IRON MOUNTAIN'S VALUE PROPOSITION ACROSS SECURE ITAD SOLUTIONS

SECURITY: Protecting confidential data

- Option to sanitise or destroy assets with confidential information, onsite or offsite
- Secure Chain-of-Custody
 - Using proven logistics and asset tracking, we manage equipment through every stage of disposition including providing you with certification of destruction (COD)

COST SAVINGS: Minimise total ownership cost

- We help you recuperate maximum market value from end-of-life IT assets
 - With Secure ITAD, we can safely remarket decommissioned assets, lowering your total cost of ownership
 - Includes data centres, personal computing, smartphones, office hardware, and much more

SUSTAINABILITY: Reduce footprint

- Work with an e-Stewards® Enterprise to securely recycle IT assets with little or no resale value
 - Ensure your e-waste is never landfilled, and minimise the carbon footprint of your end-of-life equipment

COMPLIANCE: Legal & industry standards

- Have your assets processed in accordance with relevant government regulations and industry best practices
 - Tailored processes in line with your specific industry and corporate commitments

CONSOLIDATION: Process management

- Secure ITAD management in 30+ countries across 5 continents
- Continue using one vendor you already use elsewhere across your organisation
