Investing in a Fund

Direct investors

Direct investors can acquire units in a Fund by following the instructions outlined in the Application Form accompanying the relevant PDS. All applications must be made in Australian dollars.

Minimum application amounts are subject to the Australian dollar minimum amounts disclosed in the relevant PDS.

Indirect investors

If you wish to invest indirectly in the Fund through an IDPS your IDPS Operator will complete the application for you. Your IDPS Operator will advise what minimum investment amounts relate to you.

Withdrawing your investment

Direct investors

Direct investors of a Fund can withdraw their investment by written request to:

Unit Registry Services - Paradise Investment Management
GPO Box 804
Melbourne VIC 3001

Minimum withdrawal amounts are subject to the Australian dollar minimum amounts disclosed in the relevant PDS. Withdrawal requests received from New Zealand investors must specify:

- the withdrawal amount in Australian dollars; or
- the number of units to be withdrawn.

We are unable to accept withdrawal amounts quoted in New Zealand dollars. Please note that the withdrawal amount paid to you will be in Australian dollars and may differ from the amount you receive in New Zealand dollars due to:

- Foreign exchange spreads between Australian and New Zealand dollars (currency rate differs daily); and
- Overseas telegraphic transfer ('OTT') costs.

Withdrawals will only be paid directly to the investor's AUD denominated bank account held in the name of the investor with an Australian domiciled bank. Withdrawal payments will not be made to third parties.

Indirect investors

If you have invested indirectly in the Fund through an IDPS, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator.

Managing your investment

Distributions

If New Zealand investors elect to have their distribution directly credited they will need to nominate an AUD denominated bank account held in their own name with an Australian domiciled bank, otherwise it must be reinvested. Cash distributions will only be paid in Australian dollars to such an account. When the distribution is reinvested, New Zealand investors will be allotted units in accordance with the terms and conditions set out in the relevant PDS relating to the units in the relevant Fund. Please see the relevant PDS for a description of distributions and the terms and conditions of the reinvestment of distributions.

The distribution reinvestment plan described in the relevant PDS is offered to New Zealand investors on the following basis:

- At the time the price of the units allotted pursuant to the distribution reinvestment plan is set, the Responsible Entity will not have any information that is not publicly available that would, or would be likely to, have a material adverse effect on the realisable price of the units if the information were publicly available.
- The right to acquire, or require the Responsible Entity to issue, units will be offered to all investors holding units of the same class, other than those resident outside New Zealand who are excluded so as to avoid breaching overseas laws.
- Units will be issued on the terms disclosed to you, and will be subject to the same rights as units issued to all investors holding units of the same class as you.

There is available from the Responsible Entity, on request and free of charge, a copy of the most recent annual report of the relevant Fund, the most recent financial statements of that Fund, the auditor's report on those financial statements, the relevant PDS and the Constitution for that Fund (including any amendments). Other than the Constitution, these documents may be obtained electronically from www.eqt.com.au/insto.

Processing cut-off times

The processing cut-off times for applications and withdrawals referred to in the relevant PDS are Australian Eastern Standard Time (Australian EST) and you should take this into account when sending instructions.

Cooling off rights

Cooling off rights may apply to investors in New Zealand. If you wish to exercise your cooling off rights you should contact the Responsible Entity of the Fund. The relevant PDS contains further information about the rights that may apply.

Taxation

New Zealand resident taxation

If you are a New Zealand resident wishing to invest in Australia, we strongly recommend that you seek independent professional tax advice. New Zealand resident investors will be taxed on their units under the foreign investment fund rules or ordinary tax rules, depending on their circumstances. Australian tax will be withheld at prescribed rates from distributions to non-residents to the extent that the distributions comprise relevant Australian sourced income or gains.

1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888. Today, Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution, as amended from time to time ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Paradise Investment Management Pty Ltd (ABN 64 090 148 619, AFSL 224158) ("Investment Manager" or "Paradice") as the investment manager of the Fund.

The Investment Manager

Paradice Investment Management Pty Ltd

Paradice was established in 1999 and began managing funds in 2000. As Australia's first boutique investment firm specialising in smaller companies, Paradice quickly became known for its ability to deliver solid long term returns within this niche marketplace. Recognising investor demand for portfolios focusing on mid and large cap investment strategies, Paradice expanded its investment offerings to incorporate these options. The Australian Small Cap product was launched in 2000, the Australian Mid Cap product was launched in 2006 (with a dual-access ETF class launched in 2025), the Australian Large Cap (now the Australian Equities) product followed in 2007, the Global Small Cap product in 2010, the Equity Alpha Plus product in 2020 and the Australian Small Cap Opportunities product in 2023.

The Custodian and Administrator

State Street Australia Limited

Equity Trustees has appointed State Street Australia Limited ("State Street", "Custodian" or "Administrator") as custodian to hold the assets of the Fund. The Custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

Equity Trustees has appointed State Street to act as administrator and registry provider for the Fund. In such capacity, State Street performs all general administrative tasks for the Fund, including keeping financial books and records and calculating the Net Asset Value for the Fund.

2. How the Paradice Australian Small Cap Opportunities Fund - Class A works

The Fund is a class of units of a registered managed investment scheme governed by the Constitution, the Corporations Act and general trust law. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of the IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Fund is \$20,000 (unless otherwise determined by the Responsible Entity).

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Unit Registry Services - Paradice Investment Management
GPO Box 804
Melbourne VIC 3001

Please note that cash and cheques cannot be accepted.

Payments should be made via electronic bank transfer and the transferring party must be Real Time Gross Settlement ("RTGS") compliant.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue in the Fund and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.30%.

No interest is earned on application monies.

Fractions of units may be issued by Equity Trustees in accordance with the provisions of the Constitution.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can increase your units in the Fund by reinvesting distributions (see below) or by making additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$1,000 (unless otherwise determined by the Responsible Entity).

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund intends to distribute income semi-annually in or around the end of June and December, however, Equity Trustees may change the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD denominated Australian or New Zealand domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received at the end of the relevant distribution period. Distributions are reinvested at the unit price (which excludes the distribution amount) calculated as at the last day of the distribution period. There is no Buy Spread on distributions that are reinvested.

At the end of a distribution period, the Fund's unit price will typically fall to reflect the amount of any distribution. Because distribution entitlements are calculated over the entire period, the closer you invest to the end of that period, the greater the likelihood that a portion of your investment will be returned to you as income through the distribution.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors (as defined in the Reference Guide) should review their IDPS Guide (as defined in the Reference Guide) for information on how and when they receive any income distribution.

Access to your money

Investors in the Fund can decrease their units by making a withdrawal request of their investment by completing a written request to withdraw from the Fund and mailing it to:

Unit Registry Services - Paradice Investment Management
GPO Box 804
Melbourne VIC 3001

The minimum withdrawal amount is \$5,000, unless otherwise approved by Equity Trustees. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 7 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated AUD denominated Australian or New Zealand domiciled bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 21 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue in the Fund and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.30%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$20,000 as a result of processing your withdrawal request, although we will generally provide investors with 30 days' notice of any proposed redemption in these circumstances. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Paradise Australian Small Cap Opportunities Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Paradise Australian Small Cap Opportunities Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Paradise Australian Small Cap Opportunities Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, it will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the Paradise Australian Small Cap Opportunities Fund - Class A

The Investment Manager believes that there is an opportunity to find value no matter where we are in the economic cycle. By building a diversified portfolio of investments that exhibit four key characteristics (undervaluation, business quality, strong financial metrics and shareholder-friendly boards) the Fund aims to generate strong, long term risk-adjusted returns.

Other significant benefits of investing in the Fund may include:

- access to Paradise's investment expertise;
- active risk management (through the form of risk spreading);
- access to investment opportunities that individual investors often cannot achieve;
- generally investing for less cost than ordinary investors can achieve individually;
- the ability to generally add to or withdraw your investment daily;
- the right to receive any distributions we make from the Fund (usually semi-annually);
- the benefit of capital gains (or losses) when you dispose of your units; and
- a robust compliance and governance structure with a trusted responsible entity and legal rights under the Constitution of the Fund.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns, income and capital are not guaranteed, and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Fund risk

Risks particular to the Fund include that it could terminate, the fees and expenses could change, the investment manager or responsible entity could be replaced and the investment professionals could change. There is also a risk that investing in the Fund may give different results than investing directly in the underlying assets of the Fund themselves because of income or capital gains accrued in the Fund and the consequences of investment and withdrawal by other investors.

Market risk

The market price of investments may go up or down, sometimes rapidly or unpredictably. Assets may decline in value due to factors affecting markets generally or particular industries represented in the markets. The value of an investment may decline due to general market conditions which are not specifically related to a particular company, such as real or perceived adverse economic conditions, supply and demand for particular securities or instruments, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. They may also decline due to factors which affect a particular industry or industries, such as labour shortages or increased production costs and competitive conditions within an industry. During a general market downturn, multiple asset classes may decline in value simultaneously.

Further, changes in tax, legal and economic policy, political events and technology failure can all directly or indirectly create an environment that may influence the value of the investments of the Fund and your investment in it.

Inflation risk

Inflation risk is the risk that returns will not be sufficiently higher than inflation to enable an investor to meet their financial goals.

Interest rate risk

Changes in official interest rates can directly and indirectly impact (negatively or positively) on investment returns. Generally, an increase in interest rates has a contractionary effect on the state of the economy and thus the valuation of stocks. For instance, rising interest rates can have a negative impact on the Fund's or company's value as increased borrowing costs may cause earnings to decline. As a result, the unit value or share price may fall.

Currency risk

Investments in securities which are denominated in foreign currencies give rise to foreign currency exposure. This means that the value of these investments will vary depending on changes in currency exchange rates.

Investment approach risk

There is no guarantee that the investment approach, techniques, or strategies utilised by Paradise on behalf of the Fund will be successful or profitable. All investments of the Fund risk the loss of capital. As is true of any investment, there is a risk that an investment in the Fund will be lost entirely or in part. Furthermore, there can be no assurance that the specific trading strategies utilised for the Fund will produce profitable results. Any factor that would make it difficult to execute trades, such as reduced liquidity or extreme market developments, also could be detrimental to profits. No assurance can be given that Paradise's techniques and strategies will be profitable.

Liquidity risk

There may be times when there may be a limited secondary market for some of the securities in which the Fund may invest and that may affect the ability of the Fund to realise investments or to meet withdrawal requests (e.g. in a falling market where companies may become less liquid). Small capitalization companies tend to be less liquid than larger capitalization companies. Paradise and Equity Trustees attempt to mitigate the liquidity risk factor by generally investing in securities that are believed to offer sufficient liquidity to allow investors to withdraw from the Fund as set out in this PDS. Note that neither Equity Trustees nor Paradise guarantee the liquidity of the Fund's investments or of investments into the Fund.

Derivatives risk

Paradice may, but is not required to, use derivatives for risk management purposes for the Fund. Derivatives will not be used speculatively. The use of derivative positions to hedge the risk of physical securities will involve 'basis risk', which refers to the possibility that derivative positions may not move perfectly in line with the physical security. Fluctuations in the price of derivatives reflect movements in the underlying assets, reference rate or index to which the derivatives relate. As a consequence, the derivative positions cannot be expected to perfectly hedge the risk of the physical security.

Other risks associated with derivatives may include:

- loss of value because of a sudden price move or because of the passage of time;
- potential illiquidity of the derivative;
- the Fund being unable to meet payment obligations as they arise;
- the counterparty to any derivative contract not being able to meet its obligations under the contract; and
- significant volatility in prices.

Paradice does not currently use over the counter derivatives. Note that neither Equity Trustees nor Paradise guarantees that the Fund's derivatives strategy, if used, will be successful.

Performance risk

There can be no assurance that the Fund will achieve its objectives. Further, the Fund's future performance depends upon a number of factors with the Investment Manager, including its ability to manage the investment strategy, and to grow the funds under management.

Further reading You should read the important information in the Reference Guide about additional risk factors under the "Other important information" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

5. How we invest your money

Warning: When choosing to invest in the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Fund aims to outperform the S&P/ASX Small Ordinaries Total Return Index over the longer term¹, (after fees and before taxes).

Please note that the investment objective is not intended to be a forecast. It is merely an indication of what the Fund aims to achieve over the medium to long term on the assumption that equity markets remain relatively stable throughout the investment term. The Fund may not be successful in meeting this objective. Returns are not guaranteed.

Benchmark

S&P/ASX Small Ordinaries Total Return Index.

Minimum suggested time frame

The minimum suggested investment time frame for the Fund is five to seven years.

The recommended investment timeframe may not be appropriate for you at all times or suit your particular needs. You should regularly review all aspects of your investments.

Risk level

High.

This Fund has been assigned a 'high risk' designation based on its exposure to a diversified portfolio of small cap markets equities. There is a risk investors may lose some or all of their initial investment. Higher risk investments tend to fluctuate in the short term but can produce higher returns than lower risk investments over the long term. This grading is not intended to be a guarantee of any actual level of risk or an indication of likely returns.

Investor suitability

The Fund is primarily designed for investors seeking long term capital growth from exposure to a diversified portfolio of Australian and New Zealand small capitalisation companies. Investors need to be comfortable with the short term fluctuations inherent in equity investments.

Investment style and approach

The Fund employs a long term 'bottom-up' approach to investment. Paradise believes that equity markets are inefficient and therefore offer excellent investment opportunities over time. The inefficiencies arise due to excesses in investor emotion, a focus on short term investment horizons and consistent focus on one of the least important aspects of a company's financial health – its profit and loss statement.

Paradice believes that one of the most important aspects of investing is objectivity. It is therefore possible to benefit from changes in market inefficiencies by focusing on logical, ordered and objective investment decisions based on known facts.

Paradice aims to buy shares which it believes are underpriced and expects to grow at rates greater than the market. Paradise's strategy is to favour well-managed, good value companies that have significant growth opportunities through their comparative advantage. This comparative advantage can be via a combination of a better product or service, a more efficient organisational model, a favourable niche or a commanding leadership position within their industry. Paradise believes a good business requires good products and services and good execution.

The key to identifying these investment opportunities lies in Paradise's extensive insight and analysis of companies and the industries to which they belong. This is achieved through an intense company visitation program and its experienced investment professionals using proven valuation techniques and models.

Asset allocation

In seeking to achieve the investment objective, the Fund will invest in Australian and New Zealand small capitalisation companies. Investment is generally restricted to companies or unit trusts/schemes listed on the ASX but outside the ASX Top 100 companies as determined by the ASX and comparable New Zealand Exchange listed stocks. However the Fund may have up to 20% exposure in companies or unit trusts/schemes listed in the ASX Top 100.

The Fund will be denominated in Australian dollars, and currency exposures, including any New Zealand dollar exposure, will generally remain unhedged. The Fund will generally have between 30 and 70 securities.

In the event that the Fund receives an application or redemption, the Fund may buy or sell equities on market prior to that application or redemption being reflected in the Net Asset Value of the Fund. In the case of an application, this may result in the Fund being temporarily leveraged. Such temporary leverage may also occur if application monies are equitized and ultimately not received by the Fund.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour Standards, Environmental, Social and Ethical Factors ("ESG considerations")

Equity Trustees has delegated the investment decision including ESG considerations to Paradise and Paradise may from time to time take into account ESG considerations in the selection, retention and realisation of Fund assets.

The Fund is not designed for investors who have specific ESG considerations or goals. The integration of ESG considerations into the investment process described below does not imply that the Fund is marketed as an ESG product in Australia.

Decisions about the selection, retention or realisation of investments for the Fund are primarily based on company and industry fundamentals. All factors that are considered to be materially relevant to an investment are examined, including labour standards, environmental, social and ethical issues (ESG matters) when making these decisions to the extent that these issues are assessed to have a material impact on either investment risk or return. Paradise does not have a predetermined view about what it regards to be an ESG matter and does not apply any specific methodology to measure individual companies with respect to their ESG standing or apply any specific weighting system to the standards or considerations. Paradise's assessment of whether a factor is material may differ between investments ideas. Paradise assesses whether all identified material risks, including ESG risks, are reflected in the investments for the Fund and may proactively engage with the board and/or management teams of investments, to address ESG risks, among other risks. Where Paradise believes a company has demonstrated wilful disregard for general ESG principles, it may choose to avoid or divest securities in the relevant company in the Fund's portfolio on a case by case basis. Where Paradise chooses to divest assets from the Fund due to ESG principles, it will do so within a timeframe it considers reasonable in all the circumstances. Paradise is a signatory to the Principles for Responsible Investment (PRI) as at the date hereof.

¹ Means 5 to 7 years as determined by the Investment Manager.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC) Moneysmart website** (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 1.00% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees (excluding transaction-based fees such as trading or settlement costs incurred by the custodian), and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager.

The indirect costs and other expenses component is based on the relevant costs incurred during the financial year ended 30 June 2025.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Performance fees

Performance fees include amounts that are calculated by reference to the performance of the Fund. The performance fees for the Fund are 1.72%³ of the NAV of the Fund.

The performance fee figure that is disclosed in the Fees and Costs Summary is generally based on an average of the performance fees over the previous five financial years, where each performance fee relevant to the Fund is averaged and totalled to give the performance fees for the Fund. However, as the Fund was not in operation for the previous five financial years, the performance fee average is instead calculated to by reference to the number of financial years in which the Fund was operated.

A performance fee is payable to the Investment Manager where the investment performance of the Fund after management fees and costs exceeds the performance of the Benchmark. The performance fees are 20% of this excess, calculated daily and paid semi-annually in arrears from the Fund and calculated based on the daily NAV of the Fund over the relevant period.

If the Fund does not outperform the Benchmark, after deduction of management fees and costs (in dollar terms) no performance fees are payable. Also, if the Fund outperforms the Benchmark, no performance fees are payable until any accrued under performance (in dollar terms) from prior periods has been made up (this is known as the high-watermark). In the event that there is a redemption from the Fund at a time when performance fee losses exist, the amount of the performance fee losses will be reduced by the percentage of the NAV of the Fund that the relevant redemption represents. Please note that the performance fees disclosed in the Fees and Costs Summary is not a forecast as the actual performance fee for the current and future financial years may differ. The Responsible Entity cannot guarantee that performance fees will remain at their previous level or that the performance of the Fund will outperform the Benchmark.

It is not possible to estimate the actual performance fee payable in any given period, as we cannot forecast what the performance of the Fund will be. Information on current performance fees will be updated from time to time and available at www.eqt.com.au/insto.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.30% upon entry and 0.30% upon exit. The dollar value of these costs based on an application or a withdrawal of \$20,000 is \$60 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.eqt.com.au/insto will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.20% p.a. of the NAV of the Fund, which is based on the relevant cost incurred during the financial year ended 30 June 2025.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2% of the GAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS (other than expenses and reimbursements in relation to the Fund). Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients or New Zealand Wholesale Investors. Please contact the Investment Manager on 02 8227 7400 for further information.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – Paradise Australian Small Cap Opportunities Fund - Class A

BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR

Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	1.00% p.a.	And , for every \$50,000 you have in the Paradise Australian Small Cap Opportunities Fund - Class A you will be charged or have deducted from your investment \$500 each year
Plus Performance fees	1.72% p.a.	And , you will be charged or have deducted from your investment \$860 in performance fees each year
Plus Transaction costs	0.00% p.a.	And , you will be charged or have deducted from your investment \$0.00 in transaction costs
Equals Cost of Paradise Australian Small Cap Opportunities Fund - Class A		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$1,360* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances. The performance fees stated in this table are based on the average performance fee for the Fund, over the previous five financial years. The performance of the Fund for this financial year, and the performance fees, may be higher or lower or not payable in the future. It is not a forecast of the performance of the Fund or the amount of the performance fees in the future.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Paradise Australian Small Cap Opportunities Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

Further reading

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Unit Registry Services - Paradise Investment Management
GPO Box 804
Melbourne VIC 3001

Payment should be made via electronic bank transfer and the transferring party must be Real Time Gross Settlement ("RTGS") compliant.

Please note that cash and cheques cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by their IDPS Operator.

Cooling off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a "cooling off" period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth Business Day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unitholder in the Fund during the 14-day period. This could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.

***Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)**

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must only provide an ABN instead of a TFN when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption, we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements.

For more information about the use of TFNs for investments, contact the enquiries section of your local branch of the ATO. Once provided, your TFN will be applied automatically to any future investments in the Fund/Trust where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.
