitoring of broker performance for trade settlement. All instruments held by the portfolio are liquid and traded on recognised global exchanges.

##### *i. Settlement of securities transactions*

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered low, as delivery of securities sold is only made once the broker has received payment. Payment is made once the securities purchased have been received by the broker. The trade will fail if either party fails to meet its obligations.

##### *ii. Cash and cash equivalents*

The exposure to credit risk for cash and cash equivalents is low as all counterparties have a rating of A+ (as determined by Standard & Poor's Rating Services) or higher.

##### *iii. Other*

The Fund is not materially exposed to credit risk on other financial assets.

##### *iv. Maximum exposure to credit risk*

The maximum exposure to credit risk before any credit enhancements at the end of each reporting period is the carrying amount of the financial assets. None of these assets are impaired nor past due but not impaired.

#### d. Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

Exposure to liquidity risk for the Fund may arise from the requirement to meet daily unit holder redemption requests or to fund foreign exchange related cash flow requirements. Liquidity risk is managed by holding majority of the investments in active markets to enable the Fund to meet liabilities as they fall due and reasonably foreseeable withdrawals under normal market conditions. The Investment Manager monitors the Fund's liquidity position on a daily basis.

In order to manage the Fund's overall liquidity, the Responsible Entity has the discretion to reject an application for units and to defer or adjust redemption of units if the exercise of such discretion is in the best interests of unit holders. The Fund did not reject or withhold any redemptions during 2025 and 2024.

##### *Maturities of non-derivative financial liabilities*

All non-derivative financial liabilities of the Fund in the current period have maturities of less than 1 month.

### 4. Fair value measurement

The Fund measures and recognises financial assets and liabilities at fair value through profit or loss on a recurring basis.

- Financial assets at fair value through profit or loss (see Note 5)

The Fund has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 *Fair Value Measurement* requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

#### 4. Fair value measurement (continued)

The Fund values its investments in accordance with the accounting policies set out in Note 2 to the financial statements. For the majority of its investments, the Fund relies on information provided by independent pricing services for the valuation of its investments.

##### a. Quoted prices in active markets (Level 1)

The fair value of financial instruments and liabilities traded in active markets (such as listed equity securities) is based on quoted market prices at the close of trading at the end of the reporting period without any deduction for estimated future selling costs.

The quoted market price used for financial assets held by the Fund is the current bid price; the quoted market price for financial liabilities is the current asking price. When the Fund holds derivatives with offsetting market risks, it uses mid-market prices as a basis for establishing fair values for the offsetting risk positions and applies this bid or asking price to the net open position, as appropriate.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

##### b. Recognised fair value measurements

The table below presents the Fund's financial assets and liabilities measured and recognised at fair value as at 30 June 2025 and 30 June 2024.

	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
<b>As at 30 June 2025</b>				
<b>Financial assets</b>				
Listed equity securities	93,935	-	-	93,935
<b>Total financial assets</b>	<b>93,935</b>	<b>-</b>	<b>-</b>	<b>93,935</b>
<b>As at 30 June 2024</b>				
<b>Financial assets</b>				
Listed equity securities	113,922	-	-	113,922
<b>Total financial assets</b>	<b>113,922</b>	<b>-</b>	<b>-</b>	<b>113,922</b>

##### c. Transfer between levels

Management's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There were no transfers between levels in the fair value hierarchy at the end of the reporting period.

##### d. Financial instruments not carried at fair value

The financial instruments not measured at fair value through profit or loss include:

- i. Cash and cash equivalents, balances due from/to brokers and receivables/payables under sale and repurchase agreements. These are short-term financial assets and financial liabilities whose carrying amounts approximate fair value, because of their short-term nature and the high credit quality of counterparties; and
- ii. Net assets attributable to unit holders. The Fund routinely redeems and issues the units at the amount equal to the proportionate share of net assets of the Fund at the time of redemption, calculated on a basis consistent with that used in these financial statements. Accordingly, the carrying amount of net assets attributable to unit holders approximates their fair value. Any difference is not material in the current year or prior year.

#### 5. Financial assets at fair value through profit or loss

	30 June 2025 \$'000	As at 30 June 2024 \$'000
Listed equity securities	93,935	113,922
<b>Total financial assets at fair value through profit or loss</b>	<b>93,935</b>	<b>113,922</b>

## 5. Financial assets at fair value through profit or loss (continued)

An overview of the risk exposures and fair value measurements relating to financial assets at fair value through profit or loss is included in Note 3 and Note 4 to the financial statements.

## 6. Net assets attributable to unit holders - liability

The Fund's units are classified as liability as they do not meet the definition of a financial instrument to be classified as equity.

Movements in the number of units and net assets attributable to unit holders during the year were as follows:

	Year ended		Year ended	
	30 June 2025	30 June 2025	30 June 2024	30 June 2024

<b>Closing balance</b>	<b>57,799</b>	<b>68,819</b>	<b>52,807</b>	<b>61,748</b>
<b>Closing balance</b>		<b>90,092</b>		<b>109,611</b>

As stipulated within the Fund's Constitution, each unit represents a right to an individual share in the Fund and does not extend to a right in the underlying assets of the Fund.

There are three separate classes of units. Each unit within the same class has the same rights as all other units within that class. Each unit has a different management fee and performance fee rate.

Units are redeemed on demand at the unit holders' option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within twelve months after the end of the reporting period cannot be reliably determined.

### Capital risk management

The Fund considers its net assets attributable to unit holders as capital, notwithstanding that net assets attributable to unit holders are classified as a liability. The amount of net assets attributable to unit holders can change significantly on a daily basis as the Fund is subject to daily applications and redemptions at the discretion of unit holders.

Daily applications and redemptions are reviewed relative to the liquidity of the Fund's underlying assets on a daily basis by the Responsible Entity. Under the terms of the Fund's Constitution, the Responsible Entity has the discretion to reject an application for units and to defer or adjust redemption of units if the exercise of such discretion is in the best interests of unit holders.

## 7. Distributions to unit holders

The distributions\* declared during the year were as follows:

	Year ended		Year ended	
	30 June 2025 \$	30 June 2025 CPU	30 June 2024 \$	30 June 2024 CPU
<b>Distributions - Milford Global Opportunities Fund (AU) - W Class</b>

Net (gains)/losses on financial instruments at fair value through profit or loss	(12,280)	(8,886)
Net foreign exchange (gain)/loss	(72)	90
Net change in receivables	(84)	38
Net change in payables	(46)	58
<b>Net cash inflow/(outflow) from operating activities</b>	<b>32,653</b>	<b>(45,903)</b>

### b. Non-cash operating and financing activities

The following distribution payments to unit holders were satisfied by the issue of units under the distribution

reinvestment plan	7,591	1,152
<b>Total non-cash operating and financing activities</b>	<b>7,591</b>	<b>1,152</b>

As described in Note 2(i), income not distributed is included in net assets attributable to unit holders. The change in this amount for the year (as reported above) represents a non-cash financing cost as it is not settled in cash until such time as it becomes distributable.

## 10. Receivables

	As at	
	30 June 2025 \$'000	30 June 2024 \$'000

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## **Independence**

We are independent of the Fund in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

## **Other information**

The directors of Equity Trustees Limited (the Responsible Entity) are responsible for the other information. The other information comprises the information included in the annual report for the year ended 30 June 2025, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon through our opinion on the financial report.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## **Responsibilities of the directors of the Responsible Entity for the financial report**

The directors of the Responsible Entity are responsible for the preparation of the financial report in accordance with Australian Accounting Standards and the *Corporations Act 2001*, including giving a true and fair view, and for such internal control as the directors of the Responsible Entity determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors of the Responsible Entity are responsible for assessing the ability of the Fund to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Responsible Entity either intend to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

## **Auditor's responsibilities for the audit of the financial report**

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: [http://www.auasb.gov.au/auditors\\_responsibilities/ar4.pdf](http://www.auasb.gov.au/auditors_responsibilities/ar4.pdf). This description forms part of our auditor's report.
