

# London Data Center (LON-1)

Our London data center LON-1 is located at the heart of the densely interconnected Slough data center corridor to the west of the M25. A former Credit Suisse facility it has been extensively upgraded and extended, and now offers 10,400 m<sup>2</sup> of space and 8.7 MW of power capacity distributed across six data halls. As well as providing a wide range of on-site network services, the data center is connected to the LINX exchange and has dark fiber access to hundreds of other networks, clouds and service providers.

“ IRON MOUNTAIN’s physical site security, quality of service, customer support, and heritage in managing confidential data, allows nec<sup>®</sup> to position our sap hosting solution as a new level of cloud service for sap<sup>®</sup> public sector clients. ”

NEC

## Why choose LON-1?

- > **Connectivity**  
Huge selection of carriers and cloud on-ramps in-house and via the Slough data hub.
- > **Compliance**  
The industry’s most comprehensive compliance program.
- > **Security**  
Former Credit Suisse facility with physical and logical security layers designed to meet exacting financial services standards.

# London

## Data Center (LON-1)
