IRON MOUNTAIN®
ASSET LIFECYCLE MANAGEMENT

HOW IRON MOUNTAIN CAN HELP

With over 70 years of expertise in protecting vital business information, Iron Mountain is the leader in secure and sustainable hardware asset management & ITAD solutions. Our strategic approach protects your data, ensures optimized use, maximizes your return on investment, and minimizes your environmental impact. In other words, we manage all aspects of hardware asset management – from retrieving and redeploying laptops to end-of-life disposition.

End-to-end solution for managing IT assets

Simplify end-user device IT asset management with a comprehensive integration into your IT service management tool. Automate asset management tasks such as placing orders, managing assets, and reporting to reduce manual tasks, create efficiencies, and reduce human errors.

Common use cases

	Redeployment	Laptop retrieval	IT asset refresh	Lease returns	End-of-use
Your ambition	Redeployment of devices and peripherals to new employees or advance exchange/repair for existing employees	The secure, automated retrieval of employee laptops	Deployment of new devices and retrieval of end-of-use devices during asset refresh cycles	The retrieval, wiping and on-time return of leased equipment	Sanitization or physical destruction of data-bearing components followed by remarketing or e-waste recycling
Iron Mountain's solution	Storage, imaging, kitting, tagging, tracking, logistics, reporting	Sanitization, reverse logistics, tracking, reporting, storage, redeployment, EOL	New hardware deployment, old hardware retrieval, tracking, reporting, EOL	Reverse logistics, sanitization, device testing, cleaning, grading, financial scenario planning, on-time return to lessor	Certified data sanitization or destruction, global remarketing network, certified recycling
Devices covered	Computers, monitors, mice/keyboards/cables				

Iron Mountain's hardware asset management & ITAD

BEST IN CLASS DATA SECURITY

From transparent, traceable chains of custody and verifiable data erasure, we provide world-class logistics, global tracking, and certified decommissioning.

ADVANCED SUSTAINABILITY

Promote sustainability by reducing e-waste, extending the life of an asset, and supporting responsible disposal and recycling practices, contributing to a cleaner environment and more sustainable future.

MAXIMIZE SAVINGS AND ROI

Hardware asset management boosts savings and ROI by optimizing asset utilization, maintenance, and resource allocation while minimizing unnecessary purchases.

UNMATCHED SCALE AND REACH

A trusted partner to more than 90% of the Fortune 1000 and some of the world's largest hyperscalers, our decades of leadership, expertise, and global footprint are unmatched.
