2. HOW THE EQT RESPONSIBLE INVESTMENT GLOBAL SHARE FUND - CLASS B WORKS

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

APPLYING FOR UNITS

You can acquire units by completing the Application Form that accompanies this PDS, or completing the online Application Form. The minimum initial investment amount for the Fund is \$5,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Equity Trustees Registry Team
GPO Box 804
Melbourne VIC 3001

Or email to equitytrustees_transactions@unitregistry.com.au

Please note that cash and cheques cannot be accepted. You can apply using BPAY, direct credit and direct debit payment options. Please refer to the Reference Guide for more information.

If completing the online Application Form, please go to www.eqt.com.au/corporates-and-fund-managers/managed-fund for further instructions.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day (as defined in the Reference Guide) is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.35%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

MAKING ADDITIONAL INVESTMENTS

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Additional Application Form. The Additional Application Form is located at www.eqt.com.au/corporates-and-fund-managers/managed-fund. The minimum additional investment into the Fund is \$1,000. Please refer to the EQT Reference Guide.

DISTRIBUTIONS

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income annually at the end of June, however AETL may amend the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD Australian domiciled bank account.
- Alternatively, reinvest capital component of distribution and directly credit income component of distribution to your nominated bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

ACCESS TO YOUR MONEY

Investors in the Fund can generally withdraw their investment by completing a Redemption Request Form located at <http://www.eqt.com.au/corporates-and-fund-managers/managed-fund> or a written request to withdraw from the Fund and mailing it to:

Equity Trustees Registry Team
GPO Box 804
Melbourne VIC 3001

Or email to equitytrustees_transactions@unitregistry.com.au

The minimum withdrawal amount is \$1,000. Once we receive your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

AETL will generally allow an investor to access their investment within 7 days of receipt of a withdrawal request by transferring the withdrawal proceeds to such investors' nominated bank account. However, AETL is allowed to reject withdrawal requests and also, while the Fund is liquid, the Constitution allows AETL up to 30 days to process a withdrawal and enables us to suspend the processing of withdrawals for a further 30 days where we consider it to be in the best interests of investors, as outlined in the Constitution and Reference Guide. If we consider it not in the best interests of investors to lift the suspension, the Fund will be terminated. We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.35%. The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

AETL reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$4,000 as a result of processing your withdrawal request. When the Fund is not liquid, an investor can only withdraw when AETL makes a withdrawal offer to investors in accordance with the Corporations Act. AETL may, but is not obliged to make such offers.

UNIT PRICING DISCRETIONS POLICY

AETL has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

ADDITIONAL INFORMATION

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

AETL will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. BENEFITS OF INVESTING IN THE EQT RESPONSIBLE INVESTMENT GLOBAL SHARE FUND - CLASS B

The Fund is an actively managed portfolio that invests in a diverse range of international equity managed funds. Benefits of investing in the Fund include:

- exposure to international equities with the potential for long-term capital growth;
- The Fund directs investment towards international managers that apply a responsible investment framework to their investment decision making process. please see 'Labour Standards, Environmental, Social and Ethical Factors ("ESG considerations")' section for further details
- appropriate diversification in order to reduce volatility of returns;
- a style unaware portfolio (meaning that it does not attempt to follow a particular style of investing or index) that seeks to add value and generate consistent returns over all market cycles;
- a dedicated Management Investment Committee that will oversee the Fund's investment strategy; and
- regular reporting to keep you up to date on your investments.

4. RISKS OF MANAGED INVESTMENT SCHEMES

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed, and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

COMPANY/ASSET-SPECIFIC RISK

The Fund will have an exposure to shares. There may be instances where the value of a company's shares or assets will fall because of company or asset specific factors (for example, where a company's major product is subject to a product recall). The value of a company's securities can also vary because of changes to management, product, distribution or the company's business environment and this may negatively affect the value of the units in the Fund.

CURRENCY RISK

There may be currency risk for this Fund, as the Fund will be investing in underlying funds which have international investments denominated in currencies other than the Australian dollar. Currency risk is the potential for adverse movements in exchange rates to reduce the Australian dollar value of international investments. For example, if the Australian dollar falls, the value of international investments expressed in Australian dollars can increase; if the Australian dollar rises, the value of international investments expressed in Australian dollars can decrease and this has the potential to reduce the value of the Fund's investments.

DERIVATIVES RISK

Generally, in the case of Derivatives, fluctuations in price will reflect movements in the underlying assets, reference rate or index to which the Derivatives relate. The use of Derivatives to hedge the risk of movements in an underlying asset, reference rate or index involves 'basis risk', which refers to the possibility that Derivatives may not move perfectly in line with the underlying asset, reference rate or index. As a consequence, Derivatives cannot be expected to perfectly hedge the risk of the underlying asset, reference rate or index.

Other risks associated with Derivatives may include:

- that they can lose value because of a sudden price move or because of the passage of time;
- potential illiquidity of the Derivative;
- the Fund being unable to meet payment obligations as they arise;
- the counterparty to any Derivative contract not meeting its obligations under the contract;
- significant Volatility in prices; and
- where Derivatives are highly leveraged, an increase in the risk associated with an investment.

EMERGING MARKETS RISK

The Fund will have an exposure to investments in Emerging Markets, as it will invest in underlying funds that have investments in Emerging Markets (for an explanation of "Emerging Markets", please see the 'Glossary'). When underlying funds invest in Emerging Markets, this creates an exposure to economic structures that are less diverse and mature, and to political systems that are less stable, than those of developed countries. In addition, issuers in Emerging Markets may experience a greater degree of change in earnings and business prospects than would companies in developed markets.

FUND OF FUNDS RISK

The investment performance of the Fund may be affected by the investment performance of the underlying funds in which the Fund invests. Through its investment in the underlying funds, the Fund is subject to the risks of the underlying funds' investments and subject to the underlying funds' expenses.

FUND RISK

As with all managed funds, there is a risk that a Fund could terminate or that the fees and expenses could change. There is also a risk that investing in a Fund may give different results than investing directly in the securities.

INFLATION RISK

Inflation risk is the risk that returns will not be sufficiently higher than inflation to enable an investor to meet their financial goals.

INTEREST RATE RISK

Changes in official interest rates can directly and indirectly impact on investment returns. Generally, an increase in interest rates has a contractionary effect on the state of the economy and the valuation of securities. For example, rising interest rates can have a negative impact on a company's value as increased borrowing costs may cause earnings to decline. As a result, the company's share price may fall.

INTERNATIONAL INVESTING RISK

The Fund will be exposed to investments outside of Australia through its investments in underlying funds that invest in those assets. Risks of international investing include adverse currency fluctuations, potential political and economic instability, limited liquidity and volatile prices of international investments, limited availability of information regarding international investments, investment and repatriation restrictions and foreign taxation. Investment selection risk The Investment Manager may make investment decisions that result in low returns. This risk is mitigated to some extent by the knowledge and experience of the Investment Manager.

INVESTMENT SELECTION RISK

The Investment Manager may make investments decisions that result in low returns. The risk is mitigated to some extent by the knowledge and experience of the Investment Manager.

Responsible investment risk

The Fund's incorporation of responsible investment principles in its investment process may result in exclusion of investments considered not in alignment with the Fund's responsible investment policy. This may impact the investment performance of the Fund and result in performance deviating from the benchmark.

There is also a risk that the investment managers of the underlying investments of the Fund may make investment decisions that are not always consistent with the Fund's responsible investment principles as outlined in this PDS.

ISSUER RISK

The value of investments can vary because of changes to management, product distribution or the issuer's business environment.

LEGAL RISK

There is a risk that laws, including tax laws, might change or become difficult to enforce.

LIQUIDITY RISK

There may be times when securities may not be readily sold (for example, in a falling market where some traded securities may become less liquid). However, trading volumes of stock are generally sufficient to satisfy liquidity requirements when necessary. The Responsible Entity or the Investment Manager (if applicable) has attempted to mitigate the liquidity risk factor by ensuring that each Fund has sufficient cash exposure to meet liquidity requirements. Note that neither the Responsible Entity nor the Investment Manager (if applicable) guarantees the liquidity of the investments of the Fund in which you have invested.

MANAGEMENT RISK

Each Fund is subject to management risk because it is an actively managed investment portfolio. Investment techniques and risk analyses will be used in making investment decisions for the Funds, but there can be no guarantee that these will produce the desired results.

MARKET RISK

Changes in legal and economic policy, political events, technology failure, economic cycles, investor sentiment and social climate can all directly or indirectly create an environment that may influence (negatively or positively) the value of your investment in the Fund. In addition, a downward move in the general level of the equity market can have a negative influence on the performance of the Fund.

RESPONSIBLE INVESTMENT RISK

The Fund's incorporation of responsible investment principles in its investment process may result in exclusion of investments considered not in alignment with the Fund's responsible investment policy. This may impact the investment performance of the Fund and result in performance deviating from the benchmark.

There is also a risk that the investment manager may inadvertently make investment decisions that are not always consistent with the Fund's responsible investment principles as outlined in this PDS.

PANDEMIC AND OTHER UNFORESEEN EVENT RISK

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager, Fund Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

SECURITY OR UNDERLYING FUND SELECTION RISK

Equity Trustees or the investment managers of the underlying funds may make investment decisions that result in low returns or losses. This risk is mitigated to some extent by the knowledge and experience of the Responsible Entity and the investment managers of the underlying funds.

5. HOW WE INVEST YOUR MONEY

Warning: When choosing to invest in the Fund or an option of the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

INVESTMENT OBJECTIVE

The Fund aims to outperform the Benchmark over rolling 5-year periods, after taking into account fees and expenses.

BENCHMARK

MSCI World Index net dividends reinvested (AUD).

MINIMUM SUGGESTED TIME FRAME

5-7 years.

RISK LEVEL

High.

There is a risk investors may lose some or all of their initial investment. Higher risk investments tend to fluctuate in the short-term but can produce higher returns than lower risk investments over the long-term.

INVESTOR SUITABILITY

The Fund is designed for:

- Long term investors seeking exposure to a diversified investment in international share markets and strong capital growth over the long-term.
- Investors with an appetite to direct investment towards international managers that apply responsible investment framework to their investment decision making process. Please see 'Labour Standards, Environmental, Social and Ethical Factors ("ESG considerations")' section for further details.

INVESTMENT STYLE AND APPROACH

The Fund gains exposure to a wide range of international share markets by investing into international equity managed funds that apply a responsible investing lens to their process. Equity Trustees, on behalf of the Fund, aims to invest in a small number of funds with a minimal holding in cash.

Equity Trustees source and actively select investment managers utilising a robust internal research and due diligence process. Our manager selection framework includes four key stages of assessment:

- Identify a pool of managers within the desired asset class.
- Screen the universe based on a range of quantitative factors.
- Assess managers on their responsible investment practices, including their approach to policy and governance, ESG integration, negative screening, sustainable investing, and stewardship. The result of this process forms the basis for shortlisting.
- Assessment of the short list of managers based on a range of qualitative factors.

The investment approach is typically style unaware as it seeks to add value by selecting investment managers based on the conviction that their investment methodology can generate consistent returns over all market cycles. Further consideration is also given to sector, regional and country diversification as well as the existing number of underlying funds and investment managers.

In selecting the underlying managed funds, Equity Trustees aims to ensure that the Fund's exposure to different countries, investment styles and investment managers is appropriately diversified in order to reduce Volatility of investments returns.

More information on the current underlying managed funds and their investment managers can be found in the Fund's factsheet at www.eqt.com.au.

ASSET ALLOCATION

- International equity managed funds 90-100%
- Cash 0-10%

The Fund may directly use options, futures and other Derivatives (consistent with the Corporations Act restrictions for common funds). Derivatives are not used speculatively and, when used, Equity Trustees ensures the Fund can pay all the obligations which might result from an exposure to Derivative investments. Derivatives may also be used by the underlying managed funds that the Fund invests in.

CHANGING THE INVESTMENT STRATEGY

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

UNDERLYING INVESTMENT MANAGERS

The underlying managed funds are managed by a variety of investment managers. Equity Trustees regularly reviews these investment managers and may change them (and the underlying funds) at any time without prior notice to investors. Equity Trustees regularly monitors and evaluates underlying investment managers using the following criteria:

- depth, quality, calibre and experience of the investment team;
- investment philosophy, style and process;
- performance track record;
- risk management;
- the extent to which the performance of a particular underlying investment manager's strategy correlates with that of other underlying investment manager strategies; and
- the extent to which the manager has a consistent and transparent approach and framework for incorporating responsible investment practices through their investment process. Please see 'Responsible Investment Considerations' section for further details.

LABOUR STANDARDS, ENVIRONMENTAL, SOCIAL AND ETHICAL FACTORS ("ESG CONSIDERATIONS")

AETL has delegated the investment function (including ESG responsibilities) to the Investment Manager and the Investment Manager has contemplated that 'Labour, Environmental, Social and Ethical considerations will be taken into account in relation to the investment of the fund. The Investment Manager takes into account ESG factors and broader responsible investment principles as part of the Investment Manager's investment process, however the weighting of these considerations in the ultimate investment decision will vary according to each investment. For inclusion in the Fund, investment managers are assessed on their responsible investment practices including:

- **Policy and Governance:** The manager's responsible investment policy should clearly articulate their processes, systems, monitoring and compliance of their responsible investment activities.
- **ESG Integration:** ESG risks and opportunities, including labour standards such as a company's management of modern slavery should be incorporated into the manager's investment decision-making process to the extent they financially impact the investment thesis.
- **Sustainable investing:** This is not a mandatory requirement for inclusion in the Fund, however higher scores and priority are assigned to managers with a demonstrated and consistent process in selecting sustainable companies that have positive contribution to one or more of the United Nations' Sustainable Development Goals (SDGs)
- **Stewardship Activities:** Engagement and proxy voting is left to the discretion of the underlying investment manager who are required to have a demonstrated process for determining stewardship priorities and approach to proxy voting.
- **Negative Screening:** The underlying investment managers must not knowingly invest in any company with any involvement (generating more than 0% of revenue) from business activities involved in the manufacture of tobacco, tobacco-based products, nicotine alternatives, controversial weapons (as defined by MSCI) and nuclear weapons.

The result of the assessment forms the basis for shortlisting to the final stage of the due diligence process. We evaluate managers on their responsible investment activities semi-annually using MSCI ESG Manager. Underlying managers are required to transparently report their holdings quarterly. More information on our definition and approach to responsible investing can be found at <https://www.eqt.com.au/-/media/equitytrustees/files/corporate/governancepolicies/responsible-investment-policy.pdf>

6. FEES AND COSTS

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

ADDITIONAL EXPLANATION OF FEES AND COSTS

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.65% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.52% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager. The indirect costs and other expenses component is based on the relevant costs incurred during the financial year ended 30 June 2023.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Performance fees

Performance fees include amounts that are calculated by reference to the performance of interposed vehicle(s) through which the Fund invests. The performance fees for the Fund are 0.00% of the NAV of the Fund.

The performance fee figure that is disclosed in the Fees and Costs Summary is generally based on an average of the performance fees over the previous five financial years, where each performance fee relevant to the Fund is averaged and totalled to give the performance fees for the Fund.

Please note that the performance fees disclosed in the Fees and Costs Summary is not a forecast as the actual performance fee for the current and future financial years may differ. The Responsible Entity cannot guarantee that performance fees will remain at their previous level or that the performance of the Fund will outperform the Benchmark.

It is not possible to estimate the actual performance fee payable in any given period, as we cannot forecast what the performance of the Fund will be. Information on current performance fees will be updated from time to time and available at www.eqt.com.au/insto.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.35% upon entry and 0.35% upon exit. The dollar value of these costs based on an application or a withdrawal of \$5,000 is \$17.50 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.eqt.com.au/insto will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.34% p.a. of the NAV of the Fund, which is based on the relevant costs incurred during the financial year ended 30 June 2023.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 1.10% of the NAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact the Investment Manager on +613 8623 5000 for further information.

EXAMPLE OF ANNUAL FEES AND COSTS FOR AN INVESTMENT OPTION

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – EQT RESPONSIBLE INVESTMENT GLOBAL SHARE FUND – CLASS B		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	1.17% p.a.	And, for every \$50,000 you have in the EQT Responsible Investment Global Share Fund - Class B you will be charged or have deducted from your investment \$585 each year
Plus Performance fees	0.00% p.a.	And, you will be charged or have deducted from your investment \$0 in performance fees each year
Plus Transaction costs	0.08% p.a.	And, you will be charged or have deducted from your investment \$40 in transaction costs

EXAMPLE – EQT RESPONSIBLE INVESTMENT GLOBAL SHARE FUND – CLASS B

Equals	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$625*
Cost of EQT Responsible Investment Global Share Fund - Class B	What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances. The performance fees stated in this table are based on the average performance fee of the interposed vehicles through which the Fund invests, over the previous five financial years. The performance of the Fund for this financial year, and the performance fees, may be higher or lower or not payable in the future. It is not a forecast of the performance of the Fund or the amount of the performance fees in the future.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

7. HOW MANAGED INVESTMENT SCHEMES ARE TAXED

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying the Responsible Entity in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.
