IRON MOUNTAIN® SECURE E-WASTE AND IT ASSET DISPOSITION (ITAD) SERVICES
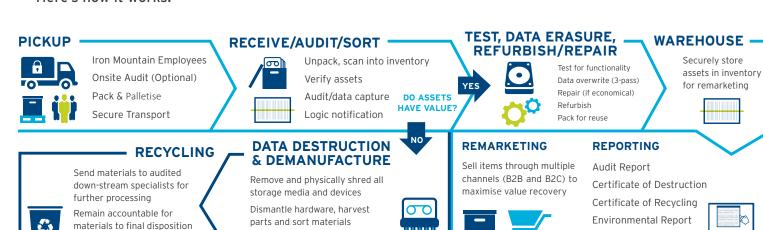

A solid IT asset disposition programme is one that meets your disposal needs, while maximising retired asset value, in a secure, efficient and green manner. Iron Mountain offers you all of that and more – above and beyond
the competition. We combine industry leading secure chain-of-custody with the world's largest IT asset distribution channel to minimise your risk and maximise your asset value recovery.

» Industry-leading chain of custody, secure logistics and patented Babco vehicle security

» Consistently extract maximum value from your retired assets with the world's largest IT asset distribution network

» Data erasure procedures adhere to U.S. Department of Defense and National Institute of Standards and Technology standards for all data bearing devices

» Responsible green recycling: e-Stewards® Enterprise with 0% landfill and 0% e-waste export policy

Here's how it works:

PICKUP
Iron Mountain Employees
Onsite Audit (Optional)
Pack & Palletise
Secure Transport

RECEIVE/AUDIT/SORT
Unpack, scan into inventory
Verify assets
Audit/data capture
Logic notification
