

Media preservation solutions

The content captured in audio-visual media represents our collective cultural heritage. Unfortunately, much of this content is at risk of being lost to future generations due to the degradation and obsolescence of aging storage media and recording technology. Iron Mountain Media & Archival Services archivists serve our clients as stewards of these priceless assets, ensuring that the audiences of both today and tomorrow will always be able to enjoy them. You can rest easy knowing that with Iron Mountain Media & Archival Services' industry-leading media preservation solutions and techniques, your irreplaceable content is safe, secure, and most importantly, accessible and playable whenever you need it.

Our end-to-end media preservation services include:

› Secure logistics and climate appropriate storage, on a global scale

Point-to-point media-appropriate archival storage conditions ensure safe, secure, and discreet handling of client media and digital content.

› Inventory discovery and management

Media inventory evaluation, triage, research, content verification, metadata collection, barcoding, imaging, database services are customized to the specific needs of every client.

› Remediation and restoration

Media degradation occurs in a variety of forms, irrespective of storage conditions. Common problems include physical damage, decomposition, proprietary systems and format obsolescence. The Iron Mountain Media & Archival Services Media Recovery Technology team specializes in the recovery of content deemed beyond salvage.

› Hard drive preservation

Hard drives are among the most fragile storage formats and are considered a top priority for migration by media archivists worldwide. The Iron Mountain Media & Archival Services hard drive preservation service offering includes drive health check, disk recovery, data migration, backup, sync, content curation, and future-proof open format digital archiving.

› Digital transformation

All production is done in-house in our fully-equipped studios, allowing us to maintain a chain of custody throughout every phase of production. Clients' physical media inventory never leaves the security of Iron Mountain's facilities for digital preservation, remediation or complementary services.

› Secure digital preservation and distribution

Iron Mountain Media & Archival Services media preservation solutions make your invaluable archived content accessible and usable. Powerful digital archiving and digital asset management options are available including our secure Smart Vault platform.

May we introduce ourselves?

You've been tasked with the critical and complex role of both preserving irreplaceable assets, and identifying the evolving technology to keep this content accessible for the world's audiences.

Everyone at Iron Mountain Media & Archival Services cares about your archive as much as you do. We think and act as an extension of your own team to meet the current and future needs of your archive for both historical preservation and revenue generation. We'll always hold ourselves accountable to your standards.

> **Passion and Expertise**

Experts, industry veterans, and specialists who truly love what they do; we work as an extension of your team, giving you confidence to solve any challenge that comes your way.

> **One stop shop**

Our complete chain of custody and services can support the entire asset lifecycle. We'll make it easier to solve a diverse set of challenges by tailoring solutions to meet your exact needs and requirements.

> **Industry-leading technology**

Our tools and technology enable us to provide world class security, remediation, and inventory management, so you can confidently access your most important assets — now and forever — wherever they are.

About Iron Mountain Media & Archival Services
