

Spring Vehicle Maintenance Checklist

Winter can be tough on cars. Here's a list of things to help your car recover from winter:

Tires:

- Check your tire's tread
- Swap out your winter tires
- Rotate your tires
- Check your tire pressure

Outside your car:

- Check your windshield wipers for loud squeaks or inability to completely clear off water
- Replace or clean wipers
- Wash and dry your car's exterior
- Wash your car's underside
- Inspect your car for pits, bubbles and other signs of potential rust spots
- Check your breaks for strange noises
- Check your vehicle's alignment

Inside your car:

- Check your cars fluids, including: brakes, oil, windshield, coolant, battery and transmission fluid levels
- Check your car battery's charge
- Replace your engine air filter
- Wash dirt and salt from floor liners
- Vacuum salt, crumbs and other dirt that has accumulated
