London

Data Center Campus (LON-1)

IRON MOUNTAIN®
DATA CENTERS

Our London data center LON-1 is located at the heart of the densely interconnected Slough data center corridor to the west of the M25. A former Credit Suisse facility it has been extensively upgraded and extended, and now offers 10,400 m^2 of space and 8.7 MW of power capacity distributed across six data halls. As well as providing a wide range of on-site network services, the data center is connected to the LINX exchange and has dark fiber access to hundreds of other networks, clouds and service providers.

"IRON MOUNTAIN's physical site security, quality of service, customer support, and heritage in managing confidential data, allows nec® to position our sap hosting solution as a new level of cloud service for sap® public sector clients."

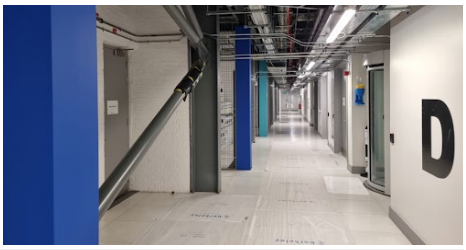
NEC

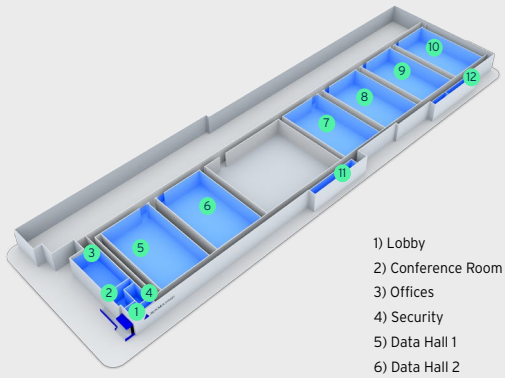
Why choose LON-1?

- **Connectivity**
  Huge selection of carriers and cloud on-ramps in-house and via the Slough data hub.
- **Compliance**
  The industry's most comprehensive compliance program.
- **Security**
  Former Credit Suisse facility with physical and logical security layers designed to meet exacting financial services standards.

London Data Center (LON-1)

Whether you are an enterprise looking for a large deployment or a growing local company hosting a few critical cabinets, LON-1 can provide the space, standards and power configurations you need.





1) Lobby
2) Conference Room
3) Offices
4) Security
5) Data Hall 1
6) Data Hall 2
7) Data Hall 3
8) Data Hall 4
9) Data Hall 5
10) Data Hall 6
11) Storage
12) Loading Dock

Quick Reference Guide for London (LON-1)

Campus

- 5.4-acre site
- Slough, Berkshire
- Slough data center corridor
- Former Credit Suisse® facility

Data Center

- 10,400 m^2
- 4 x data halls
- 2N/N+1 designs available
- Built to F1000 banking specs
- 8.7 MW

Interconnection

- Carrier-neutral
- Cloud-neutral
- LINX internet exchange
- 15 carriers on-site
- DF access to 200+ NSPs, clouds and IT service providers

Compliance

- SOC 2 Type II
- SOC
- PCI-DSS
- HIPAA
- ISO 50001
- ISO 27001
- ISO 22301
- ISO 14001
- ISO 9001

Protect, connect, and activate your data

Protect

- Cutting-edge cloud-agnostic data centers built on 70 years of trusted security
- 99.999% uptime and the widest range of third party accreditations in the industry,
- 100% of customer power matched with renewables with a clear pathway to local hour-by-hour 24/7 Carbon Free Energy
- BREEAM green building certification for all new builds
- Green Power Pass carbon credit-sharing program to simplify ESG reporting

Connect

- Interconnected global footprint covering three continents and 21 markets
- Low-to-no latency access on major backbones with in-house access to every leading cloud
- Every tier 1 global and regional carrier & 100+ local carriers/NSPs
- 20+ SDNs/cloud on-ramps & 14 Internet Exchanges
- 1300+ customers & 16,000 cross connects

Activate

- 5 million gross sqft and 500 MW of operational space with a power and land bank of 1.3 GW
- Investment in place to double total potential capacity to 2.6 GW by 2029
- CPU and GPU-ready power and cooling design
- Outstanding customer satisfaction NPS (Net Promoter Score) of +54.2
- Full service portfolio covering pure AI/ML, flexible hybrid AI, smart hands, migrations and interconnection.
