Your trusted partner for seamless audit success

# Comprehensive audit solutions

## Navigate Complex Audits with Confidence with Iron Mountain Data Centers Audit Support Services

When regulatory requirements demand compliance excellence, Iron Mountain Data Centers delivers expert audit support that transforms challenges into opportunities. Our specialized team provides the guidance and resources you need to successfully manage every aspect of your audit process.

### Compliance Questionnaire

Let our compliance experts handle your vendor assessments and security questionnaires. Simply provide your documentation, and we'll ensure accurate, thorough responses that meet the highest industry standards.

### On-Site and Remote Audit Support

Whether you need boots on the ground or virtual assistance, our audit specialists coordinate the right resources to guide you through regulatory evaluations. From compliance assessments to environmental control reviews, we're your dedicated partner throughout the entire process.

### Easy Access to Services

Submitting a request is easy and efficient. Just log in to the IMDC portal ([imdc.service-now.com](https://imdc.service-now.com)) and submit your request.

### Flexible pricing that fits your needs

We understand that audit support requirements vary. That's why we offer engagement options designed for maximum flexibility and value.

#### Yearly retainers

Budget-friendly predictability with our most cost-effective option:

- Discounted hourly rates
- Minimum commitment: just one hour per year
- Add audit support hours directly to your sales order
- Additional hours billed at pay-per-use rates

#### Pay-per-use

For occasional needs or unpredictable audit schedules:

- No upfront commitment
- Access expert support when you need it
- Transparent hourly billing

## Why Iron Mountain Data Centers?

- 95% of Fortune 1000 companies trust Iron Mountain
- Industry-leading compliance expertise
- 5M+ SF global footprint across 3 continents
- Specialization in highly regulated industries
- Proven track record in environmental sustainability and security
