- > **Medical Inventory**, including but not limited to personal protective equipment (ppe), masks, disposable shoe covers, gowns, face shields, medical and office supplies, medical equipment (blood pressure cuffs, wheelchairs, IV polls/supplies, respirators, etc.), non hazardous test kits, and common medication.
- > **Emergency Services**, including but not limited to evacuation signs, first aid kits, canned goods, torches, tents, and shelter supplies.

- Securely store pallets or shipping containers of stockpiled inventory to mitigate disruptions in the supply chain.

SECURE STORAGE

Iron Mountain facilities are reputed for security: perimeter, entry, and interior. Only authorised users will ever have access to your equipment, and proven fire safety and environmental safeguards ensure their continued viability. Assets are tagged and classified using your own terminology for easy access and retrieval.

AUDITABLE CHAIN OF CUSTODY

Rest assured knowing you'll have complete visibility and control over your assets' location at all times. Tracking technology can be applied to boxes and pallets, so they can be tracked from the moment they leave your site to the moment they arrive at an Iron Mountain secure storage facility.
