# 1. About Equity Trustees Limited

## The Responsible Entity

### Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Trust's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Trust's responsible entity are governed by the Trust's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed SG Hiscock & Company Limited as the investment manager of the Trust. Equity Trustees has appointed a custodian to hold the assets of the Trust. The custodian has no supervisory role in relation to the operation of the Trust and is not responsible for protecting your interests.

## The Investment Manager

### SG Hiscock & Company Limited

SG Hiscock & Company ABN 51 097 263 628 AFSL 240679 ("SGH") is a boutique investment manager specialising in high conviction, actively managed investment strategies and Managed Discretionary Portfolios.

SGH was established in Melbourne in 2001 by six of its principals and is entirely owned by directors, staff and associates.

# 2. How the SGH Enhanced Income Trust works

The Trust is a registered managed investment scheme governed by the Constitution. The Trust comprises assets which are acquired in accordance with the Trust's investment strategy. Direct investors receive units when they invest in the Trust. In general, each unit represents an equal interest in the assets of the Trust subject to liabilities; however, it does not give investors an interest in any particular asset of the Trust.

If you invest in the Trust through an IDPS (as defined in the Reference Guide) you will not become an investor in the Trust. The operator or custodian of the IDPS will be the investor entered in the Trust's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Trust through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

## Applying for units

There are several ways to invest in the Trust. You can acquire units by completing the Application Form that accompanies this PDS or completing the application process online (new investors only). The minimum initial investment amount for the Trust is \$20,000.

See Section 8 "How to Apply" of this PDS and the SGH Enhanced Income Trust Reference Guide for further information.

If completing the application process online, please go to [www.sghiscock.com.au](http://www.sghiscock.com.au) for further instructions.

Please note that all monies deposited by direct credit, direct debit or cheque must match the amount specified on the Application Form for an application to be valid. We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Trust's investors.

## Application Price

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Trust, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.10%.

The Application Price will vary as the market value of assets in the Trust rises or falls.

## Making additional investments

You can make additional investments into the Trust at any time by sending us your additional investment amount together with a completed Additional Investment Form. The minimum additional investment into the Trust is \$5,000 or \$500 if paying by BPAY. Forms are available at [www.sghiscock.com.au](http://www.sghiscock.com.au).

## Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Trust usually distributes income quarterly at the end of September, December, June and March. However, Equity Trustees may change the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

## Distribution Options

Investors in the Trust can indicate a preference to have their distribution:

- reinvested back into the Trust; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

## Access to your money

Investors in the Trust can generally withdraw their investment by completing a written request to withdraw from the Trust and mailing it to:

Mainstream Fund Services Pty Ltd  
Unit Registry  
GPO Box 4968  
Sydney, NSW, 2001

You can also email [SGHinvestorservices@mainstreamgroup.com](mailto:SGHinvestorservices@mainstreamgroup.com)

Or sending it by fax to +61 2 9251 3525

The minimum withdrawal amount is \$5,000. Withdrawal forms are available at [www.sghiscock.com.au](http://www.sghiscock.com.au). Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 7 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 30 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

## Cut-off times for processing transactions

If we receive all required application or redemption documents before or at 2pm (Melbourne time) on a Business day, and your request is accepted by the Fund's administrator, Mainstream Fund Services, we will process the transaction using that day's application or redemption price. Requests received after 2pm (Melbourne time) on a Business day or non-Business day will generally be treated as having been received before the cut-off time on the next Business day.

## Unit Pricing

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Trust, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.10%.

The Withdrawal Price will vary as the market value of assets in the Trust rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Trust falls below \$10,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Trust including due to one or more circumstances outside its control or where the Trust is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Trust is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

### Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

### Additional information

If and when the Trust has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Trust will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Trust may be obtained from ASIC through ASIC's website.

## 3. Benefits of investing in the SGH Enhanced Income Trust

### Significant features

The objective of the Trust is to provide a quarterly income stream and seek to outperform the Bloomberg AusBond Bank Bill Index (BAUBIL) plus 1% after fees over a rolling 12 month period.

### Significant benefits

An investment in the Trust offers investors a range of key benefits:

- The Trust is designed to provide income characteristics, aiming to deliver a significant proportion of its total return from income after allowing for franking credits over the cycle by investing in a diversified basket of carefully selected hybrid and income securities as well as dividend paying ordinary equities.
- The Investment Manager seeks out quality companies that have strong balance sheets and free cash flow to enable them to pay income.
- To select securities, the Investment Manager uses detailed fundamental analysis that is overlaid with considerations of global macro and thematic influences to build a complete picture of the operating environment of the company.
- The investment strategy will provide continuous exposure to a professionally managed portfolio of securities designed to produce superior long-term risk adjusted returns.
- You will receive quarterly distributions of income, provided the Trust has distributable income for the relevant distribution period.
- Regular reporting to keep you up to date on your investment.

## 4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Trust. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and Investment Manager do not guarantee the liquidity of the Trust's investments, repayment of capital or any rate of return or the Trust's investment performance. The value of the Trust's investments will vary. Returns are not guaranteed and you may lose money by investing in the Trust. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Trust is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Trust is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

### Sector Selection Risk

The Investment Manager may make poor investment decisions resulting in sub-standard returns (for example, where the Investment Manager gains exposure to a sector which significantly underperforms relative to other sectors). This risk is mitigated to some extent by the knowledge and experience of the Investment Manager.

### Investment Specific Risk

There may be instances where an investment in which the Trust invests will fall in price because of investment specific factors (for example, where a company's major product is subject to a product recall). The value of investments can vary because of changes to management, product distribution, investor confidence, internal operations or the company's business environment.

### Security risk

This is the risk attributed to the circumstances of an individual security. It can relate to management, operational, product, industry and other factors. Even if the Trust is well diversified, falls in the price of an individual security may affect the value of your investment.

## Liquidity risk

There may be times when securities may not be readily tradeable and this may impact the investment and the markets to which the Trust has exposure and may also cause delays in processing application and/or withdrawal requests.

## Counterparty risks

There is a risk that a counterparty (e.g. trading partner) will fail to perform its contractual obligations, which could result in a loss to the Trust.

## Credit risk

There is a risk that an issuer or credit support provider of a debt security could suffer an adverse change in financial condition, for example, due to a ratings downgrade or default, which could result in a loss for the Trust.

## Interest rate risk

Interest rate risk is the risk that fixed income securities and other instruments in the Trust's portfolio will decline in value because of an increase in interest rates. As nominal interest rates rise, the value of certain fixed income securities held by the Trust, directly or indirectly, is likely to decrease.

## Derivatives Risk

The Trust will use derivatives for risk management purposes. The use of derivative positions to hedge the risk of physical securities will involve 'basis risk', which refers to the possibility that derivative positions may not move perfectly in line with the physical security. Fluctuations in the price of derivatives reflect movements in the underlying assets, reference rate or index to which the derivatives relate. As a consequence, the derivative positions cannot be expected to perfectly hedge the risk of the physical security. Derivatives are also used as substitutes for physical securities. In doing so there is the risk that a derivative may not be a perfect substitute for the underlying security it aims to replace, and may not mirror its movements completely. Other risks associated with derivatives may include loss of value because of a sudden price move or because of the passage of time; potential illiquidity of the derivative; the Trust being unable to meet payment obligations as they arise; the counterparty to any derivative contract not being able to meet its obligations under the contract; and significant volatility in prices.

Note that neither the Responsible Entity nor the Investment Manager guarantee that the Trust's derivatives strategy will be successful.

### Further reading

Before making a decision to invest, you should read the important information in the Reference Guide "Additional risks of managed investment schemes" section about additional risks that apply to managed investment schemes. Go to the Reference Guide which is available at [www.sghiscock.com.au](http://www.sghiscock.com.au). The material relating to the additional risks may change between the time when you read this PDS and the day when you acquire the product.

## 5. How we invest your money

**Warning:** When choosing to invest in the Trust, you should consider the likely investment returns, the risks of investing and your investment time frame.

### Minimum suggested time frame

The minimum suggested investment time frame for the Trust is 3 - 5 years.

## Risk level of the Trust

Low

There is a risk investors may lose some of their investment. Higher risk investments tend to fluctuate in the short-term but can produce higher returns than lower risk investments over the long-term.

## Investor suitability

The Trust is best suited for investors who would like a quarterly income stream. These investors will also have a low tolerance for risk.

## Investment strategy

The Trust is designed to provide a quarterly income stream and medium to long-term capital growth potential and seeks to outperform the Bloomberg AusBond Bank Bill Index (BAUBIL) plus 1% after fees over a rolling 12 month period.

Specific consideration is not given to sector diversification, however the portfolio is suitably diversified at all times.

## Trust performance

Up to date information on the performance of the Trust will be available by visiting [www.sghiscock.com.au](http://www.sghiscock.com.au), emailing [enquiries@sghiscock.com.au](mailto:enquiries@sghiscock.com.au) or calling SGH on +613 9614 4600.

## 6. Fees and costs

### DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

### TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC) Moneysmart** website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

### Additional Explanation of Fees and Costs

#### Management fees and costs

The management fees and costs include amounts payable for administering and operating the Trust, investing the assets of the Trust, expenses and reimbursements in relation to the Trust and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.21% p.a. of the NAV of the Trust is payable to the Responsible Entity of the Trust for managing the assets and overseeing the operations of the Trust. The management fees component is accrued daily and paid from the Trust monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at [www.eqt.com.au/insto](http://www.eqt.com.au/insto) where they are not otherwise required to be disclosed to investors under law.

### Performance fees

Performance fees include amounts that are calculated by reference to [the performance of the Trust. The performance fees for the Trust are 0.63% of the NAV of the Trust.

The performance fee figure that is disclosed in the Fees and Costs Summary is generally based on an average of the performance fees over the previous five financial years, where each performance fee relevant to the Trust is averaged and totalled to give the performance fees for the Trust.

In terms of the performance fees payable to the Investment Manager, a performance fee is payable where the investment performance (after fees) of the Trust exceeds the performance of the Bloomberg AusBond Bank Bill Index plus 1% ("Performance Hurdle"). The performance fee is 20.5% of this excess, calculated daily and paid annually in arrears from the Trust and calculated based on the beginning NAV unit price of the Trust over the relevant period.

Performance fees are subject to a high-water mark which means no performance fees are payable until any accrued underperformance, as against the performance hurdle, from prior periods has been made up.

Note that the NAV unit price as at the end of the relevant performance fee period is adjusted for any change in the NAV unit price as a result of any distributions paid since the end of the last performance fee period for which a performance fee was paid.

Please note that the performance fees disclosed in the Fees and Costs Summary is not a forecast as the actual performance fee for the current and future financial years may differ. The Responsible Entity cannot guarantee that performance fees will remain at their previous level or that the performance of the Fund will outperform the Benchmark.

It is not possible to estimate the actual performance fee payable in any given period, as we cannot forecast what the performance of the Trust will be. Information on current performance fees will be updated from time to time and available at [www.eqt.com.au/insto](http://www.eqt.com.au/insto).

### Transaction costs

In managing the assets of the Trust, the Trust may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Trust, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Trust invests (if any), that would have been transaction costs if they had been incurred by the Trust itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Trust are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Trust.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Trust will incur when buying or selling assets of the Trust. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Trust and are not separately charged to the investor. The Buy Spread is paid into the Trust as part of an application and the Sell Spread is left in the Trust as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.10% upon entry and 0.10% upon exit. The dollar value of these costs based on an application or a withdrawal of \$20,000 is \$20 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and [www.eqt.com.au/insto](http://www.eqt.com.au/insto) will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Trust's assets and are reflected in the Trust's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Trust are 0.22% p.a. of the NAV of the Trust, which is based on the relevant costs incurred during the financial year ended 30 June 2021.

However, actual transaction costs for future years may differ.

### Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2.00% of the GAV of the Trust. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Trust and as such these expenses may increase or decrease accordingly, without notice.

### Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Trust on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

### Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact SGH on +613 9614 4600 for further information.

### Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

**EXAMPLE – SGH Enhanced Income Trust****BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR**

Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	0.21% p.a.	And, for every \$50,000 you have in the SGH Enhanced Income Trust you will be charged or have deducted from your investment \$105 each year
Plus Performance fees	0.63%	And, you will be charged or have deducted from your investment \$315 in performance fees each year
Plus Transaction costs	0.09% p.a.	And, you will be charged or have deducted from your investment \$45 in transaction costs
Equals Cost of SGH Enhanced Income Trust		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$465* <b>What it costs you will depend on the investment option you choose and the fees you negotiate.</b>

\* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

**Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.**

ASIC provides a fee calculator on [www.moneysmart.gov.au](http://www.moneysmart.gov.au), which you may use to calculate the effects of fees and costs on account balances. The performance fees stated in this table are based on the average performance fee for the Fund, over the previous five financial years. The performance of the Fund for this financial year, and the performance fees, may be higher or lower or not payable in the future. It is not a forecast of the performance of the Fund or the amount of the performance fees in the future.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

### Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at [www.sghiscock.com.au](http://www.sghiscock.com.au). The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

## 7. How managed investment schemes are taxed

**Warning: Investing in a registered managed investment scheme (such as the Trust) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Trust.**

The Trust is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Trust to which they become presently entitled or, where the Trust has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

### Further reading

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at [www.sghiscock.com.au](http://www.sghiscock.com.au). The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

## 8. How to apply

Before completing the Application Form or Additional Investment Form, please ensure you have read this PDS together with the Reference Guide available from [www.sghiscock.com.au](http://www.sghiscock.com.au).

### New investors:

- Complete the application process on-line (please visit [www.sghiscock.com.au](http://www.sghiscock.com.au) for further instructions)
- Complete the Application Form accompanying the PDS (details are in the Application Form) and post it to Mainstream Fund Services Pty Ltd, Unit Registry, GPO Box 4968, Sydney, NSW 2001 or email the form to: [SGHinvestorservices@mainstreamgroup.com](mailto:SGHinvestorservices@mainstreamgroup.com); with your payment by:
  - Transfer the application money electronically to the Fund
  - Direct Debit (for initial investment only)
  - Cheque

### Existing investors and additional applications:

Additional investment can be made into an existing account at any time. The process for existing investors or making an additional investment is to complete an Additional Investment Form available at [www.sghiscock.com.au](http://www.sghiscock.com.au); and post or email it to Mainstream Fund Services Pty Ltd with your payment by:

- BPay (no form is required)
- Transfer the application money electronically to the Fund
- Cheque

Please note that cash cannot be accepted and all applications must be made in Australian dollars. All monies deposited by direct credit, direct debit or cheque must match the amount specified on the Application Form or the Additional Investment Form for the application to be valid.

### Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over. Investors investing through an IDPS should use the application form provided by their IDPS Operator.

### Cooling-off rights

If you are a Retail Client who has invested directly in the Trust, you may have a right to a 'cooling off' period in relation to your investment in the Trust for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth Business Day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as an investor in the Trust during the 14 day period. This could include selling part of your investment or switching it to another product. No cooling off period applies if you are a Wholesale Client.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Trust by the IDPS. The right to cool off in relation to the Trust is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of an investor in the Trust. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Trust on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Trust and any rights an Indirect Investor may have in this regard.
