

IVECO

Electric DNA.

IVECO  eWAY

Your new IVECO S-eWAY Artic for Long Haul & Regional Missions!

**UP TO 600 km
WITH ONE SINGLE CHARGE**

**UP TO 900KM WITH LESS THAN ONE
HOUR RECHARGING**

**480 kW CONTINUOUS POWER
BY FPT INDUSTRIAL**

**603 kWh LFP BATTERY WITH 97%
USABLE ENERGY**

**INDUSTRY-LEADING BATTERY
WARRANTY UP TO 10 YEARS
AND 1.2 MILLION km**

Built for your needs.

ENERGY EFFICIENCY & PRODUCTIVITY

Up to 600 km on a single charge enabled by the efficient FPT eAxle and aerodynamic optimized cab, alongside advanced energy-saving technologies such as predictive drive, smart routing and regenerative braking.

CUTTING-EDGE TECHNOLOGY

State-of-the-Art 603 kWh LFP batteries with 97% useable energy with an outstanding warranty coverage of up to 10 years and 1.2 million km.

MISSION FLEXIBILITY

Wide mission coverage thanks to vehicle proven compatibility with most common chargers across Europe as well as industry leading cooling machines. Multiple fifth wheel positions to ensure wide truck/ semitrailer combinations.

CONNECTIVITY & SERVICES

Smart services and tailored solutions reduce total cost of ownership and keep your electric truck ready. Energy and route optimization via IVECO ON and Smart Routing, continuous operation through Uptime Services, and simplified charging with scalable IVECO eCharge Solutions ensure maximum efficiency.

Your cabin, your space.

Step inside a cabin designed around you. Every detail combines comfort, control, and style. The redesigned interior features a customizable dashboard, 10" TFT cluster, 10" infotainment, and an electric parking brake that engages automatically—simplifying operations and enhancing safety. With the AS cab, you'll enjoy a fully adjustable steering wheel, lower driving position, and optimised ergonomics, while leather or fabric seats with plush cushions keep you comfortable on every mile.

Your onboard experience redefined with the New Digital Cockpit.

Configurable cluster, full visibility

Choose between two layouts to see all your key vehicle information at a glance. Designed for electric vehicles, it includes new and intuitive features and functionalities specific to electric mobility such as battery, charging and ePTO management, and Power Flow and Regenerative Braking level visualisation – keeping you fully in control.

Smarter infotainment, seamless journeys

Smart Routing helps you plan your journey, find the nearest charging stations, and ensure sufficient battery charge for your destination – even accounting for ePTO use. Monitor your Electric vehicle's behaviour with the Statistics Page, tracking the energy used by eMotor, ePTO, Heaters and Climate systems.

Rest, recharge, sleep well

The night area is thoughtfully arranged with a symmetrical layout for maximum comfort and peace of mind. The one-piece lower bunk offers a choice of soft or firm mattress, while the Smart or Comfort upper bunk can serve as a passenger bed or luggage space. Night-time safety locks integrated into the central locking system let you rest easy.

Lighting that works with you

Full LED lighting inside and out, including marker lights, ensures perfect visibility at night. Brighter, more durable, and energy-efficient, the LEDs help you stay safe while giving the cabin a modern, premium feel.

Efficiency meets electric style.

Elongated aerodynamic cab

Stand out on the road with a cab designed for style and efficiency. All cabs feature the IVECO logo in matt gunmetal, a blue styling line on the bumper, and sun visor with the Electric logo.

Designed for safety and convenience

LED headlamps come as standard, while radar supports ADAS and GSR functions and side air deflectors keep the doors and mirrors clear –even in bad weather.

Aerodynamic efficiency

The cab's sleek, elongated design reduces air resistance, improving energy efficiency and range.

Energy onboard.

603 kWh nominal (97% usable) – Massive, reliable power

The state-of-the-art LFP battery system contains a nominal energy of 603 kWh with 97% of it useable, ensuring high range even on single charge.

Durable and long lasting

Built to perform over time, the battery maintains a minimum of 80% of its capacity during the first 6 years of operation. With a warranty of up to 10 years and 1.2 million km, it's designed to keep your business moving with confidence.

Perfect for your Long-Haul and Regional Missions.

The new S-eWay Artic is the best solution for your long-haul and regional delivery missions. Drive up to 600 km on a single charge, or reach up to 900 km with less than one hour of fast recharging – keeping your business moving with minimal downtime.

Easy, flexible charging.

Simple and safe operation

Charge at up to 350 kW via the easy-access left-hand CCS Type 2 connector. The new S-eWay Artic even puts your safety first by automatically engaging the parking brake whenever the charging plug is connected.

Customizable to your mission

Set your preferred charging parameters directly from the Cluster:

- Target State of Charge (SOC):
 - Stop charging at your desired battery level to optimize mission readiness.
- Maximum Power Limit:

Control charging power drawn from the station for efficiency and safety. Choose slow overnight charging to start each day fully powered, or use high-power charging during drivers' mandatory breaks to quickly boost range and keep deliveries on schedule.

Charging made easy

Power your electric trucks with **IVECO eCharge Packs**—comprehensive solutions for private depot charging and access to public stations.

For your depot, our solution includes **premium chargers Recommended by IVECO**, tested for compatibility, and installed by **certified partners** for full warranty coverage.

Choose your setup:

- **Fast Pack (50 kW)** – Simple depot integration
- **Super Pack (100–400 kW)** – High-power for demanding operations

On the road, the **IVECO eCharge Card**, IVECO ON portal, and Easy App connect you to a growing network of **truck-ready public chargers**.

With **IVECO Customer Uptime Center** coordination, charging is seamless, so your fleet keeps moving and your business stays on track. Availability may vary by country—check with your local dealer.

Flexible for your missions.

Charging interoperability without compromise

S-eWay Artic was successfully tested with most common chargers available across Europe.

Refrigeration made easy

Power the most common refrigeration units directly from the vehicle's high-voltage battery ensuring consistent cooling performance. Refrigeration units can remain connected even during charging without consuming energy from on board energy system.

Trailer compatibility you can trust

Couple effortlessly with the most widely used semitrailer configurations. Smoothly integrates into your existing fleet with multiple fifth wheel heights and positions.

All the Power you need.

480 kW Continuous Power eAxle by FPT Industrial.

No compromise on performance

Delivering up to 480 kW of continuous power, the eAxle ensures outstanding energy management and reliability in every mission.

Compact and versatile eAxle

The streamlined design of the eAxle leaves space for body equipment and it gives you maximum efficiency without compromise on performance. The eAxle operates with a single gear, eliminating gear shifts for an exceptionally smooth and seamless ride.

eAXLE MAIN CHARACTERISTICS

No. of eMotors	2
Gross Combined Vehicle Weight (tons)	44
Gross Axle Weight (tons)	13
Continuous Power (kW)	480
Peak Wheel Torque (Nm)	45,000

Energy saving
features to maximise
your range.

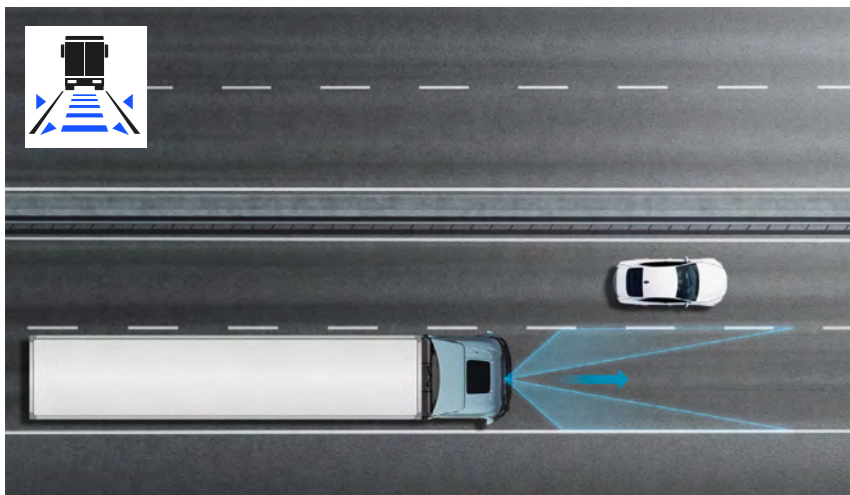

Define the vehicle configuration that gives you the optimal Total Cost of Ownership. Tailor the vehicle to your mission needs and unlock the highest efficiency. Every detail is designed to reduce energy use, extend range and drive profitability for your business.

- Smart energy management features:
- 7-position Regenerative Braking control guarantees no energy is wasted.
 - Eco mode optimises power delivery to prevent unnecessary energy use and extend range.
 - Smart route planning helps optimise routes for efficiency and uptime.
 - Features such as Mirror Cams improve aerodynamics, save energy and enhance safety.

Confidence and safety behind the wheel.

When technology takes care of your safety, you can focus on the journey. Level 2 Advanced Driver Assistance Systems (ADAS) support the driver every step of the way, enhancing comfort, reducing stress, and helping to protect both you and the other road users.

HIGHWAY ASSIST

Actively supports the driver in keeping the vehicle centred in the lane. It uses the Front Camera, Active Steering and the Capacitive Hands-off Detection. It can be automatically activated by Adaptive Cruise Control.

DRIVER MONITORING SYSTEM

Enhances road safety by detecting signs of driver distraction, drowsiness or mobile phone use. A discreet camera on the driver-side pillar continuously monitors attentiveness. If fatigue or inattention is detected, the system triggers visual and acoustic alerts, prompting the driver to rest and refocus. Designed in line with the latest GSR-C regulations, it helps prevent accidents while protecting privacy. The system does not record or store facial images, ensuring full compliance with data protection standards.

Your Co-Driver in safety.

The latest European General Safety regulations have brought to the IVECO S-eWay Artic new Advanced Driver Assistance features designed to protect both the driver and other road users.

ALC (Alcohol Interlock)

A standardised interface for the installation of compatible aftermarket or OEM alcohol interlock devices.

ESS (Emergency Stop Signal)

Warns road users behind the vehicle via hazard lights during heavy braking.

BSIS (Blind Spot Info System)

Detects road users moving at 5-20 km/h in the nearside blind spot zone and provides visual and acoustic warnings.

MOIS (Moving Off Info System)

Detects nearby road users in the front blind spot zone, providing visual and acoustic warnings.

REV (Reversing Detection)

Provides a clear view of road users and obstacles behind the vehicle when reversing, using a camera mounted in the rear crossmember.

ADDW (Advanced Driver Drowsiness Warning)

Monitors driver alertness and issues a warning if drowsiness is detected.

ISA (Intelligent Speed Assist)

Helps the driver observe road speed limits by providing visual and acoustic feedback.

EVSC (Electronic Vehicle Stability Control) and AEBS (Advanced Emergency Braking System)

AEBS recognizes potential front collisions, alerts the driver, and decelerates the vehicle as much as possible, providing full braking from 80 to 0 km/h. EVSC monitors lateral loads and reduces engine power while applying brakes to prevent spins or rollover.

TPMS (Tyre Pressure Monitoring System)

Continuously monitors tyre pressure and temperature, alerting the driver if a problem occurs. It ensures tyres are always maintained at the ideal pressure.

LDWS (Lane Departure Warning System)

Warns inattentive drivers if the vehicle departs from the lane without activating turn indicators.

Warranty coverage.

Whatever the mission, IVECO has you covered. Our warranty protects both the vehicle and the traction batteries for up to 10 years, giving you confidence and peace of mind.

Standard warranty

- **1st year:** full vehicle coverage
- **2nd year:** driveline coverage
- **Traction battery:** 6 Years/1,200 MWh/750,000 km (whichever comes first) with min 80% SOH.

Extended options for complete protection

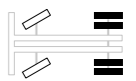

The traction Battery warranty can be extended with customizable packages up to 10 Years / 1,250,000 km, ensuring comprehensive cover for your operations across any vehicle application.

Line-up.

Choose the IVECO S-eWAY Artic to suit your operation.

LINE-UP S-eWay Artic

Configuration	4 x 2 
Wheelbase (mm)	3,900
G.V.W. / G.C.W. (t)	22 / 44
Cab	AS w/t elongated nose
e-Driveline	eAxle
Batteries (kWh)	3 x 201
Suspension	Full pneumatic
Set up	ON

AS Cab

Lower bed 2,100 mm long, 800 mm wide (700 mm behind the seats);
2,040 mm upper Bunk, 600 mm wide (700 mm in the Comfort version).

Maintenance & Repair.

You can protect the value and performance of your vehicle and your business productivity with a Maintenance & Repair offer. Our maintenance and repair contracts plans will maximize your vehicle availability and you can rely on our skilled workforce and guaranteed high-quality IVECO Genuine Parts.

Combine the **M&R services** to build a contract tailored to your needs:

MAINTENANCE

Standard Maintenance is key to keeping the vehicle up and running and is required by law. MAINTENANCE is ideal for customers without their own workshop who want to contain costs.

WEAR

All components creating friction will wear over time and will eventually need to be replaced. Avoid surprises with WEAR.

DRIVELINE

DRIVELINE starts with cover of the most valuable components, which are those that transmit movement to the vehicle.

FULL REPAIR

With FULL REPAIR you can enjoy the full peace of mind of knowing anything on your vehicle needing repairs is covered.

Additional Coverage.

You can further customize your cover with additional options:

ANS 24-hour assistance

Roadside assistance service for repairs covered by the warranty.

Towing service

Tow truck service conveying to the nearest repair point for repairs covered by the warranty (tow truck not included).

Auxiliary batteries

Repair and/or replacement of batteries, including ANS 24-Hour callout where covered under the maintenance agreement.

Wiper blades

Replacement of windscreen wiper blades once a year.

Choose and combine to fulfill your requirements.

You can choose the best service levels for your business size and needs, knowing that the associated costs are fixed and predictable.

ESSENTIAL 
Maintenance

ADVANCED 
Maintenance + Driveline

PREMIUM 
Maintenance + Full Repair

FULL REPAIR 
Driveline + Extradriveline

Your IVECO S-eWay Artic comes with 2-year FULL REPAIR cover included in the standard warranty.

* Wear selectable as option.

IVECO Services Solutions.

The complete development of state-of-the-art vehicles is important to provide our customers with Mobility Solutions that best meet their needs. At IVECO, our goal is to improve the productivity and profitability of our customers' businesses. We do this by maximising vehicle uptime and efficiency, driver safety and environmental protection.

Uptime

To maximize your vehicle's uptime by preventing unplanned stops through proactive monitoring and 24/7 roadside assistance. Rely on Aftersales excellence and EV expert support at certified service points, and plan ahead with uptime notifications, maintenance reminders, and tailored Maintenance & Repair contracts.

Driver Care and Safety & Security

To promote a safer driving style, improve the drivers' performance and increase their safety for a better experience behind the wheel.

Productivity & Efficiency

To reduce energy, optimise routes and improve your drivers' driving style for a more productive and efficient business with lower running costs.

Parts & Accessories

Our extensive offer of high-quality parts and services enables you to customize your vehicle and enhance your life on board.

eMobility

IVECO eMobility services enable you to identify the most efficient routes and charging plans, maximise your vehicle's range with remote controls and optimise uptime and energy efficiency with our timely alerts on your vehicle's remaining charge.

Service Bundle.

All vehicles come with a connectivity box installed, enabling activation of the Standard eStart Pack and the option to add Premium Mobility Solutions tailored to your business goals (terms and conditions apply).

Standard Service Bundle.

eStart Pack

Essential tools to monitor and control your EV, boosting productivity, efficiency, and sustainability.

- **IVECO ON Access.** Fleet visibility through the IVECO ON portal for real-time data and simplified management.
- **IVECO Easy App.** Driver-friendly app for monitoring vehicle status, charging and driving information.
- **Uptime Monitoring and Management.** Continuous health checks and proactive alerts to prevent downtime.
- **eRemote Control.** Schedule and manage charging and comfort features remotely for cost efficiency and readiness.
- **eRange Assurance.** Accurate range prediction and battery alerts for stress-free planning.

Premium Services.

Tailor your Mobility Solution with powerful add-ons:

- **IVECO ON WebAPI.** Integrate fleet data into your systems for advanced analytics and automation.
- **IVECO ON Plus.** Location-based services with live vehicle positioning for smarter job planning.
- **IVECO eCharge Management.** Public charging access with IVECO eCharge Card, simplifying admin and cost tracking.
- **Professional Safe Report.** Analyze driver behaviour to identify areas for improvement and improved safety.
- **Tacho Data Download.** Access tachograph data remotely to ensure compliance and save time

Premium Bundles.

Enjoy comprehensive packs for peace of mind, simplified charging, and improved efficiency:

- **IVECO eCharge Pack.** Combines private chargers and public network access in one solution with a single interface and contract.
- **Driver Assistant.** Extends Smart Routing and infotainment features, adding extra years of connected experience.

Genuine Parts

HIGH PERFORMANCE

IVECO Genuine Parts will keep your IVECO S-eWAY performing at its best during its long years at your service – and cost-efficiently. With these parts, you will enjoy the peace of mind of knowing they have been rigorously tested for safety, consistency and reliability, and come with a one-year warranty.

IVECO
00800|4|8|3|2|6|000
Assistance Non-Stop

IVECO Assistance Non-Stop is just a phone call away 24 hours a day, 7 days a week to keep your IVECO S-eWAY and your business running. **IVECO Non-Stop** is the original IVECO smartphone application that you can use to communicate with IVECO if your vehicle breaks down. Just insert your vehicle information (VIN and registration plate) and with a simple push of a button you can send a request for assistance to the IVECO Customer Uptime Center. We will take care of your request, activate the nearest workshop and follow up on the vehicle's repair. Through the app you can receive updates on the progress of your vehicle's assistance.

www.gatemobility.com

The right energy for you business.

Founded in 2023 by Iveco Group and since 2025 a joint venture with DLL (De Lage Landen International B.V.), a global leader in vendor finance, GATE was created to accelerate the transition towards zero-emission transport.

GATE offers a long-term pay-per-use rental model designed to make electric mobility accessible, efficient and cost-effective for every type of fleet.

The GATE rental formula is available across the range of 100% electric vehicles and includes an ecosystem of integrated services to simplify every aspect of fleet management. With the support of our expert consultants, switching to electric is simple, personalised and worry free.

IVECO CAPITAL Financial Services

IVECO CAPITAL is the financial services brand of Iveco Group and offers a comprehensive range of solutions for commercial, industrial vehicles and buses. Our customers can build the perfect financial formula* to fit their always evolving needs, modulating financing, insurances and services.

With a long-standing market presence, IVECO CAPITAL is a reliable partner, adding value to our customers' businesses by providing simple, innovative access to a dynamic ecosystem of services. We understand our customers' challenges – our competitive renewal offer helps you keep your vehicle always new.

PUBLICATION H254510IMASTER - 02/26

The information contained in this brochure is based on the best data available to Iveco Group following its internal tests and simulations, pending the vehicle homologation, therefore the information concerning availability and capabilities may be subject to change. Officially homologated driving range will be published closer to the vehicle's sales date, moreover, in every case, the data may vary due to various factors (e.g. truck equipment, driving style, weather conditions, route mission, vehicle condition, age and condition of the lithium-ion battery). The information and images in this brochure are provided as a guideline only. IVECO reserves the right to make changes for any commercial or construction reasons at any time without notice.
