

WHO YOU'LL LEARN FROM

Our team of globally acclaimed authors, CISOs, and thought leaders boast a combined more than 70 years of cyber leadership experience. They share proven strategies to help you avoid common mistakes and quickly build credibility with key decision-makers. They back these strategies because they are constantly refining them in their current cyber executive / virtual CISO roles.

Darren Argyle

The CLP is led by Darren Argyle, Group Chief Information Security Risk Officer at a global bank, with more than 20 years of leadership experience. Former CISO at Qantas Airlines and other reputable brands, Darren has been ranked Top 100 Global CISO and Influencer by SC Magazine. He is also an international keynote speaker, board member and experienced mentor. He teaches leadership, influencing, and cultural transformation.

Dwan Jones

Dwan Jones has more than 22 years of experience developing and leading comprehensive strategies to engage multicultural audiences. As Director of DEI at ISC2, she develops and leads the organization's internal and external strategic initiatives to foster a more diverse and inclusive cyber profession across the globe. Dwan has extensive experience in strategic communications, multicultural programming, organizational development and has led global teams to produce large-scale initiatives that drive engagement and transformative change to elevate diverse voices. She holds a bachelor's degree in public relations and a master's in organizational leadership. She is a Certified Diversity Executive® and holds a certification in Leading Diverse Teams and Organizations from the University of Michigan.

Barbee Mooneyhan

Barbee Mooneyhan is a VP of Security, IT, and Privacy, intertwining her passions for helping and protecting people. While studying Psychology at the University of Tennessee, Knoxville, she started her career in IT in 2002. After graduating, she continued her love of technology and making a difference in others' lives by entering the healthcare industry. She's grown her career in IT from Service, Operations, and Technical Instructional Design to finding her true passion in Information Security and Privacy. Since then, she has built and matured multiple organizations' IT, Privacy, Incident Response, Product Security, Threat Hunting, Vulnerability Management, Penetration Testing, GRC, and Security Awareness programs. As a leader for the WiCyS Tennessee Affiliate and the WiCyS BISO Affiliate and a mentor with WiCyS and WiTT, she finds fulfillment in sharing her knowledge and experience through allyship, mentorship, and industry education.

Jan Schreuder

Jan is a former senior partner at PwC Australia and Switzerland, where he built and led large cybersecurity functions. With more than 35 years of consulting experience, Jan now works as a virtual CISO and board advisor. Named in the IFSEC Top 25 Most Influential Global Cybersecurity professionals in 2022. He teaches cyber strategy transformation and crisis management.

Tara Wisniewski

Tara is responsible for leading and driving the growth of ISC2's global advocacy program, charting the future course of the Center for Cyber Safety and Education advancing member engagement and global market strategies, and leading the association's diversity, equity and inclusion (DEI) initiatives. She has more than 25 years of experience in nonprofit organizations with an emphasis on advocacy and public affairs, global market development and stakeholder engagement, fundraising and philanthropy, and program development. Prior to ISC2, Tara held senior roles in corporate development and global affairs at ISACA and the IEEE, among other nonprofits and foundations. She directed strategy and engagements aimed at expanding global impact and influence, including public affairs efforts focused on government relations and strategic partnerships, and developed internal infrastructure to sustain and grow key initiatives. Wisniewski holds a master's degree from Rutgers University and a bachelor's degree from Tulane University.

Phil Zongo

A 2x bestselling author and international keynote speaker, Phil is also a virtual CISO and strategic advisor for multiple iconic clients. He has won multiple industry awards, most notably the ISACA International's 2017 Best Book / Article Award. He teaches cybersecurity governance and executive communication.
