Erie Indemnity Company
2025 Annual Report

100 years

Erie
Indemnity

H.O.

Hirt

CO-FOUNDER

"hold fast to that
which is *good*"

Alongside "Never lose human touch" and "Insist upon thinking," H.O. Hirt included this advice in a handwritten note to his successors when he stepped down from active leadership in 1976. A framed copy remains on display in the CEO's office today.

in our *own* words

Erie Insurance co-founder H.O. Hirt was a prolific writer, filling pages with reflections on life, leadership, and the kind of company he wanted to build. A natural teacher, he passed along his principles through words—witty, thoughtful and grounded in integrity and heart.

Those writings were captured in **H.O. Hirt In His Own Words**, a book that has shaped generations of Employees and Agents—and continues to guide us today. Each person who has been part of the ERIE Family adds a new thread to that legacy. Together, their experiences form the fabric of who we are, rooted in H.O.'s values and woven through a century of service.

In this Annual Report, we share some of those stories—reflections of purpose, pride and service—**inspired by his words, reframed in ours.**

Erie
Indemnity

Tim
NeCastro

PRESIDENT AND CEO

to *our* shareholders

There are moments in our lives that define us. Moments that mark the end of one chapter—and the start of another.

A few stand out for me. The day I became a father—and then, 25 years later, a grandfather. The day I joined Erie Insurance—and then, 25 years later, was appointed President and CEO.

Organizations have defining moments, too. And over the course of a century, Erie Insurance has experienced many.

H.O. Hirt and O.G. Crawford opening our doors in 1925. Fifty years later, H.O.'s retirement, ushering in a new era of leadership and eight CEOs since.

Expanding beyond Pennsylvania in 1953. Becoming a publicly traded company in 1993. Joining the Fortune 500 in 2003—and being added to the S&P 500 in 2024.

There were moments of challenge as well: economic downturns, recessions, even the Great Depression. Catastrophic weather events. A global pandemic.

And there were milestones that marked our growth—with premium reaching \$1 million in 1946, \$108 million at ERIE's 50th anniversary in 1975, and \$13 billion as we celebrated our 100th anniversary in 2025.

Each of these moments—both celebratory and challenging—sharpened our sense of who we are and how we arrived here. And the moments we experienced this past year reminded us of something just as important: How you respond in defining moments is what matters most.

reflecting on a century of purpose

This milestone year was marked by celebration and reflection—on the successful business we've built, the values that continue to guide us, the people who make it all possible.

We saw our Employees deepen their commitment to the communities we serve, with Employee service hours nearly doubling and matching gift dollars increasing by almost 400 percent.

We reinforced our partnership with our Agents through new and enhanced products and services, working closely with Agent Task Forces to help shape our priorities.

We celebrated industry recognition that underscores our value proposition, including first-place rankings for Erie Insurance from both J.D. Power and *Consumer Reports*.

And we took a meaningful step in formalizing our longstanding commitment to our communities with the creation of the Erie Insurance Foundation through a \$100 million seed gift from Erie Indemnity Company—ensuring our ability to give back remains strong for generations to come.

You'll find more highlights from our 100th year, and stories from the people who helped shape it, in the pages that follow.

responding with discipline

While 2025 marked an important milestone, it also brought challenges that tested our resolve—and became defining moments for how we respond and move forward.

In March, ERIE experienced the single largest weather event in our history. A fast-moving hailstorm resulted in more than \$360 million of incurred losses for Erie Insurance Exchange, following three consecutive years of above-average weather losses.

At the same time, claim severity in both auto and homeowners continued to rise faster than our rate increases, even as we worked to maintain competitive pricing for our Customers.

These profitability pressures contributed to AM Best's adjustment of the financial strength rating for the property/casualty members of Erie Insurance Group from A+ (Superior) to A (Excellent).

While that change was disappointing, it's important to keep perspective. An A (Excellent) rating remains among the strongest in the industry.

Throughout these challenges, we remained grounded in our long-term approach—making thoughtful pricing and underwriting decisions, managing expenses carefully, and protecting the strength of our balance sheet.

As the year progressed, particularly in the second half, underlying profitability for the Exchange improved. Weather activity moderated, and the impact of rate actions taken over the past several years became more fully reflected in premium growth.

All in all, we managed the Exchange and its growth well amid significant challenges, which led to strong operating performance for Erie Indemnity Company.

As we move ahead in 2026 and beyond, we're focused on improving the Exchange's expense ratio relative to the market, returning to more profitable levels for the Exchange, and balancing that profitability with strategic growth. We have a refreshed strategy in place to accomplish this—one that sharpens our focus through more rigorous prioritization, reduces the time it takes to move from idea to execution, and can be quickly adapted to respond to changing conditions.

revealing our character

Another challenge came in June, when we experienced a cyber incident that forced us to proactively shut down our systems for nearly a month. While this had no material impact on our financial standing, it was a significant disruption to our Customers, Agents, and Employees.

What stands out most to me, however, is not the disruption—it's how our organization responded.

Teams worked long hours, focused not on speed alone, but on doing things carefully and correctly. Employees from across the company stepped into unfamiliar roles, taking loss calls and handling claims to ensure our service commitment was upheld. Agents stayed close to Customers, offering reassurance and clarity when it was most needed. Through it all, I saw calm leadership, quiet determination, and an unwavering commitment to service.

Moments like that don't define who we are. They reveal it.

preparing for the next century

For me, the past year prompted deep reflection—on what it means to lead an institution with such a strong legacy, and to prepare it well for the future.

We were reminded of the foundation laid by those who came before us—rooted in service, community and a belief in the human touch. At the same time, we were called to live those values under circumstances far different from those our founders faced.

We were also reminded that longevity is never guaranteed. It must be earned, again and again, through how we respond when things are hard and how we prepare for the challenges ahead.

As I prepare to close my chapter as President and CEO at the end of 2026, I'm more mindful than ever of the responsibility of stewardship. Leadership, after all, is not about permanence. It's about leaving an organization stronger, more resilient, and grounded in the values that will guide those who come next.

The search for my successor is underway and I'm confident the right person will be selected soon. Over the coming year, I'm dedicated to supporting a thoughtful transition, continuing to strengthen ERIE's financial foundation, and ensuring we stay focused on what matters.

ERIE has endured for 100 years because it has never depended on one person. It has relied on shared principles, trusted relationships, and people who believe deeply in service. That's not just a point of pride for the years behind us, but a firm foundation for the years ahead.

To all of those committed to upholding ERIE's business, culture, and success, my deep gratitude. Thank you to our Employees and Agents for your dedication and integrity. Thank you to our Policyholders for your trust. And thank you to our Shareholders and dedicated Board of Directors for your continued confidence. It has truly been the honor of my lifetime to lead this company and to write this chapter alongside all of you.

Our first century was shaped by defining moments. Our next will be shaped by how we continue to meet them—together and with purpose.

Tim NeCastro

Tim NeCastro
President and CEO

As Erie Insurance marked 100 years, our commitment to give where we live was stronger than ever. A cornerstone of 2025's community impact was our partnership with Habitat for Humanity. Employees volunteered on two home builds in Erie County and at others across our footprint—helping turn the dream of home ownership into a reality for families.

Ranked #1

in the J.D. Power 2025 U.S. Small Commercial Insurance Study, scoring 25 points above the industry average.

Ranked #323

on the Fortune 500,[®] up 53 spots from 2024.

Highest rated

auto insurance provider by *Consumer Reports*, based on member-provided feedback.*

12th largest

auto insurer in the U.S.**

11th largest

home insurer in the U.S.**

10th largest

business insurer in the U.S.***

30 years

since ERIE was first listed on the NASDAQ, celebrated by leaders ringing the opening bell on the trading floor in New York City.

Ohio

was the first state to pilot ErieSecure Auto, a new product with greater pricing sophistication, offering more competitive rates and opportunities for growth. It rolled out in West Virginia in December, with more states following in 2026.

92%

of policy changes are processed instantly without the need for manual work through Business Auto 2.0. This new product, introduced in eight states in 2025, offers a more streamlined way to quote, issue, and manage business auto policies.

14

technology platforms were moved into the cloud in 2025. Cloud computing eliminates the need for heavy on-premises infrastructure and is a more flexible, secure data storage solution.

5,000+

Employees were trained on and given access to an enterprise artificial intelligence tool.

82%

of Employees consider ERIE to be a Great Place to Work, based on the results of an Employee engagement survey conducted in September. Our welcoming and inclusive culture, support of Customers and communities, and training and development opportunities surfaced as ERIE's top strengths as an employer.

90%

of Employees each designated a \$100 gift from Erie Indemnity to 2,200 of their favorite charities.

98%

increase in ERIE Service Corps hours, with Employees giving nearly 1,700 hours of volunteer support to nonprofits across our footprint.

\$100 million

seed funding from Erie Indemnity Company to establish the Erie Insurance Foundation, a private charitable foundation that creates long-term sustainability for charitable giving and grantmaking.

\$1.5 million

Employee donations to nonprofits matched 2-for-1 by Erie Indemnity during ERIE's 100 Days of Giving Campaign.

always certain

Jennifer Nolfi O'Connell, Agent

When my father, Thomas A Nolfi, was appointed with ERIE in 1959 he wrote 155 policies for the year, for a total commission of \$1,316. The next year he doubled his commissions to \$2,414. When he got married in October of 1960 at the age of 31, Dad felt so certain about ERIE and the direction of the company that he took the wedding money gifted to him and his new bride and invested in the business—without my mom's knowledge!

The rest of the story speaks for itself. My parents were married for 61 years before my father's passing in 2022, and the agency keeps the 1959 and 1960 commission ledger on display as one of its most treasured artifacts.

Jennifer is president of Thomas A Nolfi, Inc., an agency in Moon Township, Pennsylvania.

financial *overview*

Indemnity

- ✦ Net income of \$10.69 per diluted Class A share, compared to \$11.48 in 2024
- ✦ Net income of \$559 million, compared to \$600 million in 2024
- ✦ \$254 million in dividends paid to Shareholders
 - Regular quarterly cash dividend grew 7.1 percent in payout per share over the prior dividend rate
 - From \$1.365 to \$1.4625 on each Class A share
 - From \$204.75 to \$219.375 on each Class B share

Exchange*

- ✦ Direct written premium grew to \$13.0 billion compared to \$11.9 billion in 2024
- ✦ New direct written premium of \$1.4 billion
- ✦ Reported combined ratio of 104.9 percent compared to 110.4 percent at the end of 2024
- ✦ Policyholder surplus increased to \$10.1 billion compared to \$9.3 billion at the end of 2024
- ✦ 1.1 percent decrease in total policies in force
- ✦ Strong policy retention at 88.4 percent

Life

- ✦ Collected \$321 million in total life insurance, annuity and Medicare Supplement premium—an increase of 2.7 percent from 2024

* Results for the Exchange include those of its wholly owned property/casualty subsidiaries.

forever grateful

Jillian West, Employee

I owe Erie Insurance a great deal. This organization gave a 19-year-old college dropout a chance when many employers were quick to slam the door in my face. Fast-forward to today and I am approaching my 14th year of service, earned a college degree through ERIE's tuition assistance program and have a beautiful son via IVF, which could not have happened without ERIE's health benefits. I am forever grateful.

Jillian is a senior business process analyst in Catastrophe Operations and winner of a 2025 Robert H. Marrion Award recognizing exceptional service by Claims Employees.

(1) Assumes \$100 invested at the close of trading, including reinvestment of dividends, on the last trading day preceding the first day of the fifth preceding fiscal year, in our Class A common stock, the Standard & Poor's 500 Stock Index, and the Standard & Poor's Supercomposite Insurance Industry Group Index.

organizational structure

Erie Indemnity Company (Indemnity) is a publicly held Pennsylvania business corporation that has been the managing attorney-in-fact for the subscribers (Policyholders) at the Erie Insurance Exchange (Exchange) since 1925. The Exchange is a Pennsylvania-domiciled reciprocal insurer that writes property and casualty insurance.

Indemnity's primary function is to provide certain services to the Exchange relating to sales, underwriting, and issuance of policies on behalf of the subscribers at the Exchange.

These services are performed in accordance with a subscriber's agreement (a limited power of attorney) executed by each subscriber, appointing Indemnity as the subscriber's attorney-in-fact to transact business on their behalf and manage the affairs at the Exchange.

The property and casualty and life insurance operations are owned by the Exchange, and Indemnity functions as the management company. Indemnity has several wholly owned subsidiaries who perform non-insurance functions. Indemnity, the Exchange, and its wholly owned subsidiaries and affiliates operate collectively as the "Erie Insurance Group."

taking care

Nelson Barr, Employee

As a young boy in the 1970s, I remember riding in the car with my father to go pay his insurance premium at Borneman Insurance in Pottstown, Pennsylvania. There was a great big sign out front with the ERIE logo. I distinctly remember my parents always talking about the great service they would receive from Ralph Borneman and how Erie Insurance always took care of them.

Almost twenty years later, I was hired by ERIE as a property adjuster and the Body-Borneman Agency was in my territory. I struck up a great relationship with Mr. Borneman, who is now a member of our Board of Directors. I remember how happy my parents were to hear the news that I was going to work for Erie Insurance, and they are still loyal ERIE Customers today.

Nelson is vice president for Claims in ERIE's Hagerstown, Maryland, office.

In Memoriam

George R. Lucore passed away in February 2026. George was first appointed to Indemnity's Board of Directors in 2016 and served on the Charitable Giving, Executive Compensation & Development, and Strategy committees. Prior to his board service, George had a 36-year association with the company during which he held several senior and executive leadership positions, including as executive vice president, Field Operations.

simple words

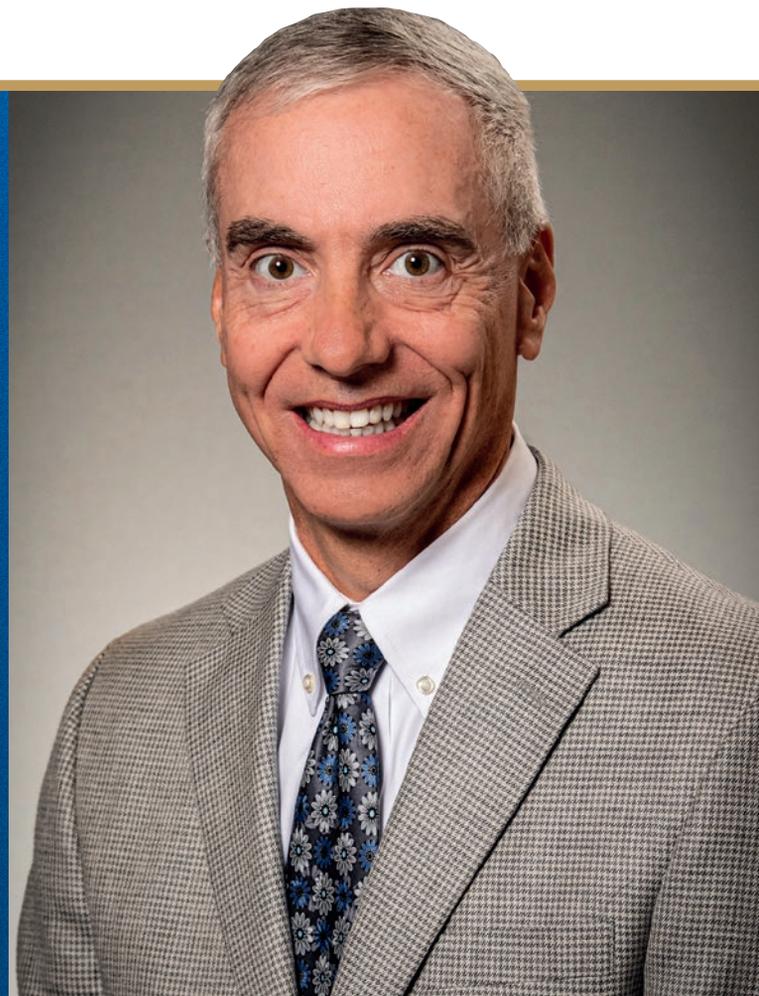

Bill Reagle, Agent

When I started working for ERIE as an inside claims representative in 1990, my manager said to me:

"There are always going to be gray areas in insurance policies. The difference between ERIE and most other insurance companies out there is that ERIE looks for a way to pay a claim, not deny it. Please remember that."

Simple words, but I remember them well and have shared them countless times with new business prospects since becoming an Agent in 1992.

Bill is co-principal of CNR Insurance, which has two offices in Maryland. Bill's father was a 36-year Employee hired by H.O. Hirt; his brother Tom is an ERIE underwriter and another brother, Dave, also is an Agent in Maryland.

The Vice Chairman of the Board also performs such other duties as from time to time may be assigned by the Board of Directors.

(2) As the non-executive Chairman of the Board of Directors, Thomas B. Hagen serves as an ex officio, non-voting member of the Audit Committee, and a voting member of all other committees.

(3) The Chairman of the Board has delegated his ex officio status on the Risk Committee to the Vice Chairman of the Board.

in our *own* words

part of a family

Marion Townes, Employee

I worked for another insurance carrier and was laid off. My daughter was in high school and I needed to stay put, so I took a “normal job” at a bank. But it wasn’t fun. I missed insurance.

I’m so glad I’m at ERIE. It’s a whole different world. I have friends who work for other insurance carriers, but unlike them, I’m not worrying if I’ll have a job tomorrow. The peace of mind I have at ERIE, where I literally feel I have a family, is priceless.

Marion is a vice president of Sales for ERIE’s Columbus Branch.

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>	Non-accelerated filer	<input type="checkbox"/>
Smaller reporting company	<input type="checkbox"/>	Emerging growth company	<input type="checkbox"/>		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements.

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1 (b).

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Aggregate market value of voting and non-voting common stock held by non-affiliates as of the last business day of the registrant's most recently completed second fiscal quarter: \$8.7 billion of Class A non-voting common stock as of June 30, 2025. There is no active market for the Class B voting common stock. The Class B common stock is closely held by few shareholders.

Indicate the number of shares outstanding of each of the registrant's classes of common stock, as of the latest practicable date:
46,189,068 shares of Class A common stock and 2,542 shares of Class B common stock outstanding on February 17, 2026.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of Part III of this Form 10-K (Items 10, 11, 12, 13, and 14) are incorporated by reference to the information statement on Schedule 14C to be filed with the Securities and Exchange Commission no later than 120 days after December 31, 2025.

PART I

ITEM 1. BUSINESS

General

Erie Indemnity Company ("Indemnity", "we", "us", "our") is a publicly held Pennsylvania business corporation that has since its incorporation in 1925 served as the attorney-in-fact for the subscribers (policyholders) at the Erie Insurance Exchange ("Exchange"). The Exchange, which also commenced business in 1925, is a Pennsylvania-domiciled reciprocal insurer that writes property and casualty insurance. The Exchange has wholly owned property and casualty insurance subsidiaries including: Erie Insurance Company, Erie Insurance Company of New York, Erie Insurance Property & Casualty Company and Flagship City Insurance Company, and a wholly owned life insurance company, Erie Family Life Insurance Company ("EFL").

Our primary function as attorney-in-fact is to perform policy issuance and renewal services on behalf of the subscribers at the Exchange. We also act as attorney-in-fact on behalf of the subscribers at the Exchange with respect to all claims handling and investment management services, as well as the service provider for all claims handling, life insurance, and investment management services for the Exchange's insurance subsidiaries, collectively referred to as "administrative services". Acting as attorney-in-fact in these two capacities is done in accordance with a subscriber's agreement (a limited power of attorney) executed individually by each subscriber (policyholder), which appoints Indemnity as each subscriber's attorney-in-fact to transact certain business on their behalf. In accordance with the subscriber's agreement for acting as attorney-in-fact in these two capacities, we retain a management fee calculated as a percentage, not to exceed 25%, of the direct and affiliated assumed premiums written by the Exchange. The management fee rate is set at least annually by our Board of Directors. The process of setting the management fee rate includes, but is not limited to, the evaluation of current year operating results compared to both prior year and industry estimated results for both Indemnity and the Exchange, and consideration of several factors for both entities including, but not limited to: their relative financial strength and capital position; projected revenue, expense and earnings for the subsequent year; future capital needs; as well as competitive position.

Business Segments

We operate under a single reportable segment: management operations. Financial information about this segment is set forth in and referenced to Item 8. "Financial Statements and Supplementary Data - Note 4, Segment Information, of Notes to Consolidated Financial Statements" contained within this report. Further discussion of financial results for our single operating segment is provided in and referenced to Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained within this report.

Services

The policy issuance and renewal services we provide on behalf of the subscribers at the Exchange are related to the sales, underwriting and issuance of policies. The sales related services we provide include agent compensation and certain sales and advertising support services. Agent compensation includes scheduled commissions to agents based upon premiums written as well as incentive compensation, which is earned by achieving targeted measures. Agent compensation comprised approximately 71% of our 2025 policy issuance and renewal expenses. The underwriting services we provide include underwriting and policy processing and comprised approximately 8% of our 2025 policy issuance and renewal expenses. The remaining services we provide include customer service and administrative support. We also provide information technology services that support all the functions listed above that comprised approximately 10% of our 2025 policy issuance and renewal expenses. Included in these expenses are allocations of costs for departments that support these policy issuance and renewal functions.

Consistent with its legal structure as a reciprocal insurer, the Exchange does not have any employees or officers. Therefore, it enters into contractual relationships by and through the subscribers' attorney-in-fact. Indemnity serves as the attorney-in-fact on behalf of the subscribers at the Exchange with respect to its administrative services as enumerated in the subscriber's agreement. The Exchange's insurance subsidiaries also utilize Indemnity for these services in accordance with the service agreements between each of the subsidiaries and Indemnity. Claims handling services include costs incurred in the claims process, including the adjustment, investigation, defense, recording and payment functions. Life insurance management services include costs incurred in the management and processing of life insurance business. Investment management services are related to investment trading activity, accounting and all other functions attributable to the investment of funds. Included in these expenses are allocations of costs for departments that support these administrative functions. The subscriber's agreement and service agreements provide for reimbursement of amounts incurred for these services to Indemnity. Reimbursements are settled at cost. State insurance regulations require that intercompany service agreements and any material amendments be approved in advance by the state insurance department.

Erie Insurance Exchange

As our primary purpose is to manage the affairs at the Exchange for the benefit of the subscribers (policyholders) through the policy issuance and renewal services and administrative services, the Exchange is our sole customer. Our earnings are largely generated from management fees based on the direct and affiliated assumed premiums written by the Exchange. We have no direct competition in providing these services to the Exchange.

The Exchange generates revenue by insuring preferred and standard risks, with personal lines comprising 71% of the 2025 direct and affiliated assumed written premiums and commercial lines comprising the remaining 29%. The principal personal lines products are private passenger automobile and homeowners. The principal commercial lines products are commercial multi-peril, commercial automobile, and workers compensation. Historically, due to policy renewal and sales patterns, the Exchange's direct and affiliated assumed written premiums tend to be greater in the second and third quarters than in the first and fourth quarters of the calendar year.

The Exchange is represented by independent agencies that serve as its sole distribution channel. In addition to their principal role as salespersons, the independent agents play a significant role as underwriting and service providers and are an integral part of the Exchange's success.

Our results of operations are tied to the growth and financial condition of the Exchange. If any events occurred that impaired the Exchange's ability to grow or sustain its financial condition, including but not limited to reduced financial strength ratings, disruption in the independent agency relationships, significant catastrophe losses, or products not meeting customer demands, the Exchange could find it more difficult to retain its existing business and attract new business. A decline in the business of the Exchange almost certainly could have as a consequence a decline in the total premiums paid and a correspondingly adverse effect on the amount of the management fees we receive. We also have an exposure to a concentration of credit risk related to the unsecured receivables due from the Exchange for net management fee and other reimbursements. See Part II, Item 8. "Financial Statements and Supplementary Data - Note 16, Concentrations of Credit Risk, of Notes to Consolidated Financial Statements" contained within this report. See the risk factors related to our dependency on the growth and financial condition of the Exchange in Item 1A. "Risk Factors" contained within this report.

Competition

Our primary function as attorney-in-fact is to perform policy issuance and renewal services on behalf of the subscribers at the Exchange. We also act as attorney-in-fact on behalf of the subscribers at the Exchange, as well as the service provider for the Exchange's insurance subsidiaries, with respect to all administrative services. There are a limited number of companies that provide services under a reciprocal insurance exchange structure. We do not directly compete against other such companies, given we are appointed by the subscribers at the Exchange to provide these services.

The direct and affiliated assumed premiums written by the Exchange drive our management fee, which is our primary source of revenue. The property and casualty insurance industry is highly competitive. Property and casualty insurers generally compete on the basis of customer service, price, consumer recognition, coverages offered, claims handling, financial stability and geographic coverage. Vigorous competition, particularly in the personal lines automobile and homeowners lines of business, exists from large, well-capitalized national companies, some of which have broad distribution networks of employed or captive agents, by smaller regional insurers, and by large companies who market and sell personal lines products directly to consumers. Innovations by competitors or other market participants may also increase the level of competition in the industry. In addition, because the insurance products of the Exchange are marketed exclusively through independent insurance agents, the Exchange faces competition within its appointed agencies based upon ease of doing business, product, price, and service relationships.

Market competition bears directly on the price charged for insurance products and services subject to regulatory limitations. Industry capital levels can also significantly affect prices charged for coverage. Growth is driven by a company's ability to provide insurance services and competitive prices while maintaining target profitability. Growth is a product of a company's ability to retain existing customers and to attract new customers, as well as movement in the average premium per policy.

The Exchange's business model is designed to provide the advantages of localized marketing and claims servicing with the economies of scale and low cost of operations from centralized support services. Indemnity, as part of its role managing and conducting the business and affairs of the Exchange, also carefully selects the independent agencies that represent the Exchange, which seeks to be the lead insurer with its agents in order to enhance the agency relationship and the likelihood of receiving the most desirable underwriting opportunities from its agents.

The Exchange's strategic focus as a reciprocal insurer is to employ a disciplined underwriting philosophy and to leverage its strong surplus position to generate higher risk adjusted investment returns. The goal is to produce acceptable returns, on a long-term basis, through careful risk selection, appropriate pricing and superior investment returns. This focus allows the Exchange

to accomplish its mission of providing as near perfect protection, as near perfect service as is humanly possible at the lowest possible cost.

See the risk factors related to our dependency on the growth and financial condition of the Exchange in Item 1A. "Risk Factors" contained within this report for further discussion on competition in the insurance industry.

Human Capital Management

Our human capital management strategy, including initiatives to shape our workforce and workplace, is designed to attract, retain, and develop talent to ensure we are well positioned for the future. Our partnership with our employees is one of the cornerstones of our success.

Our employee value proposition includes a culture that focuses on physical, financial, and emotional well-being. We strive to maintain a positive employee experience through a continuous listening approach that seeks employee feedback through various mechanisms such as periodic pulse surveys and all-employee engagement surveys and forums. We offer competitive pay with a signature and affordable benefits package including options designed to meet the unique needs of our employees and their families. Employees have access to an employee assistance plan, mental and emotional well-being resources, emergency child and elder care providers, adoption assistance, and infertility assistance, among others. We hold a shared responsibility view of retirement planning whereby we provide tools and resources that employees are expected to use to achieve their retirement goals. We set ourselves apart by offering both a 401(k) savings plan and a noncontributory defined benefit pension plan. We encourage a work/life balance for all employees and recognize the need for employee flexibility by offering an allowance of remote work days to use throughout the year.

An engaged workforce is necessary for accomplishing organizational objectives and our portfolio of employee experience initiatives demonstrates our commitment to provide employees an engaging environment throughout all stages of their careers. We offer professional development opportunities that are designed to prepare employees for future career growth. Employees have access to skills enhancement training and programs as well as a generous tuition reimbursement program for higher education. We also grow and develop our employees by offering talent mobility opportunities such as expanded leadership experience, job shadowing, cross-training, stretch assignments, and formal career development programs. We also have a comprehensive succession planning process designed to ensure continuity in critical roles as well as to support employee development.

Our employees also share in our values to give back and make a positive difference in their communities. We offer a volunteer program that provides employees with an allotment of paid hours annually to volunteer with eligible nonprofit organizations. We also offer a matching gifts program for donations to eligible nonprofit organizations.

We recognize the importance of unique backgrounds and experiences and are committed to providing equal employment opportunity for all employees. Our recruiting strategy includes access to multiple talent channels. We work to expand our pool of potential talent to include an array of skills, backgrounds, and experiences. We also offer a Future Focus internship program that provides opportunities for college students to gain relevant and real-world business experience in the insurance industry. Additionally, we foster a collaborative and welcoming workplace by offering nine voluntary affinity networks that are open to all employees, and five business resource groups. Affinity networks are employee-driven groups designed to foster greater awareness and a culture of inclusion. Business resource groups address business issues by aligning cross-functional teams of employees to our business strategy, providing a broader approach to problem-solving and innovation.

Workforce Metrics

As of December 31, 2025, our total workforce consists of 6,667 full-time employees, which includes approximately 50% of employees who provide claims and life insurance management services exclusively for the Exchange and its insurance subsidiaries. The Exchange and its insurance subsidiaries reimburse us monthly for the cost of these services.

Our average employee tenure in 2025 was 10.9 years with an overall voluntary turnover rate of 6.3%. We continue to monitor turnover trends to determine the appropriate actions to ensure we are well positioned for the future.

Government Regulation

Most states have enacted legislation that regulates insurance holding company systems, defined as two or more affiliated persons, one or more of which is an insurer. Indemnity and the Exchange, and its wholly owned subsidiaries, meet the definition of an insurance holding company system.

Each insurance company in the holding company system is required to register with the insurance supervisory authority of its state of domicile and furnish information regarding the operations of companies within the holding company system that may materially affect the operations, management, or financial condition of the insurers within the system. Pursuant to these laws, the respective insurance departments may examine us and the Exchange and its wholly owned subsidiaries at any time, and may require disclosure and/or prior approval of certain transactions with the insurers and us, as an insurance holding company.

All transactions within a holding company system affecting the member insurers of the holding company system must be fair and reasonable and any charges or fees for services performed must be reasonable. Approval by the applicable insurance commissioner is required prior to the consummation of transactions affecting the members within a holding company system.

Website Access

Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and any amendments to those reports are available free of charge on our website at www.erieinsurance.com as soon as reasonably practicable after such material is filed electronically with the Securities and Exchange Commission. Additionally, copies of our annual report on Form 10-K are available free of charge, upon written request, by contacting Investor Relations, Erie Indemnity Company, 100 Erie Insurance Place, Erie, PA 16530, or calling (800) 458-0811.

ITEM 1A. RISK FACTORS

Our business involves various risks and uncertainties, including, but not limited to those discussed in this section. The risks and uncertainties described in the risk factors below, or any additional risk outside of those discussed below, could have a material adverse effect on our business, financial condition, operating results, cash flows, or liquidity if they were to develop into actual events. This information should be considered carefully together with the other information contained in this report and in other reports and materials we file periodically with the Securities and Exchange Commission.

Our risks have been divided into the following categories:

Risks related to Erie Insurance Exchange – risks related to our dependence on our relationship with the Exchange associated with management fees, premium growth, and financial condition, as the Exchange is our sole customer and principal source of revenue

Operating risks – risks stemming from events or circumstances that directly or indirectly affect our operations, including our operations as attorney-in-fact for the subscribers at the Exchange

Market, Capital, and Liquidity risks – risks that may impact the values or results of our investment portfolio, ability to meet financial obligations or covenants, or obtain capital as necessary

Although we have organized risks generally according to these categories in the discussion below, risks may have impacts in more than one category and are included where the impact is most significant.

Risks related to Erie Insurance Exchange

If the management fee rate retained by Indemnity is reduced or if there is a significant decrease in the amount of direct and affiliated assumed premiums written by the Exchange, revenues and profitability could be materially adversely affected.

We are dependent upon management fees we retain, which represent our principal source of revenue. In accordance with the subscriber's agreement with the subscribers at the Exchange, we may retain up to 25% of all direct and affiliated assumed premiums written by the Exchange. Therefore, management fee revenue from the Exchange is calculated by multiplying the management fee rate by the direct and affiliated assumed premiums written by the Exchange. Accordingly, any reduction in direct and affiliated assumed premiums written by the Exchange and/or the management fee rate could decrease our revenues and net income.

The management fee rate is set at least annually by our Board of Directors and may not exceed 25% of the direct and affiliated assumed premiums written by the Exchange. The process of setting the management fee rate includes, but is not limited to, the evaluation of current year operating results compared to both prior year and industry estimated results for both Indemnity and the Exchange, and consideration of several factors for both entities including, but not limited to: their relative financial strength and capital position; projected revenue, expense and earnings for the subsequent year; future capital needs; as well as competitive position. The evaluation of these factors could result in a reduction to the management fee rate and our revenues and profitability could be materially adversely affected. Regulatory or other third-party action affecting the management fee rate could also materially adversely affect our revenues and profitability.

Serving as the attorney-in-fact for subscribers in the reciprocal insurance exchange structure with the Exchange being our sole customer, the growth of the Exchange could directly affect our operating revenue, which is largely generated from management fees based on the direct and affiliated assumed premiums written by the Exchange. If the Exchange's ability to grow or renew policies or implement rate changes were adversely impacted, the premium revenue of the Exchange could be adversely affected, which could reduce our management fee revenue. The circumstances or events that might impair the Exchange's ability to grow include, but are not limited to, the items discussed below.

Unfavorable changes in macroeconomic conditions for any reason, including declining consumer confidence, inflation, high unemployment, lower demand for certain services, reduced personal income, and recession, among others, may lead the Exchange's customers to modify coverage, not renew policies, or even cancel policies, which could adversely affect the premium revenue of the Exchange, and consequently our management fee revenue.

The direct written premium of the Exchange is impacted by the premium rates charged for policies. The Exchange writes policies almost exclusively with annual terms, therefore, premium rate actions take 12 months to be fully recognized in written

premium. The Exchange also writes certain personal auto policies with a rate locking feature. These product features generally extend the amount of time it takes for premium rate actions to be recognized related to these policies, affecting the premium revenue of the Exchange, and consequently our management fee revenue.

The Exchange faces significant competition from other regional and national insurance companies. The property and casualty insurance industry is highly competitive on the basis of product, price and service. If the Exchange's competitors offer property and casualty products with more coverage, offer lower rates, or introduce innovative services in response to evolving customer preferences, and the Exchange is unable to implement product or service improvements quickly enough to keep pace, its ability to grow and renew its business may be adversely impacted. In addition, due to the Exchange's premium concentration in the automobile and homeowners insurance markets, it may be more sensitive to trends that could affect auto and home insurance coverages and rates over time, for example changing vehicle types or usage, usage-based methods of determining premiums, ownership and driving patterns such as ride sharing or remote work, advancements in vehicle or home technology or safety features such as accident and loss prevention technologies, the development of autonomous vehicles, or residential occupancy patterns, among other factors. Innovations, including the use of artificial intelligence and machine learning to support underwriting or other decisions, by competitors or other market participants may increase the level of competition in the industry. If the Exchange fails to respond to those innovations on a timely basis, its competitive position and results may be materially adversely affected.

The Exchange markets and sells its insurance products through independent, non-exclusive insurance agencies. These agencies are not obligated to sell only the Exchange's insurance products, and generally also sell products of the Exchange's competitors. If agencies do not maintain their current levels of marketing efforts, bind the Exchange to unacceptable risks, place business with competing insurers, or if the Exchange is unsuccessful in attracting or retaining agencies in its distribution system or maintaining its relationships with those agencies, the Exchange's ability to grow and renew its business may be adversely impacted. Additionally, shifting consumer behaviors toward increased digital interactions may cause the insurance industry as a whole to migrate to a delivery system other than independent agencies.

The Exchange maintains a brand recognized for customer service, which is the result of Indemnity's management of the Exchange in accordance with the subscriber's agreement. The perceived performance, actions, conduct and behaviors of employees, independent insurance agency representatives, and third-party service providers may result in reputational harm to the Exchange's brand. Specific incidents which may cause harm include but are not limited to disputes, long customer wait times, errors in processing a claim, failure to protect sensitive customer data, and negative or inaccurate social media or traditional media communications. Likewise, an inability to match or exceed the service provided by competitors, who are increasingly relying on digital delivery and enhanced distribution technology, may impede the Exchange's ability to maintain and/or grow its customer base. If an extreme catastrophic event were to occur in a heavily concentrated geographic area of subscribers (policyholders), an extraordinarily high number of claims could have the potential to strain claims processing and affect the Exchange's ability to service its customers. If third-party service providers fail to perform as anticipated, the Exchange may experience operational difficulties, increased costs, and reputational damage. Similarly, the Exchange's brand could be tarnished by reactions to business practices, adverse financial developments, perceptions of our corporate governance, and how we address employee matters and concerns, the conduct of our employees, officers and directors, or environmental, social and governance (ESG) practices, including corporate diversity, equity and inclusion (DEI) initiatives. Failure to satisfy expectations in these areas may result in negative publicity or other adverse outcomes, which could be aggravated as the expectations of consumers, regulators and other stakeholders evolve and as social media and other forms of modern communication rapidly magnify reactions. Any reputational harm to the Exchange could have the potential to impair its ability to grow and renew its business.

As the attorney-in-fact for subscribers in the reciprocal insurance exchange structure with the Exchange as our sole customer, we are dependent on the financial condition of the Exchange. If the Exchange were to fail to maintain acceptable financial strength ratings, its competitive position in the insurance industry could be adversely affected. If a rating downgrade led to customers not renewing or canceling policies, or impacted the Exchange's ability to attract new customers, the premium revenue of the Exchange could be adversely affected, which could reduce our management fee revenue. The circumstances or events that might impair the Exchange's financial condition include, but are not limited to, the items discussed below.

Financial strength ratings are an important factor in establishing the competitive position of insurance companies such as the Exchange. Higher ratings generally indicate greater financial stability and a stronger ability to meet ongoing obligations to policyholders. The Exchange's AM Best rating is currently A ("Excellent"). AM Best periodically reviews the Exchange's ratings and changes their rating criteria; therefore, the Exchange's current rating may not be maintained in the future. A significant downgrade in the AM Best rating could reduce the competitive position of the Exchange, making it more difficult to

attract profitable business in the highly competitive property and casualty insurance market and potentially result in reduced sales of its products and lower premium revenue.

The performance of the Exchange's investment portfolio is subject to a variety of investment risks. The Exchange's investment portfolio is comprised principally of fixed income securities, equity securities and limited partnerships. The fixed income portfolio is subject to a number of risks including, but not limited to, interest rate risk, investment credit risk, sector/concentration risk and liquidity risk. The Exchange's common stock and preferred equity securities have exposure to price risk, the risk of potential loss in estimated fair value resulting from an adverse change in prices. Limited partnerships are significantly less liquid and generally involve higher degrees of price risk than publicly traded securities. Limited partnerships, like publicly traded securities, have exposure to market volatility; but unlike fixed income securities, cash flows and return expectations are less predictable. Additionally, a portion of the Exchange's common stock and limited partnership portfolios are exposed to foreign exchange rate risk, or the potential loss in estimated fair value resulting from adverse changes in foreign currency exchange rates. If any investments in the Exchange's investment portfolio were to suffer a substantial decrease in value, the Exchange's financial position could be materially adversely affected through increased unrealized losses or impairments. A significant decrease in the Exchange's portfolio could also put it, or its subsidiaries, at risk of failing to satisfy regulatory or rating agency minimum capital requirements.

Property and casualty insurers are subject to extensive regulatory supervision in the states in which they do business. This regulatory oversight includes, by way of example, matters relating to licensing, examination, rate setting, market conduct, policy forms, limitations on the nature and amount of certain investments, claims practices, mandated participation in involuntary markets and guaranty funds, reserve adequacy, insurer solvency, restrictions on underwriting standards, accounting standards, transactions between affiliates, risk management, cybersecurity and data privacy, and ESG practices. Such regulation and supervision are primarily for the benefit and protection of policyholders. Changes in applicable insurance laws, tax statutes, cyber, privacy, and other laws and regulations, or changes in the way regulators administer those laws, tax statutes, or regulations could adversely impact the Exchange's business, cash flows, results of operations, financial condition, or operating environment and increase its exposure to loss or put it at a competitive disadvantage, which could result in reduced sales of its products and lower premium revenue.

Property and casualty insurers face a significant risk of litigation and state and federal regulatory investigations, inquiries and actions in the ordinary course of operating their businesses, including the risk of class action lawsuits. Plaintiffs in class action and other lawsuits against the Exchange may seek large or indeterminate amounts of damages, including punitive and treble damages, the ultimate amounts of which may remain unknown for substantial periods of time.

The uncertainty of risks that emerge upon the occurrence of significant unexpected events, such as pandemics, or unexpected economic or social inflation caused by supply chain issues, changes in tariffs, societal trends, or otherwise, may cause additional challenges in the process of estimating loss and loss adjustment expense reserves or premiums to accommodate future claims and expenses. For example, the behavior of claimants and policyholders, including increased attorney involvement and third-party litigation financing, could result in higher jury awards. Furthermore, actions taken by governmental bodies, both legislative and regulatory, in reaction to significant unexpected events, and their related impacts, are hard to predict. Technology advancements, such as electric and autonomous vehicles, could impact frequency or severity of losses. The models that are used to determine appropriate premium levels, forecast future losses and expenses, estimate loss and loss adjustment expense reserves, and assess financial strength may be created or deployed in a manner that results in inaccurate predictions. Additionally, as the Exchange writes policies almost exclusively with annual terms, premium rate actions take 12 months to be fully recognized in written premium and another 12 months to earn the increased or decreased premiums in full. The Exchange also writes certain personal auto policies with a rate locking feature, which generally extends the amount of time it takes for premium rate actions to be recognized related to these policies. These risks may result in changes to the Exchange's estimated level of loss and loss adjustment expense reserves or impact the adequacy of premiums to accommodate future claims and expenses.

As insurance industry practices and legal, judicial, social and other environmental factors change, unexpected and unintended issues related to claims and coverage may emerge. In some instances, these emerging issues may not become apparent for some time after the Exchange has issued the affected insurance policies. As a result, the full extent of liability under the Exchange's insurance policies may not be known for many years after the policies are issued. These issues may adversely affect the Exchange's business by either extending coverage beyond its underwriting intent or by increasing the number or size of claims. If there were legislative action in response to a pandemic or other significant unexpected event that retroactively mandated coverage irrespective of terms, exclusions or other conditions included in policies that would otherwise preclude coverage, it could have a material impact on the financial condition, results of operations and cash flows of the Exchange.

The Exchange's insurance operations are exposed to claims arising out of catastrophes. Common natural catastrophic events in the Exchange's footprint include tropical cyclones, earthquakes, severe convective storms, and severe winter weather. Additional perils that the Exchange is exposed to through its assumed property reinsurance portfolio include wildfires, tsunamis, and floods. The frequency and severity of these catastrophes are inherently uncertain. Changing climate conditions have created additional uncertainty regarding the future trends in the frequency and severity of natural disasters. Increases in the insured value and geographic concentration of exposures, as well as the impact of inflation, may increase the severity of catastrophe losses. A single catastrophic occurrence or aggregation of multiple smaller occurrences within the geographical region of the Exchange or its assumed property reinsurance portfolio could adversely affect the financial condition of the Exchange. Man-made disasters such as terrorist attacks and riots could also cause losses from insurance claims related to the property and casualty insurance operations, which could adversely affect its financial condition.

Operating risks

If the costs of providing services to the Exchange are not controlled, our profitability could be materially adversely affected.

In accordance with the subscriber's agreement, we perform policy issuance and renewal services for the subscribers at the Exchange and we serve as the attorney-in-fact on behalf of the subscribers at the Exchange with respect to administrative services. The most significant costs we incur in providing policy issuance and renewal services are commissions, employee costs, and technology costs.

Commissions to independent agents are our largest expense. Commissions include scheduled commissions to agents based upon premiums written as well as incentive compensation, which is earned by achieving certain targeted measures. Changes to commission rates or incentive programs may result in increased future costs and lower profitability. Our agent incentive compensation includes a property and casualty underwriting profitability component. Any significant decrease in claims frequency and loss expenses could improve the profitability component, resulting in increased agent compensation costs. Our second largest expense category includes employee costs such as salaries, healthcare, pension, and other benefit costs. Regulatory developments, provider relationships, and demographic and economic factors that are beyond our control, such as inflation and increased labor market competition, are indicators that employee costs could increase, which could reduce our profitability or impact our personnel strategy. The defined benefit pension plan we offer to our employees is affected by variable factors such as the interest rate used to discount pension liabilities, asset performance, and changes in retirement patterns, which are beyond our control, and any related future cost increases could reduce our profitability.

Technological development is necessary to facilitate ease of doing business for employees, agents, and customers. Our technological developments are focused on simplifying and improving the employee, agent, and customer experiences, increasing efficiencies, redesigning products, and addressing other potentially disruptive changes in the insurance industry, including the use of artificial intelligence. As we continue to develop technology initiatives in order to remain competitive, our profitability could be negatively impacted as we invest in system development.

If we are unable to attract, develop, retain, and protect talented executives, key managers, and employees our financial condition and results of operations could be adversely affected.

Our success is largely dependent upon our ability to attract and retain talented executives and other key management. Talent is defined as people with the right skills, knowledge, abilities, character, and motivation. The loss of the services and leadership of certain key officers and the failure to plan for turnover or retirement or to attract and develop talented new executives and managers could prevent us from successfully communicating, implementing, and executing business strategies. Additionally, our executives and other key management may be subject to physical or cyber threats, which if realized, could adversely affect our business operations.

Our success also depends on our ability to attract, develop, and retain a talented employee base. The inability to staff all functions of our business with employees possessing the appropriate talent could have an adverse effect on our business performance. Additionally, failure to recognize, evaluate, and respond to changing workforce trends including current labor market conditions and managing hybrid work environments, or failure to execute proactive retention and replacement strategies could also have an adverse effect on our business performance. Furthermore, failure to instill appropriate cultural expectations and behavioral norms within our employees, particularly in a hybrid work environment, could damage our reputation. Staffing appropriately talented employees for the handling of claims and servicing of customers, rendering of disciplined underwriting, and effective sales and marketing are critical to the core functions of our business. In addition, talented employees with specialized skills in actuarial, finance, human resources, law, risk management and information technology, including artificial intelligence and data analytics, are also essential to support and grow our core functions.

If we are unable to effectively maintain system availability or manage technology initiatives, we may experience adverse financial consequences and/or may be unable to compete effectively.

Our business is highly dependent upon the effectiveness of our technology and information systems which support key functions of our core business operations, including processing applications and premium payments, providing customer support, performing actuarial and financial analysis, and maintaining key data. Additionally, the Exchange relies heavily on technology systems for processing claims. In order to support our business processes and strategic initiatives in a cost and resource efficient manner, we must maintain the effectiveness of existing technology systems and continue to identify and develop new, and enhance existing, technology systems. As we invest in the development of our systems, costs and completion times could exceed original estimates, and/or the project may not deliver the anticipated benefit or perform as expected. If we do not effectively and efficiently manage new technology initiatives, maintain existing systems, or attract and retain qualified information technology employees and contract personnel to support them, our ability to serve our customers and implement our strategic initiatives could be adversely impacted.

Additionally, we depend on a large amount of data to price policies appropriately, track exposures, perform financial analysis, report to regulatory bodies, and ultimately make business decisions. Should this data be inaccurate or insufficient, risk exposure may be underestimated and/or poor business decisions may be made. This may in turn lead to adverse operational or financial performance and adverse customer or investor confidence.

If we experience difficulties with technology, data or network security, including those that could result from cyber attacks, third-party relationships or cloud-based relationships, our ability to conduct our business could be adversely impacted.

In the normal course of business, we collect, use, store and where appropriate, disclose data concerning individuals and businesses. We also conduct business using third parties who may provide software, data storage, cloud-based computing and other technology services. Our systems regularly face cyber threats, which can create significant risks such as destruction of systems or data, denial or interruption of service, disruption of transaction execution, loss or exposure of customer data, theft or exposure of our intellectual property, theft of funds or disruption of other important business functions. Even with appropriate governance and controls, the use of artificial intelligence may increase our exposure to cyber threats. Our interactions with, and reliance upon, third parties, including our independent agents, expose us to increased risk related to data security, service disruptions or effectiveness of our control system, particularly as we increase our reliance on cloud-based computing and software-as-a-service from third parties to operate our business. If we experience service disruptions or need to replace essential third-party software or services, we may not be able to find a viable alternative, or alternatives may be costly and/or require significant time and resources to integrate with our systems, which could negatively impact our operations or financial results.

In addition, we are subject to numerous federal and state laws relating to the privacy and security of nonpublic personal information and other sensitive information of our customers, employees and others. The improper access, disclosure, misuse or mishandling of such information could result in legal liability, regulatory action and reputational damage. Third parties on whom we rely for certain business processing functions are also subject to these risks, and their failure to adhere to these laws and regulations could negatively impact us.

The number, complexity, and sophistication of cyber threats continue to increase over time. Rapid technological advancements can also introduce new risks related to data security and operational efficiency. As we continue to adapt our internal processes and systems to these rapidly evolving threats, we may be required to make certain judgments about additional investments in these areas that we believe will protect us from cybersecurity risks, which may not be effective. While we also maintain cyber liability insurance to mitigate the financial risk around cyber incidents, such insurance may not cover all costs associated with the consequences of information or systems being compromised, and such insurance may become prohibitively expensive to maintain. Additionally, while we have dedicated resources with security incident response capabilities, our response process may not be adequate, may fail to accurately assess the severity of an incident, may not respond quickly enough or may fail to sufficiently remediate an incident. Similarly, if our third-party service providers experience a cyber incident, they may fail to report, or timely report, the incident to us. As a result, we may suffer significant legal, reputational, or financial losses, which could adversely affect our business, cash flows, financial condition or results of operations.

If events occurred causing interruption of our operations, facilities, systems or business functions, it could have a material adverse effect on our operations and financial results.

We have established business continuity and disaster recovery plans to provide for the continuation of core business operations in the event that normal business operations could not be performed due to catastrophic or other events, including pandemics and cyber attacks. While we continue to test and assess our business continuity and disaster recovery plans to validate they

meet the needs of our core business operations and address multiple business interruption events, there is no assurance that core business operations could be performed upon the occurrence of such an event. Employee absence, physical premises damage, systems failures or outages could compromise our ability to perform our business functions in a timely manner, which could harm our ability to conduct business and hurt our business and customer relationships. While we also maintain business interruption insurance to mitigate the financial risk around disruptions to our core business operations, such insurance may not cover all costs associated with a disruption, and such insurance may become prohibitively expensive to maintain. Our operational resiliency is also dependent on third-party personnel, infrastructure and systems on which we rely, including cloud-based technologies and software-as-a-service applications. Our operations and those of our third parties may become vulnerable to damage or disruption due to circumstances beyond our or their control, such as from catastrophic events, power anomalies or outages, natural disasters, pandemics, supply chain interruptions, network failures, and cyber attacks. Additionally, we are dependent on internet and telecommunications access and capabilities. Our workforce is largely concentrated in Erie, Pennsylvania. If a significant event affects the labor force in this area, it could impact the policy acquisition, underwriting, claims and/or support services provided to the policyholders and/or independent agents of the Exchange. Disruptions to our workforce or our operations for any reason could result in a material adverse effect on our business, cash flows, financial condition, or results of operations.

We are subject to applicable insurance laws, tax statutes, and numerous other federal and state laws and regulations, as well as claims and legal proceedings, which, if determined unfavorably, could have a material adverse effect on our business, results of operations, or financial condition.

Our activities are subject to extensive regulation under federal and state laws on matters as diverse as internal control over financial reporting and disclosure controls, securities regulation, data privacy and protection, cybersecurity, taxation, immigration, wage-and-hour standards and employment and labor relations. These laws and regulations are complex and evolving, and compliance with these laws requires significant resources. In some cases, these laws and regulations may increase our costs, negatively impact revenues, or impose operational limitations on our business. Further, there can be no assurance that we, our third-party service providers and our independent agents are in full compliance with all applicable laws and regulations at all times. Efforts at compliance with all laws and regulations are further complicated by new and evolving regulations regarding cybersecurity, artificial intelligence and ESG matters, including DEI-related items. For example, recent changes in the U.S. regulatory environment relating to ESG matters has increased scrutiny of corporate ESG practices. Failure to effectively address current and future ESG regulatory developments and stakeholder expectations may expose our business to litigation, fines, penalties, and damage to our reputation, which, if material could adversely affect our financial condition and results of operations.

Additionally, we face a significant risk of litigation and regulatory investigations and actions in the ordinary course of operating our businesses including the risk of class action lawsuits. We are, have been, or may become subject to class actions and individual suits alleging breach of fiduciary or other duties, including our obligations to indemnify directors and officers in connection with certain legal matters. We are also subject to litigation arising out of our general business activities such as contractual and employment relationships and claims regarding the infringement of the intellectual property of others, whether by us or our third-party service providers. Plaintiffs in class action and other lawsuits against us may seek large or indeterminate amounts of damages, including punitive and treble damages, which may remain unknown for substantial periods of time. We are also subject to various regulatory inquiries, such as information requests, subpoenas, and books and record examinations from state and federal regulators and authorities. In addition, changes in the way regulators administer applicable laws, tax statutes, or regulations could adversely impact our business, cash flows, results of operations, or financial condition.

Market, Capital, and Liquidity risks

The performance of our investment portfolio is subject to a variety of investment risks, which may in turn have a material adverse effect on our results of operations or financial condition.

At December 31, 2025, our investment portfolio consisted of approximately 85% fixed maturity securities, with the remaining 15% invested in equity securities and other investments.

General economic conditions, geopolitical events, fiscal, trade, and monetary policy and other factors beyond our control can adversely affect the value of our investments and the realization of net investment income or result in realized investment losses. In addition, downward economic trends also may have an adverse effect on our investment results by negatively impacting the business conditions and impairing credit for the issuers of securities held in our respective investment portfolios. This could reduce fair values of investments and generate significant unrealized losses or impairment charges which may adversely affect our financial results.

The performance of the fixed maturity portfolio is subject to a number of risks including, but not limited to:

- Interest rate risk - the risk of adverse changes in the value of fixed maturity securities as a result of increases in market interest rates.
- Investment credit risk - the risk that the value of certain investments may decrease due to the deterioration in financial condition of, or the liquidity available to, one or more issuers of those securities or, in the case of structured securities, due to the deterioration of the loans or other assets that underlie the securities, which, in each case, also includes the risk of permanent loss.
- Sector/Concentration risk - the risk that the portfolio may be too heavily concentrated in the securities of one or more issuers, sectors, or industries. Events or developments that have a negative impact on any particular industry, group of related industries, or geographic region may have a greater adverse effect on our investment portfolio to the extent that the portfolio is concentrated within those issuers, sectors, or industries.
- Liquidity risk - the risk that we will not be able to convert investment securities into cash on favorable terms and on a timely basis, or that we will not be able to sell them at all, when desired. Disruptions in the financial markets or a lack of buyers for the specific securities that we are trying to sell could prevent us from liquidating securities or cause a reduction in prices to levels that are not acceptable to us.
- Reinvestment risk - the possibility that the cash flows produced by an investment will have to be reinvested at a reduced rate of return. Approximately 30% of our fixed maturity portfolio is expected to mature over the next three years.

Our equity securities have exposure to price risk. Equity markets, sectors, industries, and individual securities may also be subject to some of the same risks that affect our fixed maturity portfolio, as discussed above.

All of our fixed maturity and equity securities are subject to market volatility. To the extent that future market volatility negatively impacts our investments, our financial condition will be negatively impacted. We review the fixed maturity portfolio on a periodic basis to evaluate positions that are in an unrealized loss position to determine whether impairments are a result of credit loss or other factors. Inherent in management's evaluation of a security are assumptions and estimates about the operations of the issuer and its future earnings potential. As the process for determining impairments is highly subjective, changes in our assessments may have a material effect on our operating results and financial condition. See also Part II, Item 7A. "Quantitative and Qualitative Disclosures about Market Risk".

Deteriorating capital and credit market conditions or a failure to accurately estimate capital needs may significantly affect our ability to meet liquidity needs and access capital.

Sufficient liquidity and capital levels are required to pay operating expenses, income taxes, and to provide the necessary resources to fund future growth opportunities, satisfy certain financial covenants, pay dividends on common stock, and repurchase common stock. Management estimates the appropriate level of capital necessary based upon current and projected results, which includes evaluating potential risks. Failure to accurately estimate our capital needs may have a material adverse effect on our financial condition until additional sources of capital can be obtained. Further, a deteriorating financial condition may create a negative perception of us by third parties, including investors, and financial institutions, which could impact our ability to access capital in the debt or equity markets. Volatility in the financial markets could also limit our ability to sell certain fixed income securities or cause such investments to sell at deep discounts.

Our primary sources of liquidity are management fee revenue and cash flows generated from our investment portfolio. In the event these traditional sources of liquidity are not available, we may have to seek additional financing. Our access to funds will depend upon a number of factors including current market conditions, the availability of credit, market liquidity, and the timing of obtaining credit ratings. In deteriorating market conditions, there can be no assurance that we will obtain additional financing, or, if available, that the cost of financing will not substantially increase and affect our overall profitability.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None

ITEM 1C. CYBERSECURITY

Cybersecurity Risk Management

We maintain a cybersecurity program in alignment with our overall Enterprise Risk Management ("ERM") program. See Part II, Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained within this report for additional information on the ERM function. Our Privacy and Information Security Committee, comprised of officers and senior leaders, is responsible for overseeing the development and maintenance of information privacy and security policies and effective operation of our corporate information security and cybersecurity program in compliance with applicable state insurance regulations and other legal and regulatory requirements. This committee is sponsored by and reports directly to our Executive Council, which includes our Chief Executive Officer ("CEO"), Chief Financial Officer, executive vice presidents and certain senior vice presidents reporting directly to the CEO as applicable.

Our cybersecurity program of technical, administrative, and physical controls is intended to reduce the risk of cyber threats and protect our information, as well as document processes to determine and make appropriate disclosures regarding potential material threats and incidents. Our cybersecurity philosophy and approach align to the National Institute of Standards and Technology Cybersecurity Framework and its core elements to govern, identify, protect, detect, respond, and recover from the various forms of cyber threats. Our practices include, but are not limited to, cybersecurity protocols and controls, system monitoring and detection, communication of incidents to appropriate management, third-party risk management, including assessments of emerging threats and vulnerabilities, and ongoing privacy and cybersecurity training for employees and contractors concerning cyber risk. A foundational element of our cybersecurity risk management processes is the annual Cybersecurity and Information Security Risk Assessment (CSRA), which includes an analysis of cybersecurity risks facing us and associated recommendations and action items to mitigate identified risks. We periodically utilize third parties to assess the effectiveness of our cybersecurity efforts through independent validations, verifications, and security assessments.

Our Board of Directors has a process in place to monitor management's oversight of cybersecurity. This is done primarily through regular reports to its Risk Committee as well as the full Board of Directors. Management provides reports on the emerging cybersecurity threat landscape and our cybersecurity risk management program, including our risk evaluation, the results of independent third-party security assessments, and our efforts to manage cyber related risks.

We have a core incident response team (Core Team) consisting of dedicated, skilled leadership representatives from our Information Security, Privacy and Law teams, responsible for analyzing and assessing cyber incidents and leading response efforts. Our Chief Information Security Officer (CISO), responsible for overseeing and managing information security incidents, has over 25 years of experience in information technology (IT), including over 20 years dedicated to practicing or leading cybersecurity functions. Our CISO is also a Certified Information Systems Security Professional (CISSP). Our Privacy leader, responsible for managing privacy incidents, has over 20 years of experience in IT risk management, including over 10 years in IT risk and control functions and the remaining time focused on privacy and cybersecurity related functions and holds several information privacy and risk certifications. Our Legal leader, responsible for providing guidance on legal and other regulatory obligations in the areas of privacy, cybersecurity, technology, data use and third-party risk management, holds a Juris Doctor degree, is licensed to practice law, and has over 20 years of legal experience, including over 10 years focused on privacy and cybersecurity and holds several information security and privacy certifications, including the CISSP. The Core Team leaders are members of various organizations that support cybersecurity or privacy intelligence, education, information sharing and networking, including among others the Financial Services Information Sharing and Analysis Center (FS-ISAC), Domestic Security Alliance Council (DSAC), InfraGard, and International Association of Privacy Professionals (IAPP).

The Core Team members are augmented as needed by representatives from other internal groups, including subject matter experts from Information Security, Privacy, Finance and Law, as well as certain third parties that may need to participate in the incident response process. Depending on the severity and impact of the incident, third parties engaged may include outside counsel, forensics investigators, public relation firms, data breach resolution providers, and cyber insurance brokers and carriers. In conjunction with legal counsel, the Core Team evaluates notification requirements and as necessary will notify stakeholders depending on the nature and severity of the incident, including law enforcement, state attorneys general, regulators, external auditors, third party providers, and impacted individuals.

The Core Team is informed of cyber incidents from diverse sources, including for example, internal monitoring systems, information sharing organizations, employees, and other external information sources. Depending upon the levels of access to our information and/or information systems, third party service providers are contractually obligated to report cybersecurity incidents within their environments. The Core Team performs incident analysis and triage to determine scope, severity, prioritization and required response plans to address an incident in a manner that is intended to minimize the impact to us, our assets, and our operations. In accordance with applicable legal and regulatory requirements, this analysis and triage step

includes an assessment of the potential for material impact to us from a cybersecurity incident or a series of individually immaterial related incidents that are material when aggregated.

To date, we are not aware of any cybersecurity breach or other incident with respect to our systems or data that have materially affected, or that are reasonably likely to materially affect our business strategy, results of operations or financial condition. Additionally, we are not aware of any cybersecurity breach or other incident experienced by anyone with whom we have a third-party relationship that has had a material impact on our systems or data. However, there can be no guarantee that we will not experience any such incidents in the future. See Item 1A. "Risk Factors" for a discussion of cybersecurity risks.

ITEM 2. PROPERTIES

Indemnity and the Exchange share a corporate home office campus in Erie, Pennsylvania, which comprises approximately one million square feet. Additionally, we lease an office building and a warehouse facility from third parties and are charged rent for the related square footage we occupy.

Indemnity and the Exchange also own or lease 24 field offices in 12 states used to primarily support claims-related activities. The Exchange owns five field offices and leases another 17 from third parties. Indemnity owns one field office and leases another from a third party. Commitments for properties leased from third parties expire periodically through 2031. We expect that most leases will be renewed or replaced upon expiration. Rental costs of shared facilities are allocated based upon square footage occupied.

ITEM 3. LEGAL PROCEEDINGS

Erie Indemnity Company ("Indemnity") was named as a defendant in a complaint filed on August 24, 2021, by alleged subscribers of the Erie Insurance Exchange (the "Exchange") in the Court of Common Pleas Civil Division of Allegheny County, Pennsylvania captioned TROY STEPHENSON, CHRISTINA STEPHENSON, SUSAN RUBEL and STEVEN BARNETT, individually and on behalf of all others similarly situated (Plaintiffs) v. Erie Indemnity Company (Defendant).

The complaint seeks relief for alleged breaches of fiduciary duty by Indemnity in connection with the setting of the management fee it receives, in accordance with the terms of the Subscribers Agreement executed between Indemnity and all policyholders of the Exchange, as compensation for acting as the attorney-in-fact in the management of the Exchange. The relief sought is for the period beginning two years prior to the date of the filing of the complaint and continuing through 2021.

The complaint seeks (i) a finding that Indemnity has breached its fiduciary duties; (ii) an award of damages in an amount to be determined at trial; and (iii) such other relief, including disgorgement of profits or other injunctive relief, that the Court deems just and proper.

Service of the complaint was effectuated on September 20, 2021. A Notice of Removal to the United States District Court for the Western District of Pennsylvania was filed on October 20, 2021. On November 2, 2021, Plaintiffs filed a Notice of Voluntary Dismissal. As a result, the action was dismissed without prejudice.

On December 6, 2021, another Complaint was filed in the Court of Common Pleas of Allegheny County, Pennsylvania captioned ERIE INSURANCE EXCHANGE, an unincorporated association, by TROY STEPHENSON, CHRISTINA STEPHENSON and STEVEN BARNETT, trustees ad litem, and alternatively, ERIE INSURANCE EXCHANGE, by TROY STEPHENSON, CHRISTINA STEPHENSON and STEVEN BARNETT, (Plaintiff), v. ERIE INDEMNITY COMPANY, (Defendant).

This most recent complaint has the same allegation of breach of fiduciary duty by Indemnity in connection with the setting of the management fee it receives, in accordance with the terms of the Subscribers Agreement executed between Indemnity and all policyholders of the Exchange, as compensation for acting as the attorney-in-fact in the management of the Exchange.

This most recent complaint seeks the same relief, specifically, (i) a finding that Indemnity has breached its fiduciary duties; (ii) an award of damages in an amount to be determined at trial; and (iii) such other relief, including disgorgement of profits or other injunctive relief, that the Court deems just and proper.

A Notice of Removal to the United States District Court for the Western District of Pennsylvania was filed on January 27, 2022. Indemnity intends to vigorously defend against all of the allegations and requests for relief in the complaint.

By Memorandum Opinion and Order dated September 28, 2022, the Court granted the Motion for Remand and directed the case be remanded to the Court of Common Pleas of Allegheny County, Pennsylvania. On September 30, 2022, Indemnity filed a Motion to Stay the Remand Order pending an appeal to the United States Court of Appeals for the Third Circuit. On October 3, 2022, the Court granted the Stay. On October 11, 2022, Indemnity filed a Petition for Permission to Appeal the Remand Order with the Third Circuit. By Order dated November 7, 2022, a three judge panel of the Court denied the Petition to Appeal.

On November 21, 2022, Indemnity filed a Petition for Rehearing requesting that the Third Circuit permit the appeal. By Order dated January 9, 2023, the Court granted the petition for rehearing and vacated the prior Order of October 7, 2022, denying permission to appeal. On April 20, 2023, argument was held before a three-judge panel of the Third Circuit. By Opinion dated May 22, 2023, the Court affirmed the decision of the District Court finding that there was no basis for federal court jurisdiction and that the matter had been properly remanded to state court. On June 5, 2023, Indemnity filed a Petition for Panel Rehearing or Rehearing En Banc. By Order dated June 22, 2023, the Court denied the Petition. The United States District Court thereafter extended its stay of the issuance of the remand order through the conclusion of any proceedings in the United States Supreme Court challenging the decision of the United States Court of Appeals for the Third Circuit that no federal jurisdiction exists in this case.

On October 20, 2023, Indemnity filed a Petition for Writ of Certiorari with the Supreme Court of the United States. The Petition sought a determination from the Court that the lower courts improperly denied federal jurisdiction. By order dated February 26, 2024, the United States Supreme Court denied Indemnity's Petition for Writ of Certiorari.

Separately, Indemnity filed a Complaint in Federal Court to invoke certain provisions of the "All Writs Act" and the "Anti-Injunction Act." By filing this complaint, Indemnity seeks to protect the federal court's prior binding, final judgments in favor of Indemnity and thereby foreclose further litigation of the claims and issues pertaining to the compensation practices that were the subject of the prior judgments. After the denial of certiorari, the district court, by Opinion and Order dated February 28, 2024, granted Indemnity's motion for a preliminary injunction under the All Writs Act after determining that the gravamen of the plaintiff's state court action "is the same" as two actions previously dismissed in federal court, that Indemnity would be irreparably harmed if it is forced to relitigate those same issues in state court, plaintiffs had a full and fair opportunity to litigate the same issues in prior litigation, and that an injunction would serve the public interest. The Court's order preliminarily enjoined the named plaintiffs from pursuing the *Erie Ins. Exch. v. Erie Indem. Co.* action and enjoined the state court from conducting further proceedings in that action. The court ordered Indemnity to file a motion to convert the preliminary injunction into a permanent injunction. In the meantime, plaintiffs filed a Notice of Appeal with the United States Court of Appeals for the Third Circuit. As a result of the filing of the appeal, the trial court stayed the order issuing an injunction.

On October 14, 2025, the Third Circuit issued an Opinion and concluded that "the District Court abused its discretion in granting Indemnity's motion for preliminary injunction." The Court determined that the Complaint in Stephenson only sought to challenge the management fee established in December 2019 and 2020. The Court went on to conclude that the issues were not litigated in either Ritz or Beltz and, therefore, the Stephenson plaintiffs were not precluded from challenging the management fee for those years. On October 28, 2025, Indemnity filed a Petition for Reargument before the Court *en banc*. On November 12, 2025, the Third Circuit denied the Petition for Reargument. On January 12, 2026, Indemnity filed a Petition for Writ of Certiorari with the United States Supreme Court. The Petition is currently pending.

Indemnity intends to vigorously defend against all allegations and requests for relief sought by plaintiffs.

For additional information on contingencies, see Part II, Item 8. "Financial Statements and Supplementary Data - Note 17, Commitment and Contingencies, of Notes to Consolidated Financial Statements".

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Common Stock Market Prices and Dividends

Our Class A, non-voting common stock trades on The NASDAQ Stock MarketSM LLC under the symbol "ERIE". No established trading market exists for the Class B voting common stock. Broadridge Corporate Issuer Solutions, Inc. serves as our transfer agent and registrar. As of February 17, 2026, there were approximately 471 shareholders of record for the Class A non-voting common stock and 8 shareholders of record for the Class B voting common stock.

Historically, we have declared and paid cash dividends on a quarterly basis at the discretion of the Board of Directors. The payment and amount of future dividends on the common stock will be determined by the Board of Directors and will depend upon, among other things, our operating results, financial condition, cash requirements, and general business conditions at the time such payment is considered.

Issuer Purchases of Equity Securities

We may purchase shares, from time-to-time, in the open market, through trading plans entered into with one or more brokerage firms pursuant to Rule 10b5-1 under the Securities Exchange Act of 1934, or through privately negotiated transactions. The purchase of shares is dependent upon prevailing market conditions and alternate uses of capital, and at times and in a manner that is deemed appropriate.

Our Board of Directors authorized a stock repurchase program effective January 1, 1999, allowing the repurchase of our outstanding Class A nonvoting common stock. Various approvals for continuation of this program have since been authorized, with the most recent occurring in 2011 for \$150 million, which was authorized with no time limitation.

The following table presents the number and average price of our outstanding Class A nonvoting common stock shares purchased during the quarter ending December 31, 2025:

(dollars in thousands, except per share data)

Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced program	Dollar value of shares that may yet be purchased under the program
October 1–31, 2025	—	\$ —	—	\$ 17,754
November 1–30, 2025 ⁽¹⁾	77	283.12	—	17,754
December 1–31, 2025 ⁽²⁾	182	298.52	—	17,754
Total	<u>259</u>	<u>293.94</u>	<u>—</u>	

(1) Represents shares purchased on the open market to fund the rabbi trust for the outside director deferred stock compensation plan.

(2) Represents shares purchased on the open market for stock-based awards in conjunction with our equity compensation plan.

See Item 8. "Financial Statements and Supplementary Data - Note 11, Incentive and Deferred Compensation Plans, of Notes to Consolidated Financial Statements" contained within this report for additional information on shares purchased outside of this program.

ITEM 6. [RESERVED]

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion of financial condition and results of operations highlights significant factors influencing Erie Indemnity Company ("Indemnity", "we", "us", "our"). This discussion should be read in conjunction with the audited financial statements and related notes and all other items contained within this Annual Report on Form 10-K as these contain important information helpful in evaluating our financial condition and results of operations. This section of the Form 10-K generally discusses 2025 and 2024 results and year-to-year comparisons between 2025 and 2024. For a discussion of 2023 results and year-to-year comparisons between 2024 and 2023 refer to Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" for the year ended December 31, 2024 as contained in our Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 27, 2025.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

"Safe Harbor" Statement under the Private Securities Litigation Reform Act of 1995:

Statements contained herein that are not historical fact are forward-looking statements and, as such, are subject to risks and uncertainties that could cause actual events and results to differ, perhaps materially, from those discussed herein. Forward-looking statements relate to future trends, events or results and include, without limitation, statements and assumptions on which such statements are based that are related to our plans, strategies, objectives, expectations, intentions, and adequacy of resources. Examples of forward-looking statements are discussions relating to premium and investment income, expenses, operating results, and compliance with contractual and regulatory requirements. Forward-looking statements are not guarantees of future performance and involve risks and uncertainties that are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements. Among the risks and uncertainties, in addition to those set forth in our filings with the Securities and Exchange Commission, that could cause actual results and future events to differ from those set forth or contemplated in the forward-looking statements include the following:

- dependence upon our relationship with the Erie Insurance Exchange ("Exchange") and the management fee under the agreement with the subscribers at the Exchange;
- dependence upon our relationship with the Exchange and the growth of the Exchange, including:
 - general business and economic conditions;
 - factors impacting the timing of premium rates charged for policies;
 - factors affecting insurance industry competition, including technological innovations;
 - dependence upon the independent agency system; and
 - ability to maintain our brand, including our reputation for customer service;
- dependence upon our relationship with the Exchange and the financial condition of the Exchange, including:
 - the Exchange's ability to maintain acceptable financial strength ratings;
 - factors affecting the quality and liquidity of the Exchange's investment portfolio;
 - changes in government regulation of the insurance industry;
 - litigation and regulatory actions;
 - emergence of significant unexpected events, including pandemics, economic or social inflation, and changes in tariff policies;
 - emerging claims and coverage issues in the industry; and
 - severe weather conditions or other catastrophic losses, including terrorism;

- costs of providing policy issuance and renewal services to the subscribers at the Exchange under the subscriber's agreement;
- ability to attract, develop, retain, and protect talented management and employees;
- ability to ensure system availability and effectively manage technology initiatives;
- difficulties with technology, data or network security breaches, including cyber attacks;
- ability to maintain uninterrupted business operations;
- compliance with complex and evolving laws and regulations and outcome of pending and potential litigation;
- factors affecting the quality and liquidity of our investment portfolio; and
- ability to meet liquidity needs and access capital.

A forward-looking statement speaks only as of the date on which it is made and reflects our analysis only as of that date. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, changes in assumptions, or otherwise.

RECENT ACCOUNTING STANDARDS

See Item 8. "Financial Statements and Supplementary Data - Note 2, Significant Accounting Policies, of Notes to Consolidated Financial Statements" contained within this report for a discussion of recently adopted and issued accounting standards and the impact on our consolidated financial statements if known.

OPERATING OVERVIEW

Overview

We are a Pennsylvania business corporation that since 1925 has been the managing attorney-in-fact for the subscribers (policyholders) at the Exchange, a reciprocal insurer that writes property and casualty insurance. Our primary function as attorney-in-fact is to perform policy issuance and renewal services on behalf of the subscribers at the Exchange. We also act as attorney-in-fact on behalf of the subscribers at the Exchange, as well as the service provider for the Exchange's insurance subsidiaries, with respect to all administrative services.

The Exchange is a reciprocal insurance exchange, which is an unincorporated association of individuals, partnerships, and corporations that agree to insure one another. Each applicant for insurance (a subscriber) to the Exchange signs a subscriber's agreement, which contains an appointment of Indemnity as their attorney-in-fact to transact the business of the Exchange on their behalf.

In accordance with the subscriber's agreement for acting as attorney-in-fact in these two capacities, we retain a management fee. Management fee revenue is based upon all direct and affiliated assumed premiums written by the Exchange and the management fee rate, which is not to exceed 25%. Our Board of Directors sets the management fee rate at least annually, generally in December for the following year. The process of setting the management fee rate includes, but is not limited to, the evaluation of current year operating results compared to both prior year and industry estimated results for both Indemnity and the Exchange, and consideration of several factors for both entities including, but not limited to: their relative financial strength and capital position; projected revenue, expense and earnings for the subsequent year; future capital needs; as well as competitive position. The management fee rate was set at 25% for 2025 and 2024. Based on analysis of the foregoing factors, our Board of Directors set the 2026 management fee rate again at 25%.

Our earnings are primarily driven by the management fee revenue generated for the services we provide on behalf of the subscribers at the Exchange. The policy issuance and renewal services we provide are related to the sales, underwriting, and issuance of policies. The sales related services we provide include agent compensation and certain sales and advertising support services. Agent compensation includes scheduled commissions to agents based upon premiums written as well as incentive compensation, which is earned by achieving targeted measures. Agent compensation comprised approximately 71% of our 2025 policy issuance and renewal expenses. The underwriting services we provide include underwriting and policy processing and comprised approximately 8% of our 2025 policy issuance and renewal expenses. The remaining services we provide include customer service and administrative support. We also provide information technology services that support all the functions listed above that comprised approximately 10% of our 2025 policy issuance and renewal expenses. Included in these expenses are allocations of costs for departments that support these policy issuance and renewal functions.

Consistent with its legal structure as a reciprocal insurer, the Exchange does not have any employees or officers. Therefore, it enters into contractual relationships by and through the subscribers' attorney-in-fact. Indemnity serves as the attorney-in-fact on

behalf of the subscribers at the Exchange with respect to its administrative services as enumerated in the subscriber's agreement. The Exchange's insurance subsidiaries also utilize Indemnity for these services in accordance with the service agreements between each of the subsidiaries and Indemnity. Claims handling services include costs incurred in the claims process, including the adjustment, investigation, defense, recording, and payment functions. Life insurance management services include costs incurred in the management and processing of life insurance business. Investment management services are related to investment trading activity, accounting, and all other functions attributable to the investment of funds. In 2025, approximately 71% of the administrative services expenses were entirely attributable to the respective administrative functions (claims handling, life insurance management, and investment management), while the remaining 29% of these expenses were allocations of costs for departments that support these administrative functions. The expenses we incur and related reimbursements we receive for administrative services are presented gross in our Consolidated Statements of Operations. The subscriber's agreement and service agreements provide for reimbursement of amounts incurred for these services to Indemnity. Reimbursements are settled at cost on a monthly basis. State insurance regulations require that intercompany service agreements and any material amendments be approved in advance by the state insurance department.

Our results of operations are tied to the growth and financial condition of the Exchange as the Exchange is our sole customer, and our earnings are largely generated from management fees based on the direct and affiliated assumed premiums written by the Exchange. The Exchange generates revenue by insuring preferred and standard risks, with personal lines comprising 71% of the 2025 direct and affiliated assumed written premiums and commercial lines comprising the remaining 29%. The principal personal lines products are private passenger automobile and homeowners. The principal commercial lines products are commercial multi-peril, commercial automobile, and workers compensation.

We generate investment income from our fixed maturity and equity security portfolios. Our portfolios are managed with the objective of maximizing after-tax returns on a risk-adjusted basis. We actively evaluate the fixed maturity portfolios for securities in an unrealized loss position and record impairment write-downs on investments in instances where we have the intent to sell or it's more likely than not that we would be required to sell the security. Impairments resulting from a credit loss are recognized in earnings with a corresponding allowance on the Consolidated Statements of Financial Position.

Information security incident

Earlier in the year, we experienced an information security incident that has since been remediated and did not have a material impact on our consolidated financial condition, results of operations, or cash flows. As of December 31, 2025, we continue to pursue recovery of a portion of lost income due to business interruption and related expenses from our cybersecurity insurance policy.

Financial Overview

	Years ended December 31,					
	2025	% Change	2024	% Change	2023	
<i>(dollars in thousands, except per share data)</i>

NM = not meaningful

Operating income increased in 2025 compared to 2024 as operating revenue exceeded operating expenses. Operating income is primarily comprised of management fee revenue less the cost of policy issuance and renewal services. Management fee revenue is based upon the management fee rate we charge and the direct and affiliated assumed premiums written by the Exchange. The management fee rate was 25% for 2025 and 2024. The direct and affiliated assumed premiums written by the Exchange increased 8.9% to \$13.0 billion in 2025.

Cost of operations for policy issuance and renewal services increased 8.7% to \$2.5 billion in 2025 primarily due to higher scheduled commissions driven by direct and affiliated assumed written premium growth, increased agent incentive compensation due to improved profitability, and increased personnel and hardware and software costs.

Management fee revenue for administrative services increased 8.3% to \$74.1 million in 2025. The administrative services reimbursement revenue and corresponding cost of operations increased both total operating revenue and total operating expenses by \$836.6 million in 2025, but had no net impact on operating income.

Total investment income increased \$15.6 million in 2025 primarily due to an increase in net investment income.

Net income in 2025 was reduced by \$80.6 million, reflecting the after-tax impact of a \$100 million charitable contribution made to the Erie Insurance Foundation. See Item 8. "Financial Statements and Supplementary Data - Note 15, Related Party, of Notes to Consolidated Financial Statements" for additional details.

General Conditions and Trends Affecting Our Business

Economic conditions

Unfavorable changes in economic conditions, including declining consumer confidence, inflation, high unemployment, and the threat of recession, among others, may lead the Exchange's customers to modify coverage, not renew policies, or even cancel policies, which could adversely affect the premium revenue of the Exchange, and consequently our management fee revenue. Elevated inflation, supply chain disruptions, or changes in tariff policies could impact the Exchange's operations and our management fees. In particular, unanticipated increased inflation costs including medical cost inflation, building material cost inflation, auto repair and replacement cost inflation, and social inflation may impact adequacy of estimated loss reserves and future premium rates of the Exchange. If any of these items impacted the financial condition or operations of the Exchange, it could have an impact on our financial results. See Financial Condition, Liquidity and Capital Resources, and Part I, Item 1A. "Risk Factors" contained within this report for a discussion of potential impacts to our operations or those of the Exchange.

Financial market volatility

Our portfolio of available-for-sale and equity security investments is subject to market volatility, especially in periods of instability in the worldwide financial markets. Net investment income is impacted by the general level of interest rates, which impact reinvested cash flow from the portfolio and business operations. Depending upon market conditions, considerable fluctuation could occur in the fair value of our investment portfolio and reported total investment income, which could have an adverse impact on our consolidated financial condition, results of operations, and cash flows. Various ongoing geopolitical events, the uncertain tariff, inflationary, and interest rate environment, and a potential economic slowdown could have a significant impact on the global financial markets with the potential for future losses and/or impairments on our investment portfolio.

CRITICAL ACCOUNTING ESTIMATES

The financial statements include amounts based upon estimates and assumptions that have a significant effect on reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period and related disclosures. We consider an accounting estimate to be critical if 1) it requires assumptions to be made that were uncertain at the time the estimate was made, and 2) different estimates that could have been used, or changes in the estimate that are likely to occur from period-to-period, could have a material impact on our Consolidated Statements of Operations or Financial Position.

The following presents a discussion of those accounting policies surrounding estimates that we believe are the most critical to our reported amounts and require the most subjective and complex judgment. If actual events differ significantly from the underlying assumptions, there could be material adjustments to prior estimates that could potentially adversely affect our results of operations, financial condition, and cash flows. The estimates and the estimating methods used are reviewed continually, and any adjustments considered necessary are reflected in current earnings.

Investment Valuation

Fair Value Measurements

We make estimates concerning the fair value of our investments using valuation techniques to derive the fair value of the fixed maturity and equity investments we hold. Fair value is the price that would be received to sell an asset in an orderly transaction between willing market participants at the measurement date.

Fair value measurements are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our view of market assumptions in the absence of observable market information. We utilize valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Our investments are categorized into a three-level fair value hierarchy which assigns a Level 1 for highly observable inputs and a Level 3 to unobservable inputs. We continually assess whether or not an active market exists for all of our investments and as of each reporting date we re-evaluate their classification in the fair value hierarchy.

As of each reporting period, financial instruments recorded at fair value are classified based upon the lowest level of input that is significant to the fair value measurement. The presence of at least one unobservable input that has significant impact to the fair value measurement would result in classification as a Level 3 instrument. Our assessment of the significance of a particular input to the fair value measurement requires judgment, and considers factors specific to the asset, such as the relative impact on the fair value as a result of including a particular input and market conditions. While estimates of the fair values of our investment portfolio are obtained from outside pricing services, we ultimately determine whether the inputs used are observable or unobservable.

As of December 31, 2025, substantially all of the securities measured at fair value in our investment portfolio are classified as Level 2. Level 2 securities are valued using industry-standard models that consider various inputs, such as the interest rate and credit spread for the underlying financial instruments. All significant inputs are observable, or derived from observable information in the marketplace, or are supported by observable levels at which transactions are executed in the marketplace. At December 31, 2025, our investments classified as Level 3 were not significant.

See Item 8. "Financial Statements and Supplementary Data - Note 6, Fair Value, of Notes to Consolidated Financial Statements" contained within this report for additional details on the fair value measurement of our investments.

Retirement Benefit Plan for Employees

Our primary pension plan is a noncontributory defined benefit pension plan covering substantially all employees. Although we are the sponsor of this postretirement plan and record the funded status of the plan, there are reimbursements between us and the Exchange and its insurance subsidiaries for their allocated share of pension income or cost. See Item 8. "Financial Statements and Supplementary Data - Note 10, Postretirement Benefits, of Notes to Consolidated Financial Statements" contained within this report for additional details on these reimbursements.

Our pension obligation is developed from actuarial estimates. Several statistical and other factors, which attempt to anticipate future events, are used in calculating the expense and liability related to the plan. Key factors include assumptions about the discount rates and expected rates of return on plan assets. We review these assumptions annually and modify them considering historical experience, current market conditions, including changes in investment returns and interest rates, and expected future trends.

Accumulated and projected benefit obligations are expressed as the present value of future cash payments. We discount those cash payments based upon a yield curve developed from corporate bond yield information with maturities that correspond to the payment of benefits. Lower discount rates increase present values and subsequent year pension expense, while higher discount rates decrease present values and subsequent year pension expense. The construction of the yield curve is based upon yields of corporate bonds rated AA or equivalent quality. Target yields are developed from bonds at various maturity points and a curve is fitted to those targets. Spot rates (zero coupon bond yields) are developed from the yield curve and used to discount benefit payment amounts associated with each future year. The present value of plan benefits is calculated by applying the spot/ discount rates to projected benefit cash flows. A single discount rate is then developed to produce the same present value. The cash flows from the yield curve were matched against our projected benefit payments in the pension plan, which have a duration of about 15 years. This yield curve supported the selection of a 5.72% discount rate for the projected benefit obligation at December 31, 2025 and for the 2026 pension expense. The same methodology was used to develop the 5.87% and 5.34% discount rates used to determine the projected benefit obligation for 2024 and 2023, respectively, and the pension cost (income) for 2025 and 2024, respectively. A 25 basis point decrease in the discount rate assumption, with other assumptions held constant, would increase pension cost in the following year by \$4.0 million, of which our share would be approximately \$1.6 million, and would increase the pension benefit obligation by \$40.0 million.

Unrecognized actuarial gains and losses arise from several factors, including experience and assumption changes in the obligations and from the difference between expected returns and actual returns on plan assets. These unrecognized gains and losses are recorded in the pension plan obligation and accumulated other comprehensive income (loss). These amounts are systematically recognized to net periodic pension expense in future periods, with gains decreasing and losses increasing future pension expense. If actuarial net gains or losses exceed 5% of the greater of the projected benefit obligation and the market-related value of plan assets, the excess is recognized through the net periodic pension expense equally over the estimated service period of the employee group, which is currently 13 years.

The expected long-term rate of return for the pension plan represents the average rate of return to be earned on plan assets over the period the benefits included in the benefit obligation are to be paid. To determine the expected long-term rate of return assumption, we utilized models based upon rigorous historical analysis and forward-looking views of the financial markets based upon key factors such as historical returns for the asset class' applicable indices, the correlations of the asset classes under various market conditions and consensus views on future real economic growth and inflation. The expected future return for each asset class is then combined by considering correlations between asset classes and the volatilities of each asset class to produce a reasonable range of asset return results within which our expected long-term rate of return assumption falls. The expected long-term rate of return is generally less susceptible to annual revisions as there are typically no significant changes in the asset mix. Based on the current asset allocation and a review of the key factors and expectations of future asset performance as well as the current market environment, the expected return on asset assumption will remain at 7.00% for 2026. A change of 25 basis points in the expected long-term rate of return assumption, with other assumptions held constant, would have an estimated \$2.8 million impact on net pension benefit cost in the following year, of which our share would be approximately \$1.1 million.

We use a four-year averaging method to determine the market-related value of plan assets, which is used to determine the expected return component of pension expense. Under this methodology, asset gains or losses that result from returns that differ from our long-term rate of return assumption are recognized in the market-related value of assets on a level basis over a four-year period. The market-related asset experience during 2025 that related to the actual investment return being different from that assumed during the prior year was a gain of \$10.1 million. Recognition of this gain will be deferred and recognized over a four-year period, consistent with the market-related asset value methodology. Once factored into the market-related asset value, these experience gains and losses will be amortized over a period of 13 years, which is the remaining service period of the employee group.

We recognized net pension benefit expense of \$9.6 million in 2025 primarily driven by plan progression as well as demographic assumption updates from a 2024 experience study, partially offset by a higher discount rate, compared to 2024. We expect to recognize net pension benefit expense of \$18.0 million in 2026. The estimated increase from 2025 is primarily driven by anticipated plan progression and a decrease in the discount rate. Our share of the net pension benefit expense after reimbursements was \$3.7 million in 2025. We expect our share of the net pension benefit expense to be approximately \$7.0 million in 2026, of which expense of \$14.5 million will be recorded in operating expense and income of \$7.5 million will be recorded in other income.

The actuarial assumptions we used in determining our pension obligation may differ materially from actual results due to changing market and economic conditions, higher or lower withdrawal rates, or longer or shorter life spans of participants. While we believe that the assumptions used are appropriate, differences in actual experience or changes in assumptions may materially affect our consolidated financial position, results of operations, or cash flows. See Item 8. "Financial Statements and

Supplementary Data - Note 10, Postretirement Benefits, of Notes to Consolidated Financial Statements" contained within this report for additional details on the pension plan.

RESULTS OF OPERATIONS

Management fee revenue

We have two performance obligations in the subscriber's agreement, providing policy issuance and renewal services and acting as attorney-in-fact for the subscribers at the Exchange, as well as the service provider for the Exchange's insurance subsidiaries, with respect to all administrative services. We retain management fees for acting as the attorney-in-fact for the subscribers at the Exchange in these two capacities and allocate our revenues between our performance obligations.

The management fee is calculated by multiplying all direct and affiliated assumed premiums written by the Exchange by the management fee rate, which is set by our Board of Directors at least annually. The management fee rate was set at 25% for 2025 and 2024. Changes in the management fee rate can affect our revenue and net income significantly. The transaction price, including management fee revenue and administrative services reimbursement revenue, includes variable consideration and is allocated based on the estimated standalone selling prices developed using industry information and other available information for similar services. We update the transaction price and the related allocation at least annually based upon the most recent information available or more frequently if there have been significant changes in any components considered in the transaction price. Our current transaction price allocation review resulted in a minor change in the allocation between the two performance obligations in 2025 compared to 2024, which did not have a material impact on our consolidated financial statements.

The following table presents the allocation and disaggregation of revenue for our two performance obligations:

<i>(dollars in thousands)</i>	Years ended December 31,				
	2025	% Change	2024	% Change	2023
Policy issuance and renewal services					
Direct and affiliated assumed premiums written by the Exchange	\$12,957,469	8.9 %	\$11,903,759	18.4 %	\$10,056,484
Management fee rate	24.37 %		24.40 %		24.30 %
Management fee revenue	<u>3,157,735</u>	8.7	<u>2,904,517</u>	18.9	<u>2,443,726</u>
Change in estimate for management fee returned on cancelled policies ⁽¹⁾	<u>(25,929)</u>	NM	<u>(10,443)</u>	NM	<u>(1,653)</u>
Management fee revenue - policy issuance and renewal services	<u>\$ 3,131,806</u>	8.2 %	<u>\$ 2,894,074</u>	18.5 %	<u>\$2,442,073</u>
Administrative services					
Direct and affiliated assumed premiums written by the Exchange	\$12,957,469	8.9 %	\$11,903,759	18.4 %	\$10,056,484
Management fee rate	0.63 %		0.60 %		0.70 %

Change in contract liability ⁽²⁾	<u>(7,268)</u>	NM	<u>(2,985)</u>	55.4	<u>(6,690)</u>
Change in estimate for management fee returned on cancelled policies ⁽¹⁾	<u>(306)</u>	NM	<u>(83)</u>	NM	<u>(36)</u>
Management fee revenue - administrative services	<u>74,058</u>	8.3	<u>68,355</u>	7.4	<u>63,669</u>
Administrative services reimbursement revenue	<u>836,639</u>	3.8	<u>806,336</u>	9.4	<u>737,139</u>
Total revenue from administrative services	<u>\$ 910,697</u>	4.1 %	<u>\$ 874,691</u>	9.2 %	<u>\$ 800,808</u>

NM = not meaningful

- (1) A constraining estimate of variable consideration exists related to the potential for management fees to be returned if a policy were to be cancelled mid-term. Management fees are returned to the Exchange when policies are cancelled mid-term and unearned premiums are refunded.
- (2) Management fee revenue - administrative services is recognized over time as the services are provided. See Item 8. "Financial Statements - Note 3, Revenue, of Notes to Consolidated Financial Statements" contained within this report.

Direct and affiliated assumed premiums written by the Exchange

Direct and affiliated assumed premiums include premiums written directly by the Exchange and premiums assumed from its wholly owned property and casualty subsidiaries. Direct and affiliated assumed premiums written by the Exchange increased 8.9% to \$13.0 billion in 2025, from \$11.9 billion in 2024, primarily driven by increased personal lines and commercial multi-peril premiums written. The year-over-year average premium per policy for all lines of business increased 9.6% at December 31, 2025 compared to 13.4% at December 31, 2024. Year-over-year policies in force for all lines of business decreased 1.1% in 2025 as a result of a decrease in new business policies written.

Premiums generated from new business decreased 17.8% to \$1.5 billion in 2025. Contributing to this change was a 22.8% decrease in new business policies written, partially offset by a 6.5% increase in year-over-year average premium per policy on new business at December 31, 2025.

Premiums generated from renewal business increased 13.4% to \$11.5 billion in 2025, resulting from an increase in year-over-year average premium per policy of 10.3% at December 31, 2025, as well as an increase in year-over-year policies in force of 2.4% in 2025.

The Exchange implements rate changes in order to meet loss cost expectations. In 2022 through 2024, the Exchange implemented rate increases primarily in response to inflation-driven severity trends in order to restore rate adequacy. As these cumulative rate actions have been recognized into earned premium, the Exchange implemented more moderate rate increases in 2025, reflecting alignment between pricing and underlying loss costs while continuing to monitor loss trends. As the Exchange writes policies almost exclusively with annual terms, premium rate actions take 12 months to be fully recognized in written premium and 24 months to be recognized in earned premiums. Since rate changes are realized at renewal, it takes 12 months to implement a rate change to all policyholders and another 12 months to earn the increased or decreased premiums in full. As a result, certain rate changes approved in 2024 were reflected in 2025, and a portion of the premium rate actions approved in 2025 will be reflected in 2026. Furthermore, the Exchange writes certain personal auto policies with a rate locking feature, which generally extends the amount of time it takes for premium rate actions to be recognized related to these policies. The Exchange continuously evaluates pricing and product offerings to maintain rate adequacy while meeting consumer demands.

Personal lines – Total personal lines premiums written increased 8.3% to \$9.2 billion in 2025, from \$8.5 billion in 2024, driven by a 9.4% increase in total personal lines year-over-year average premium per policy, partially offset by a 1.5% decrease in total personal lines policies in force.

Commercial lines – Total commercial lines premiums written increased 10.1% to \$3.8 billion in 2025, from \$3.4 billion in 2024, driven by a 7.7% increase in the total commercial lines year-over-year average premium per policy and a 2.2% increase in total commercial lines policies in force.

Future trends-premium revenue – Through a careful agency selection and monitoring process, the Exchange plans to continue efforts to utilize its agency force to increase market penetration in existing operating territories to contribute to future growth.

Changes in premium levels attributable to the growth in policies in force directly affect the profitability of the Exchange and have a direct bearing on our management fee revenue. Our continued focus on underwriting discipline and the maturing of pricing sophistication models support risk selection and long-term rate adequacy. In 2025, policy retention declined slightly compared to prior periods, primarily reflecting competitive market conditions. The continued growth of the Exchange's policy base is dependent upon its ability to retain existing and attract new subscribers (policyholders). A lack of new policy growth or the inability to retain existing customers could have an adverse effect on the Exchange's premium level growth, and consequently our management fee revenue.

Changes in premium levels attributable to rate changes also directly affect the profitability of the Exchange and have a direct bearing on our management fee revenue. Pricing actions contemplated or taken by the Exchange are subject to various regulatory requirements of the states in which it operates. Future premiums could be impacted by potential changes in regulation, inflationary trends, and tariff policies, among others. The pricing actions already implemented, or to be implemented, have an effect on the market competitiveness of the Exchange's insurance products. Such pricing actions, and those of the Exchange's competitors, could affect the ability of the Exchange's agents to retain and attract new business. We expect the Exchange's pricing actions in 2025 to result in an increase in direct written premiums in 2026; however, exposure reductions and/or changes in mix of business as a result of economic conditions could impact the average direct and affiliated assumed premium written by the Exchange, as customers may reduce coverages. See also Part I, Item 1A. "Risk Factors".

Policy issuance and renewal services

<i>(dollars in thousands)</i>	Years ended December 31,				
	2025	% Change	2024	% Change	2023
Management fee revenue - policy issuance and renewal services	\$3,131,806	8.2 %	\$2,894,074	18.5 %	\$2,442,073
Service agreement revenue	24,755	(6.1)	26,350	1.1	26,059
	<u>3,156,561</u>	8.1	<u>2,920,424</u>	18.3	<u>2,468,132</u>
Cost of operations - policy issuance and renewal services	2,513,435	8.7	2,312,324	15.0	2,011,545
Operating income - policy issuance and renewal services	<u>\$ 643,126</u>	5.8 %	<u>\$ 608,100</u>	33.2 %	<u>\$ 456,587</u>

Policy issuance and renewal services

The management fee revenue allocated for providing policy issuance and renewal services was 24.37% and 24.40% of the direct and affiliated assumed premiums written by the Exchange in 2025 and 2024, respectively. This portion of the management fee is recognized as revenue when the policy is issued or renewed because it is at that time that the services we provide are substantially complete and the executed insurance policy is transferred to the customer. The increase in management fee revenue for policy issuance and renewal services was driven by the increase in the direct and affiliated assumed premiums written by the Exchange discussed previously.

Service agreement revenue

Service agreement revenue primarily consists of service charges we collect from subscribers (policyholders) for providing multiple payment plans on policies written by the Exchange and its property and casualty subsidiaries and also includes late payment and policy reinstatement fees. The service charges are fixed dollar amounts per billed installment. Service agreement revenue also includes fees received from the Exchange for the use of shared office space.

Cost of policy issuance and renewal services

Customer service	46,538	8.1	43,045	25.2	34,391
Administrative and other	179,345	(3.8)	186,425	8.4	171,970
Total non-commission expense	<u>736,392</u>	3.6	<u>710,923</u>	7.2	<u>663,015</u>
Total cost of operations - policy issuance and renewal services	<u>\$2,513,435</u>	8.7 %	<u>\$2,312,324</u>	15.0 %	<u>\$2,011,545</u>

Commissions – Commissions increased \$175.6 million in 2025 compared to 2024, primarily driven by the growth in direct and affiliated assumed written premium and an increase in agent incentive compensation due to improved property and casualty underwriting profitability for the three-year period ended 2025 compared to the three-year period ended 2024.

Non-commission expense – Non-commission expense increased \$25.5 million in 2025 compared to 2024. Underwriting and policy processing expense increased \$4.8 million primarily due to increased postage and personnel costs, partially offset by a decrease in underwriting report costs. Information technology costs increased \$24.3 million primarily due to an increase in personnel costs and hardware and software costs. Customer service costs increased \$3.5 million primarily due to increased credit card processing fees and personnel costs. Administrative and other costs decreased \$7.1 million primarily due to decreased professional fees and personnel costs.

Personnel costs in all expense categories in 2025 were impacted by increased healthcare costs compared to 2024. Personnel costs in 2025 were also impacted by decreased incentive compensation compared to 2024. Decreases in incentive plan costs were primarily driven by lower performance metrics compared to 2024 and a decrease in company stock price during 2025 compared to an increase during 2024.

Administrative services

<i>(dollars in thousands)</i>	Years ended December 31,					
	2025	% Change	2024	% Change	2023	
Management fee revenue - administrative services	\$ 74,058	8.3 %	\$ 68,355	7.4 %	\$ 63,669	
Administrative services reimbursement revenue	836,639	3.8	806,336	9.4	737,139

Administrative services expenses						
Claims handling services	735,330	6.5	690,662	8.8	635,043	
Investment management services	32,908	(5.7)	34,889	(0.2)	34,958	
Life management services	68,401	(15.3)	80,785	20.3	67,138	
Operating income - administrative services	<u>\$ 74,058</u>	8.3 %	<u>\$ 68,355</u>	7.4 %	<u>\$ 63,669</u>	

Administrative services

The management fee revenue allocated to administrative services was 0.63% and 0.60% of the direct and affiliated assumed premiums written by the Exchange in 2025 and 2024, respectively. This portion of the management fee is recognized as revenue over a four-year period representing the time over which the services are provided. We also report reimbursed costs as revenues, which are recognized monthly as services are provided. The administrative services expenses we incur and the related reimbursements we receive are recorded gross in the Consolidated Statements of Operations.

Cost of administrative services

Consistent with its legal structure as a reciprocal insurer, the Exchange does not have any employees or officers. Therefore, it enters into contractual relationships by and through the subscribers' attorney-in-fact. Indemnity serves as the attorney-in-fact on behalf of the subscribers at the Exchange with respect to its administrative services as enumerated in the subscriber's agreement. The Exchange's insurance subsidiaries also utilize Indemnity for these services in accordance with the service agreements between each of the subsidiaries and Indemnity. The subscriber's agreement and service agreements provide for reimbursement of amounts incurred for these services to Indemnity. Reimbursements due from the Exchange and its insurance subsidiaries are recorded as a receivable and settled at cost.

Total investment income

A summary of the results of our investment operations is as follows for the years ended December 31:

<i>(dollars in thousands)</i>	2025	% Change	2024	% Change	2023
Net investment income	\$ 85,837	22.4 %	\$ 70,155	57.4 %	\$ 44,572
Net realized and unrealized investment gains (losses)	2,336	(27.6)	3,229	NM	(5,838)
Net impairment losses recognized in earnings	(3,312)	19.7	(4,124)	57.8	(9,766)
Total investment income	<u>\$ 84,861</u>	22.5 %	<u>\$ 69,260</u>	NM %	<u>\$ 28,968</u>

NM = not meaningful

Net investment income

Net investment income includes interest and dividends on our fixed maturity and equity security portfolios and the results of our limited partnership investments, net of investment expenses. Net investment income increased \$15.7 million in 2025, compared to 2024, primarily due to an increase in bond and cash and cash equivalent income as a result of higher average holdings and bond yields.

Net realized and unrealized investment gains (losses)

A breakdown of our net realized and unrealized investment gains (losses) is as follows for the years ended December 31:

<i>(in thousands)</i>	2025	2024	2023
Securities sold:			
Available-for-sale securities	\$ 53	\$ (1,620)	\$ (6,719)
Equity securities	341	1,213	(2,328)
Change in fair value on remaining equity securities	1,937	3,635	3,199
Miscellaneous	5	1	10
Net realized and unrealized investment gains (losses)	<u>\$ 2,336</u>	<u>\$ 3,229</u>	<u>\$ (5,838)</u>

Net impairment losses recognized in earnings

Net impairment losses of \$3.3 million in 2025 primarily included both credit-related and intent to sell impairments on available-for-sale securities and current expected credit losses on other loans receivable. Impairment losses of \$4.1 million in 2024 primarily included current expected credit losses on held-to-maturity securities and other loans receivable. See "Other assets" in Item 8. "Financial Statements and Supplementary Data - Note 2, Significant Accounting Policies, of Notes to Consolidated Financial Statements" for additional information on other loans receivable and held-to-maturity securities.

Financial Condition of Erie Insurance Exchange

Serving in the capacity of attorney-in-fact for the subscribers at the Exchange, we are dependent on the growth and financial condition of the Exchange, who is our sole customer. The strength of the Exchange and its wholly owned subsidiaries is rated annually by AM Best through assessing its financial stability and ability to pay claims. The ratings are generally based upon factors relevant to policyholders and are not directed toward return to investors. On September 5, 2025, the Exchange and each of its property and casualty insurance subsidiaries were downgraded from A+ "Superior" to A "Excellent" and its financial strength rating was revised from negative to stable. The A "Excellent" rating is the third highest financial strength rating assigned to companies that have achieved excellent overall performance when compared to the standards established by AM Best and have an excellent ability to meet obligations to policyholders over the long term. While the Exchange's policyholder surplus continues to be classified in AM Best's strongest category, the downgrade was primarily driven by the Exchange's large underwriting losses in recent years, driven by elevated weather-related events and increased severity in the auto and homeowners' segments. The stable financial strength rating reflects the expectation that the Exchange's profitability initiatives will accelerate and stabilize operating results over the near term. Furthermore, the stable outlook reflects the strongest level of balance sheet strength as assessed by AM Best.

The financial statements of the Exchange are prepared in accordance with statutory accounting principles prescribed by the Commonwealth of Pennsylvania. Financial statements prepared under statutory accounting principles focus on the solvency of the insurer and generally provide a more conservative approach than under U.S. generally accepted accounting principles. Statutory direct written premiums of the Exchange and its wholly owned property and casualty insurance subsidiaries grew 8.9% to \$13.0 billion in 2025 from \$11.9 billion in 2024. These premiums, along with investment income, are the major sources of cash that support the operations of the Exchange. Policyholders' surplus, determined under statutory accounting principles, was \$10.1 billion and \$9.3 billion at December 31, 2025 and 2024, respectively. The Exchange and its wholly owned property and casualty insurance subsidiaries' year-over-year policy retention ratio continues to be high at 88.4% at December 31, 2025 and 90.4% at December 31, 2024.

We have prepared our consolidated financial statements considering the financial strength of the Exchange based on its AM Best rating and strong level of surplus. See Part I, Item 1A. "Risk Factors" for possible outcomes that could impact that determination.

FINANCIAL CONDITION

Investments

Our investment portfolio is managed with the objective of maximizing after-tax returns on a risk-adjusted basis. The following table presents the carrying value of our investments as of December 31:

<i>(dollars in thousands)</i>	2025	% to total	2024	% to total
Available-for-sale securities ⁽¹⁾	\$ 1,364,828	85 %	\$ 1,043,615	83 %
Equity securities ⁽²⁾	90,763	6	85,891	7
Agent loans ⁽³⁾	109,331	7	92,731	7
Other investments ⁽⁴⁾	37,342	2	29,610	3
Total investments	<u>\$ 1,602,264</u>	<u>100 %</u>	<u>\$ 1,251,847</u>	<u>100 %</u>

(1) This includes \$44.4 million and \$7.3 million of securities lent under a securities lending agreement as of December 31, 2025 and 2024, respectively.

(2) This includes \$20.1 million of securities lent under a securities lending agreement as of December 31, 2025.

(3) The current portion of agent loans is included in the line item "Prepaid expenses and other current assets, net" in the Consolidated Statements of Financial Position.

(4) The current and long-term portions of other investments are included in the line items "Prepaid expenses and other current assets, net" and "Other assets, net", respectively, in the Consolidated Statements of Financial Position.

We continually review our investment portfolio for impairment and determine whether the impairment is a result of credit loss or other factors. We analyze all positions with an emphasis on those in a significant unrealized loss position. If we have the intent to sell or it's more likely than not that we would be required to sell the security before recovery of the amortized cost basis, the entire impairment is recognized in earnings. Factors considered in the evaluation of credit loss include the extent to which fair value is less than cost and fundamental factors specific to the issuer such as financial condition, changes in credit ratings, near and long-term business prospects and other factors, as well as the likelihood of recovery of the amortized cost of the security. Impairment resulting from credit loss is recognized in earnings with a corresponding allowance on the Consolidated Statements of Financial Position. We believe our investment valuation philosophy and accounting practices result in appropriate and timely measurement of fair value and recognition of impairment.

Available-for-sale securities

Under our investment strategy, we maintain an available-for-sale portfolio that is of high quality and well diversified within each market sector. This investment strategy also achieves a balanced maturity schedule. Our available-for-sale portfolio is managed with the goal of achieving reasonable returns while limiting exposure to risk.

Available-for-sale securities are carried at fair value with unrealized gains and losses, net of deferred taxes, included in shareholders' equity. Net unrealized gains on available-for-sale securities, net of deferred taxes, totaled \$1.3 million at December 31, 2025, compared to unrealized losses of \$17.6 million at December 31, 2024. Our evaluation of deferred tax assets and the need for a valuation allowance included available tax planning strategies that could be implemented, if necessary, to support the realizability of deferred tax assets. We believe those tax strategies are feasible and prudent.

The following table presents a breakdown of the fair value of our available-for-sale portfolio by industry sector and rating as of December 31, 2025: ⁽¹⁾

<i>(in thousands)</i>	AAA	AA	A	BBB	Non-investment grade	Fair value
Basic materials	\$ 0	\$ 0	\$ 1,531	\$ 4,899	\$ 7,230	\$ 13,660
Communications	0	3,055	15,684	7,782	19,627	46,148
Consumer	0	8,971	50,525	76,566	51,938	188,000
Diversified	0	0	0	1,047	1,616	2,663
Energy	0	908	5,666	42,493	20,293	69,360
Financial	0	0	134,221	173,493	20,769	328,483

Technology	1,985	0	0	15,419	15,679	33,083
U.S. Treasury	0	24,163	0	0	0	24,163
Utilities	0	0	12,903	56,778	19,006	88,687
Total	\$ 205,360	\$ 285,238	\$ 257,354	\$ 421,408	\$ 195,468	\$1,364,828

(1) Ratings are supplied by S&P, Moody's, and Fitch. The table is based upon the lowest rating for each security.

(2) Structured securities include residential and commercial mortgage-backed securities, collateralized debt obligations, and asset-backed securities.

Equity securities

Equity securities primarily include nonredeemable preferred stocks and are carried at fair value in the Consolidated Statements of Financial Position with all changes in unrealized gains and losses reflected in the Consolidated Statements of Operations.

The following table presents an analysis of the fair value of our equity securities by sector as of December 31:

<i>(in thousands)</i>	2025	2024
Financial services	\$ 74,614	\$ 69,930
Utilities	3,696	5,629
Energy	2,713	4,117
Consumer	5,563	3,341
Technology	3,224	1,974
Communications	953	900
Total	\$ 90,763	\$ 85,891

Shareholders' Equity

Postretirement benefit plans

The funded status of our postretirement benefit plans is recognized in the Consolidated Statements of Financial Position, with a corresponding adjustment to accumulated other comprehensive income (loss), net of tax. At December 31, 2025, shareholders' equity amounts related to these postretirement plans decreased by \$23.3 million, net of tax, of which \$1.1 million primarily represents amortization of net actuarial gain and \$22.2 million primarily represents the current period actuarial loss. The 2025 actuarial loss was driven primarily by the lower discount rate used to measure the future benefit obligations, partially offset by higher than expected return on plan assets. Although we are the sponsor of these postretirement plans and record the funded status of these plans, there are reimbursements between us and the Exchange and its insurance subsidiaries for their allocated share of pension income or cost. See Item 8. "Financial Statements and Supplementary Data - Note 10, Postretirement Benefits, of Notes to Consolidated Financial Statements" contained within this report for additional details on these reimbursements.

LIQUIDITY AND CAPITAL RESOURCES

We continue to monitor the sufficiency of our liquidity and capital resources given the potential impact of current economic conditions, including the uncertain tariff, inflationary, and interest rate environment. While we did not see a significant impact on our sources or uses of cash in 2025, future market disruptions could occur which may affect our liquidity position. If our normal operating and investing cash activities were to become insufficient to meet future funding requirements, we believe we have sufficient access to liquidity through our cash position, diverse liquid marketable securities, and our \$100 million bank revolving line of credit that does not expire until November 2029. See broader discussions of potential risks to our operations in Operating Overview and Part I, Item 1A. "Risk Factors" contained within this report.

Sources and Uses of Cash

Liquidity is a measure of a company's ability to generate sufficient cash flows to meet the short- and long-term cash requirements of its business operations and growth needs. Our liquidity requirements have been met primarily by funds generated from management fee revenue and income from investments. Cash provided from these sources is used primarily to fund the costs of our management operations including commissions, salaries and wages, pension plans, share repurchases, dividends to shareholders, the purchase and development of information technology, and other capital expenditures. We expect that our operating cash needs will be met by funds generated from operations. Cash in excess of our operating needs is primarily invested in investment grade fixed maturities. As part of our liquidity review, we regularly evaluate our capital needs based on current and projected results and consider the potential impacts to our liquidity, borrowing capacity, financial covenants and capital availability.

We have certain obligations and commitments to make future payments under various agreements. Cash requirements within the next twelve months include accounts payable, accrued liabilities, and other current obligations.

Our long-term cash requirements under various contractual obligations and commitments include:

- *Pension* – We have a funded noncontributory defined benefit pension plan covering substantially all employees and an unfunded SERP for certain members of executive and senior management. See Item 8. "Financial Statements and Supplementary Data - Note 10, Postretirement Benefits, of Notes to Consolidated Financial Statements" for the funding policy and related contributions for our defined benefit pension plan, and accumulated benefit obligation for our unfunded SERP.
- *Deferred compensation* – We have two deferred compensation plans for our executives, senior vice presidents and other selected officers, and two deferred compensation plans for our outside directors. See Item 8. "Financial Statements and Supplementary Data - Note 11, Incentive and Deferred Compensation Plans, of Notes to Consolidated Financial Statements" for additional details of these obligations and estimated future payments.
- *Home office renovations* – We have agreements with external contracting firms for renovations to office buildings that are part of our principal headquarters. Remaining commitments related to the underlying contracts total \$77.5 million at December 31, 2025, of which the majority is due in the next 12 months. Additional contracts will be executed as we begin each new phase of the overall renovation projects and will be funded using our working capital. See Item 8. "Financial Statements and Supplementary Data - Note 8, Fixed Assets, of Notes to Consolidated Financial Statements" for additional details on construction in progress costs and expected completion date.
- *Other commitments* – We have commitments for approximately \$473 million which include agreements for various services, including information technology, support and maintenance obligations, operating leases for equipment, vehicles, and real estate, and other obligations in the ordinary course of business. We expect to make future cash payments according to the contract terms. These agreements are enforceable and legally binding and specify fixed amounts or minimum quantities to be purchased. Some agreements may contain cancellation provisions, some of which may require us to pay a termination fee. Approximately two-thirds of these commitments are due in the next 12 months. We are reimbursed from the Exchange and its insurance subsidiaries for the portion of these costs related to administrative services.

We maintain relationships and cash balances at diversified and well-capitalized financial institutions and have established processes to monitor them. We believe that our current cash, cash equivalents and marketable securities and cash generated from operations will be sufficient to meet our current and future cash requirements.

Volatility in the financial markets presents challenges to us as we occasionally access our investment portfolio as a source of cash. Some of our fixed income investments, despite being publicly traded, may be illiquid. Additionally, if we require significant amounts of cash on short notice in excess of anticipated cash requirements, or if we are required to return cash

collateral in connection with our securities lending program, we may have difficulty selling investments in a timely manner, or be forced to sell at deep discounts. We believe we have sufficient liquidity to meet our needs from sources other than the liquidation of securities.

Cash flow activities

The following table provides condensed cash flow information for the years ended December 31:

<i>(in thousands)</i>	2025	2024	2023
Net cash provided by operating activities	\$ 686,657	\$ 611,249	\$ 381,205
Net cash used in investing activities	(439,328)	(226,912)	(157,565)
Net cash used in financing activities	(199,852)	(229,995)	(221,675)
Net increase in cash, cash equivalents and restricted cash	<u>\$ 47,477</u>	<u>\$ 154,342</u>	<u>\$ 1,965</u>

Net cash provided by operating activities was \$686.7 million in 2025, compared to \$611.2 million in 2024. Increased cash provided by operating activities in 2025, compared to 2024, was primarily due to an increase in management fees received of \$311.1 million driven by growth in direct and affiliated assumed premiums written by the Exchange and a decrease in income taxes paid of \$55.9 million driven by lower taxable income compared to 2024, resulting from changes in tax legislation and increased charitable contributions. This was partially offset by increases in cash paid for agent commissions of \$165.3 million driven by premium growth, and the charitable contribution to the Erie Insurance Foundation of \$100 million.

Net cash used in investing activities was \$439.3 million in 2025, compared to \$226.9 million in 2024. Increased cash used in investing activities was primarily due to an increase in purchases, net of sales and maturities/calls, of available-for-sale securities of \$226.7 million.

Net cash used in financing activities was \$199.9 million in 2025, compared to \$230.0 million in 2024. Decreased cash used in financing activities was primarily due to increased cash collateral received related to increased lending of securities under our securities lending program. This was partially offset by increased dividends paid to shareholders. We increased both our Class A and Class B shareholder regular quarterly dividends by 7.1% for 2025, compared to 2024.

Capital Outlook

We regularly prepare forecasts evaluating the current and future cash requirements for both normal and extreme risk events. Should an extreme risk event result in a cash requirement exceeding normal cash flows, we have the ability to meet our future funding requirements through various alternatives available to us.

Outside of our normal operating and investing cash activities, future funding requirements could be met through: 1) unrestricted and unpledged cash and cash equivalents, which totaled approximately \$315.0 million at December 31, 2025, 2) \$100 million available bank revolving line of credit, and 3) liquidation of unrestricted and unpledged assets held in our investment portfolio, including equity securities and investment grade bonds, which totaled approximately \$1.1 billion at December 31, 2025. Volatility in the financial markets could impair our ability to sell certain fixed income securities or cause such securities to sell at deep discounts. Additionally, we have the ability to curtail or modify discretionary cash outlays such as those related to shareholder dividends and share repurchase activities. See Item 8. "Financial Statements and Supplementary Data - Note 9, Bank Line of Credit, of Notes to Consolidated Financial Statements" for additional information related to our bank revolving line of credit.

Off-Balance Sheet Arrangements

We have entered into certain contingent obligations for guarantees. See Item 8. "Financial Statements and Supplementary Data - Note 17, Commitments and Contingencies, of Notes to Consolidated Financial Statements" for additional information. We do not believe that these obligations will have a material current or future effect on our consolidated financial condition, results of operations, or cash flows.

Enterprise Risk Management

The role of our Enterprise Risk Management ("ERM") function is to ensure that all significant risks are clearly identified, understood, proactively managed and consistently monitored to achieve strategic objectives for all stakeholders. Our ERM program views risk holistically across all our companies and facilitates implementation of risk responses to mitigate potential impacts. See Part I, Item 1A. "Risk Factors" contained in this report for a list of risk factors.

Our ERM program is founded on a governance framework that includes oversight at multiple levels of our organization, including our Board of Directors and executive management. Accountability to identify, manage, and mitigate risk is

embedded within all functions and areas of our business. We establish risk tolerance ranges to monitor and manage significant risks. In addition to identifying, evaluating, prioritizing, monitoring, and mitigating significant risks, our ERM process includes extreme event analyses and scenario testing. Given our defined tolerance for risk, risk model output is used to quantify the potential variability of future performance and the sufficiency of capital and liquidity levels.

TRANSACTIONS/AGREEMENTS WITH RELATED PARTIES

Board Oversight

Our Board of Directors has a broad oversight responsibility over our intercompany relationships with the Exchange. Thus, our Board of Directors may be required to make decisions or take actions that may benefit subscribers at the Exchange and the overall health of the Exchange. These actions may ultimately benefit our shareholders.

Insurance Holding Company System

Most states have enacted legislation that regulates insurance holding company systems, defined as two or more affiliated persons, one or more of which is an insurer. The Exchange has the following wholly owned property and casualty insurance subsidiaries: Erie Insurance Company, Erie Insurance Company of New York, Erie Insurance Property & Casualty Company, and Flagship City Insurance Company, and a wholly owned life insurance company, Erie Family Life Insurance Company. Indemnity and the Exchange, and its wholly owned subsidiaries, meet the definition of an insurance holding company system.

Transactions within a holding company system affecting the member insurers of the holding company system must be fair and reasonable and any charges or fees for services performed must be reasonable. Approval by the applicable insurance commissioner is required prior to the consummation of certain transactions affecting the members within a holding company system.

Intercompany Agreements

Subscriber's and services agreements

We serve as attorney-in-fact for the subscribers at the Exchange, a reciprocal insurance exchange. Each applicant for insurance to a reciprocal insurance exchange (a subscriber) signs a subscriber's agreement that contains an appointment of an attorney-in-fact. Through the designation of attorney-in-fact, we are required to provide policy issuance and renewal services and act as the attorney-in-fact for the subscribers at the Exchange with respect to all administrative services, as discussed previously. In accordance with the subscriber's agreement, we retain a management fee for these services calculated as a percentage of the direct and affiliated assumed premiums written by the Exchange. Consistent with its legal structure as a reciprocal insurer, the Exchange does not have any employees or officers. Therefore, it enters into contractual relationships by and through the subscribers' attorney-in-fact. The Exchange's insurance subsidiaries also utilize Indemnity for all administrative services in accordance with the service agreements between each of the subsidiaries and Indemnity. The subscriber's agreement and service agreements provide for reimbursement of amounts incurred for these services to Indemnity. Reimbursements are settled at cost on a monthly basis. State insurance regulations require that intercompany service agreements and any material amendments be approved in advance by the state insurance department.

Shared facilities

The Exchange and its insurance subsidiaries have a service agreement with Indemnity to use space in Indemnity-owned properties. See Item 8. "Financial Statements and Supplementary Data - Note 15, Related Party, of Notes to Consolidated Financial Statements" for additional details.

Cost Allocation

The allocation of costs affects our consolidated financial condition and that of the Exchange and its wholly owned insurance subsidiaries. Management's role is to determine that allocations are consistently made in accordance with the subscriber's agreement with the subscribers at the Exchange, intercompany service agreements, and applicable insurance laws and regulations. Allocation of costs under these various agreements requires judgment and interpretation by Indemnity, and such allocations are performed using a consistent methodology, which is intended to adhere to the terms and intentions of the underlying agreements.

Intercompany Receivables

We have significant receivables from the Exchange and its affiliates that result in a concentration of credit risk. These receivables include management fees due for policy issuance and renewal services performed by us under the subscriber's agreement, and certain costs we incur acting as the attorney-in-fact on behalf of the subscribers at the Exchange as well as the service provider for the Exchange's insurance subsidiaries with respect to all administrative services, as discussed previously.

See Item 8. "Financial Statements and Supplementary Data - Note 16, Concentrations of Credit Risk, of Notes to Consolidated Financial Statements" for additional details.

Other Loans Receivable

In 2023, we issued two senior secured loans totaling \$13.6 million to fund a real estate development project supporting revitalization efforts in our community. Ownership in the project includes related party and unrelated investors. See Item 8. "Financial Statements and Supplementary Data - Note 15, Related Party, of Notes to Consolidated Financial Statements" for additional details.

Erie Insurance Foundation

In 2025, we made a \$100 million charitable contribution to the Erie Insurance Foundation (the "Foundation"). Certain of Indemnity's directors and employees serve as directors and officers of the Foundation. See Item 8. "Financial Statements and Supplementary Data - Note 15, Related Party, of Notes to Consolidated Financial Statements" for additional details.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market Risk

Market risk is the risk of loss arising from adverse changes in interest rates, credit spreads, equity prices, or foreign exchange rates, as well as other relevant market rate or price changes. The volatility and liquidity in the markets in which the underlying assets are traded directly influence market risk. The following is a discussion of our primary risk exposures, including interest rate risk, investment credit risk, concentration risk, liquidity risk, and equity price risk, and how those exposures are currently managed as of December 31, 2025.

Interest Rate Risk

We invest primarily in fixed maturity investments, which comprised 85% of our invested assets at December 31, 2025. The value of the fixed maturity portfolio is subject to interest rate risk. As market interest rates decrease, the value of the portfolio increases with the opposite holding true in rising interest rate environments. We do not hedge our exposure to interest rate risk. A common measure of the interest sensitivity of fixed maturity assets is effective duration, a calculation that utilizes maturity, coupon rate, yield, and call terms to calculate an expected change in fair value given a change in interest rates. The longer the duration, the more sensitive the asset is to market interest rate fluctuations. Duration is analyzed at least quarterly to ensure that it remains in the targeted range.

A sensitivity analysis is used to measure the potential loss in future earnings, fair values, or cash flows of interest-sensitive instruments resulting from one or more selected hypothetical changes in interest rates and other market rates or prices over a selected period. The following pro forma information is presented assuming a 100-basis point parallel increase in interest rates across the yield curve at December 31 of each year and reflects the estimated effect on the fair value of our fixed maturity portfolio.

(dollars in thousands)

	2025	2024
Fair value of fixed maturity portfolio	\$ 1,369,691	\$ 1,048,549
Fair value assuming 100-basis point rise in interest rates	\$ 1,327,076	\$ 1,018,957
Effective duration (as a percentage)	3.1	2.9

While the fixed maturity portfolio is sensitive to interest rates, the future principal cash flows that will be received by contractual maturity date are presented below at December 31, 2025. Actual cash flows may differ from those stated as a result of calls, prepayments, or defaults.

(in thousands)

Year ending December 31,	Future Principal Cash Flows
2026	\$ 37,516
2027	92,251
2028	140,182
2029	159,425
2030	160,742
Thereafter	786,143

Investment Credit Risk

Our objective is to earn competitive returns by investing in a diversified portfolio of securities. Our portfolios of fixed maturity securities, equity securities and, to a lesser extent, short-term investments are subject to credit risk. This risk is defined as the potential loss in fair value resulting from adverse changes in the borrower's ability to repay the debt. We manage this risk by performing upfront underwriting analysis and ongoing reviews of credit quality by position and for the portfolio in total. We do not hedge the credit risk inherent in our fixed maturity and equity securities investments.

Generally, the fixed maturities in our portfolio are rated by external rating agencies. If not externally rated, we rate them internally on a basis consistent with that used by the rating agencies. We classify the vast majority of our fixed maturities as available-for-sale securities, allowing us to meet our liquidity needs and provide greater flexibility to appropriately respond to changes in market conditions.

The following tables show our fixed maturity investments by rating ⁽¹⁾:

(dollars in thousands)

At December 31, 2025

	Amortized cost	Fair value	Percent of total

Total	\$ 1,070,789	\$ 1,048,549	100 %

(1) Ratings are supplied by S&P, Moody's, and Fitch with the exception of held-to-maturity securities, which are unrated. The table is based upon the lowest rating for each security.

We are also exposed to a concentration of credit risk with the Exchange. See the "Transactions/Agreements with Related Parties, Intercompany Receivables" section of Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained within this report for further discussion of this risk.

Concentration Risk

While our portfolio is well diversified within each market sector, there is an inherent risk of concentration in a particular industry or sector. We continually monitor our level of exposure to individual issuers as well as our allocation to each industry and market sector against internally established policies. See the "Financial Condition" section of Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained within this report for details of investment holdings by sector.

Liquidity Risk

Periods of volatility in the financial markets can create conditions where fixed maturity investments, despite being publicly traded, can become illiquid. However, we actively manage the maturity profile of our fixed maturity portfolio such that scheduled repayments of principal occur on a regular basis.

Equity Price Risk

Our portfolio of equity securities, which primarily includes nonredeemable preferred stock, is carried on the Consolidated Statements of Financial Position at estimated fair value. Equity securities are exposed to the risk of potential loss in estimated fair value resulting from an adverse change in prices ("price risk"). We do not hedge our exposure to price risk inherent in our equity investments.

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of Erie Indemnity Company

Opinion on the Financial Statements

We have audited the accompanying consolidated statements of financial position of Erie Indemnity Company (the Company) as of December 31, 2025 and 2024, the related consolidated statements of operations, comprehensive income, shareholders' equity and cash flows for each of the three years in the period ended December 31, 2025, and the related notes (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2025 and 2024, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2025, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2025, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework), and our report dated February 23, 2026 expressed an unqualified opinion thereon.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current period audit of the financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective or complex judgments. The communication of the critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Cost of Operations - administrative services

Description of the Matter

For the year ended December 31, 2025, the Company's cost of operations – administrative services totaled \$836.6 million. As explained in Note 2 of the consolidated financial statements, the Company serves as the attorney-in-fact on behalf of the subscribers at the Erie Insurance Exchange (Exchange) with respect to its administrative services as enumerated in the subscriber's agreement. The Exchange's insurance subsidiaries also utilize the Company for these services in accordance with the service agreements between the subsidiaries and the Company. Certain administrative services costs, which include costs associated with claims handling services, life insurance management services, and investment management services incurred by the Company on behalf of the Exchange and its insurance subsidiaries, are reimbursed to the Company at cost and recorded as administrative services reimbursement revenue based on relevant utilization statistics.

Auditing management's cost of operations – administrative services was complex due to the multiple costs that are allocated for reimbursement, the extensiveness of the allocation process, and the degree of auditor judgement needed to design the nature and extent of audit procedures required to address the matter.

How We Addressed the Matter in Our Audit

We obtained an understanding, evaluated the design and tested the operating effectiveness of controls over the Company's cost of operations – administrative services process. This included, among others, testing controls over the determination of the utilization statistics and ultimate allocation of costs to the Exchange and its insurance subsidiaries.

To test the Company's cost of operations – administrative services, our procedures included, among others, evaluating that the costs included in the allocations are in accordance with the subscriber's agreement and the service agreements with the Exchange and its insurance subsidiaries. We tested the completeness of the costs subjected to allocation by agreeing the costs recorded in the general ledger to the cost allocation calculation. We performed a test of details over a sample of cost allocations for accuracy.

/s/ Ernst & Young LLP

We have served as the Company's auditor since 2003.

ERIE INDEMNITY COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Nature of Operations

Erie Indemnity Company ("Indemnity", "we", "us", "our") is a publicly held Pennsylvania business corporation that has since its incorporation in 1925 served as the attorney-in-fact for the subscribers (policyholders) at the Erie Insurance Exchange ("Exchange"). The Exchange, which also commenced business in 1925, is a Pennsylvania-domiciled reciprocal insurer that writes property and casualty insurance.

Our primary function as attorney-in-fact is to perform policy issuance and renewal services on behalf of the subscribers at the Exchange. We also act as attorney-in-fact on behalf of the subscribers at the Exchange with respect to all claims handling and investment management services, as well as the service provider for all claims handling, life insurance, and investment management services for the Exchange's insurance subsidiaries, collectively referred to as "administrative services". Acting as attorney-in-fact in these two capacities is done in accordance with a subscriber's agreement (a limited power of attorney) executed individually by each subscriber (policyholder), which appoints Indemnity as each subscriber's attorney-in-fact to transact certain business on their behalf. In accordance with the subscriber's agreement for acting as attorney-in-fact in these two capacities, we retain a management fee calculated as a percentage of the direct and affiliated assumed premiums written by the Exchange.

The policy issuance and renewal services we provide on behalf of the subscribers at the Exchange are related to the sales, underwriting, and issuance of policies. The sales related services we provide include agent compensation and certain sales and advertising support services. Agent compensation includes scheduled commissions to agents based upon premiums written as well as incentive compensation, which is earned by achieving targeted measures. Agent compensation comprised approximately 71% of our 2025 policy issuance and renewal expenses. The underwriting services we provide include underwriting and policy processing and comprised approximately 8% of our 2025 policy issuance and renewal expenses. The remaining services we provide include customer service and administrative support. We also provide information technology services that support all the functions listed above that comprised approximately 10% of our 2025 policy issuance and renewal expenses. Included in these expenses are allocations of costs for departments that support these policy issuance and renewal functions.

Consistent with its legal structure as a reciprocal insurer, the Exchange does not have any employees or officers. Therefore, it enters into contractual relationships by and through the subscribers' attorney-in-fact. Indemnity serves as the attorney-in-fact on behalf of the subscribers at the Exchange with respect to its administrative services as enumerated in the subscriber's agreement. The Exchange's insurance subsidiaries also utilize Indemnity for these services in accordance with the service agreements between each of the subsidiaries and Indemnity. Claims handling services include costs incurred in the claims process, including the adjustment, investigation, defense, recording, and payment functions. Life insurance management services include costs incurred in the management and processing of life insurance business. Investment management services are related to investment trading activity, accounting, and all other functions attributable to the investment of funds. Included in these expenses are allocations of costs for departments that support these administrative functions. The subscriber's agreement and service agreements provide for reimbursement of amounts incurred for these services to Indemnity. Reimbursements are settled at cost. State insurance regulations require that intercompany service agreements and any material amendments be approved in advance by the state insurance department.

Our results of operations are tied to the growth and financial condition of the Exchange. We continually monitor the financial strength of the Exchange. If any events occurred that impaired the Exchange's ability to grow or sustain its financial condition, including but not limited to a significant downgrade in financial strength ratings, disruption in the independent agency relationships, significant catastrophe losses, or products not meeting customer demands, the Exchange could find it more difficult to retain its existing business and attract new business. A decline in the business of the Exchange almost certainly could have as a consequence a decline in the total premiums paid and a correspondingly adverse effect on the amount of the management fee revenue we receive. We also have an exposure to a concentration of credit risk related to the unsecured receivables due from the Exchange for net management fee and other reimbursements. See Note 16, "Concentrations of Credit Risk".

Note 2. Significant Accounting Policies

Basis of presentation

The accompanying consolidated financial statements have been prepared in conformity with U.S. generally accepted accounting principles ("GAAP") and include the accounts of Indemnity and its wholly owned subsidiaries. All intercompany accounts and transactions have been eliminated.

Use of estimates

The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recently adopted accounting standards

We adopted Accounting Standards Update ("ASU") 2023-09, *"Income Taxes (Topic 740): Improvements to Income Tax Disclosures"*, effective with the annual reporting period ending December 31, 2025. We applied the guidance retrospectively to prior periods presented in the consolidated financial statements for disclosure purposes, including the disclosure of specific categories in an effective tax rate reconciliation and certain information about income taxes paid. The additional disclosures required by this guidance have been included in Note 12, "Income Taxes". The adoption of this guidance had no other impact on our consolidated financial statements.

Recently issued accounting standards

In November 2024, the Financial Accounting Standards Board ("FASB") issued ASU 2024-03, *"Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses"*, which requires entities to disclose disaggregated information about certain income statement expense line items. The amendments in this ASU are required to be adopted for fiscal years beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027. Early adoption is permitted. The amendments can be applied on either a prospective or retrospective basis. This will have no impact on our consolidated financial statements, and we are currently evaluating the impact of adoption on our disclosures.

In July 2025, the FASB issued ASU 2025-05, *"Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses for Accounts Receivable and Contract Assets"*, which provides a practical expedient when estimating expected credit losses for current accounts receivable and current contract assets arising from transactions accounted for under *"Revenue from Contracts with Customers (Topic 606)"*. Under the practical expedient, entities may assume that current conditions as of the balance sheet date do not change for the remaining life of the asset. The amendments in this ASU are required to be adopted for fiscal years beginning after December 15, 2025, and interim periods within those fiscal years. Early adoption is permitted. An entity that elects the practical expedient should apply the amendments on a prospective basis. We do not expect the standard will have a material impact on our consolidated financial statements and disclosures.

In September 2025, the FASB issued ASU 2025-06, *"Intangibles - Goodwill and Other - Internal-Use Software (Subtopic 350-40): Targeted Improvements to the Accounting for Internal-Use Software"*, which removes all references to prescriptive and sequential software development project stages and requires an entity to start capitalizing software costs when management has authorized and committed to funding the software project and it is probable that the project will be completed and the software will be used to perform the function intended. The amendments in this ASU are required to be adopted for fiscal years beginning after December 15, 2027, and interim periods within those fiscal years. Early adoption is permitted. The amendments can be applied on a prospective, modified or retrospective basis. We are currently evaluating the impact of adoption on our consolidated financial statements and disclosures.

In December 2025, the FASB issued ASU 2025-11 *"Interim Reporting (Topic 270) - Narrow-Scope Improvements"*, which clarifies current interim disclosure requirements and provides a comprehensive list of required interim disclosures. The guidance also incorporates a disclosure principle that requires entities to disclose events since the end of the last annual reporting period that have a material impact on the entity. The amendments in this ASU are required to be adopted for interim reporting periods within fiscal years beginning after December 15, 2027. Early adoption is permitted. The amendments can be applied on a prospective or retrospective basis. We do not expect the standard will have a material impact on our disclosures, and will have no other impact on our consolidated financial statements.

Cash and cash equivalents

Cash, money market accounts, and other short-term, highly liquid investments with a maturity of three months or less at the date of purchase, are considered cash and cash equivalents.

Restricted cash – Restricted cash represents deposits held for the benefit of third parties related primarily to our agent loan participation program. These restricted funds are invested in bank deposits, contractually restricted as to withdrawal or usage, and included with "Cash and cash equivalents" in our Consolidated Statements of Financial Position.

Investments

Available-for-sale securities – Fixed maturity debt securities and redeemable preferred stock are classified as available-for-sale and reported at fair value with unrealized investment gains and losses, net of income taxes, recognized in other comprehensive income. Available-for-sale securities with a remaining maturity of 12 months or less and any security that we intend to sell as of the reporting date are classified as current assets.

Available-for-sale securities in an unrealized loss position are evaluated to determine whether the impairment is a result of credit loss or other factors. If we have the intent to sell or it's more likely than not that we would be required to sell the security before recovery of the amortized cost basis, the entire impairment is recognized in earnings. Securities that have experienced a decline in fair value that we do not intend to sell, and that we will not be required to sell before recovery, are evaluated to determine if the decline in fair value is credit related. Impairment resulting from a credit loss is recognized in earnings with a corresponding allowance on the Consolidated Statement of Financial Position. Future recoveries of credit loss result in an adjustment to the allowance and earnings in the period the credit conditions improve. Factors considered in the evaluation of credit loss include the extent to which fair value is less than cost and fundamental factors specific to the issuer such as financial condition, changes in credit ratings, near and long-term business prospects, and other factors, as well as the likelihood of recovery of the amortized cost of the security. If the qualitative review indicates credit impairment, the allowance for credit loss is measured as the amount that the security's amortized cost exceeds the present value of cash flows expected to be collected and is limited to the amount that fair value is below amortized cost.

Equity securities – Equity securities primarily include non-redeemable preferred stocks that are reported at fair value with changes in the fair value recognized in net realized and unrealized investment gains (losses). Securities that we intend to sell as of the reporting date are classified as current assets.

Realized gains and losses and investment income – Realized gains and losses on sales of available-for-sale and equity securities are recognized in income based upon the specific identification method and reported in net realized and unrealized investment gains (losses). Interest income is recognized as earned and includes amortization of premium and accretion of discount. Income is recognized based on the constant effective yield method, which includes periodically updated prepayment assumptions obtained from third party data sources on our prepaying securities. The effective yield for prepaying securities is recalculated on a retrospective basis. Dividend income is recognized at the ex-dividend date. Interest and dividend income and the results of our limited partnership investments are reported as net investment income. We do not record an allowance for credit losses on accrued investment income on our available-for-sale securities as any amount deemed uncollectible is reversed from interest income in the period the expected payment defaults.

Securities lending – We have securities lending transactions, managed by a third-party banking institution, whereby securities are loaned to unaffiliated financial institutions for short periods of time. The securities lending activity is accounted for as a secured borrowing and therefore the securities loaned, including available-for-sale and equity securities, are carried as invested assets on our Consolidated Statements of Financial Position, while the obligation to return the cash collateral is recorded as a current liability. The cash collateral received at the inception of the loan is reinvested and the related income is recognized in net investment income. Noncash collateral is not recorded in the Consolidated Statements of Financial Position, as we do not have the right to sell, repledge, or otherwise reinvest the noncash collateral.

The collateral is required to equal a minimum of 102% of the estimated fair value of the securities loaned, and maintained at a level greater than or equal to 100% for the duration of the loan. We monitor the ratio of the collateral held to the estimated fair value of the securities loaned on a daily basis and obtain additional collateral as necessary. A securities lending transaction may be terminated at any time by the borrower or the lender. If terminated, we would repay our securities lending obligations from the sale of reinvested collateral or the proceeds of sales from our investment portfolio, which includes liquid securities.

Deferred taxes

Deferred tax assets and liabilities are recorded for temporary differences between the tax basis of assets and liabilities and the reported amounts in the consolidated financial statements, using the statutory tax rates in effect for the year in which the differences are expected to settle or be realized. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the results of operations in the period that includes the enactment date under the law. The need for valuation allowances on deferred tax assets are estimated based upon our assessment of the realizability of such amounts.

Fixed assets

Fixed assets are stated at cost less accumulated depreciation and amortization. Fixed assets are primarily comprised of software, which includes internal-use capitalized software and development costs, as well as buildings and building improvements, equipment, furniture and fixtures, and leasehold improvements. Assets in use are depreciated using the straight-line method over the estimated useful life except for leasehold improvements, which are depreciated over the shorter of their economic useful life or the remaining lease term. Software is depreciated over periods ranging from 3-7 years, buildings and building improvements are depreciated over 20-45 years, equipment is depreciated over 3-7 years, and furniture and fixtures are depreciated over 7 years. We review long-lived assets for impairment whenever events or changes indicate that the carrying value may not be recoverable. Under these circumstances, if the fair value were less than the carrying amount of the asset, we would recognize a loss for the difference.

Agent loans

Agent loans, the majority of which are senior secured, are carried at unpaid principal balance net of a current expected credit loss allowance with interest recorded in investment income as earned. The allowance is estimated using available loss history and/or external loss rates based on comparable loan losses and considers current market conditions and forecasted information. Changes to the allowance are recognized in earnings as adjustments to net impairment recoveries (losses). Any current portion of agent loans is recorded in prepaid expenses and other current assets.

Other assets

Other assets primarily include limited partnership investments, other loans receivable, held-to-maturity securities, operating lease assets, and other long-term prepaid assets. Limited partnership investments are recorded using the equity method of accounting. Other loans receivable and held-to-maturity securities include investments to fund real estate development projects supporting revitalization efforts in our community. The loans are carried at unpaid principal balance, including any paid-in-kind interest capitalized as additional principal, if applicable, net of a current expected credit loss allowance. Any current portion of other loans receivable is recorded in prepaid expenses and other current assets. Held-to-maturity securities are carried at amortized cost, net of a current expected credit loss allowance. The allowances are calculated using the estimated value of, and priority rights to, collateral in the event of default or external loss rates based on comparable losses, and considers current market conditions and forecasted information. Changes to the allowances are recognized in earnings as adjustments to net impairment recoveries (losses) or other income (expense) depending on the nature of the asset. Interest on other loans receivable and held-to-maturity securities is recorded primarily in investment income as earned.

Agent incentive compensation liability

Our more significant agent incentive compensation plan is based upon an individual agency's property and casualty underwriting profitability and also includes a component for growth in agency property and casualty premiums if the agency's underwriting profitability targets for the book of business are met. The estimated liability for this agent incentive compensation plan is based upon the performance over 36 months, and is modeled on a monthly basis using actual underwriting results for the two prior years and current year-to-date actual results and forecasted results for the remainder of the year. Our second agent incentive compensation plan is based on an agency's one-year underwriting profitability and uses a similar model but considers actual and forecasted results for a calendar year only. At December 31 of each year, we use actual data available and record an accrual based upon the expected payment amount. These costs are included in cost of operations - policy issuance and renewal services.

Recognition of management fee revenue

We retain management fees from the Exchange under the subscriber's agreement for services provided. In accordance with the subscriber's agreement, we may retain up to 25% of all direct and affiliated assumed premiums written by the Exchange. The management fee rate is set at least annually by our Board of Directors. The management fee revenue is calculated by multiplying the management fee rate by the direct and affiliated assumed premiums written by the Exchange and is allocated between the two performance obligations we have under the subscriber's agreement. The first performance obligation is to provide policy issuance and renewal services. The second performance obligation is acting as the attorney-in-fact with respect to various administrative services as enumerated in the subscriber's agreement.

Management fee revenue allocated to the policy issuance and renewal services is recognized at the time of policy issuance or renewal, because it is at the time of policy issuance or renewal when the economic benefit of the service we provide (the substantially completed policy issuance or renewal service) and the control of the promised asset (the executed insurance policy) transfers to the customer.

Management fee revenue allocated to the second performance obligation relates to us acting as the attorney-in-fact on behalf of the subscribers at the Exchange, as well as the service provider for the Exchange's insurance subsidiaries, with respect to the

administrative services and is recognized over a four-year period representing the time over which the economic benefit of the services provided (i.e. management of the administrative services) transfers to the customer.

Administrative services

Consistent with its legal structure as a reciprocal insurer, the Exchange does not have any employees or officers. Therefore, it enters into contractual relationships by and through the subscribers' attorney-in-fact. Indemnity serves as the attorney-in-fact on behalf of the subscribers at the Exchange with respect to its administrative services as enumerated in the subscriber's agreement. The Exchange's insurance subsidiaries also utilize Indemnity for these services in accordance with the service agreements between each of the subsidiaries and Indemnity. Claims handling services include costs incurred in the claims process, including the adjustment, investigation, defense, recording and payment functions. Life insurance management services include costs incurred in the management and processing of life insurance business. Investment management services are related to investment trading activity, accounting and all other functions attributable to the investment of funds. Common overhead expenses and certain service department costs incurred by us on behalf of the subscribers at the Exchange and its insurance subsidiaries are reimbursed by the proper entity based upon relevant utilization statistics specifically measured to accomplish proportional allocations, which we believe are reasonable. In 2025, approximately 71% of the administrative services expenses were entirely attributable to the respective administrative functions (claims handling, life insurance management, and investment management), while the remaining 29% of these expenses were allocations of costs for departments that support these administrative functions. The expenses we incur and related reimbursements we receive for administrative services are presented gross in our Consolidated Statements of Operations. The subscriber's agreement and service agreements provide for reimbursement of amounts incurred for these services to Indemnity. Reimbursements are settled at cost on a monthly basis. State insurance regulations require that intercompany service agreements and any material amendments be approved in advance by the state insurance department.

Recognition of service agreement revenue

Service agreement revenue primarily consists of service charges we collect from subscribers (policyholders) for providing multiple payment plans on policies written by the Exchange and its property and casualty subsidiaries. Service charges, which are fixed dollar charges for each installment billed beyond the first installment, are recognized as revenue when bills are rendered to the policyholder. Service agreement revenue also includes late payment and policy reinstatement fees, which are also recognized as revenue when bills are rendered to the policyholder. We also have a service agreement with the Exchange for the use of shared office space. Revenue related to this agreement is recognized at the time the space is used based on relevant utilization statistics.

Note 3. Revenue

The majority of our revenue is derived from the subscriber's agreement between us and the subscribers (policyholders) at the Exchange. In accordance with the subscriber's agreement, we retain a management fee calculated as a percentage, not to exceed 25%, of all direct and affiliated assumed written premiums of the Exchange. We allocate a portion of our management fee revenue, currently 25% of the direct and affiliated assumed written premiums of the Exchange, between the two performance obligations we have under the subscriber's agreement. The first performance obligation is to provide policy issuance and renewal services to the subscribers (policyholders) at the Exchange, and the second is to act as attorney-in-fact on behalf of the subscribers at the Exchange, as well as the service provider for the Exchange's insurance subsidiaries, with respect to all administrative services.

The transaction price, including management fee revenue and administrative services reimbursement revenue, includes variable consideration and is allocated based on the estimated standalone selling prices developed using industry information and other available information for similar services. A constraining estimate of variable consideration exists related to the potential for management fees to be returned if a policy were to be cancelled mid-term. Management fees are returned to the Exchange when policyholders cancel their insurance coverage mid-term and premiums are refunded to them. The constraining estimate is determined using the expected value method, based on both historical and current information. The estimated transaction price, as reduced by the constraint, reflects consideration expected for performance of our services. We update the transaction price and the related allocation at least annually based upon the most recent information available or more frequently if there have been significant changes in any components considered in the transaction price.

The first performance obligation is to provide policy issuance and renewal services that result in executed insurance policies between the Exchange or one of its insurance subsidiaries and the subscriber (policyholder). The subscriber (policyholder) receives economic benefits when substantially all the policy issuance or renewal services are complete and an insurance policy is issued or renewed by the Exchange or one of its insurance subsidiaries. It is at the time of policy issuance or renewal that the allocated portion of revenue is recognized.

Consistent with its legal structure as a reciprocal insurer, the Exchange does not have any employees or officers. Therefore, it enters into contractual relationships by and through the subscribers' attorney-in-fact. Indemnity serves as the attorney-in-fact on behalf of the subscribers at the Exchange with respect to its administrative services as enumerated in the subscriber's agreement. The Exchange's insurance subsidiaries also utilize Indemnity for these services in accordance with the service agreements between each of the subsidiaries and Indemnity. Collectively, these services represent a second performance obligation under the subscriber's agreement and the service agreements. The revenue allocated to this performance obligation is recognized over a four-year period representing the time over which these services are provided. The portion of revenue not yet earned is recorded as a contract liability in the Consolidated Statements of Financial Position. For the years ended December 31, 2025, 2024, and 2023, we recognized revenue of \$42.8 million, \$41.2 million, and \$36.5 million, respectively, that was included in the contract liability balance at the beginning of the respective periods. The administrative services expenses we incur and the related reimbursements we receive are recorded gross in the Consolidated Statements of Operations.

Indemnity records a receivable from the Exchange for management fee revenue when the premium is written or assumed from affiliates by the Exchange. Indemnity collects the management fee from the Exchange when the Exchange collects the premiums from the subscribers (policyholders). As the Exchange issues policies almost exclusively with annual terms, cash collections generally occur within one year.

The following table disaggregates revenue by our two performance obligations for the years ended December 31:

<i>(in thousands)</i>	2025	2024	2023
Management fee revenue - policy issuance and renewal services	\$ 3,131,806	\$ 2,894,074	\$ 2,442,073
Management fee revenue - administrative services	74,058	68,355	63,669
Administrative services reimbursement revenue	836,639	806,336	737,139
Total revenue from administrative services	\$ 910,697	\$ 874,691	\$ 800,808

Note 4. Segment Information

We have one reportable segment: management operations. All segment revenue is derived in the United States, the majority of which is from the subscriber's agreement between us and the subscribers (policyholders) at the Exchange, our sole customer, as further described in Note 3, "Revenue". Our chief operating decision maker ("CODM") is our Executive Council, which includes our Chief Executive Officer ("CEO"), Chief Financial Officer, executive vice presidents and certain senior vice presidents reporting directly to the CEO as applicable. The CODM assesses performance for the management operations segment and decides how to allocate resources based on net income, as reported in our Consolidated Statements of Operations. Net income is used to monitor budget versus actual results. Total assets as reported in our Consolidated Statements of Financial Position, all of which are located in the United States, are reviewed by the CODM for purposes of decision making. The accounting policies of our management operations segment are the same as those described in Note 2, "Significant Accounting Policies".

The following table presents our management operations segment revenue, significant segment expenses regularly provided to the CODM, and net income for the years ended December 31:

<i>(in thousands)</i>	2025	2024	2023
Management fee revenue	\$ 3,205,864	\$ 2,962,429	\$ 2,505,742
Administrative services reimbursement revenue	836,639	806,336	737,139
Service agreement revenue	24,755	26,350	26,059
Total operating revenue	<u>4,067,258</u>	<u>3,795,115</u>	<u>3,268,940</u>
Commissions	1,777,043	1,601,401	1,348,530

Administrative and other	179,345	186,425	171,970
Cost of operations - policy issuance and renewal services	<u>2,513,435</u>	<u>2,312,324</u>	<u>2,011,545</u>
Cost of operations - administrative services	<u>836,639</u>	<u>806,336</u>	<u>737,139</u>
Total operating expenses ⁽¹⁾	<u>3,350,074</u>	<u>3,118,660</u>	<u>2,748,684</u>
Operating income	717,184	676,455	520,256
Total investment income	84,861	69,260	28,968
Other income	8,558	11,564	12,712
Contribution to charitable foundation	(100,000)	—	—
Income tax expense	151,268	156,965	115,875
Net income	<u>\$ 559,335</u>	<u>\$ 600,314</u>	<u>\$ 446,061</u>

(1) See Note 8, "Fixed Assets", for management operations segment depreciation and amortization expense included primarily in "Total operating expenses", as reported on our Consolidated Statements of Operations. See our Consolidated Statements of Cash Flows for segment expenditures on fixed asset additions.

Note 5. Earnings Per Share

Class A and Class B basic earnings per share and Class B diluted earnings per share are calculated under the two-class method. The two-class method allocates earnings to each class of stock based upon its dividend rights. Class B shares are convertible into Class A shares at a conversion ratio of 2,400 to 1. See Note 13, "Capital Stock".

Class A diluted earnings per share are calculated under the if-converted method, which reflects the conversion of Class B shares to Class A shares. Diluted earnings per share calculations include the dilutive effect of assumed issuance of stock-based awards under compensation plans that have the option to be paid in stock using the treasury stock method. See Note 11, "Incentive and Deferred Compensation Plans".

A reconciliation of the numerators and denominators used in the basic and diluted per-share computations is presented as follows for each class of common stock:

*(dollars in thousands,
except per share data)*

	For the years ended December 31,									
	2025			2024			2023			
	Allocated net income (numerator)	Weighted shares (denominator)	Per- share amount	Allocated net income (numerator)	Weighted shares (denominator)	Per- share amount	Allocated net income (numerator)	Weighted shares (denominator)	Per- share amount

Note 6. Fair Value

Financial instruments carried at fair value

Our available-for-sale and equity securities are recorded at fair value, which is the price that would be received to sell the asset in an orderly transaction between willing market participants as of the measurement date.

Valuation techniques used to derive the fair value of our available-for-sale and equity securities are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources. Unobservable inputs reflect our own assumptions regarding fair market value for these securities. Financial instruments are categorized based upon the following characteristics or inputs to the valuation techniques:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity can access at the measurement date.
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 – Unobservable inputs for the asset or liability.

Estimates of fair values for our investment portfolio are obtained primarily from a nationally recognized pricing service. Our Level 1 securities are valued using an exchange traded price provided by the pricing service. Pricing service valuations for Level 2 securities include multiple verifiable, observable inputs including benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, and reference data. Pricing service valuations for Level 3 securities are based upon proprietary models and are used when observable inputs are not available or in illiquid markets.

Although virtually all of our prices are obtained from third party sources, we also perform internal pricing reviews, including evaluating the methodology and inputs used to ensure that we determine the proper classification level of the financial instrument and reviewing securities with price changes that vary significantly from current market conditions or independent price sources. Price variances are investigated and corroborated by market data and transaction volumes. We have reviewed the pricing methodologies of our pricing service as well as other observable inputs and believe that the prices adequately consider market activity in determining fair value.

In limited circumstances we adjust the price received from the pricing service when, in our judgment, a better reflection of fair value is available based upon corroborating information and our knowledge and monitoring of market conditions such as a disparity in price of comparable securities and/or non-binding broker quotes. In other circumstances, certain securities are internally priced because prices are not provided by the pricing service.

When a price from the pricing service is not available, values are determined by obtaining broker/dealer quotes and/or market comparables. When available, we obtain multiple quotes for the same security. The ultimate value for these securities is determined based upon our best estimate of fair value using corroborating market information. As of December 31, 2025, nearly all of our available-for-sale and equity securities were priced using a third party pricing service.

The following tables present our fair value measurements on a recurring basis by asset class and level of input as of:

(in thousands)	December 31, 2025			
	Total	Level 1	Level 2	Level 3
Available-for-sale securities:

Total Level 3 securities	\$ 24,368	\$ (983)	\$ 766	\$ 12,553	\$ (3,516)	\$ 39,272	\$ (35,129)	\$ 37,331

- (1) These amounts are reported as net investment income and net realized and unrealized investment gains (losses) for each of the periods presented above.
- (2) Transfers into and/or (out) of Level 3 are primarily attributable to the availability of market observable information and the re-evaluation of the observability of pricing inputs.

Financial instruments not carried at fair value

The following table presents the carrying values and fair values of financial instruments categorized as Level 3 in the fair value hierarchy that are recorded at carrying value as of:

<i>(in thousands)</i>	December 31, 2025		December 31, 2024	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Agent loans, net ⁽¹⁾	\$ 109,331	\$ 113,850	\$ 92,731	\$ 90,713
Other loans receivable, net ⁽²⁾	15,491	12,509	11,555	11,555
Held-to-maturity securities, net ⁽³⁾	4,833	4,863	4,833	4,934

- (1) The current portion of agent loans is included in the line item "Prepaid expenses and other current assets, net" in the Consolidated Statements of Financial Position.
- (2) The current and long-term portions of other loans receivable are included in the line items "Prepaid expenses and other current assets, net" and "Other assets, net", respectively, in the Consolidated Statements of Financial Position.
- (3) Held-to-maturity securities are included in the line item "Other assets, net" in the Consolidated Statements of Financial Position.

Note 7. Investments

Fixed maturity securities

See Note 6, "Fair Value" for additional fair value disclosures. The following tables summarize the amortized cost and estimated fair value, net of credit loss allowance, of our fixed maturity securities as of:

(1) This includes an estimated fair value of \$7.3 million of securities lent under a securities lending agreement.

The amortized cost and estimated fair value of our fixed maturity securities at December 31, 2025 are shown below by remaining contractual term to maturity. Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

(in thousands)	December 31, 2025	
	Amortized cost	Estimated fair value
Available-for-sale securities:		
Due in one year or less	\$ 37,273	\$ 37,302
Due after one year through five years	552,240	558,399
Due after five years through ten years	249,274	251,231
Due after ten years	524,441	517,896
Total available-for-sale securities, net ⁽¹⁾⁽²⁾	1,363,228	1,364,828
Held-to-maturity securities - due after ten years	4,833	4,863
Total fixed maturity securities, net	\$ 1,368,061	\$ 1,369,691

(1) The contractual maturities of our available-for-sale securities are included in the table. However, given our intent to sell certain impaired securities, these securities are classified as current assets in our Consolidated Statement of Financial Position at December 31, 2025.

(2) This includes an estimated fair value of \$44.4 million of securities lent under a securities lending agreement.

The below securities have been evaluated for credit impairment using criteria described within Note 2, "Significant Accounting Policies". The gross unrealized losses are primarily attributable to changes in interest rates and are not deemed to be credit-related. We do not have the intent to sell these securities and it is more likely than not that we would not be required to sell these securities before the anticipated recovery of the amortized cost basis.

The following tables present available-for-sale securities based on length of time in a gross unrealized loss position as of:

Credit loss allowances

The following tables present a roll-forward of the allowances for credit losses on investments for the years ended December 31:

	2025				
	Available-for-sale securities	Held-to-maturity securities	Other loans receivable	Agent loans	
<i>(in thousands)</i>					
Balance, beginning of period	\$ 513	\$ 2,167	\$ 12,198	\$ 1,312	
Provision and recoveries	1,389	0	2,928	368	
Sales/collections and write-offs	(1,000)	0	(25)	0	
Balance, end of period	<u>\$ 902</u>	<u>\$ 2,167</u>	<u>\$ 15,101</u>	<u>\$ 1,680</u>	

	2024				
	Available-for-sale securities	Held-to-maturity securities	Other loans receivable	Agent loans	
<i>(in thousands)</i>					
Balance, beginning of period	\$ 597	\$ 0	\$ 11,081	\$ 957	
Provision and recoveries	484	2,167	1,117	355	
Sales/collections and write-offs	(568)	0	0	0	
Balance, end of period	<u>\$ 513</u>	<u>\$ 2,167</u>	<u>\$ 12,198</u>	<u>\$ 1,312</u>	

Net investment income

Investment income (loss), net of expenses, was generated from the following portfolios for the years ended December 31:

<i>(in thousands)</i>	2025	2024	2023
Available-for-sale securities	\$ 57,093	\$ 49,605	\$ 42,563
Equity securities	4,637	4,758	4,493
Limited partnerships ⁽¹⁾	3,549	1,971	(11,308)
Agent loans ⁽²⁾	6,417	4,368	3,236
Cash equivalents and other ⁽²⁾	16,551	11,093	5,943
Total investment income	88,247	71,795	44,927
Less: investment expenses	2,410	1,640	355
Net investment income	<u>\$ 85,837</u>	<u>\$ 70,155</u>	<u>\$ 44,572</u>

(1) Limited partnership income (losses) include both realized gains (losses) and unrealized valuation changes. Our limited partnership investments are included in the line item "Other assets, net" in the Consolidated Statements of Financial Position. We have made no new significant limited partnership commitments since 2006, and the balance of limited partnership investments is expected to decline over time as additional distributions are received.

(2) 2024 and 2023 amounts have been reclassified to conform to the current period presentation.

Net realized and unrealized investment gains (losses)

Realized and unrealized gains (losses) on investments were as follows for the years ended December 31:

<i>(in thousands)</i>	2025	2024	2023
Available-for-sale securities:			
Gross realized gains	\$ 2,891	\$ 3,415	\$ 804
Gross realized losses	(2,838)	(5,035)	(7,523)
Net realized gains (losses) on available-for-sale securities	53	(1,620)	(6,719)
Equity securities	2,278	4,848	871
Miscellaneous	5	1	10
Net realized and unrealized investment gains (losses)	<u>\$ 2,336</u>	<u>\$ 3,229</u>	<u>\$ (5,838)</u>

The portion of net unrealized gains (losses) recognized during the reporting period related to equity securities held at the reporting date is calculated as follows for the years ended December 31:

<i>(in thousands)</i>	2025	2024	2023
Equity securities:			
Net gains recognized during the period	\$ 2,278	\$ 4,848	\$ 871
Less: net gains (losses) recognized on securities sold	341	1,213	(2,328)
Net unrealized gains recognized on securities held at reporting date	<u>\$ 1,937</u>	<u>\$ 3,635</u>	<u>\$ 3,199</u>

Net impairment losses recognized in earnings

Impairments on investments were as follows for the years ended December 31:

<i>(in thousands)</i>	2025	2024	2023
Available-for-sale securities:			
Intent to sell	\$ (495)	\$ (299)	\$ (1,759)
Credit impaired	(1,389)	(484)	(670)
Total available-for-sale securities	(1,884)	(783)	(2,429)
Expected credit losses:			
Held-to-maturity securities	0	(2,167)	—
Agent loans	(368)	(355)	0
Other loans receivable	(1,060)	(819)	(7,337)
Net impairment losses recognized in earnings	<u>\$ (3,312)</u>	<u>\$ (4,124)</u>	<u>\$ (9,766)</u>

Securities lending transactions

As of December 31, 2025, the estimated fair value of loaned securities was \$64.5 million, consisting of \$44.4 million of available-for sale securities and \$20.1 million of equity securities. As of December 31, 2024, the estimated fair value of loaned securities was \$7.3 million, consisting of available-for-sale securities. Cash collateral received in connection with these securities lending transactions totaled \$61.9 million and \$7.5 million as of December 31, 2025 and 2024, respectively. The cash collateral was reinvested in cash equivalents and is included in "Cash and cash equivalents" in the Consolidated Statements of Financial Position. As of December 31, 2025, we also received \$4.5 million of non-cash collateral, which we are not permitted to sell or repledge. There were no securities lending transactions outstanding with contractual maturities extending beyond one year from the reporting date.

If we have to return cash collateral on short notice, we may have difficulty selling investments in a timely manner, be forced to sell them for less than we otherwise would have been able to realize, or both. In addition, in the event of such forced sale, for securities in an unrealized loss position, realized losses would be incurred on securities sold and impairments would be incurred, if there is a need to sell securities prior to recovery, which may negatively impact our financial condition.

Note 8. Fixed Assets

The following table summarizes our fixed assets by category as of December 31:

<i>(in thousands)</i>	2025	2024
Software	\$ 412,789	\$ 351,814
Land, buildings, and building improvements	235,915	233,647
Equipment	57,968	52,122
Furniture and fixtures	22,944	22,944
Leasehold improvements	1,654	1,378
Construction in progress	78,148	46,302
Projects in progress	77,955	81,616
Total fixed assets, gross	887,373	789,823
Less: Accumulated depreciation and amortization	(315,897)	(276,329)
Fixed assets, net	\$ 571,476	\$ 513,494

Software increased primarily due to internal-use software projects that were completed and placed in service as well as the renewal of mainframe software licenses.

Construction in progress includes ongoing renovations to office buildings that are part of our principal headquarters and not yet subject to depreciation. The renovations are expected to be completed in phases with full completion expected in 2027.

Projects in progress include certain computer software and software development costs for internal use that are not yet subject to amortization.

Depreciation and amortization expense totaled \$69.5 million, \$56.5 million and \$47.4 million for the years ended December 31, 2025, 2024 and 2023, respectively, and is primarily included in total operating expenses. The Exchange and its insurance subsidiaries reimbursed us for approximately 31%, 28% and 27% in 2025, 2024 and 2023, respectively, for annual depreciation and amortization expense on assets supporting administrative services.

Note 9. Bank Line of Credit

We have access to a \$100 million bank revolving line of credit with a \$25 million letter of credit sublimit that expires on November 1, 2029. As of December 31, 2025, a total of \$99.2 million remains available under the facility due to \$0.8 million outstanding letters of credit, which reduce the availability for letters of credit to \$24.2 million. We had no borrowings outstanding on our line of credit as of December 31, 2025. Investments with a fair value of \$111.4 million were pledged as collateral on the line of credit at December 31, 2025. These investments have no trading restrictions and are reported as available-for-sale securities and cash and cash equivalents on our Consolidated Statement of Financial Position as of December 31, 2025. The bank requires compliance with certain covenants, which include leverage ratios and debt restrictions. We are in compliance with all covenants at December 31, 2025.

Note 10. Postretirement Benefits

Pension plans

Our pension plans consist of a noncontributory defined benefit pension plan covering substantially all employees and an unfunded supplemental employee retirement plan ("SERP") for certain members of executive and senior management. The pension plan provides benefits to covered individuals satisfying certain age and service requirements. The defined benefit pension plan and SERP each provide benefits through a final average earnings formula.

Although we are the sponsor of these postretirement plans and record the funded status of these plans, there are reimbursements between us and the Exchange and its insurance subsidiaries for their allocated share of pension cost or income. These reimbursements represent pension benefits for employees performing administrative services and an allocated share of plan cost (income) for employees in departments that support the administrative functions. In 2025, the Exchange and its insurance subsidiaries reimbursed us for approximately 61% of the annual defined benefit pension cost and 33% of the annual SERP cost. For our funded pension plan, amounts are settled in cash for the portion of pension cost (income) allocated to the Exchange and its insurance subsidiaries. For our unfunded SERP, we pay the obligations when due and amounts are settled in cash between entities when there is a payout.

Pension plan cost (income)

Pension plan cost (income) includes the following components for the years ended December 31:

(in thousands)

	2025	2024	2023
Service cost for benefits earned	\$ 35,471	\$ 34,554	\$ 28,763
Interest cost on benefit obligation	58,748	52,688	50,193
Expected return on plan assets	(80,276)	(80,793)	(68,869)
Prior service cost amortization	1,688	1,611	1,446
Net actuarial gain amortization	(2,519)	(6,859)	(15,331)
Settlement gain ⁽¹⁾	(572)	(1,338)	—
Pension plan cost (income) ⁽²⁾	<u>\$ 12,540</u>	<u>\$ (137)</u>	<u>\$ (3,798)</u>

(1) Settlement accounting was required due to lump sum payments made under the SERP to former officers in 2025 and 2024.

(2) Pension plan cost (income) represents total plan cost (income) before reimbursements between Indemnity and the Exchange and its insurance subsidiaries. The components of pension plan cost (income) other than the service cost components are included in the line item "Other income" in the Consolidated Statements of Operations, net of reimbursements between Indemnity and the Exchange and its insurance subsidiaries.

Actuarial assumptions

The following table describes the weighted-average assumptions used to measure benefit obligations at December 31:

	2025	2024
Employee pension plan:		
Discount rate	5.72 %	5.87 %
Expected return on assets	7.00	7.00
Rate of compensation increase – age-graded	5.07	5.01
SERP:		
Discount rate	5.44 %	5.65 %
Rate of compensation increase	7.00	7.00

The following table describes the weighted-average assumptions used to measure net periodic benefit costs for the years ended December 31:

	2025	2024	2023
Employee pension plan:			
Discount rate	5.87 %	5.34 %	5.67 %
Expected return on assets	7.00	7.00	6.50
Rate of compensation increase – age-graded	5.05	4.31	3.30
SERP:			
Discount rate ⁽¹⁾	5.29 %	5.12 %	5.46 %
Rate of compensation increase	7.00	5.00	5.00

(1) Settlement accounting was required due to lump sum payments made under the SERP in 2025 and 2024. The 2025 discount rates in effect at the January 1, September 1, and November 1 measurement dates were 5.65%, 5.51%, and 5.29%, respectively. The 2024 discount rates in effect at the January 1, June 1, and September 1 measurement dates were 5.11%, 5.53%, and 5.12%, respectively.

The economic assumptions that have the most impact on the postretirement benefits expense are the discount rate and the long-term rate of return on plan assets. The discount rate assumption used to determine the benefit obligation for all periods presented was based upon a yield curve developed from corporate bond yield information.

The pension plan's expected long-term rate of return represents the average rate of return to be earned on plan assets over the period the benefits included in the benefit obligation are to be paid. To determine the expected long-term rate of return assumption, we utilized models based upon historical analysis and forward-looking views of the financial markets based upon key factors such as historical returns for the asset class' applicable indices, the correlations of the asset classes under various market conditions, and consensus views on future real economic growth and inflation. The expected future return for each asset class is then combined by considering correlations between asset classes and the volatilities of each asset class to produce a reasonable range of asset return results within which our expected long-term rate of return assumption falls.

Funding policy/funded status

Our defined benefit pension plan funding policy is generally to contribute an amount equal to the greater of the target normal cost for the plan year, or the amount necessary to fund the plan to 100%. Accordingly, we made contributions of \$39 million and \$33 million in 2025 and 2024, respectively. We also made a contribution of \$47 million in January 2026. The pension asset is presented separately from the unfunded SERP plan as a non-current asset on the Consolidated Statements of Financial Position. The following table sets forth the funded status of the pension plans and the amounts recognized in the Consolidated Statements of Financial Position at December 31:

(in thousands)

	2025	2024
Funded status at end of year	\$ (11,484)	\$ (11,718)
Pension asset	\$ 24,137	\$ 21,311
Pension liabilities – due within one year ⁽¹⁾	(2,211)	(4,959)
Pension liabilities – due after one year	(33,410)	(28,070)
Net amount recognized	<u>\$ (11,484)</u>	<u>\$ (11,718)</u>

(1) The current portion of pension liabilities for the unfunded plan is included in accounts payable and accrued liabilities.

Benefit obligations

Benefit obligations are described in the following tables. Accumulated and projected benefit obligations represent the obligations of a pension plan for past service as of the measurement date. The accumulated benefit obligation is the present value of pension benefits earned as of the measurement date based on employee service and compensation prior to that date. It differs from the projected benefit obligation in that the accumulated benefit obligation includes no assumptions to reflect expected future compensation. The following table sets forth a reconciliation of beginning and ending balances of the projected benefit obligation, as well as the accumulated benefit obligation at December 31:

(in thousands)

	2025	2024
Projected benefit obligation, beginning of year	\$ 1,013,767	\$ 993,554
Service cost for benefits earned	35,471	34,554
Interest cost on benefit obligation	58,748	52,688
Plan amendments	1,935	1,146
Actuarial loss (gain)	36,300	(28,250)
Benefits paid	(39,887)	(35,924)
Settlements	(3,252)	(4,001)
Projected benefit obligation, end of year	<u>\$ 1,103,082</u>	<u>\$ 1,013,767</u>
Accumulated benefit obligation, end of year	<u>\$ 935,049</u>	<u>\$ 860,855</u>

Projected benefit obligations increased \$89.3 million at December 31, 2025 compared to December 31, 2024 primarily due to the lower discount rate used to measure the future benefit obligations. The discount rate for the employee pension plan decreased to 5.72% in 2025 from 5.87% in 2024.

The SERP had a projected benefit obligation in excess of plan assets at December 31:

(in thousands)

	2025	2024
Projected benefit obligation	\$ 35,621	\$ 33,029
Plan assets	—	—

The SERP had an accumulated benefit obligation in excess of plan assets at December 31:

(in thousands)

	2025	2024
Accumulated benefit obligation	\$ 23,523	\$ 22,761
Plan assets	—	—

Plan assets

The following table sets forth a reconciliation of beginning and ending balances of the fair value of plan assets at December 31:

(in thousands)

	2025	2024
Fair value of plan assets, beginning of year	\$ 1,002,049	\$ 996,879
Actual return on plan assets	90,357	8,034
Employer contributions	42,331	37,061
Benefits paid	(39,887)	(35,924)
Settlements	(3,252)	(4,001)
Fair value of plan assets, end of year	<u>\$ 1,091,598</u>	<u>\$ 1,002,049</u>

Accumulated other comprehensive loss

Net actuarial loss and prior service cost included in accumulated other comprehensive loss that were not yet recognized as components of net benefit costs were as follows at December 31:

(in thousands)

	2025	2024
Net actuarial loss	\$ 56,062	\$ 26,752
Prior service cost	11,297	11,050
Net amount not yet recognized	<u>\$ 67,359</u>	<u>\$ 37,802</u>

Other comprehensive loss

Amounts recognized in other comprehensive loss for pension plans were as follows for the years ended December 31:

(in thousands)

	2025	2024	2023
Net actuarial loss arising during the year	\$ 26,219	\$ 44,509	\$ 28,279
Amortization of net actuarial gain	2,519	6,859	15,331
Amortization of prior service cost	(1,688)	(1,611)	(1,446)
Plan amendments ⁽¹⁾	1,935	1,146	583
Settlement gain	572	1,338	—
Total recognized in other comprehensive loss	<u>\$ 29,557</u>	<u>\$ 52,241</u>	<u>\$ 42,747</u>

(1) Plan amendments relate to new SERP participants.

Asset allocation

The employee pension plan utilizes a return seeking and a liability asset matching allocation strategy. It is based upon the understanding that 1) equity investments are expected to outperform debt investments over the long-term, 2) the potential volatility of short-term returns from equities is acceptable in exchange for the larger expected long-term returns, and 3) a portfolio structured across investment styles and markets (both domestic and foreign) reduces volatility. As a result, the employee pension plan's investment portfolio utilizes a broadly diversified asset allocation across domestic and foreign equity and debt markets. The investment portfolio is composed of commingled pools, an exchange traded fund, and a separate account that are dedicated exclusively to the management of employee benefit plan assets.

The target and actual asset allocations for the portfolio are as follows for the years ended December 31:

	Target asset allocation	Target asset allocation	Actual asset allocation	Actual asset allocation
	2025	2024	2025	2024
Asset allocation:				
Equity securities:				
U.S. equity securities	21 %	21 %	22 % ⁽¹⁾	21 %
Non-U.S. equity securities	14	14	15 ⁽²⁾	14
Total equity securities	<u>35</u>	<u>35</u>	<u>37</u>	<u>35</u>
Debt securities	64	64	62 ⁽³⁾	63
Other	1	1	1 ⁽⁴⁾	2
Total	<u>100 %</u>	<u>100 %</u>	<u>100 %</u>	<u>100 %</u>

(1) U.S. equity securities – 100% seek to achieve excess returns relative to the Russell 3000 Index.

(2) Non-U.S. equity securities – 11% are allocated to international small cap investments, while another 21% are allocated to international emerging market investments. The remaining 68% of the Non-U.S. equity securities are allocated to investments seeking to achieve excess returns relative to an international market index.

(3) Debt securities – 59% are allocated to long U.S. Treasury Strips, 41% are allocated to U.S. corporate bonds with an emphasis on long duration bonds rated A or better.

(4) Institutional money market fund.

The following tables present fair value measurements for the pension plan assets by major category and level of input as of:

December 31, 2025					
<i>(in thousands)</i>	Total	Level 1 Fair Value	Level 2 Fair Value	Level 3 Fair Value	Net Asset Value (NAV)
Equity securities:					
U.S. equity securities	\$ 235,431	\$ 224,370	\$ 0	\$ 0	\$ 11,061
Non-U.S. equity securities	160,644	108,651	0	0	51,993
Total equity securities	396,075	333,021	0	0	63,054
Debt securities	679,966	0	0	0	679,966
Other	15,557	15,557	0	0	0
Total	\$ 1,091,598	\$ 348,578	\$ 0	\$ 0	\$ 743,020

December 31, 2024					
<i>(in thousands)</i>	Total	Level 1 Fair Value	Level 2 Fair Value	Level 3 Fair Value	Net Asset Value (NAV)
Equity securities:					
U.S. equity securities	\$ 214,942	\$ 204,588	\$ 0	\$ 0	\$ 10,354
Non-U.S. equity securities	142,401	98,115	0	0	44,286
Total equity securities	357,343	302,703	0	0	54,640
Debt securities	628,961	0	0	0	628,961
Other	15,745	15,745	0	0	0
Total	\$ 1,002,049	\$ 318,448	\$ 0	\$ 0	\$ 683,601

Estimates of fair values of the pension plan assets are obtained primarily from the trustee and custodian of our pension plan. Our Level 1 category includes a money market mutual fund, an exchange traded fund, and a separate account for which the fair value is determined using an exchange traded price provided by the trustee and custodian. Commingled pools are valued based on NAV per share or unit as a practical expedient as reported by the fund manager, multiplied by the number of shares or units held as of the measurement date. Accordingly, these NAV-based investments have been excluded from the fair value hierarchy. These investments have minimal redemption notice periods and are redeemable daily at the NAV, less transaction fees, without significant restrictions. There are no significant unfunded commitments related to these investments.

Estimated future benefit payments

The following table sets forth amounts of benefits expected to be paid over the next 10 years from our pension plans as of:

<i>(in thousands)</i>	Year ending December 31,	Expected future benefit payments
	2026	\$ 44,346
	2027	47,555
	2028	51,396
	2029	54,999
	2030	59,093
	2031 - 2035	346,104

Employee savings plan

All full-time and regular part-time employees are eligible to participate in a qualified 401(k) savings plan. We match 100% of the participant contributions up to 3% of compensation and 50% of participant contributions over 3% and up to 5% of compensation. Matching contributions paid to the plan were \$21.3 million in 2025, \$21.0 million in 2024, and \$18.4 million in 2023. The Exchange and its insurance subsidiaries reimbursed us for approximately 61% of the matching contributions. Employees are permitted to invest the employer-matching contributions in our Class A common stock. Employees, other than executive and senior officers, may sell the shares at any time without restriction, provided they are in compliance with applicable insider trading laws; sales by executive and senior officers are subject to additional pre-clearance restrictions imposed by our insider trading policies. The plan acquires shares in the open market necessary to meet the obligations of the plan. Plan participants held 0.1 million shares of our Class A common stock at December 31, 2025 and 2024.

Note 11. Incentive and Deferred Compensation Plans

We have two incentive plans and two deferred compensation plans for our executives, senior vice presidents and other selected officers, and two deferred compensation plans for our outside directors. Executives, senior vice presidents and other selected officers and key employees are also eligible to receive awards under an equity compensation plan, subject to the discretion of the Executive Compensation and Development Committee of our Board of Directors ("ECDC") or the chief executive officer.

Annual incentive plan

Our annual incentive plan ("AIP") is a bonus plan that pays cash to our executives, senior vice presidents and other selected officers annually. Participants can elect to defer up to 100% of the award under either the deferred compensation plan or the incentive compensation deferral plan. If the funding qualifier is met, plan participants are eligible to receive the award based upon attainment of corporate and individual performance measures, which can include various financial measures. The measures are established at the beginning of each year by the ECDC, with ultimate approval by the full Board of Directors. The corporate performance measures included the reported growth in direct written premium and policies in force, and statutory combined ratio of the Exchange and its property and casualty subsidiaries for all periods presented.

Long-term incentive plan

Our long-term incentive plan ("LTIP") is an incentive plan designed to reward executives, senior vice presidents and other selected officers who can have a significant impact on our long-term performance, and to further align the interests of such employees with those of our shareholders. Participants can elect to defer up to 100% of the award under the incentive compensation deferral plan.

The LTIP permits grants of performance-vesting and time-vesting awards. Performance-vesting awards can take the form of performance shares or units, or phantom performance shares, based on the level of achievement of performance goals as defined by us. Time-vesting awards can take the form of restricted shares or units, or phantom shares, including payment of dividends or dividend equivalent credits on the time-vesting awards, based on continued employment for a specified restricted period. Performance measures and a peer group of property and casualty companies to be used for comparison are determined by the ECDC for performance-vesting awards. The performance measures for all periods presented were the reported growth in direct written premium, statutory combined ratio, and return on invested assets of the Exchange and its property and casualty subsidiaries over a three-year performance period as compared to the results of the peer group over the same period. Because the performance component of the award is based upon a comparison to results of a peer group over a three-year period, the award accrual is based upon estimates of probable results for the remaining performance period. This estimate is subject to variability if our results or the results of the peer group are substantially different than the results we project. The type of award and form of payment, either in shares of our Class A common stock or cash, are determined by the ECDC at the beginning of each performance period, which is generally a three-year period. For the 2023-2025 performance period, the LTIP plan provides grants of performance-vesting awards. For the 2024-2026 and 2025-2027 performance periods, the LTIP plans provide grants of both a 75% performance-vesting award and a 25% time-vesting award. The plan awards for all three performance periods will be paid in cash.

The number of shares of our common stock authorized for grant under the LTIP is 1.5 million shares. We do not issue new shares of common stock to settle stock awards. We purchase our Class A common stock on the open market to settle stock awards under the plan. LTIP awards are considered vested at the end of each applicable performance period. The fair value of LTIP awards granting shares is measured at each reporting date at the current share price of our Class A common stock, and the fair value of LTIP awards granting units is measured at each reporting date based on the number of units earned. A liability is recorded and compensation expense is recognized ratably over the performance period.

The following table presents the fully vested plan awards for the related performance periods at December 31: ⁽¹⁾

<i>(dollars in thousands)</i>	2025 ⁽²⁾	2024	2023	2022
LTIP performance period	2023-2025	2022-2024	2021-2023	2020-2022
Fully vested plan award fair value	\$ 2,631	\$ 4,902	\$ 249	\$ 3,801

(1) Distributions to participants are made in June of the year following the close of the performance period.

(2) The 2025 award is estimated based upon the peer group information as of September 30, 2025. Distributions will be made in 2026 once peer group financial information becomes available.

The following table presents the total compensation cost charged to operations related to the LTIP awards, net of forfeitures, and the related tax benefits recognized in income, for the years ended December 31:

<i>(in thousands)</i>	2025	2024	2023
Total compensation cost	\$ 663	\$ 1,542	\$ 7,332
Tax benefit	\$ 139	\$ 324	\$ 1,540

The Exchange and its insurance subsidiaries reimburse us for compensation costs of employees performing administrative services. Earned compensation costs are allocated to these entities and reimbursed to us in cash once the payout is made. The Exchange and its insurance subsidiaries reimbursed us for approximately 36%, 39%, and 35% of the awards paid under these plans in 2025, 2024, and 2023, respectively. At December 31, 2025, there was \$7.9 million of total unrecognized compensation cost for non-vested LTIP awards related to open performance periods, which is expected to be recognized over a period of two years.

Deferred compensation plan

Our deferred compensation plan allows executives, senior vice presidents and other selected officers to elect to defer receipt of a portion of their compensation and AIP cash awards until a later date. Employer 401(k) matching contributions that are in excess of the annual contribution or compensation limits are also credited to the participant accounts for those who elected to defer receipt of some portion of their base salary. Participants select hypothetical investment funds for their deferrals, which are credited with the hypothetical returns generated.

Incentive compensation deferral plan

We have an unfunded, non-qualified incentive compensation deferral plan for participants of the AIP and LTIP. Deferred awards will be credited to a deferred stock account as credits denominated in shares of our Class A common stock until retirement or other separation from service. Participants are 100% vested at date of deferral. We do not issue new shares of common stock to participants. We purchase shares of our Class A common stock in the open market to satisfy these awards. The shares are then held in a rabbi trust, which was established to hold the shares earned under both the incentive compensation deferral plan and the deferred stock compensation plan for outside directors. Tax withholdings on rabbi trust distributions are paid from funds outside the trust. As a result, shares withheld from distributions to satisfy those withholdings reduce the number of shares that must be purchased in the future to fund the rabbi trust for both plans. The rabbi trust is classified and accounted for as equity in a manner consistent with the accounting for treasury stock. Dividends received on the shares in the rabbi trust are used to purchase additional shares. Vested share credits will be paid to participants from the rabbi trust upon separation from service in approximate equal annual installments of Class A shares for a period of three years.

The following table presents amounts related to shares purchased by the rabbi trust to satisfy the liability of awards deferred under the plan, and dividend equivalent credits on rabbi trust shares, for the years ended December 31:

<i>(dollars in thousands, except per share data)</i>	2025	2024	2023
LTIP performance period	2022-2024	2021-2023	2020-2022
AIP performance period	2024	2023	2022
Shares purchased	0	0	1,608
Average price paid per share	\$ 0.00	\$ 0.00	\$ 230.71
Cost of shares purchased	\$ 0	\$ 0	\$ 371

Deferred compensation plans for outside directors

We have a deferred compensation plan for our outside directors that allows participants to defer receipt of a portion of their annual compensation until a later date. Participants select hypothetical investment funds for their deferrals, which are credited with the hypothetical returns generated.

We also have a deferred stock compensation plan for our outside directors to further align the interests of directors with those of our shareholders that provides for payment of a portion of the directors' annual compensation in shares of our Class A common stock. Each director vests in the grant 25% every three months over the course of a year. Dividends paid by us are credited to each director's account and vest immediately. We do not issue new shares of common stock to directors. We purchase shares of our Class A common stock in the open market to satisfy these awards, which are then held in the rabbi trust. The plan includes a maximum of 250,000 shares that may be issued under the plan and no shares may be credited later than ten years from the date our shareholders last approved the plan. The shares are distributed to the outside director from the rabbi trust upon ending board service.

The following table presents amounts related to shares purchased by the rabbi trust to satisfy the liability of the plan and dividend equivalent credits on rabbi trust shares, and the total compensation cost charged to operations, for the years ended December 31:

(dollars in thousands, except per share data)

	2025	2024	2023
Shares purchased	77	4,044	5,894
Average price paid per share	\$ 283.14	\$ 405.60	\$ 238.73
Cost of shares purchased	\$ 22	\$ 1,640	\$ 1,407
Total compensation cost	\$ 547	\$ 1,052	\$ 893

The following table sets forth a reconciliation of beginning and ending balances of our deferred executive compensation liability as of December 31:

(in thousands)

	2025	2024	2023
Deferred executive compensation, beginning of the year	\$ 34,595	\$ 31,918	\$ 25,760
Annual incentive plan awards	5,571	8,574	7,401
Long-term incentive plan awards	698	1,786	7,332
Employer match and hypothetical earnings on deferred compensation	2,962	4,680	2,828
Total plan awards and earnings	9,231	15,040	17,561
Total plan awards paid	(12,899)	(8,105)	(10,211)
Compensation deferred	2,414	1,701	1,809
Distributions from the deferred compensation plans	(1,434)	(2,372)	(313)
Forfeitures ⁽¹⁾	(35)	(244)	—
Funding of rabbi trust for deferred stock compensation plan for outside directors	(22)	(1,640)	(1,407)
Funding of rabbi trust for incentive compensation deferral plan ⁽²⁾	(400)	(1,703)	(1,281)
Deferred executive compensation, end of the year	\$ 31,450	\$ 34,595	\$ 31,918

(1) Forfeitures are the result of plan participants who separated from service and are recognized in the year they occur.

(2) In 2025, 2024, and 2023, funding includes \$0.4 million, \$1.7 million and \$0.9 million, respectively, representing shares held back to satisfy tax withholding on rabbi trust distributions that reduce funding requirements for performance award deferrals.

Equity compensation plan

Our equity compensation plan ("ECP") is designed to reward executives, senior vice presidents and other selected officers and key employees who can have a significant impact on our long-term performance, and to further align the interests of such employees with those of our shareholders. The ECP permits grants of restricted shares, restricted share units and other share based awards, to be satisfied with shares of our Class A common stock or cash. The ECDC determines the form of the award to be granted at the beginning of each performance period. The ECP allows for the grant of up to 250,000 shares of our Class A common stock, and no individual may receive more than 10,000 shares in any calendar year. We do not issue new shares of common stock to satisfy plan awards. Share awards are settled through the purchase of our Class A common stock on the open market. Restricted share awards may be entitled to receive dividends payable during the performance period, or, if subject to performance goals, to receive dividend equivalents payable upon vesting. Dividend equivalents may provide for the crediting of interest or hypothetical investment experience, payable after expiration of the performance period. Vesting conditions are determined at the time the award is granted and may include continuation of employment for a specific period, satisfaction of performance goals within a defined performance period, and the satisfaction of any other terms and conditions as determined to be appropriate.

The following table presents amounts related to shares purchased to satisfy ECP plan liabilities and the total compensation cost charged to operations, for the years ended December 31:

<i>(dollars in thousands, except per share data)</i>	2025	2024 ⁽¹⁾	2023
Shares purchased	5,215	0	1,610
Average price paid per share	\$ 418.26	\$ 0.00	\$ 252.32
Cost of shares purchased	\$ 2,181	\$ 0	\$ 406
Total compensation cost ⁽²⁾	\$ 2,830	\$ 6,895	\$ 4,022

(1) No shares were required to be purchased in the open market. The plan liability was satisfied in cash totaling \$3.2 million.

(2) The fluctuations in all years are due to changes in number of participants and/or our stock price.

The Exchange and its insurance subsidiaries reimburse us for earned compensation costs of employees performing administrative services, which can fluctuate each year based on the plan participants. The Exchange and its insurance subsidiaries reimbursed us for approximately 32%, 35%, and 35% of the awards paid in 2025, 2024, and 2023 respectively. Unrecognized compensation cost at December 31, 2025 of \$0.5 million is expected to be recognized in 2026.

Note 12. Income Taxes

The provision for income taxes consists of the following for the years ended December 31:

(in thousands)

	2025	2024	2023
Federal			
Current income tax expense	\$ 131,645	\$ 152,926	\$ 116,874
Deferred income tax expense (benefit)	19,547	4,026	(1,002)
State			
Current income tax expense	76	13	3
Deferred income tax expense	—	—	—
Income tax expense	<u>\$ 151,268</u>	<u>\$ 156,965</u>	<u>\$ 115,875</u>

A reconciliation of the provision for income taxes, with amounts determined by applying the statutory federal income tax rate to pre-tax income, is as follows for the years ended December 31:

(dollars in thousands)

	2025		2024		2023	
	Amount	%	Amount	%	Amount	%
U.S. federal tax at statutory rate	\$ 149,227	21.0 %	\$ 159,029	21.0 %	\$ 118,007	21.0 %
State and local income taxes, net of federal income tax effect ⁽¹⁾	60	0.0	10	0.0	2	0.0
Tax credits	(1,432)	(0.2)	(2,000)	(0.3)	(1,300)	(0.2)
Nontaxable or nondeductible items	2,703	0.4	569	0.1	651	0.1
Other adjustments	710	0.1	(643)	(0.1)	(1,485)	(0.3)
Income tax provision	<u>\$ 151,268</u>	<u>21.3 %</u>	<u>\$ 156,965</u>	<u>20.7 %</u>	<u>\$ 115,875</u>	<u>20.6 %</u>

(1) State taxes in Pennsylvania made up the majority (greater than 50 percent) of the tax effect in this category.

Temporary differences and carry-forwards, which give rise to deferred tax assets and liabilities, are as follows as of December 31:

(in thousands)

	2025	2024
Deferred tax assets:		
Other employee benefits	\$ 18,213	\$ 18,409
Allowance for management fee returned on cancelled policies	7,322	4,647
Charitable contributions	5,221	—
Deferred revenue	4,457	4,181
Current expected credit loss allowance	3,647	2,966
Unrealized losses on investments	—	3,827
Other	4,958	4,617
Total deferred tax assets	<u>43,818</u>	<u>38,647</u>
Deferred tax liabilities:		
Depreciation	47,017	27,089
Pension and other postretirement benefits	13,919	12,276
Unrealized gains on investments	2,532	—
Prepaid expenses	1,506	2,013
Other	3,632	3,687
Total deferred tax liabilities	<u>68,606</u>	<u>45,065</u>
Net deferred tax liability	<u>\$ (24,788)</u>	<u>\$ (6,418)</u>

If we determine that any of our deferred tax assets will not result in future tax benefits, a valuation allowance must be established for the portion of the assets that are not expected to be realized. We had no valuation allowance recorded at December 31, 2025 or 2024.

We do not have any unrecognized tax benefit that, if recognized, would affect our effective tax rate as of December 31, 2025 and 2024. Any interest expense related to uncertain tax positions would be recognized in income tax expense.

New tax legislation, commonly referred to as the One Big Beautiful Bill Act ("OBBBA"), was signed into law on July 4, 2025. The OBBBA included changes to the timing of tax deductions related to depreciation and software development expenditures in 2025. The legislation also introduced a 1% taxable income floor for charitable deductions effective January 1, 2026. The effects of the OBBBA are reflected in our income tax provisions and effective tax rate for the year ended December 31, 2025.

Federal income taxes paid were \$106.5 million, \$163.0 million, and \$104.0 million in 2025, 2024, and 2023, respectively. Federal income tax refunds received were \$2.6 million and \$3.1 million in 2025 and 2024, respectively. State income taxes paid, net of state income tax refunds received, were \$0.1 million in 2025.

Tax years ending December 31, 2024, 2023 and 2022 remain open to IRS examination. We are not currently under IRS audit, nor have we been notified of an upcoming IRS audit.

We are the attorney-in-fact for the subscribers (policyholders) at the Exchange, a reciprocal insurance exchange. In that capacity, we provide all services and facilities necessary to conduct the Exchange's insurance business. Indemnity and the Exchange together constitute a single insurance business. Consequently, we are not subject to state corporate income or franchise taxes in states where the Exchange conducts its business and the states collect premium tax in lieu of corporate income or franchise tax, as a result of the Exchange's remittance of premium taxes in those states.

Note 13. Capital Stock

Class A and B common stock

We have two classes of common stock: Class A, which has a dividend preference, and Class B, which has voting power and a conversion right. Each share of Class A common stock outstanding at the time of the declaration of any dividend upon shares of Class B common stock shall be entitled to a dividend payable at the same time, at the same record date, and in an amount at least equal to 2/3 of 1.0% of any dividend declared on each share of Class B common stock. We may declare and pay a dividend in respect to Class A common stock without any requirement that any dividend be declared and paid in respect to Class B common stock. Sole shareholder voting power is vested in Class B common stock except insofar as any applicable law shall permit Class A common shareholders to vote as a class in regards to any changes in the rights, preferences, and privileges attaching to Class A common stock. Holders of Class B shares may, at their option, convert their shares into Class A shares at the rate of 2,400 Class A shares per Class B share. There were no shares of Class B common stock converted into Class A common stock in 2025, 2024 or 2023.

Stock repurchases

Our Board of Directors authorized a stock repurchase program effective January 1, 1999 allowing the repurchase of our outstanding Class A nonvoting common stock. In 2011, our Board of Directors approved a continuation of the current stock repurchase program for a total of \$150 million, with no time limitation. Treasury shares are recorded in the Consolidated Statements of Financial Position at total cost based upon trade date. There were no shares repurchased under this program during 2025, 2024 or 2023. We had approximately \$17.8 million of repurchase authority remaining under this program at December 31, 2025, based upon trade date.

We made stock repurchases in 2025, 2024, and 2023 outside of our publicly announced share repurchase program related to stock-based awards. See Note 11, "Incentive and Deferred Compensation Plans" for additional information.

Note 14. Accumulated Other Comprehensive Income (Loss)

Changes in accumulated other comprehensive income ("AOCI") (loss) by component, including amounts reclassified to other comprehensive income ("OCI") (loss) and the related line item in the Consolidated Statements of Operations where net income is presented, are as follows for the year ended December 31:

(in thousands)	2025			2024			2023		
	Before Tax	Income Tax	Net	Before Tax	Income Tax	Net	Before Tax	Income Tax	Net
Investment securities:									
AOCI (loss), beginning of year	\$ (22,442)	\$ (4,714)	\$ (17,728)	\$ (31,402)	\$ (6,595)	\$ (24,807)	\$ (66,571)	\$ (13,980)	\$ (52,591)

(1) These components of AOCI (loss) are included in the computation of net periodic pension cost (income). See Note 10, "Postretirement Benefits", for additional information.

Note 15. Related Party

Management fee

A management fee is retained for services we provide under the subscriber's agreement with subscribers at the Exchange. The fee is a percentage of direct and affiliated assumed premiums written by the Exchange. This percentage rate is set at least annually by our Board of Directors but cannot exceed 25%. The management fee rate charged the Exchange was 25% in 2025, 2024, and 2023. The Board of Directors elected to maintain the fee at 25% beginning January 1, 2026.

There is no provision in the subscriber's agreement for termination of our appointment as attorney-in-fact by the subscribers at the Exchange and the appointment is not affected by a policyholder's disability or incapacity.

Insurance holding company system

Most states have enacted legislation that regulates insurance holding company systems, defined as two or more affiliated persons, one or more of which is an insurer. The Exchange has the following wholly owned property and casualty insurance subsidiaries: Erie Insurance Company, Erie Insurance Company of New York, Erie Insurance Property & Casualty Company, and Flagship City Insurance Company, and a wholly owned life insurance company, Erie Family Life Insurance Company. Indemnity and the Exchange, and its wholly owned subsidiaries, meet the definition of an insurance holding company system.

Transactions within a holding company system affecting the member insurers of the holding company system must be fair and reasonable and any charges or fees for services performed must be reasonable. Approval by the applicable insurance commissioner is required prior to the consummation of certain transactions affecting the members within a holding company system.

Shared facilities

The Exchange and its insurance subsidiaries have a service agreement with Indemnity to use space in Indemnity-owned properties. The amount charged is based on rental rates of like property in Erie, Pennsylvania and the square footage occupied. Income earned from the Exchange and its insurance subsidiaries for the use of space totaled \$3.0 million, \$2.9 million, and \$2.6 million in 2025, 2024, and 2023, respectively. Operating expenses for Indemnity-owned properties under this service agreement include utilities, cleaning, repairs, real estate taxes, property insurance, and leasehold improvements. These expenses totaled \$25.2 million, \$21.9 million, and \$20.0 million in 2025, 2024, and 2023, respectively. The Exchange and its insurance subsidiaries reimbursed us for operating expenses of shared facilities used to perform administrative services, which are allocated based upon square footage occupied. Reimbursements related to the use of this space totaled \$6.9 million, \$5.9 million, and \$5.2 million in 2025, 2024, and 2023, respectively.

Other loans receivable

In 2023, we issued two senior secured loans totaling \$13.6 million to fund a real estate development project supporting revitalization efforts in our community. Ownership in the project consists of related party investors, including affiliate entities and two Indemnity directors, as well as other unrelated investors. The first loan issued for \$4.6 million accrues paid-in-kind interest at a fixed rate of 5% and matures December 15, 2027, with both principal and accrued interest due at maturity. The second loan issued for \$9.0 million accrues paid-in-kind interest at a fixed rate of 5% and matures December 15, 2033, with both principal and accrued interest due at maturity. The loans, net of current expected credit loss allowances totaling \$8.8 million and \$8.0 million as of December 31, 2025 and 2024, respectively, are reported in "Other assets, net" in our Consolidated Statements of Financial Position, with changes in credit loss allowances reported in "Net impairment losses recognized in earnings" in our Consolidated Statements of Operations.

Erie Insurance Foundation

In 2025, we made a \$100 million charitable contribution to the Erie Insurance Foundation (the "Foundation"). The Foundation is a separate entity from Indemnity. It is a tax-exempt private charitable foundation formed to create long-term sustainability for charitable contributions and grantmaking. Certain of Indemnity's directors and employees serve as directors and officers of the Foundation. The \$100 million contribution is reported as non-operating expense in the Consolidated Statements of Operations.

Note 16. Concentrations of Credit Risk

Financial instruments could potentially expose us to concentrations of credit risk, including our unsecured receivables from the Exchange. The majority of our revenue and receivables are from the Exchange and its affiliates. See also Note 1, "Nature of Operations". Net management fee amounts and other reimbursements due from the Exchange and its affiliates were \$735.6 million, or 21.9% of total assets, at December 31, 2025, and \$707.1 million, or 24.5% of total assets, at December 31, 2024. Both periods include a current expected credit loss allowance of \$0.7 million.

Note 17. Commitments and Contingencies

We have an agreement with a bank for an agent loan participation program. The maximum amount of loans to be funded through this program is \$150 million. We have committed to fund a minimum of 30% of each loan executed through this program. As of December 31, 2025, outstanding loans executed under this agreement totaled \$146.6 million, of which our portion of the loans is \$55.6 million. Additionally, we have agreed to guarantee a portion of the funding provided by the other participants in the program in the event of default. As of December 31, 2025, our maximum potential amount of future payments on the guaranteed portion is \$17.7 million. All loan payments under the participation program are current as of December 31, 2025.

We also have contingent obligations for guarantees related to certain real estate development projects supporting revitalization efforts in our community. As of December 31, 2025, our maximum potential obligation related to the guarantees is \$6.4 million.

We are involved in litigation arising in the ordinary course of conducting business. In accordance with current accounting standards for loss contingencies and based upon information currently known to us, we establish reserves for litigation when it is probable that a loss associated with a claim or proceeding has been incurred and the amount of the loss or range of loss can be reasonably estimated. When no amount within the range of loss is a better estimate than any other amount, we accrue the minimum amount of the estimable loss. To the extent that such litigation against us may have an exposure to a loss in excess of the amount we have accrued, we believe that such excess would not be material to our consolidated financial condition, results of operations, or cash flows. Legal fees are expensed as incurred. We believe that our accruals for legal proceedings are appropriate and, individually and in the aggregate, are not expected to be material to our consolidated financial condition, results of operations, or cash flows.

We review all litigation on an ongoing basis when making accrual and disclosure decisions. For certain legal proceedings, we cannot reasonably estimate losses or a range of loss, if any, particularly for proceedings that are in their early stages of development or where the plaintiffs seek indeterminate damages. Various factors, including, but not limited to, the outcome of potentially lengthy discovery and the resolution of important factual questions, may need to be determined before probability can be established or before a loss or range of loss can be reasonably estimated. If the loss contingency in question is not both probable and reasonably estimable, we do not establish an accrual and the matter will continue to be monitored for any developments that would make the loss contingency both probable and reasonably estimable. In the event that a legal proceeding results in a substantial judgment against, or settlement by, us, there can be no assurance that any resulting liability or financial commitment would not have a material adverse effect on our consolidated financial condition, results of operations, or cash flows.

Note 18. Supplementary Data on Cash Flows

A reconciliation of net income to net cash provided by operating activities as presented in the Consolidated Statements of Cash Flows is as follows for the years ended December 31:

(in thousands)

	2025	2024	2023
Cash flows from operating activities:			
Net income	\$ 559,335	\$ 600,314	\$ 446,061
Adjustments to reconcile net income to net cash provided by operating activities:			
Depreciation and amortization	69,450	56,530	47,415
Deferred income tax expense (benefit)	19,547	4,026	(1,002)
Lease amortization expense	7,333	7,377	6,177
Losses and impairments on investments	976	895	15,604
Loss on disposal and impairments of fixed assets	5,741	3,874	1,607
Net investment (income) loss	(4,385)	(874)	13,772
Receipt of donated equipment and other	(2,634)	—	—
(Decrease) increase in deferred compensation	(3,119)	2,677	6,143
Increase in receivables from affiliates	(28,529)	(81,722)	(100,401)
Increase in accrued investment income	(3,242)	(1,611)	(1,157)
Increase in pension asset	(29,380)	(34,516)	(101,250)
Decrease (increase) in prepaid expenses and other assets	22,345	(2,996)	7,729
(Decrease) increase in accounts payable and accrued expenses	(7,798)	(7,517)	7,237
Increase in commissions payable	17,011	54,600	53,681
Increase (decrease) in accrued agent incentive compensation	57,102	7,381	(27,089)
Increase in contract liability	6,904	2,811	6,678
Net cash provided by operating activities	<u>\$ 686,657</u>	<u>\$ 611,249</u>	<u>\$ 381,205</u>

Note 19. Subsequent Events

No items were identified in this period subsequent to the financial statement date that required adjustment or additional disclosure, other than the disclosure made in Note 10, "Postretirement Benefits" regarding the January 2026 pension contribution.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosures.

As required by the Securities and Exchange Commission Rule 13a-15(e), we carried out an evaluation, under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2025. Based upon the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

There has been no change in our internal controls over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect our internal controls over financial reporting. Our process for evaluating controls and procedures is continuous and encompasses constant improvement of the design and effectiveness of established controls and procedures.

Management's Report on Internal Control over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting of Erie Indemnity Company, as defined in Rules 13a-15(f) under the Exchange Act. Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of the Erie Indemnity Company's internal control over financial reporting based upon the framework in the *Internal Control-Integrated Framework* issued in 2013 by the Committee of Sponsoring Organizations of the Treadway Commission. Based upon our evaluation under the framework in the *Internal Control-Integrated Framework* issued in 2013, management has concluded that Erie Indemnity Company's internal control over financial reporting was effective as of December 31, 2025.

Our independent auditor, Ernst & Young LLP, a registered public accounting firm, has issued an attestation report on our internal control over financial reporting. This report appears on the following page.

ITEM 9B. OTHER INFORMATION

There was no additional information in the fourth quarter of 2025 that has not already been filed in a Form 8-K.

ITEM 9C. DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS

Not applicable.

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of Erie Indemnity Company

Opinion on Internal Control Over Financial Reporting

We have audited Erie Indemnity Company's internal control over financial reporting as of December 31, 2025, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). In our opinion, Erie Indemnity Company (the Company) maintained, in all material respects, effective internal control over financial reporting as of December 31, 2025, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated statements of financial position of the Company as of December 31, 2025 and 2024, the related consolidated statements of operations, comprehensive income, shareholders' equity and cash flows for each of the three years in the period ended December 31, 2025, and the related notes and our report dated February 23, 2026 expressed an unqualified opinion thereon.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.
