- Coverage is included if enrolled in a health protection plan.
- Prior authorization may be required.
- In Health1 and Health2, you pay a copayment or coinsurance amount for each prescription. In the CDHP, you pay the full cost of the prescription until your deductible is met, and then coinsurance begins.
- Save by using formulary[1] and generic drugs (automatically substituted, when available).
- Obtain up to a 90-day supply at a network retail pharmacy or through OptumRx Mail Service Pharmacy.
- Maintenance medications are available through mail service for a 90-day supply and refills for up to a year.
- Specialty medications must be obtained through OptumRx Specialty Pharmacy.
- A $100 benefit threshold applies to each compound prescription.
- The plan does not cover over-the-counter medications or certain prescription medications that are also available over the counter.
