

Hurricane Recovery Services

We believe that it is fundamental to support communities in which we, and our clients, work and call home. We stand ready to assist in your recovery efforts by providing immediate, mid, and long-term assistance.

Hatch has mobilized its local personnel and offices to provide immediate assistance to Texas and Louisiana, through the following services and assets:

Emergency Response Experience

FEMA support services

Deployed personnel and equipment with engineering expertise during the response and recovery phases for Hurricane Katrina and Hurricane Sandy.

FEMA contracting and fund recovery

Expertise in contracting vehicles and comprehensive completion of required documents for emergency fund access and recovery.

Damage Assessments and Inspections

- Water and waste treatment plants
- Surface water transmission
- Raw water pumping stations
- Sanitary sewer lift stations
- Storm water pumping station
- Industrial facilities and pipelines
- Structural integrity: commercial, industrial, residential

Rehabilitation and Retrofitting

- Restoration assessment
- Efficient recovery to original capacity

Environmental Assessments

Air, soil, water, and regulatory compliance

Restart/Re-energizing

- Electrical and instrumentation systems
- SCADA and automated systems
- Process and mechanical systems
- Operations assistance

Testing

- Mobile water sampling units
- Drone water sampling capability
- Electrical equipment and systems

Identification of Solutions

Optimization and design of existing and planned infrastructure upgrades to include:

- Ports and marine terminals
- Water and waste water treatment plants
- Industrial facilities—oil, gas, petrochemical
- Centralized operations centers
- Security systems and management

Provision of Rapid Turnkey Structures

Identification and supply of facilities to provide:

- Emergency shelters
- Storage and distribution centers
- Fire, police, and medical stations
- Schools
- Offices, retail and commercial space
- Accommodations
- Kitchen and dining facilities
