CANCEL OUT OF LOAD IN APP

The driver will have the ability to check out of a load in LoadCheck if their load priority changes and they need to haul another order. Anytime a driver checks out of a load, they will receive multiple prompts.

STEP 1 Click **Cancel**

STEP 2 The first prompt informs the driver that the displayed release number will no longer be associated with the checked-in order.

STEP 3 The next prompt will ask if the driver attempted to load on the given release number. Clicking no will check the driver out of the order and put the release number back into the pool of available numbers.

MARKING A RELEASE NUMBER INVALID

The driver will be able to mark a release number as invalid in the LoadCheck app.

STEP 1 Click **Cancel**

STEP 2 The first prompt informs the driver that the displayed release number will no longer be associated with the checked-in order.

STEP 3 The next prompt will ask if the driver attempted to load on the given release number. Click **Yes**.

STEP 4 The final prompt asks if the release number was invalid. Clicking Yes will remove the release number from the pool of available release numbers and trigger a review by the home office. Clicking 'No' will check the driver out of the order and put the release number back into the pool of available numbers.
