NDP – IRF

No-deforestation and No-peat (NDP) - Implementation Reporting Framework (IRF)

September 2025

NDPE-IRF - Overview

- The NDPE Implementation Reporting Framework, or NDPE IRF, is a reporting tool that provides a shared and consistent view of progress towards NDPE commitments across a full supply base of companies in a supply chain. Please see the NDPE IRF website for more information.
- Working with our suppliers, we were able to create a baseline of current performance in our supply chain using the **NDP IRF**.
- For 2024, 9/9 of our Tier 1 suppliers were able to provide us with full profiles for performance on no deforestation and peatland development for the volumes supplied to General Mills.

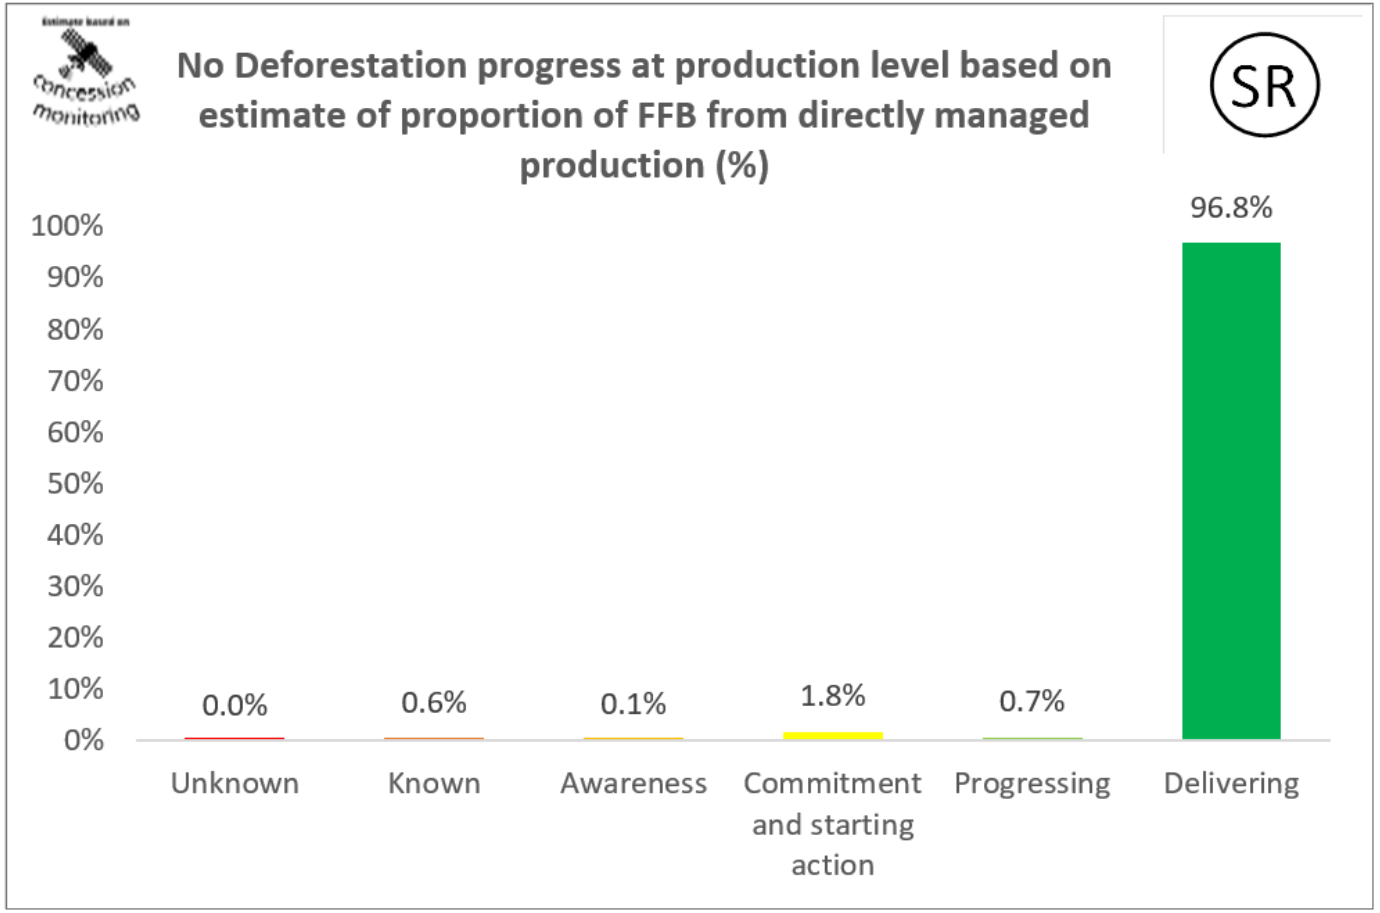
NDP-IRF: 5 Categories of Volumes

The NDP-IRF profile is separated into the following 5 categories:

KNOWN ORIGIN	AWARENESS	COMMITMENT & STARTING ACTION	PROGRESSING	DELIVERING
Self-assessment completed. Traceable volumes, but no known action.	Part of a group that has a commitment and action plan. Awareness driven by workshop, site visit or self-assessment. Grievances present or insufficient action taken.	Developed and implementing own action plan. Grievances are logged and action has begun. Volumes certified by MSPO, ISPO or ISCC.	Deforestation monitoring on own concessions. Grievances under active resolution process. RSPO MB certified. Timebound action plan for implementing commitments.	Volumes meet all requirements as 100% certified. No active grievances. Own operations and 3rd party are delivering on NDPE commitments.

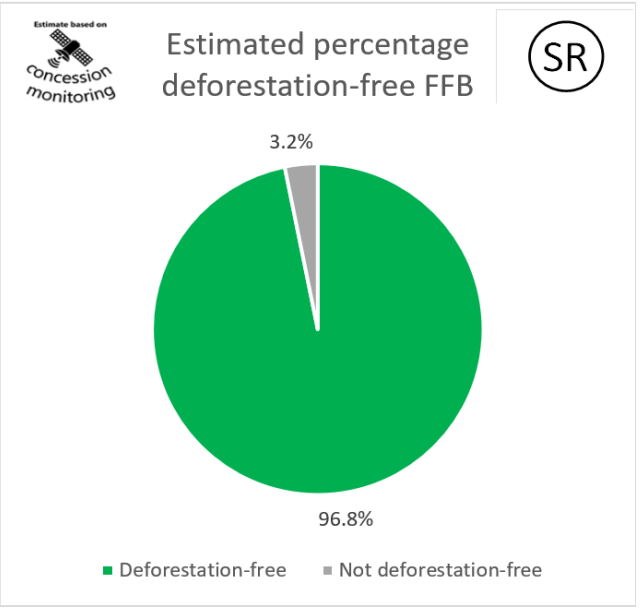
No Deforestation progress at production level

No Deforestation progress at production level based on estimate of proportion of FFB from directly managed production (%)



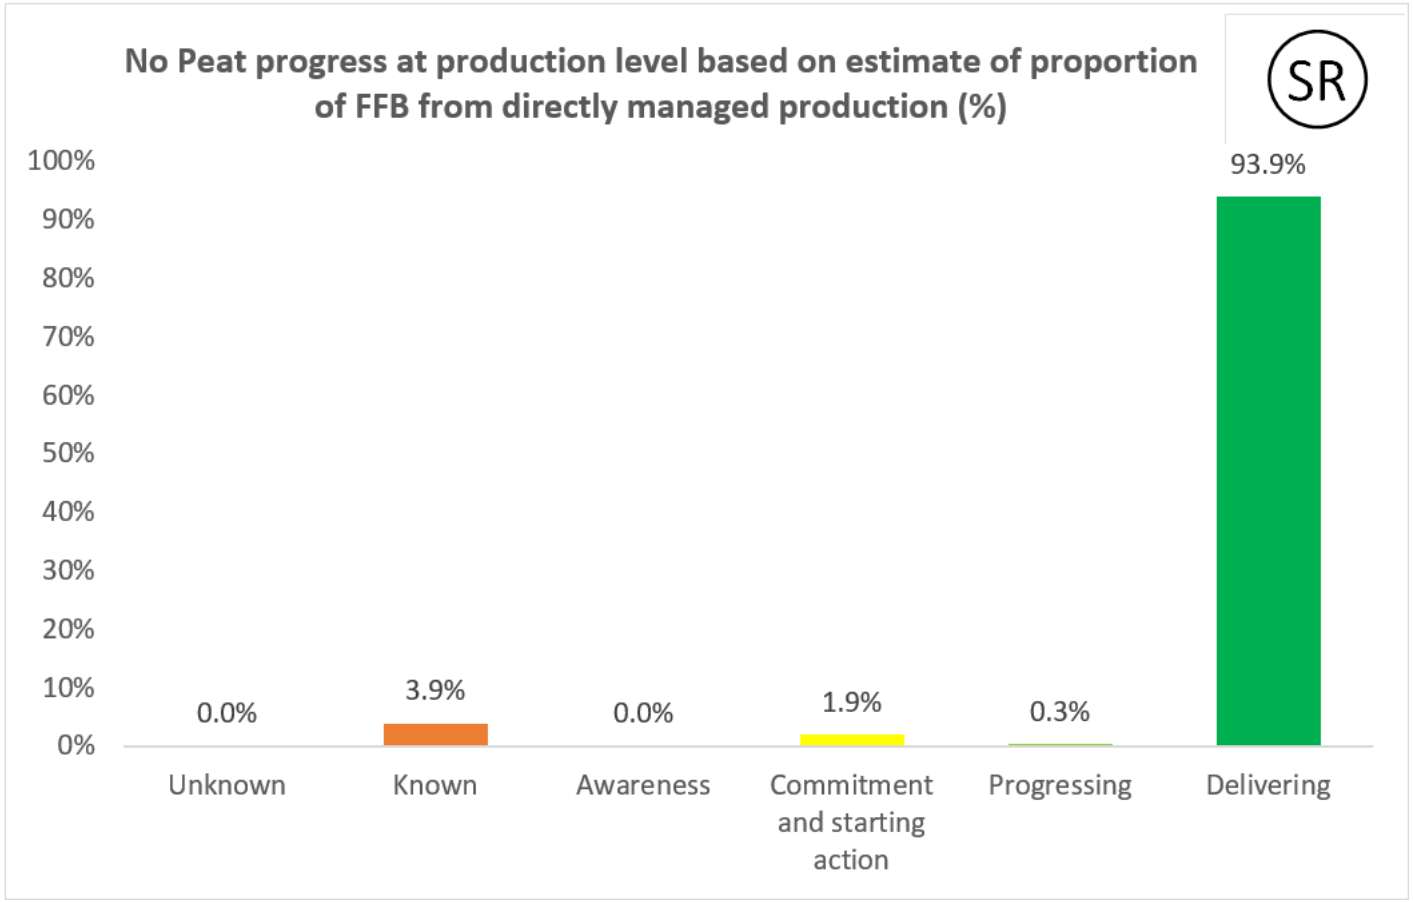
Self-Reported

Estimated percentage deforestation-free FFB



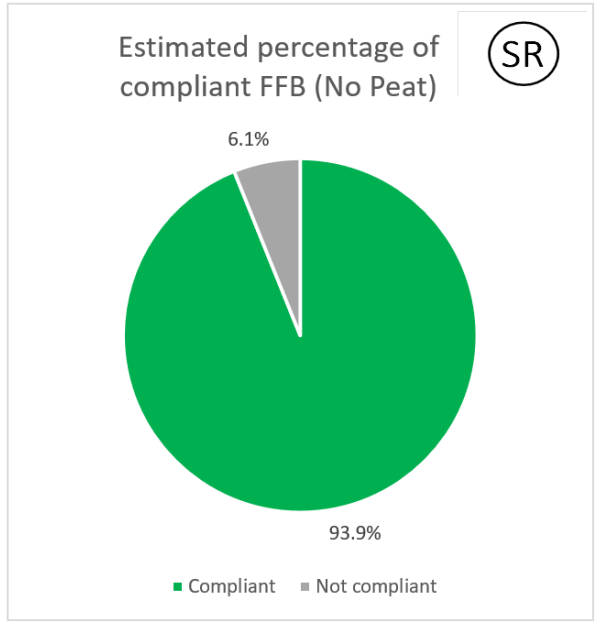
No Peat progress at production level

No Peat progress at production level based on estimate of proportion of FFB from directly managed production (%)



Self-Reported

Estimated percentage of compliant FFB (No Peat)



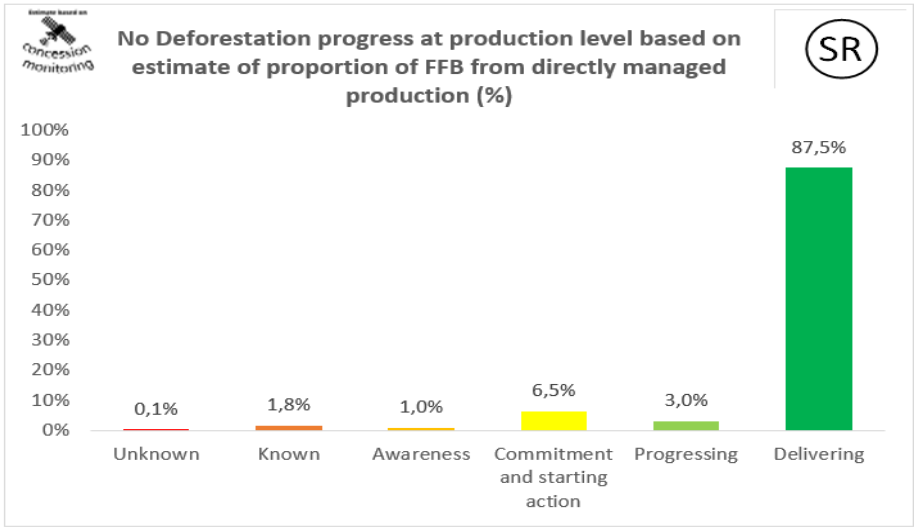
Progress from 2023-2024

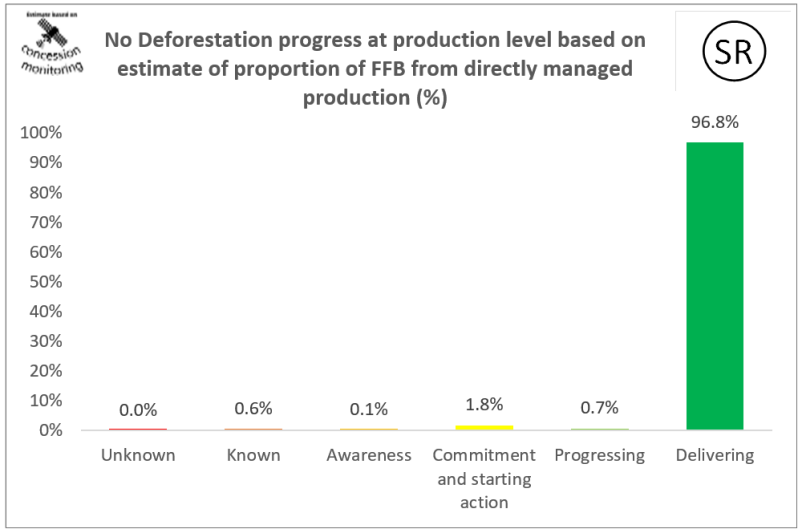
Self-Reported

2023

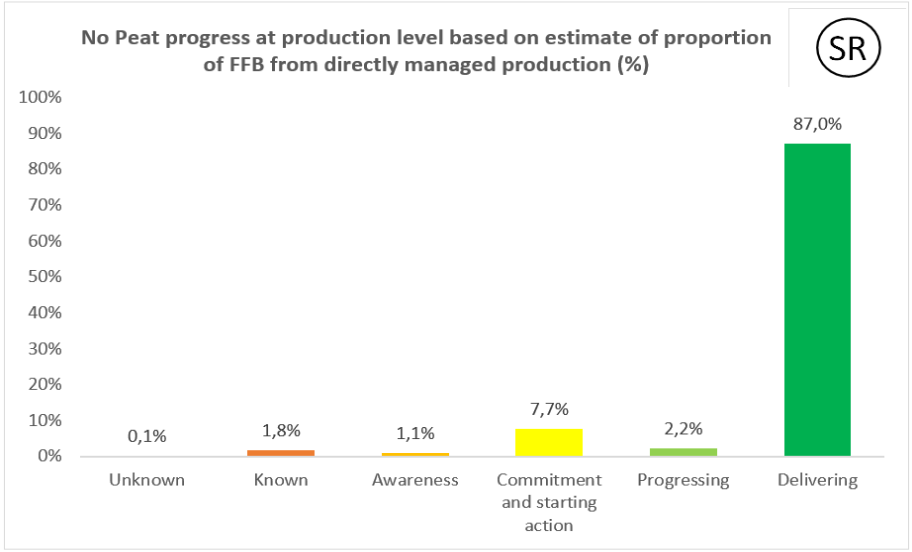
2024

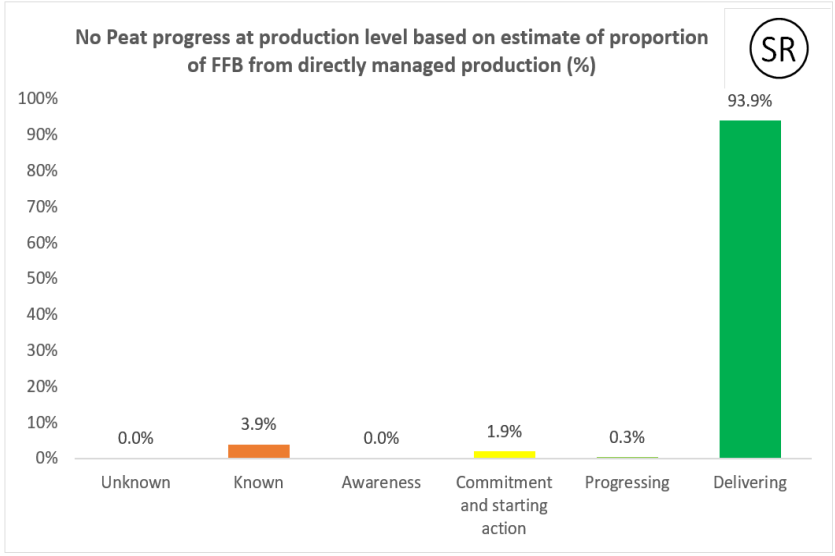
No Deforestation





No Peat





Thank you!
