1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888. Today, Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Royal London Asset Management Limited as the investment manager of the Fund. The Investment Manager is responsible for investing and managing the Fund in accordance with the Fund's investment strategy. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Royal London Asset Management Limited (referred throughout this PDS as "Royal London" or the "Investment Manager"), is wholly owned by the Royal London Mutual Insurance Society Limited, the UK's largest mutual pension and investment provider.

Established in 1988, the Investment Manager has a long history of success, delivering key investment solutions and manages assets of around £181 billion (as at 30 June 2025) on behalf of a wide range of clients. The Investment Manager prides itself on the breadth and quality of the investment options they offer. Their size and scale mean they can give clients access to investment solutions from all major asset classes, catering to a broad range of risk appetites, portfolio needs and market conditions. Their principal place of business is 80 Fenchurch Street, London EC3M 4BY, England.

The Investment Manager is exempt from the requirement to hold an Australian financial services licence under the Corporations Act in relation to the financial services it provides in respect of the Fund. The Investment Manager is authorised and regulated by the Financial Conduct Authority of the United Kingdom under United Kingdom laws, which differ from Australian laws.

2. How the Royal London Short Duration Global High Yield Bond Fund (Income - Class I AUD) works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy.

The Fund is a 'feeder fund' meaning that it gains indirect exposure to underlying assets by investing all or most of its assets in the Royal London Short Duration Global High Yield Bond Fund ("Underlying Fund") S Income AUD share class – an open-ended collective asset management vehicle authorised in Ireland as an Undertaking for Collective Investment in Transferable Securities ("UCITS") pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations. The Underlying Fund is an umbrella fund with separate share classes.

Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor in the Fund. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to the relevant IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors in the Fund.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Class is \$100,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Royal London Asset Management
GPO Box 804
Melbourne VIC 3001

Or by sending it via email to rlam_transactions@unitregistry.com.au

Please note that cash and cheques cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Class, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, there is no Buy Spread on the Fund, but investment in the Underlying Fund may be impacted by a Dilution Levy (please refer below).

The Application Price will vary as the market value of assets in the Class rises or falls.

Making additional investments

You can make additional investments into the Class at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$10,000.

Distributions

An investor's share of any distributable income of the Fund is calculated in accordance with the Constitution and is generally based on the number of units held by the investor in the Fund at the end of the distribution period.

The Fund usually distributes income (if any) semi-annually at the end of June and December, however, Equity Trustees may change the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Dealing Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested, but investment in the Underlying Fund may be impacted by a Dilution Levy.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review the relevant IDPS Guide for information on how and when they receive any income distribution.

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Royal London Asset Management
GPO Box 804
Melbourne VIC 3001

Or by sending it via email to rlam_transactions@unitregistry.com.au

The minimum withdrawal amount is \$10,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees generally anticipates that the payment of withdrawal proceeds will be made within 7 Business Days of Equity Trustees' acceptance of a withdrawal request, but this payment may be made within 21 days of the date of Equity Trustees' acceptance of a withdrawal request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide. The payment of the withdrawal proceeds may be made by transferring the withdrawal proceeds to the relevant investor's nominated AUD denominated Australian domiciled bank account.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, there is no Sell Spread on the Fund but investment in the Underlying Fund may be impacted by a Dilution Levy. The Withdrawal Price will vary as the market value of assets in the Class rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Class falls below \$10,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control, where the Fund is not liquid (as defined in the Corporations Act) or where the redemption of interests in the Underlying Fund (or the calculation of the net asset value of the Underlying Fund's interests) have been suspended, Equity Trustees can deny or suspend one or more withdrawal requests and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to the relevant IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from, or inspected at, an ASIC office or through ASIC's website.

3. Benefits of investing in the Royal London Short Duration Global High Yield Bond Fund (Income - Class I AUD)

Significant features

The Fund is managed (including through exposure to, and the management of, the Underlying Fund) by an experienced Global Credit team which has overseen the Underlying Fund through changing economic conditions and business cycles. The Fund is designed to offer a global credit product that seeks to provide income with controlled volatility, especially in uncertain market environments.

Investing in the Fund may provide the following potential benefits:

- Exposure to lower interest rate risk compared to investment grade bonds, government bonds, and longer maturity high yield bonds, which may be relevant in periods of rising interest rates; and
- Potential for diversification, as well as a risk/return and liquidity profile that may be appropriate for various types of investors.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets (including where they are invested) and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed, and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

There is a risk that investing in the Fund may give you different results than if you invested directly in the underlying assets. This may be due to fees, taxes or the timing element of investing in the underlying assets.

Investment in the Fund carries with it a degree of risk including, but not limited to, the risks described below, which are materially relevant to the Fund (noting that some of these risks may arise indirectly through the Fund's investment in the Underlying Fund):

Investment Risk

The value of investments and any investment risk that come from them may go down as well as up and is not guaranteed. Investors may not get back the amount invested.

Counterparty Risk

The insolvency of any institutions providing services to the Fund (such as safekeeping of assets or acting as counterparty to derivatives or other instruments) may expose the Fund to financial loss.

Credit Risk

Should the issuer of a fixed income security become unable to make income or capital payments, or their rating is downgraded, the value of that investment will fall. Fixed income securities that have a lower credit rating can pay a higher level of income and have an increased risk of default.

Efficient Portfolio Management (EPM) Techniques

The Fund may engage in EPM Techniques including holdings of derivative instruments. Whilst intended to reduce risk, the use of these instruments may expose the Fund to increased price volatility.

Exchange Rate Risk

Investing in assets denominated in a currency other than the base currency of the Fund means the value of the investment can be affected by changes in exchange rates.

Liquidity Risk

In difficult market conditions the value of certain investments may be less predictable than normal. In some cases, this may make such investments harder to sell at the last quoted market price, or at a price considered to be fair. Such conditions could result in unpredictable changes in the value of your holding.

Derivative Risk

Derivatives are highly sensitive to changes in the value of the underlying asset which can increase both Fund losses and gains. The impact to the Fund can be greater where they are used in an extensive or complex manner, where the Fund could lose significantly more than the amount invested in derivatives.

Pandemic and Other Unforeseen Event Risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

Multiple Unit Class Risk

The Fund offers separate classes of units for investment. The classes are not separate legal entities and the assets of each class will not be legally segregated from each other. All of the assets of the Fund may, subject to the Constitution, be available to meet all of its liabilities, regardless of the class to which such assets or liabilities are attributable. In practice, cross-class liability will usually only arise where any separate class becomes insolvent and is unable to meet all of its liabilities. In this case, all of the assets of the Fund attributable to other separate classes may be applied to cover the liabilities of the insolvent classes. If losses or liabilities are sustained by a class in excess of the assets attributable to such class, such excess may be apportioned to the other classes.

5. How we invest your money

Warning: When choosing to invest in the Fund or an option of the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Fund aims to generate income and outperform the benchmark over rolling 3-year periods.

Benchmark

Australian Overnight Index Average (AONIA)

Minimum suggested time frame

The minimum recommended investment holding period is 3 years.

Risk level

Low to Medium

The Underlying Fund (which the Fund will be investing all or most of its assets in) has shown a low to medium level of volatility using the Cornish-Fisher expansion method to assess the level of risk. This uses historical return data, statistical models and value at risk (VaR) calculations.

Historically the Fund, or its representative benchmark index has exhibited a low to medium levels of volatility, hence the classification.

There is a risk that investors may lose some or all of their investment. Higher risk investments can fluctuate in value but may also produce higher returns than lower risk investments.

Please refer to section 4 - Risks of managed investment schemes, above.

Investor suitability

The Fund is suitable for investors with both income and growth objectives and who are comfortable with the risk level associated with the Fund. The Fund is not suitable for investors who cannot bear loss of capital.

Fund performance

Up to date information on the performance of the Fund is available by emailing the Investment Manager on institutional@rlam.co.uk.

Past performance is not a reliable indicator of future performance and may not be repeated.

Investment style and approach

The Fund, through the Underlying Fund, will be managed using the Investment Manager's credit investment process focusing on security selection combined with top-down macroeconomic analysis. The Investment Manager's value-orientated approach seeks to exploit the inefficiencies within credit markets, especially within higher yielding bonds further down the credit spectrum. At the macro level, the Investment Manager's analysis starts with a quarterly economic review which covers all major economic regions and focuses upon key variables such as growth rates and inflation. This strategy is also used to formulate the Investment Manager's outlook scenarios, including long-term yield and interest rate forecasts which helps to shape its investment strategy. The Investment Manager also undertakes internal research on companies, which is supplemented by research from rating agencies and brokers. The Investment Manager's internal rating methodology looks not only at the probability of default (where credit ratings agencies place their focus) but also the protection offered to its clients (covenants and security), and it also considers ESGC (Environmental, Social, Governance and Climate) factors as part of the credit review (as further described under "Responsible Investment" below). As part of the Investment Manager's internal search process, company visits are conducted to assess the quality of portfolio companies. The objective is to construct a diversified portfolio intended to generate returns from multiple sources.

Asset allocation

The Fund is expected to have an asset allocation of up to 100% indirect exposure to global debt securities through investment in the Underlying Fund, with a small allocation (up to 5%) held in cash for efficient portfolio management.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour Standards, Environmental, Social and Ethical Factors ("ESG considerations")

The Responsible Entity has delegated investment decisions including ESG considerations to the Investment Manager.

The Investment Manager will take into account ESG considerations in the selection, retention and realisation of Fund assets (as outlined below).

The Underlying Fund adopts a multi-layered approach to the promotion of Environmental, Social, Governance and Climate (ESGC) characteristics, as follows:

Governance includes G factors under a range of pillars: board (ownership and related party transactions), pay, audit, stakeholders (country of majority of operation and regulated activity) and controversies.

Social includes S factors under a range of pillars: the policies, operations, product or services and governance (as applicable) of employees, customers, communities and controversies.

Environment (ex Climate) includes E factors under a range of pillars: the consumption and impact of toxic emissions, energy, water, waste and environmental controversies.

Climate includes C factors under a range of pillars: exposure (carbon emissions), ability (transition targets), willingness (recent relative change in emissions) and climate controversies.

The Investment Manager's approach is to score the above ESGC factors on every issuer the Fund invests in or proposes to invest in and resize (or exclude depending on severity) those where the credit worthiness is impacted. Where credit worthiness is not materially impacted, the Investment Manager will engage with low scoring companies to try to improve their ESGC scoring. If there is no significant improvement over a period of time, then these will be disinvested from.

Exclusions: The Investment Manager will exclude credit instruments with direct exposure to controversial weapons and direct material exposure (>10% of revenue) to the following sectors: tobacco and thermal coal producers.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Fund. The Investment Manager looks at each credit instrument in detail and applies factors (as detailed above in the description of the ESGC characteristics promoted by the Fund) to score each credit instrument across E, S, G and C metrics based on a 1 – 10 rating scale. A “low score” is where the score is in the bottom quartile of MSCI ESG scores. MSCI ESG scores aim to measure a company’s management of ESG risks and opportunities taking into account the most material risks per industry/sector, using a similar scoring range as the Investment Manager’s ESGC scoring methodology. MSCI is a leading provider of research, data and technology for the global investment community.

This analysis of the above factors results in E, S, G and C scores for each credit instrument. This scoring is integrated into the Investment Manager’s credit decision making. G is dealt with separately to E, S and C.

Governance is assumed to be material to credit worthiness. As a result, G scores (calculated using the above G factors) are used to size positions, with a negative risk decision impacting internal credit ratings, which impact the sizing of positions. Anything below a baseline governance level is automatically excluded. Low G scoring credit instruments above the baseline threshold will be engaged with.

Low E, S and C scores will lead to a secondary assessment analysing the impact on credit worthiness, determined on a case-by-case basis.

Where there is no material impact on the credit worthiness, then a low score will lead to an engagement process with the relevant issuer where the Investment Manager believes there is the potential for the issuer to improve its policies. The Investment Manager evaluates whether there is such scope to engage by researching and assessing different sources of data, where available, including but not limited to, an issuer’s/company’s annual reports, sustainability reports, existing ESGC policies and communicating with management to discuss such ESGC policies/plans and how these are expected to evolve. Engagement with the credit issuer is periodic, including periodic re-evaluations of the business and its policies along with mitigation steps taken by the issuer over time, to assess improvement in the scores over a two year period. If there is no ‘significant improvement’ of the score then the position sizing will be re-evaluated, with potential for full disinvestment.

If the E, S, G and C score is thought by the Investment Manager to impact credit worthiness materially, then the Fund will not invest in the relevant credit instrument or will consider smaller sizing depending on severity of impact, or where already invested, then the internal credit rating of the relevant issuer will be adjusted accordingly and the position will re-sized, reduced or exited entirely depending on the specific circumstances..

For further details, please refer to Annex II of Appendix 1 of the Supplement – Royal London Short Duration Global High Yield Bond Fund available at www.rlam.com/uk.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor’s account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund and the Underlying Fund, investing the assets of the Fund and the Underlying Fund, expenses and reimbursements in relation to the Fund and the Underlying Fund, as well as indirect costs.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.46% p.a. of the NAV of the Class is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is calculated and accrued daily and paid from the Class monthly in arrears and reflected in the unit price of the Class. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The management costs component of the management fees and costs includes the indirect costs and other expenses component of 0.09% p.a. of the NAV of the Fund which may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles (such as the Underlying Fund) in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Class as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager.

As the Fund is newly established, the figures reflecting the indirect costs and other expenses component is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12 month period.

In relation to the costs that have been estimated, they have been estimated on the basis of information that has been provided by an interposed vehicle and adjusted for our calculations.

Actual indirect costs for the current and future years may differ. If in the future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (eg. the Underlying Fund), that would have been transaction costs if they had been incurred by the Fund itself. Where a Dilution Levy is applied, the costs associated with applications and redemptions from the Fund may be reflected through an additional charge at the Underlying Fund level. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Class will incur when buying or selling assets of the Class. These costs (where they are higher than 0.00%) are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Class and are not separately charged to the investor. The Buy Spread is paid into the Class as part of an application and the Sell Spread is left in the Class as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.00% upon entry and 0.00% upon exit. The dollar value of these costs based on an application or a withdrawal of \$100,000 is \$0 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.eqt.com.au/insto will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Class's assets and are reflected in the Class's unit price as an additional cost to the investor, as and when they are incurred. To the extent that the Trust invests in the Underlying Fund, it may be affected by a Dilution Levy (as defined in the Reference Guide) adopted by the Underlying Fund. A Dilution Levy involves the Underlying Fund making an additional charge, where the application or redemption exceeds a certain threshold, to offset the impact of trading costs.

The gross transaction costs for the Class are 0.25% p.a. of the NAV of the Class, which is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12 month period.

In relation to the costs that have been estimated, they have been estimated on the basis of information that has been provided by an interposed vehicle and adjusted for our calculations.

However, actual transaction costs for future years may differ.

Advice fees

If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2% of the GAV of the Class. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days’ notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact the Investment Manager on institutional@rlam.co.uk for further information.

Tax

In addition to the fees and costs described in this section 6, you should also consider the government taxes and other duties that may apply to an investment in the Fund. For information on tax please see Section 7 of this PDS.

All ongoing annual fees and costs under the ‘Fees and Costs Summary’ are net of any Reduced Input Tax Credits (RITC) that may be available to the Fund.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – Royal London Short Duration Global High Yield Bond Fund (Income - Class I AUD)		
BALANCE OF \$150,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	0.55% p.a.	And, for every \$150,000 you have in the Royal London Short Duration Global High Yield Bond Fund (Income - Class I AUD) you will be charged or have deducted from your investment \$825 each year
Plus Performance fees	Not applicable	And, you will be charged or have deducted from your investment \$— in performance fees each year
Plus Transaction costs	0.25% p.a.	And, you will be charged or have deducted from your investment \$375 in transaction costs
Equals Cost of Royal London Short Duration Global High Yield Bond Fund (Income - Class I AUD)		If you had an investment of \$150,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$1,200* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$150,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

Further reading

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest in the Fund please complete the Application Form accompanying this PDS, send funds to the relevant bank account (see details in the Application Form) and your completed Application Form to:

Royal London Asset Management
GPO Box 804
Melbourne VIC 3001

Or by sending it via email to rlam_transactions@unitregistry.com.au

Please note that we do not pay interest on application monies (any interest is credited to the Fund).

Please note that cash and cheques cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by their IDPS Operator.

Cooling off period

No cooling off period applies to the offer made in this PDS, as the units offered under this PDS are only available to Wholesale Clients.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.

Complaints resolution

Equity Trustees has an established complaints handling process and is committed to properly considering and resolving all complaints. If you have a complaint about your investment, please contact us on:

Phone: 1300 133 472
Post: Equity Trustees Limited
GPO Box 2307, Melbourne VIC 3001
Email: compliance@eqt.com.au

We will acknowledge receipt of the complaint within 1 Business Day or as soon as possible after receiving the complaint. We will seek to resolve your complaint as soon as practicable but not more than 30 calendar days after receiving the complaint.

If you are investing through an IDPS, enquiries and complaints can be made to Equity Trustees (although we encourage you to direct your enquiries and complaints to the IDPS Operator first).

If you are not satisfied with our response to your complaint, you may be able to lodge a complaint with the Australian Financial Complaints Authority ("AFCA"). The external dispute resolution body is established to assist you in resolving your complaint where you have been unable to do so with us. However, it's important that you contact us first.

***Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)**

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must only provide an ABN instead of a TFN when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption, we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements.

Once provided, your TFN will be applied automatically to any future investments in the Fund/Trust where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.
