

Kansas City Data Center (KCM-1)

KCM-1 is an underground 50,000 ft²/3.9 MW facility on a 22-acre campus located 10 minutes southeast of downtown Kansas City, MO. The facility provides the highest levels of redundancy, security, efficiency, and connectivity, with 100% renewable power, the highest compliance standards. KCM-1 houses a range of carriers, with diverse cloud on-ramps.

“ We sought an offsite data center that could meet our stringent compliance and disaster recovery requirements. we trust iron mountain with our cloud storage and tape needs, so adding their data centers seemed a natural fit. ”

Englewood Hospital & Medical Center

Why choose KCM-1?

- > **Protection**
Extensive ultra-secure underground facility ideal for DR and storage.
- > **Compliance**
Exceptional reliability, efficiency and the industry's most comprehensive compliance program.
- > **Incentives**
Central US location ideal for network optimization, with potential cost reduction via Missouri state incentives.

Kansas City
