

Elevate the power of your work.

## Our purpose

Iron Mountain protects, unlocks, and extends the value of your organization's information and assets from creation to destruction... and every step in between.

A box of financial records, a piece of artwork, or a collection of digital archives is more than just output and objects: it's your work. It's the result of the time, energy, and resources that have propelled your organization for years. And in this work lies the insight and power to continue driving your business forward.

For over 70 years, this is what Iron Mountain has protected. This is what we've stored. Transported. Defensibly destroyed. Digitized. Mitigated.

We're here to protect and elevate the power of your work – whatever it is, wherever it's located, however it's stored.

# What does Iron Mountain do?

Iron Mountain provides a suite of information lifecycle management solutions for billions of assets worldwide. We are your one strategic partner to bring paper, data, media, and physical and digital assets through secure workflows, meticulous preservation, and complex business processes.

From fine art and asset preservation to information management, data migration, and secure disposal, we provide trusted and innovative solutions that lower risk and help your organization succeed. This is what we've transformed - your work.

▲ Reduce risk

- ▲ Increase productivity
- **▲** Drive efficiency

- ▲ Enable sustainability
- ▲ Monetize assets
- ▲ Promote compliance

#### **Store**

We provide storage and logistics of records and documents, rich media, fine art, data, and inventory with over 1,400 facilities worldwide.

## Digitize

We scan physical documents, rich media, art, and even heritage sites - creating digital assets for nearly anything.

## **Automate**

We enrich information to enable insights and workflow automation, improving accuracy, speed, efficiency, innovation, and monetization.

#### Govern

We provide security, compliance, and privacy services across every stage of the information management lifecycle.

## **Dispose**

We recycle or destroy paper, electronic devices, mixed media, and plastics in a defensible and sustainable manner.

#### Serve

We listen carefully to understand your pressures, priorities, and challenges so we can provide the right solution for your needs.

# How do we partner with you?

Trusted by more than 225,000 customers, Iron Mountain is an industry leader committed to being a force for good.

Our relationship is a true partnership in which you can rely on us not only to preserve institutional knowledge and enhance efficiency, security, access, and sustainability but to make your work mean more. We offer a suite of lifecycle management solutions to meet today's complex business challenges.

  - » Commitment to continuous improvement

# Digital transformation:

### Taking the next step together

It's rare to find an organization today with 100% paper usage in the workplace, but many leaders are taking important steps to digitize their files and processes.

**Looking to accelerate your digital transformation?** Digitizing is a unique journey for every organization, but the result provides enormous benefits:

Automates administrative processes

Eliminates data silos

Enhances the end-user experience

Improves security

Provides deep analytic insights

Reduces cost

Optimizes workflows

### Iron Mountain digital transformation solutions:

- Document scanning and digital storage
- > Legacy records cleanup
- > Entertainment and media archives
- > Intelligent document processing and workflow automation

# Data & IT security:

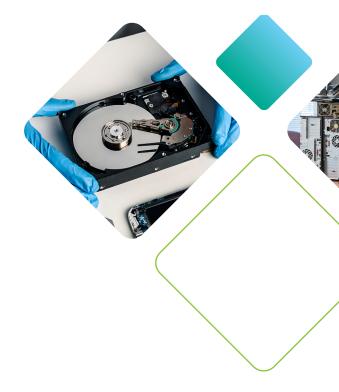

#### Lower your risk exposure

Protecting your organization's reputation has become more important than ever, and this means being aware of both internal and external risk factors such as loss or misuse of records and data, cyber attacks, and mismanagement of IT assets.

**Looking to lower your risk?** At Iron Mountain, we provide sustainable solutions designed to mitigate your risk by enabling continuity of service, securely destroying all media and IT assets, and providing expert advice related to compliant lifecycle management for data, records, and physical assets.

#### Iron Mountain data and IT security solutions:

- > Colocation data centers
- > Cloud data management
- > Secure shredding
- > IT asset lifecycle management

# Workplace evolution:

#### Optimize real estate

In response to a variety of business disruptors, organizations continue to modify how they conduct work, rethinking the use of their physical locations as they adopt hybrid working models.

**Moving or renovating your workspace?** Iron Mountain assesses your current space, manages the clean-out process, and offers practical advice on how to best manage your information and assets moving forward.

**Cleaning up your legacy records?** Commingled files, disorganized records, and boxes with incomplete information aren't just a nuisance. They're a liability that can inflate storage costs and increase litigation risks. Iron Mountain has simple solutions that allow you to make sense of what's stored in your record boxes and make quick and defensible disposition decisions.

**Navigating a challenging supply chain environment?** Forward-thinking leaders are focused on building a more agile logistics function to quickly respond to changing market conditions, while limiting the impact on the business and end customers.

#### Iron Mountain workplace evolution solutions:

- > Workplace transformation assessment
- > Records and storage management
- > Warehousing and logistics
- > IT asset lifecycle management

# Sustainability:

#### Environmentally conscious information management is possible

We strive to be your most trusted partner for protecting and unlocking the value of what matters most to you in innovative and socially responsible ways. Together, we challenge ourselves and inspire others to create innovative solutions that make a positive environmental and social impact.

Looking to meet your organization's sustainability commitments? We embrace environmental, social, and governance (ESG) principles and seek to embed them in our operations and in all the solutions we provide for our customers. From building our own global Corporate Responsibility program to developing an innovative suite of solutions that make a positive environmental and social impact, we are working to secure a sustainable future for ourselves and our customers.

We support your **sustainability goals** with:

- Innovative solutions that help you make progress on your ESG initiatives
- > Transparent sustainability reporting on our policies, processes, and progress
- > Environmental benefits reporting related to your information management program
- > Educational resources to help you respond to emerging sustainability requirements
