Forward Looking Statements Disclaimer

Important Notice

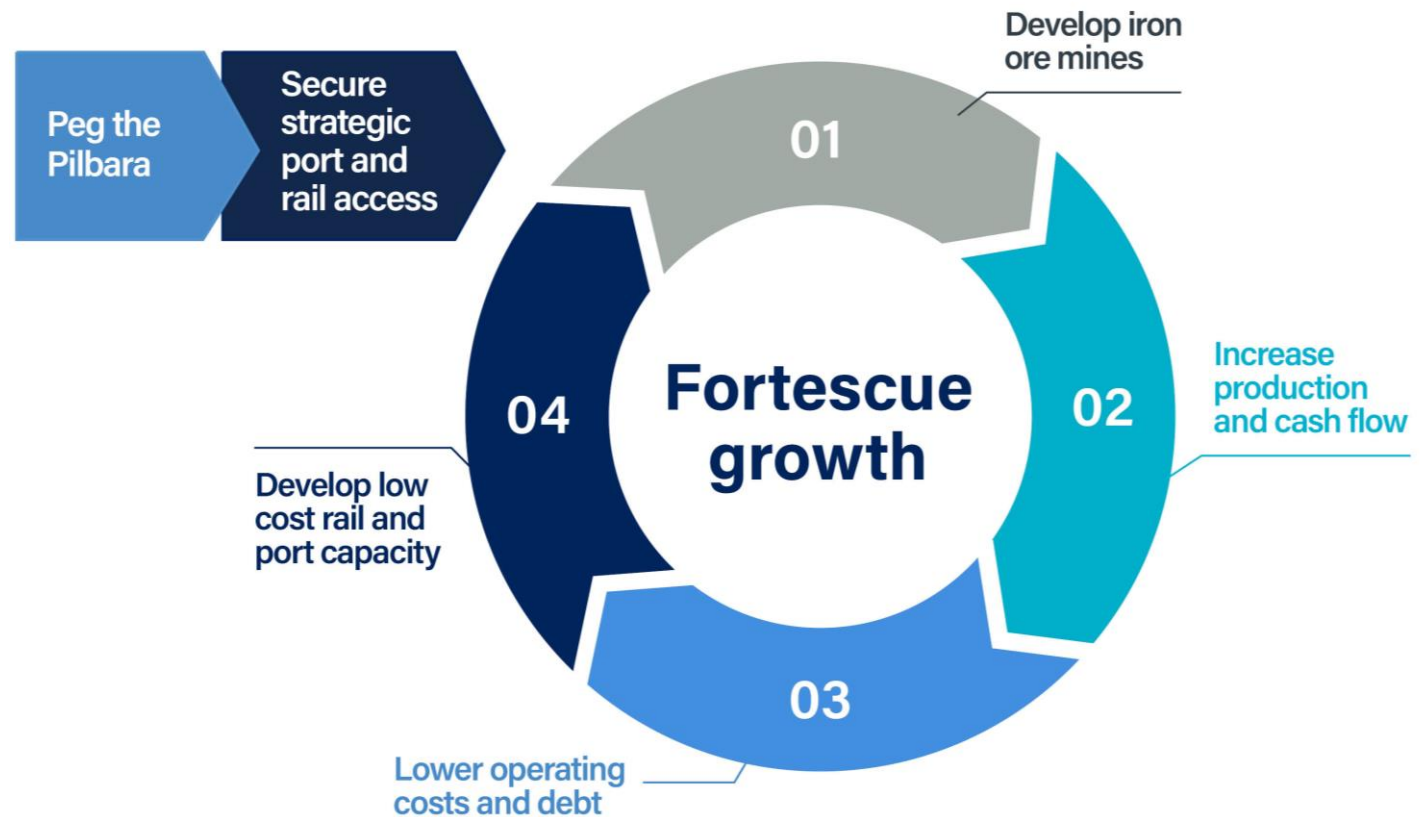

The purpose of this presentation is to provide general information about Fortescue Metals Group Ltd (“Fortescue”). It is not recommended that any person makes any investment decision in relation to Fortescue based on this presentation. This presentation contains certain statements which may constitute “forward-looking statements”. Such statements are only predictions and are subject to inherent risks and uncertainties which could cause actual values, results, performance or achievements to differ materially from those expressed, implied or projected in any forward-looking statements. No representation or warranty, express or implied, is made by Fortescue that the material contained in this presentation will be achieved or prove to be correct. Except for statutory liability which cannot be excluded, each of Fortescue, its officers, employees and advisers expressly disclaims any responsibility for the accuracy or completeness of the material contained in this presentation and excludes all liability whatsoever (including in negligence) for any loss or damage which may be suffered by any person as a consequence of any information in this presentation or any error or omission therefrom. Fortescue accepts no responsibility to update any person regarding any inaccuracy, omission or change in information in this presentation or any other information made available to a person nor any obligation to furnish the person with any further information.

Additional Information

This presentation should be read in conjunction with the Annual Report at 30 June 2020 together with any announcements made by Fortescue in accordance with its continuous disclosure obligations arising under the Corporations Act 2001 and ASX Listing Rules. Any references to reserve and resources estimations should be read in conjunction with Fortescue’s Ore Reserves and Mineral Resources statements released to the Australian Securities Exchange on 21 August 2020. Fortescue confirms in the subsequent public report that it is not aware of any new information or data that materially affects the information included in the relevant market announcement and, in the case of estimates of mineral resources or ore reserves, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. All amounts within this presentation are stated in United States Dollars consistent with the functional currency of Fortescue Metals Group Ltd, unless otherwise stated. Tables contained within this presentation may contain immaterial rounding differences.

Joining the battle against climate change

**An ambitious, industry leading
emissions reduction target**

Carbon neutrality

by 2030

Decarbonisation pathway

Energy infrastructure to increase use
of renewables

Technology and innovation

Hydrogen and battery electric solutions

Fortescue Future Industries

Harness world's renewable energy sources to
produce green hydrogen

Pathway to decarbonisation

Underpinned by practical initiatives that will deliver goals in an economically sustainable manner

Chichester solar gas hybrid project

- US\$100 million investment by Alinta Energy
- 60MW of solar generation
- 60km transmission line linking Chichester operations with Alinta Energy's Newman gas-fired power station
- 35MW battery facility
- Displaces 100 million litres of diesel

Pilbara Energy Connect

- Australia's largest remote renewable energy network
- US\$250 million Pilbara Transmission Project
- 275km of high voltage transmission lines
- US\$450 million Pilbara Generation Project
- 150MW of gas fired generation, 150MW of solar PV and large-scale battery storage

Green fleet

- A\$32m Christmas Creek green hydrogen mobility project
- Testing large battery technology in haul trucks
- Trialling hydrogen fuel cell power in drill rigs
- Trialling technology on locomotives to run on green ammonia
- Developing ship design powered by green ammonia

**FORTESCUE
FUTURE
INDUSTRIES**

Renewable energy driving new green industries

Global leader

Driving the green energy and product industry to transition away from fossil fuels

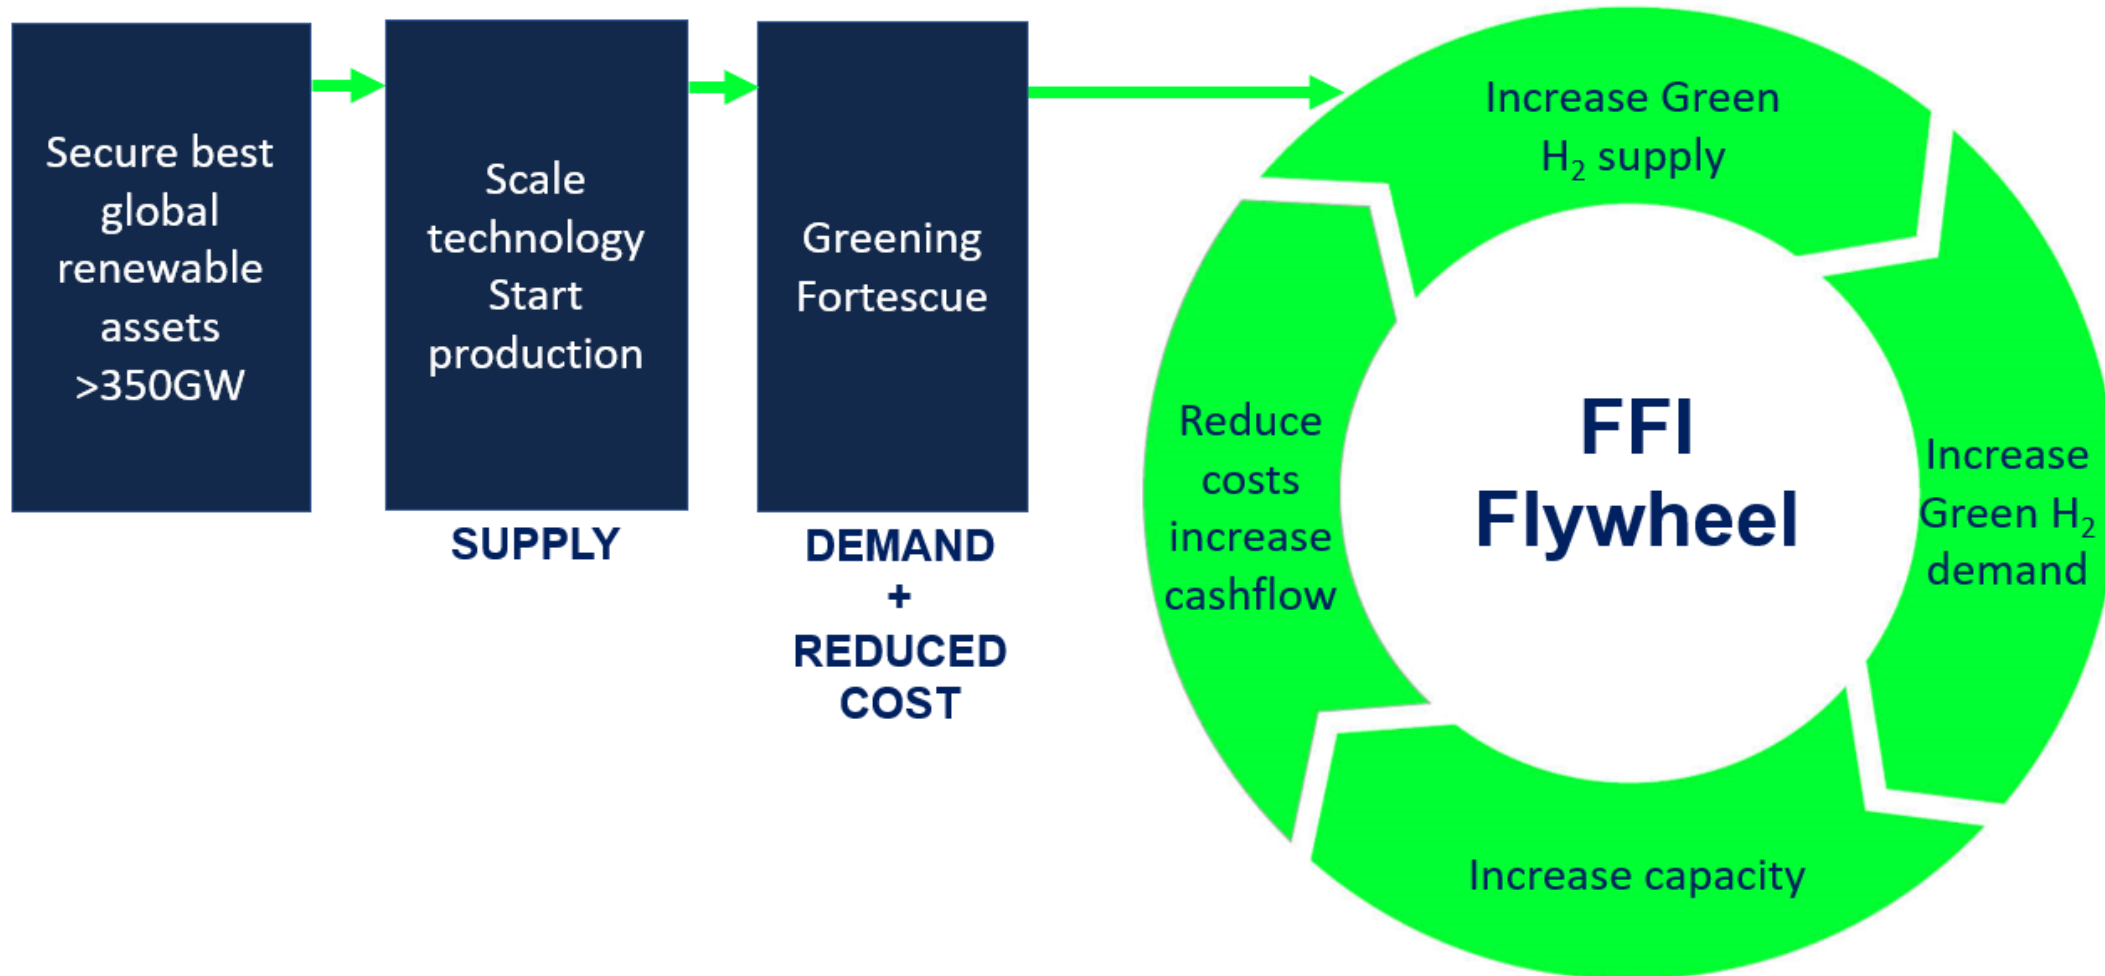

Developing

Renewable energy and green industry opportunities globally

Funding

Allocating 10% of net profit after tax to FFI, project finance sources separately secured without recourse to Fortescue

Fortescue Future Industries Flywheel

FY21 guidance

178 – 182 mt

Iron ore shipments

**US\$13.50 –
US\$14.00/wmt**

C1 cost based on assumed
exchange rate of AUD:USD 0.75

**US\$3.5 –
US\$3.7 billion**

Capital expenditure

Our strategic focus

Underpinned by operational excellence
and balance sheet strength

Sustainability

Ensuring communities benefit
from Fortescue's success

Optimising

Returns and growth from
our operations

Diversifying

Commodities that support
decarbonisation

Pursuing

Green energy opportunities
locally and internationally
