

HORNET 1000 SP

STINGS HARDER THAN EVER

*Product shown in the picture may vary from actual product available in the market.

HORNET ***1000 SP***

The Hornet 1000 SP doesn't buzz; it stings harder than ever. Crowned as the hive's boss, it packs an Inline-Four Cylinder engine that is built to handle anything, from urban to twist backroads, and a chassis that takes the hit and hits right back. Its Showa Adjustable Forks, Pro-Link Rear Shock, and Throttle By Wire give the Hornet 1000 SP pure attack mode. The 5-inch TFT puts you in charge, while the LED glare is a clear warning: get out of the way, or get left behind.

STRIKING STREETFIGHTER DESIGN

The Hornet 1000 SP isn't just a looker; it's built to fight. Its sharp twin LED Projectors command the night, while the blacked-out frame and trellis-style rear subframe pack a punch. And the muscular fuel tank tapers with aggression, giving it a streetfighter stance at every glance.

STUNNING INLINE-FOUR CYLINDER ENGINE

The 1000 cc Inline-Four Cylinder engine tears the streets through gears with raw torque and high-rev dominance. It's engineered to roar and built for those who crave pure, untamed performance.

1000SP

PIERCING LED LIGHTING

The twin LED projectors slash through the dark with surgical focus, while the sharp-edged lighting brings unmatched visibility and an undeniable presence on the road.

HIGH-PERFORMING SUSPENSION

The Showa SFF-BP™ inverted fork provides sharp, sportbike-level precision in the front suspension. While the remote-reservoir Öhlins setup in the rear suspension keeps the bike planted, no matter how hard it's pushed.

1000SP

ULTIMATE CONTROL ON THE ROAD

Five riding modes consisting of Standard, Sport, Rain, and two fully customizable User modes allow the rider to fine-tune how the bike responds.

Honda Selectable Torque Control (HSTC) intelligently manages braking and traction under various surface conditions, while advanced wheelie control keeps front wheel lift in check, maintaining balance without killing the thrill.
