GoToMyPC

Remote access for individual users.

- Access and use your files, programs, email and network from anywhere.
- Be more flexible and productive.
- Travel light — no need to take a laptop on trips.

GoToMyPC Pro

Remote access with user management designed for companies with fewer than 50 employees.

- Get the benefits of GoToMyPC for you and your employees.
- Manage employees' remote access privileges.
- Generate reports on individual and company remote access activity.

GoToMyPC Corporate

Remote access with advanced user management and features designed for companies with 10–1,000+ employees.

- Set up and deploy remote access in minutes — no training required.
- Manage subgroups and allow shared access to computers under multiple logins.
- Work remotely with confidence — GoToMyPC Corporate employs government-standard encryption for all remote connections.
- Manage licenses, security, usage reports and more from the administration center.

All versions of GoToMyPC provide unlimited use for one low flat rate — there are never any overage fees. Multiple-seat plans are available for all versions.
