Erie Indemnity Company Investor Supplement - First Quarter 2020 Definitions

<u>Indemnity</u> is a publicly held Pennsylvania business corporation that has since its incorporation in 1925 served as the attorney-in-fact for the subscribers (policyholders) at the Erie Insurance Exchange ("Exchange"). Our primary function as attorney-in-fact is to perform policy issuance and renewal services on behalf of the subscribers at the Exchange. We also act as attorney-in-fact on behalf of the Exchange with respect to all claims handling and investment management services, as well as the service provider for all claims handling, life insurance, and investment management services for its insurance subsidiaries, collectively referred to as "administrative services".

Exchange, which also commenced business in 1925, is a Pennsylvania-domiciled reciprocal insurer that writes property and casualty insurance.

Property and Casualty Group

The Property and Casualty Group ("P&C Group") is a regional insurance group operating in 12 Midwestern, Mid-Atlantic, and Southeastern states and the District of Columbia. The P&C Group is comprised of the Exchange and its wholly owned property and casualty subsidiaries. Certain operating and statistical measures have been incorporated herein to provide supplemental data that indicate current trends in the P&C Group's business. These measures include revenue, policies in-force and policyholder retention. Policyholder retention is defined as renewal policies in the current period divided by total policies in the prior period.

The P&C Group, along with others in the property and casualty insurance industry, use statutory underwriting ratios as measures of performance. The loss and loss expense ratio is the ratio of losses and loss expenses to earned premiums. The statutory underwriting expense ratio is the ratio of underwriting expenses to written premiums. The combined ratio is the sum of the loss and loss expense ratio, the underwriting expense ratio and the policyholder dividend ratio. A combined ratio below 100% demonstrates underwriting profit; a combined ratio above 100% demonstrates underwriting losses.

- Loss reserve development is the increase or decrease in incurred losses and loss expenses as a result of the re-estimation of loss and loss expense reserves at successive valuation dates for a group of claims. Loss reserve development may be related to one or more prior years. The prior year reserve development ratio represents the ratio of prior years' incurred losses and loss expenses to earned premiums.
- The catastrophe ratio (a component of the loss ratio) represents the ratio of catastrophe losses to earned premiums.
- The current accident year ratio represents the total amount of losses to earned premiums during the current calendar year.
