

Home inventory checklist

Keeping an inventory of the items in your home can help in the event that you need to file an insurance claim. Preparing an inventory now means that you'll have an accurate and up-to-date record of your contents to give your insurance company when an event occurs.

Tips for using this inventory:

- **Include as much information as possible.** It's better to have and not need than need and not have.
- **Take pictures and/or videos of each room and item.** Don't forget inside closets and drawers!
- **Keep this inventory and your photos in a secure spot or two.** Consider storing it in the cloud for added safety.
- **Review your personal property coverage limit annually** when you update this inventory to be sure that it still accurately reflects your possessions.
