LEAD THE WORLD

The world doesn't fit inside four walls. And neither do you.

The Honda CB350 is built for those who come alive in motion with wind in their hair and the horizon in their sights. With a striking new look, timeless detailing, and a tech-enabled design that demands attention, this isn't just a ride; it's freedom in its purest form.

So, unleash your inner explorer, take your Honda CB350 for a ride. Leave limits in the rear view and Lead the World with every mile.

DESIGN THAT DOESN'T BLEND IN

The Honda CB350 makes an impression without trying too hard. With its classic silhouette, clean lines, and sharp, modern lighting that instantly catches the eye, this machine moves with an authority that's impossible to ignore.

Split Seat

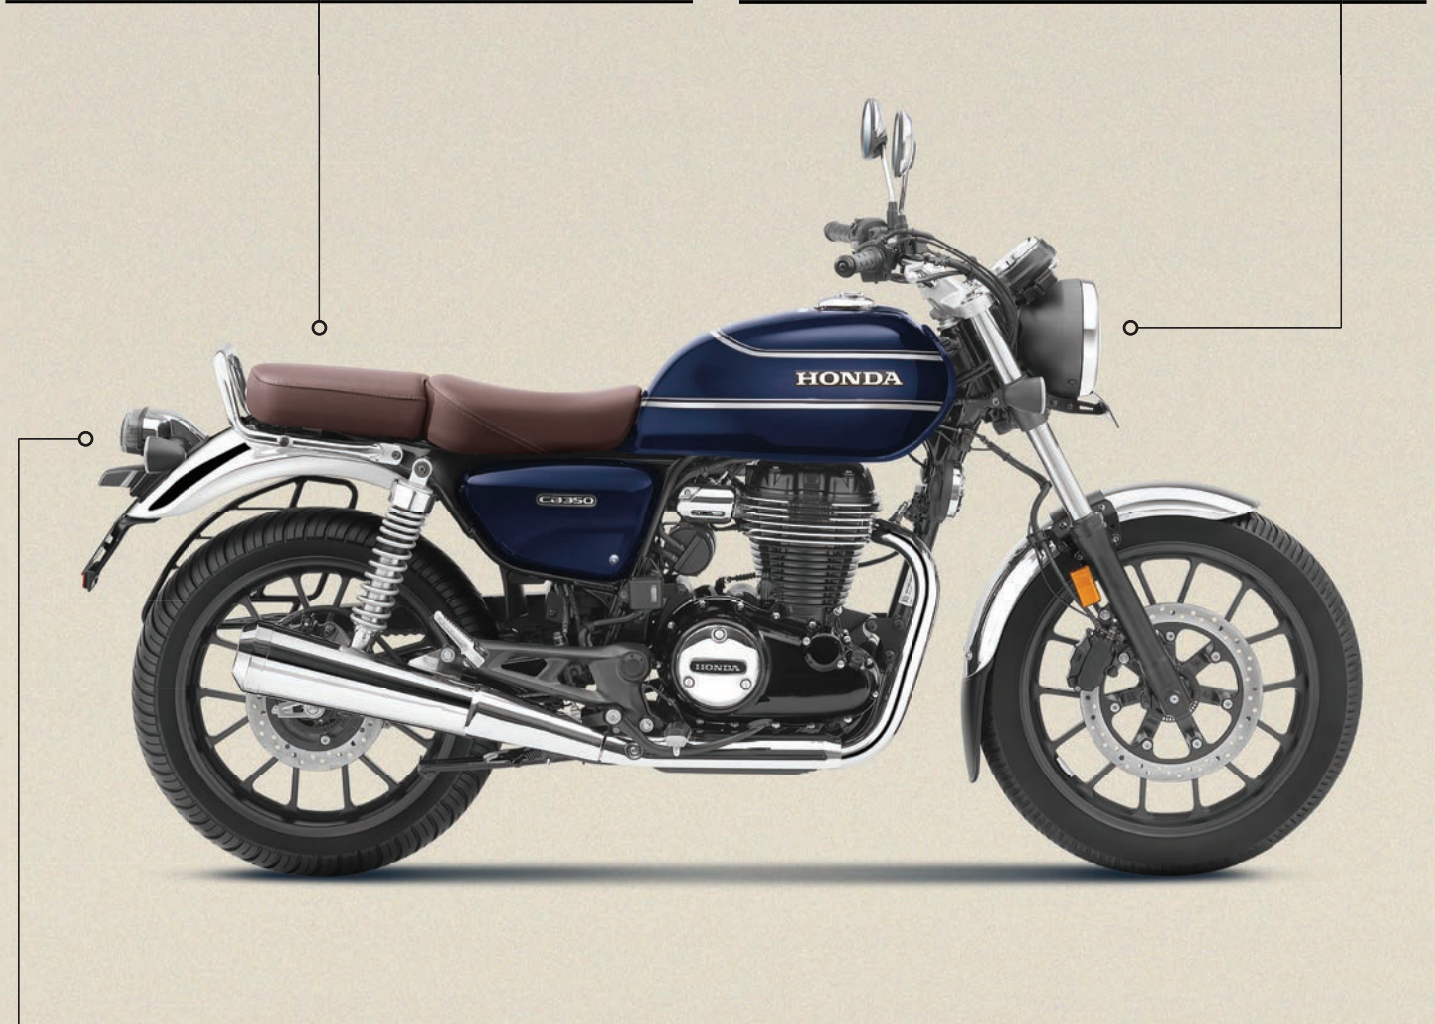

Comfort meets style.

Split seat adds classic style without compromising on comfort of both the riders.

New-age Headlight

Techy new look that brightens up your every ride.

Smoked Tail Light

Leave a trail of thrill with full LED tail light and winkers.

PERFORMANCE THAT SPEAKS VOLUMES

Twist the throttle. Hear the CB350 come alive.
Its 350 cc heart keeps things smooth on the cruise
and fierce when you push. And that signature growl?
That's just the CB350 announcing your arrival.

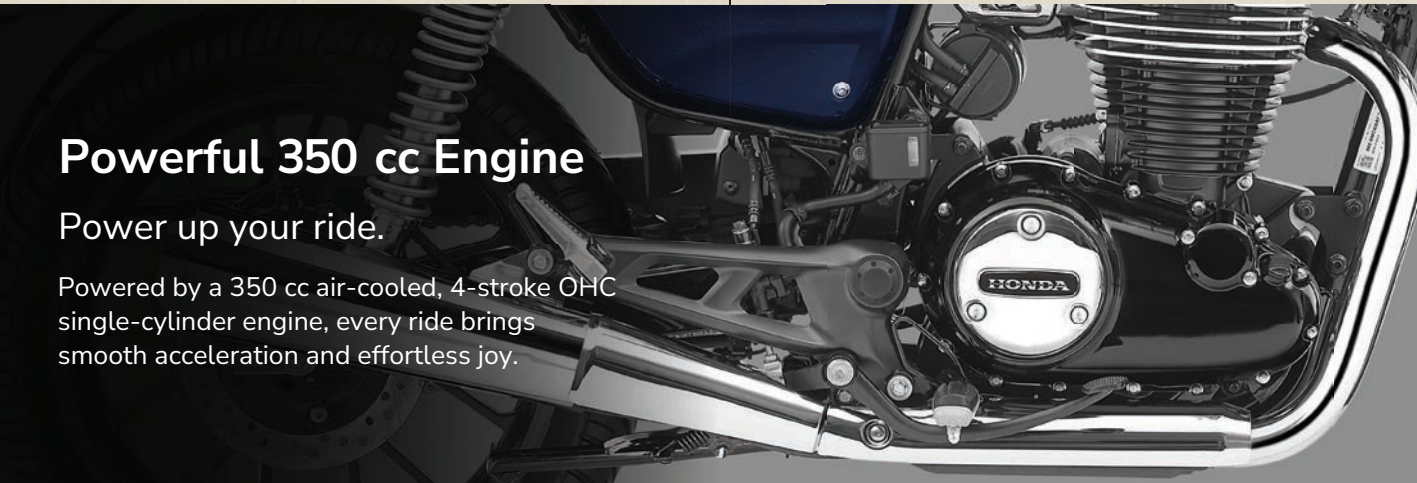

Roaring Exhaust Note

When in doubt, thump it out.

The CB350 greets every twist with a crisp throb and a rich, thumpy exhaust note.

Powerful 350 cc Engine

Power up your ride.

Powered by a 350 cc air-cooled, 4-stroke OHC single-cylinder engine, every ride brings smooth acceleration and effortless joy.

Advanced Analogue Digital Meter

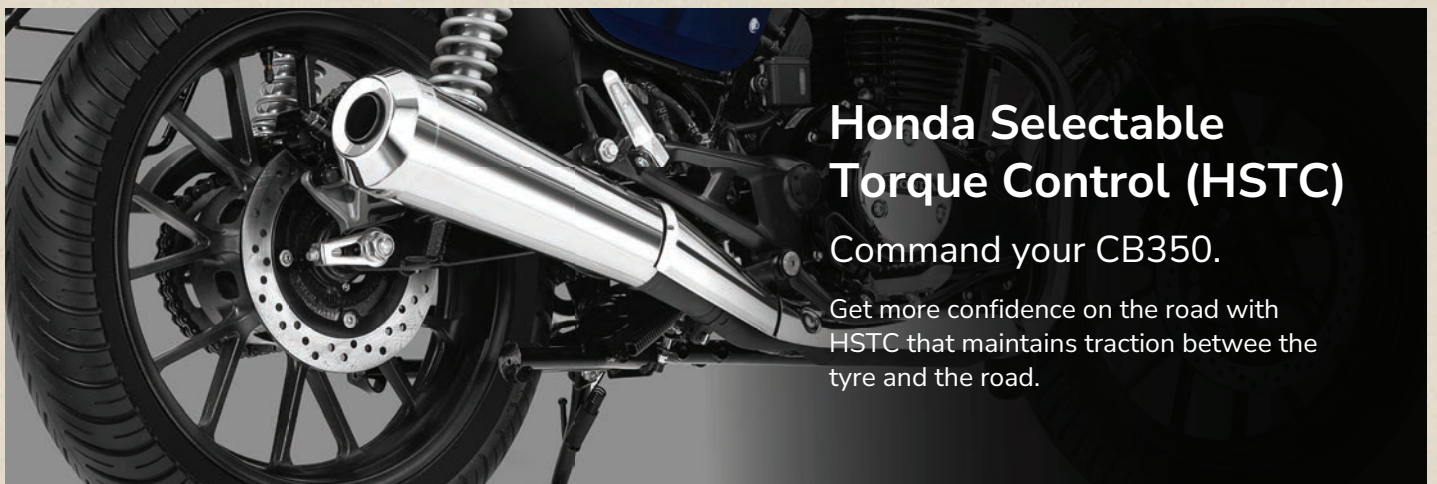

Bolder font style for better readability.

Dual Channel ABS

Always in control.

CB350 is equipped with dual-channel ABS, a 310 mm front disc and a 240 mm rear disc brake. ABS prevents wheels from locking up when brakes are applied in an emergency situation.

Honda Selectable Torque Control (HSTC)

Command your CB350.

Get more confidence on the road with HSTC that maintains traction between the tyre and the road.

Assist Slipper Clutch

Clutch the load.

An assist function for easy clutch operations and slipper function for controlled downshifts. Enjoy effortless shifting, every mile.

Side Stand with Engine Inhibitor

Stand out, ride out.

No looking down to check your side stand, a glance on your meter is enough. Additionally, the inhibitor function restricts the engine from starting if the side stand is down.

Honda RoadSync

Stay connected.

Control your motorcycle from the handlebars with Honda RoadSync via Honda Smartphone Voice Control system.

Hazard Switch

Safety in every flash.

Flashing indicator lights are an important safety feature for emergency stops and low visibility conditions.

ESS (Emergency Stop Signal)

Let there be no brake to your safety.

In case of emergency braking, the ESS, or Emergency Stop Signal, automatically and rapidly flashes the turn indicators on both sides to alert the following vehicle and, thus decreases the danger of being rear-ended.

MANY VARIANTS. MANY WAYS TO LEAD.
