Dear Michelle,

Hope you are well!

You are welcome to keep me on the list, but please add my new Land Use Scientist- Miss Megan Simons as the contact person. Megan will be providing comment on our behalf on this project and will be your point of contact.

Megan please forward your relevant telephone number as I know you are still being setup in that regard by our IT department.

Regards,

Colin Fordham

Subject: Upgrade of the DR 1797 Rd - Basic Assessment

Good morning Mr. Fordham,

I hope this email finds you well.

Hatch has been appointed by the Western Cape Government to conduct the engineering for the upgrade of the DR 1797 (Redford) Road in the Eden area of the Western Cape. In addition, Hatch has

also been appointed to conduct the associated environmental approvals process for the upgrade of the DR 1797. We are currently compiling the Environmental Authorisation Application form and, in accordance with the new regulations with regards to the Disaster Management Act, it is now a requirement to present the Department of Environmental Affairs and Development Planning with a Public Participation Plan.

While we are still in early stages of this process, we thought it would be a good idea to start compiling our Interested and Affected Parties (I&APs) Database which we will need as part of the Public Participation Plan. Once we have started the Environmental Authorisation Process, we will use this database to provide all I&APs with information on the project, as well as inform them of the environmental approvals process.

I have attached the Background Information Document (BID) for the DR 1797 Rd Upgrade Project which will give you a brief background on the project.

Please advise whether you are the correct person within CapeNature who would like to be part of this process and whether there are additional people who would like to receive information on this project? If you would like to be an I&AP please click [here](#) to register using the online registration form.

Thank you so much for your time and have a great rest of your day.

Kind regards

Michelle Miles Registered EAP
