1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed MST Financial Services Pty Ltd ("MST Financial" or "the Investment Manager") as the investment manager of the Fund. Equity Trustees has appointed Artega Investment Administration Pty Limited as custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

MST Financial Services Pty Ltd (MST Financial)

Since its inception, MST Financial has been committed to delivering in-depth analysis and actionable insights to help clients make informed investment decisions. In 2025, MST Financial expanded its offering by becoming an investment manager, further enhancing its reach and ability to serve a broad base of clients with tailored investment solutions.

MST Income, a division of MST Financial, provides high-quality, tailored Hybrid and Debt Securities services to Wealth Management firms and Institutional Investors, offering everything from expert insights and research to professional portfolio management with a focus on execution and implementation.

MST Financial is privately owned and not owned by any financial institution. This is a significant point of differentiation as it enables MST Financial to transact an extensive and unrestricted range of interest rate securities and investments.

MST Financial has an Australian Financial Services Licence (issued by ASIC) and provides general financial product advice.

MST Financial maintains strict conflict of interest policies to ensure that the investment management team which manages the Fund operates independently.

2. How the Fund works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Monies that are invested into the Fund are pooled together and direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in this PDS applies to direct investors.

Applying for units

You can invest (acquire units) in the Fund by completing the Online Application Form or by contacting MST Financial. The minimum initial investment amount for the Fund is \$10,000.

Investors can invest in the Fund by applying online at www.mstfinancial.com.au/ABF.

When completing the Application Form online, you will be required to complete an online identity verification process. We are required by law to collect identification information from you before we can issue you with units in the Fund.

If you would like a copy of the paper application form please contact us at fixedincome@mstfinancial.com.au.

Please note that cash and cheques cannot be accepted.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The completed Application Form, together with the application monies, must be received before 2:00 pm (Sydney time) on any Business Day to receive that day's Application Price. Application requests accepted after 2:00 pm will receive the next Business Day's unit price. An application is only considered complete once we have received a properly completed Application Form and AML identity verification processes have been completed.

The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.10%. The Application Price will vary as the market value of assets in the Fund rises or falls.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

Making additional investments

You can make additional investments into the Fund at any time through the Online Application Form by selecting 'apply as an existing investor' or by contacting your relationship manager. If you require a paper application form to make an additional investment please contact us at fixedincome@mstfinancial.com.au. The minimum additional investment into the Fund is \$1,000.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income quarterly at the end of June, September, December and March, however, Equity Trustees may change the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date. This is generally within two weeks of the distribution date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. The election for reinvestment must be recorded with the Registry by 5pm on the Business Day prior to the relevant distribution period end date. There is no Buy Spread or additional transaction cost incurred on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

Withdrawal processing - access to your money

Investors in the Fund can generally withdraw their investment by completing a withdrawal form available on the Fund website and emailing it to the Registry at fixedincome@mstfinancial.com.au. A paper copy of this form is available by contacting fixedincome@mstfinancial.com.au.

Withdrawals must be received by 2pm (Sydney time) on a Business Day to receive that day's unit price.

The minimum withdrawal amount is \$1,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 5 Business Days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated AUD denominated Australian domiciled bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 21 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.10%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$5,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Regular Investment Plan

Investors can build on their existing investments using a Regular Investment Plan to make regular monthly investments. A Regular Investment Plan is a monthly direct debit from your chosen bank account to make a monthly additional investment in the Fund. Your regular monthly investment can be for a minimum of \$1,000 per month. You can stop or change the amount of your regular monthly investment at any time (but not below the minimum) through the completion of a change of details form available at www.mstfinancial.com.au/ABF or through Boardroom's InvestorServe portal. Please note, any changes to your Regular Investment Plan need to be submitted within 5 Business Days before the processing date to ensure the change or cancellation is processed in the respective month.

The nominated amount will be deducted from your account on the 15th of each month (or the next Business Day). It is an investor's responsibility to ensure sufficient funds are in the elected account at the time the direct debit is made.

To start a Regular Investment Plan, complete the Regular Investment Plan section on the Fund's application form.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

Ease of access

Investors in the Fund can apply to invest online quickly and easily.

Active Management

The Fund is actively managed, which allows MST Financial to focus on securities regarded by MST Financial as having the strongest risk versus return attributes and avoid securities that are regarded by MST Financial as having insufficient value or a likelihood of capital loss.

Liquidity

The Fund generally offers daily applications and redemptions on each Business Day, with withdrawal proceeds typically paid within 5 days of the withdrawal request being accepted and processed, providing investors with liquidity so you can manage your investments in a way that suits your personal circumstances.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and MST Financial do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed, and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

More information on risks

Information on the key risks including general risk, market risk, interest rate risk, credit risk, multiple unit class risk, capital risk, fund risk, liquidity risk, derivatives risk, operational risk, counterparty and service provider risk, distribution risk, regulatory risk, investment manager risk and pandemic and other unforeseen event risk is available in the Principal Risks section of the Reference Guide.

5. How we invest your money

Warning: When choosing to invest in the Fund you should consider the investment objective, likely investment returns, the risks of investing and your investment time frame to determine whether this product is suitable for you.

Portfolio

The Fund will invest in Investment Grade rated fixed income securities, predominantly with the highest Investment Grade ratings.

Investors can expect exposure to a diversified pool of assets within key debt issuer categories of government, corporate, bank, insurance and asset-backed security (ABS) sectors, in fixed and floating rate forms.

The Fund will implement both duration and credit exposure investment strategies with the goal of providing investors with the following:

- Capital preservation through a prudent selection process and a maximisation of diversity (within the permitted investment parameters)
- Total return (income and capital growth) in excess of the Benchmark Index, net of fees, over three-year rolling periods; and
- Maximisation of income distribution by distributing quarterly and not withholding distributions (unless the Responsible Entity determines otherwise following consultation with MST Financial).

MST Financial has adopted the following guidelines for managing the Fund that are expected to be adhered to in normal operating conditions:

Duration management — The average duration of the Fund's portfolio will vary based on the Investment Manager's forecast of the future direction of interest rates. Under normal conditions that duration can be expected to range between +/- 2 years of the Benchmark Index duration.

Credit exposure — The Fund will invest in wholly Investment Grade securities. The average credit exposure of the Fund will be actively managed with consideration of the impact of both macro and microeconomic factors to maintain an appropriate credit exposure.

Investment objective

The Fund aims to provide investors with capital stability, income and returns (after fees) in excess of the Benchmark Index over three-year rolling periods through investment in a portfolio of Investment Grade rated Australian fixed interest securities; that include government and corporate bonds and asset-backed securities.

Benchmark

The Fund is benchmarked against the Bloomberg AusBond Composite 0+Yr Index¹.

Minimum suggested time frame

At least 3 years.

Risk level

The fund has a low to medium risk level. There is a low to medium level risk of loss of investment over one year. Generally, the risk level of the Fund is greater if an investment in the Fund is held for a period less than the minimum suggested timeframe.

Investor suitability

The Fund is likely suitable for investors looking to achieve positive, risk-adjusted total returns by investing in a portfolio of Investment Grade Australian fixed interest securities and to seek to preserve capital through prudent investment management. A suitable investor should be able to tolerate low to moderate levels of risk and be aiming to invest in the Fund in line with the minimum suggested timeframe of 3 years.

The Fund seeks to provide investors a regular income stream by way of quarterly distributions, though these distributions are not guaranteed. The Fund aims to offer maximum total returns, capital preservation and regular income. Investment in the Fund does not, however, guarantee a profit or protect against loss.

Investment style and approach

This Fund is designed for investors who seek diversified exposure to the Australian Investment Grade Fixed Income Market, pursuing investment returns predominantly in the form of income whilst accepting volatility of return commensurate with the fixed income asset class. The Fund's asset exposure is actively managed with the dual goals of protecting investor capital and generating performance in excess of the Benchmark Index.

The cornerstone of the Fund's investment process is the determination of the future direction of Australian Federal Government interest rates and the excess yield margin above which corporate debt will be valued. The analysis process includes consideration of global and domestic macro and microeconomic factors that will influence domestic growth, employment, industry sector performance, inflation and monetary policy, alongside specific detailed analysis of individual corporations.

The Fund will target investment in assets that pursue the dual targets of portfolio weighted average term to maturity (duration) and portfolio weighted average credit grade. Investors can expect a core allocation to long tenor, medium yield, high Investment Grade rated fixed federal and state debt, alongside medium tenor, high yielding, lower Investment Grade rated fixed and floating rate corporate debt.

Asset allocation

The average credit exposure of the Fund will be actively managed using various methodologies that encompass consideration of the impact of both macro (all industries) and micro (specific industry) economic factors to maintain an appropriate credit exposure.

The investment universe for the Fund includes, but is not limited to, Government and non-Government bonds, notes, corporate securities, mortgage-backed and asset-backed securities, cash and high yielding cash instruments.

The Fund will explore opportunities in the Australian fixed interest markets only.

The Fund's allocation ranges are provided below.

Debt type	Range	Section	Ranges
Cash / Government debt	30% - 100%	Cash	0 – 100%
		Government, Semi-government and Supranational Debt	0 – 100%
Corporate debt	0 – 70%	Senior debt	0 – 70%
		Subordinated debt	0 – 30%
		Asset backed securities	0 – 30%

**The actual allocation may temporarily fall outside the ranges stated above in certain circumstances such as large applications, asset transitions, extreme market movements, or at the establishment of the Fund.*

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour Standards, Environmental, Social and Ethical Factors ("ESG considerations")

EQT has delegated the investment function (including ESG responsibilities) to the Investment Manager and the Investment Manager has contemplated that ESG considerations will not be taken into account in relation to the investment of the Fund.

Fund performance

The performance of the Fund is published on the Fund website monthly. The published performance figures are calculated using the sell (exit) price, net of management fees, gross of tax, as if distributions of income have been reinvested at the actual distribution reinvestment price.

The actual returns received by an investor will depend on the timing, buy and exit price of individual transactions. Return of capital and the performance of your investment in the Fund are not guaranteed. Past performance is not a reliable indicator of future performance.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees or costs. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor’s account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.58% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as responsible entity fees, investment management fees, administrator's fees, custodian's fees, registry fees, ASIC, ATO, APIR, accounting/tax/compliance auditor's fees, bank fees and other ordinary expense recoveries related to the establishment and operation of the Fund.

Indirect costs

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager. The indirect costs and other expenses component is based on the relevant costs incurred during the financial year ended 30 June 2024, adjusted to reflect a 12 month period.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.16% p.a. of the NAV of the Fund, which is based on the relevant costs incurred during the financial year ended 30 June 2024, adjusted to reflect a 12 month period.

However, actual transaction costs for future years may differ.

Buy/Sell Spread

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or MST Financial as the Investment Manager. The estimated Buy/Sell Spread is 0.10% upon entry and 0.10% upon exit. The dollar value of these costs based on an application or a withdrawal of \$10,000 is \$10 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and the Fund website will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2% of the GAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access (if applicable) is paid by MST Financial out of its investment management fee and is not an additional cost to the investor.

Differential fees

MST Financial may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact MST Financial on fixedincome@mstfinancial.com.au or your Relationship Manager for further information.

Commissions

To the extent permitted by law, MST Financial may agree to pay commissions to your referrer, including Relationship Managers. These payments may be upfront, or ongoing "trail" commissions. The commissions are paid to your referrer at MST Financial's sole discretion and will be paid out of MST Financial's assets and will not represent an additional cost to you.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – MST Australian Bond Fund		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	0.58% p.a.	And, for every \$50,000 you have in the Fund you will be charged or have deducted from your investment \$290 each year
Plus Performance fees	Not applicable	And, you will be charged or have deducted from your investment \$0 in performance fees each year
Plus Transaction costs	0.00% p.a.	And, you will be charged or have deducted from your investment \$0 in transaction costs
Equals Cost of MST Australian Bond Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$290* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available on the Fund website or a paper copy is available upon request. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

Further reading

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available on the Fund website. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

You can invest (acquire units) in the Fund by completing the online application form or by contacting your Relationship Manager. If you would like a copy of the paper application form please contact us at fixedincome@mstfinancial.com.au.

Please note that cash and cheques cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by their IDPS Operator.

Cooling off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth Business Day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period. This could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.
