

Common ITAD projects

Experience Iron Mountain's decades of experience providing secure chain of custody

	IT asset refresh cycle	Office moves	Remote employees	Support ESG goals
Your ambition	When new IT assets are acquired, make sure that the existing ones go through a disposition process when they reach the end of their life cycle	Support office moves, closures, or consolidations with the need to decommission IT assets	Support remote workers, device refresh, and outgoing remote employees	Support corporate sustainability goals including carbon reduction and landfill e-Waste reduction
Iron Mountain's offerings	Recycling, remarketing, secure destruction, and data erasure	Recycling, remarketing, secure destruction, and data erasure	The "box program" provides direct shipping to remote employees and retrieves devices	Remarketing, recycling, and the Iron Mountain Environmental Benefits Report
Devices covered	Computers, monitors, scanners, printers, mice, keyboards, cables	Computers, monitors, scanners, printers, mice, keyboards, cables	Smartphones, computers, tablets, handheld devices	Computers, monitors, scanners, printers, mice, keyboards, cables

Iron Mountain provides world-class secure logistics to support your ITAD project needs

Iron Mountain's ITAD expertise

Security

Protecting confidential data

- Option to sanitize or destroy assets with confidential information, onsite or offsite
- Secure chain of custody
 - Using proven logistics and asset tracking, we manage equipment through every stage of disposition
 - We directly own and operate a global fleet of alarmed, locked, and GPS-tracked vehicles
 - Verify chain of custody has been maintained through central portal, including certificate of destruction (COD)

Cost savings

Minimize total ownership cost

- We help you recuperate maximum market value from end-of-life IT assets
 - With secure ITAD, we can safely remarket decommissioned assets, lowering your total cost of ownership
 - Includes data centers, personal commuting, smartphones, office hardware, and much more

Sustainability

Reduce footprint

- Work with a certified organization to securely recycle IT assets with little or no resale value
 - Ensure your e-waste is not landfilled, and minimize the carbon footprint of your end-of-life equipment

Compliance

Legal & industry standards

- Have your assets processed in accordance with all federal, state, and local regulations and industry best practices
 - Tailored processes in line with your specific industry and corporate commitments

Consolidation

Process management

- Onsite or offsite management in 30+ countries across 6 continents
- Continue using one vendor you already use elsewhere across your organization
- Centralized customer portal makes ordering and tracking Secure ITAD work straightforward
