

# W. Pennsylvania Data Center (WPA-1)

Located less than an hour north of Pittsburgh, Iron Mountain's West Pennsylvania WPA-1 data center is 220 feet underground in a former limestone mine. Its location ensures unbeatable levels of security and protection from manmade or natural disasters. The 330,000 ft<sup>2</sup> facility is part of a 200-acre campus with power capacity of 15.5 MW. Due its ultra-efficient design and operations the data center is a DOE Better Buildings Showcase Project, harnessing a 35-acre underground reservoir to create a geothermal cooling system which optimizes energy efficiency.

“ More than five years ago, we determined that we needed more flexibility and we got it. Today we have a data center that provides Marriott with a tremendous capability for disaster recovery, and we have a great partner in Iron Mountain. ”

Marriott

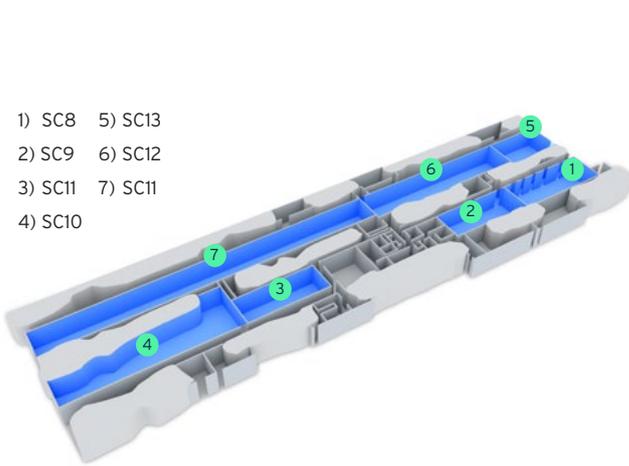

## Why choose WPA-1?

- > **Protection**  
Extensive ultra-secure underground facility ideal for DR and storage
- > **Efficiency**  
Award-winning energy-efficiency using a natural aquifer
- > **Ecosystems**  
Wide selection of carriers and cloud on-ramps for easy interconnection.

# W. Pennsylvania

## Data Center (WPA-1)

Whether you are an enterprise looking for a large deployment or a growing local company hosting a few critical cabinets, WPA-1 can provide the space, standards and power configurations you need.

- 1) SC8
- 2) SC9
- 3) SC11
- 4) SC10
- 5) SC13
- 6) SC12
- 7) SC11

### Standards

- > 30+ years of colocation excellence
- > The most comprehensive compliance program in the business
- > The only provider to comply with ISO27001 (info sec) ISO 50001 (energy) ISO14001 (environment) and ISO9001 (quality management) worldwide

### Services

- > Smart Hands
- > Migration
- > Cross Connects
- > IP Transit
- > Metro Wave
- > Peering
- > Cloud On-Ramp

### Sustainability

- > 100% green power
- > Ultra-efficient operations
- > Award-winning customer carbon credits solution

### Interconnection

- > Carrier and cloud-neutral for a thriving ecosystem
- > All major cloud providers, SDNs, CDNs, IXs and global tier 1 networks
- > Huge range of global and regional networks
- > Hundreds of ISPs and MSPs

### Quick Reference Guide for WPA-1

Campus	Data Center	Interconnection	Compliance
Butler County	330,000 ft <sup>2</sup> / 15.5 MW	Carrier-neutral	NIST 800-53
Boyers, PA	Natural cooling: aquifer	Cloud-neutral	FISMA HIGH
220-foot underground	N+1 redundancy, A/B feeds	10 available carriers	FedRAMP
200 acres	Vehicle inspection station	On-site access to Megaport®	SOC 2 Type II, SOC 3
Ultra-secure	Metal detectors, 3-factor	Metro access to AWS®, Azure®	PCI-DSS
New welcome center	120 parking spaces	WAN connectivity options	HIPAA
First Energy utility		Redundant MMRs, fiber PoE	ISO 9001, 14001, 22301, 27001, 50001

### About Iron Mountain Data Centers

Iron Mountain Data Centers operates a global colocation platform that enables customers to build tailored, sustainable, carrier and cloud-neutral data solutions. As a proud part of Iron Mountain Inc., a world leader in the secure management of data and assets trusted by 95% of the Fortune 1000, we are uniquely positioned to protect, connect and activate high-value customer data. We lead the data center industry in highly regulated compliance, environmental sustainability, physical security and business continuity. We collaborate with our 1,300+ customers in order to build and support their long-term digital transformations within our 4M+ SF global footprint spanning 3 continents.
