In Health1 and Health2 plan options only: Once your annual out-of-pocket prescription expenses reach \$5,600 for an individual or \$11,200 for a family in Health1, or \$4,100 for an individual or \$9,200 for a family in Health2, the plan pays further eligible prescription expenses at 100% for the rest of the calendar year.

1. A formulary is a list of drugs developed by UHC's Pharmacy and Therapeutics committee that are deemed to be clinically therapeutic and less expensive than other similar brands of medication. [↗](#)
2. Prescriptions are covered as long as they are listed on the prescription drug formulary. Under the mandatory generic provision, you are responsible for the payment differential when a generic drug is available and you specify a brand-name drug. Your payment is the price difference between the brand-name drug and the generic drug in addition to the brand-name drug coinsurance amounts, which may apply. Not to exceed the total cost of the brand-name drug. [↗](#)
3. Certain medications, such as self-administered injectables, biological agents, biotechnology medications and other prescriptions that are not available at most pharmacies, will be provided exclusively through OptumRx Specialty Pharmacy. [↗](#)
