

PARTNERS GROUP ROYALTIES OPPORTUNITIES FUND

Monthly report as of 31 December 2025

Positive monthly net performance in December at +0.8%

Partners Group continues to build strong fundraising momentum in Royalties, having raised over USD 660 million in assets under management since June 2025 across our newly launched evergreen funds for institutional (approximately USD 410 million) and private wealth (approximately USD 250 million) investors in addition to the existing USD 136 million of institutional fund investors. External subscriptions were accepted into both funds from June 2025.

In December 2025, The Partners Group Royalties Opportunities Fund ("the Fund") delivered a positive net 0.8%, bringing year-to-date (since October 2025) net performance to positive 1.0%. As of the end of December 2025, the Fund has completed 45 investments (including add-ons made to existing investments).

Recent notable investments include:

- Project Spirit:** Project Spirit II represents Partners Group's acquisition of US and China royalty rights to Vamorolone (marketed as Agamree in the United States). Agamree is a corticosteroid that has been developed for children affected by Duchenne Muscular Dystrophy (DMD). It is the first dissociative corticosteroid FDA approved for all DMD genotypes. It preserves the anti-inflammatory benefits of traditional corticosteroids while reducing adverse effects such as growth stunting and bone fragility. The product was launched in the US in March 2024 and in China in September 2025.

Partners Group was attracted to the opportunity given Agamree's differentiated clinical profile, established regulatory approvals, and robust intellectual property protection through 2040. The structure combines royalties on US, China and South-East Asia sales with contractual safeguards that adjust payments if sales underperform reinforcing downside protection.

Note 1: AUM refers to the total actual investor commitments raised and invested capital. Numbers presented above for institutional and private wealth funds are as of end January 2026.

This Fund might restrict outflows in the future.

IMPORTANT INFORMATION: We would like to remind investors that redeeming their holdings in the Fund is subject to restrictions as set out in the Fund's constituent documents, including being subject to the ability of the Fund to redeem its holdings in the Underlying Fund. Redemptions are generally subject to a maximum per dealing day expressed as a percentage of the net asset value. In certain circumstances redemptions in the Underlying Fund may also be suspended thus affecting redemptions of the Fund.
