HORNET 750

Break free and command the streets with the Hornet 750. Engineered for peak sports performance with a lightweight chassis, this lean yet muscular beast combines an aggressive streetfighter style and a bold dual-LED headlight. Refusing to settle into the mould, the Hornet 750 is built to make you seen, heard, and leave everything else in the dust.

STYLE WITH STING

Crafted in Rome, engineered in Japan, the Hornet 750 blends razor-sharp minimalism with a muscular intent. A powerful dual-LED headlight leads the charge, while the wing-inspired tank, metallic red frame, and anodised forks bring the sting.

PERFORMANCE THAT HITS HARD

The 755 cc, 8-valve parallel-twin engine unleashes 67.5 kW at 9,500 rpm along with short-stroke, high-revving power that's built to thrill. Expect smooth torque through the mid-range, effortless city riding, and an assist/slipper clutch that keeps things under control when you drop the hammer.

POWER YOU CAN HEAR

A 270° crank and carefully tuned exhaust that deliver more than just performance. They create a deep, throaty soundtrack that pulses down low and builds to a wild, rising howl at high RPMs.

TECH THAT RIDES WITH YOU

The 5-inch full-colour TFT display is bright, customisable, and intuitive, controlled via a 4-way handlebar toggle. Seamlessly synced with Honda RoadSync for turn-by-turn navigation, music, calls, and more.

HANDLING AT ITS FINEST

A lightweight steel diamond frame, 192 kg kerb weight, and 795 mm seat height give the Hornet 750 its razor-sharp agility. While the Showa SFF-BP™ USD forks and revised rear damping deliver precision handling and real-world comfort.

LUMINANCE THAT DOMINATES

The dual-LED headlight shines up to twice as bright, cutting through darkness with ease. Auto-cancelling indicators keep your focus sharp and your ride sharper.

SPECIFICATIONS

ENGINE

Engine Type	4-Stroke, 8-Valves Parallel-Twin SOHC, Liquid-Cooled
Bore X Stroke	87 x 63.5 mm
Compression Ratio	11.0 ± 0.2
Displacement	755 cc
Net Power	67.5 kW @9500 rpm
Maximum Torque	75 N-m @7250 rpm
No. of Gears	6

DIMENSIONS AND WEIGHT

Length x Width x Height	2093 mm x 777 mm x 1085 mm
Wheelbase	1422 mm
Kerb Weight	192 kg
Ground Clearance	140 mm
Seat Height	795 mm
Fuel Tank Capacity	15.2 L
Frame Type	Steel Diamond

WHEELS, SUSPENSION & BRAKES

Tyre Size (Front)	120/70R17M/C
Tyre Size (Rear)	160/60R17M/C
Brake Type (Front)	Double Disc - 296 mm
Brake Type (Rear)	Disc - 240 mm
Calliper Front	4 Piston
Calliper Rear	1 Piston
Front Suspension	Showa SFF-BP USD Forks
Rear Suspension	Monoshock with Pro-Link Linkage

ELECTRICALS

Battery	12 V, 9.1Ah
Headlight	LED
Tail Lamp	LED
Winkers	LED
